TOWN CLERK'S REPORT

Proceedings of a Town Meeting held
March 3, 1930

WARRANT

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, ss.

To either of the Constables of the Town of Lincoln in said
County: GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify the legal voters of said Town of Lincoln, qualified to vote in Town Meeting for the transaction of Town affairs, to meet in the Town Hall in said Lincoln on Monday, the third day of March next at 7.30 o'clock P. M., then and there to act on all of the following Articles, except Article 2, and also to meet in said Town Hall on Saturday, the 8th day of March next, at 12 o'clock Noon, then and there to act on the following Article 2, by posting a copy of this Warrant, by you attested, in each of the Post Offices and in some other public place in said Town seven days at least before the third day of March next:

The polls for voting the Australian ballot on Saturday, March 8th, will be open at 12.00 o'clock Noon, and may be closed at 6.30 o'clock P. M.

ARTICLE 1. To choose a Moderator.

ART. 2. To bring in their votes for the following Town Officers and any other Officers required by law, to be elected by Australian Ballot, viz.:

One Town Clerk for one year.

One member of the Board of Selectmen for three years.

One member of the Board of Assessors for three years.

One member of the Board of Health for three years.

One Treasurer for one year.

One Collector for one year.

One Auditor for one year.

Two Constables for one year.

One Tree Warden for one year.

One member of the Sinking and Trust Fund Commissioners for three years.

One member of the Trustees for Free Public Lectures for three years.

One member of the School Committee for three years.

One member of the Board of Water Commissioners for three years.

One member of the Board of Cemetery Commissioners for three years.

Also to vote "Yes" or "No" on the following question :

"Shall licenses be granted for the sale of non-intoxicating beverages in this Town?"

ART. 3. To bring in their votes for any committees, commissioners, trustees and other officers, required by law to be elected by ballot or otherwise.

ART. 4. To hear and act upon the reports of Town Officers, Committees, Commissioners and Trustees.

ART. 5. To appropriate money for the necessary and expedient purposes of the Town and enact anything in relation to the same.

ART. 6. To determine the manner of collecting taxes for the ensuing year.

ART. 7. To determine the compensation of the Collector of Taxes for the ensuing year.

ART. 8. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the financial year beginning January 1, 1930, and to issue a note or notes therefor, payable within one year, any debt or debts incurred under this vote to be paid from the revenue of the financial year beginning January 1, 1930.

ART. 9. To see if the Town will vote to raise and appropriate the sum of \$200.00 or some other amount and elect a director, the money to be expended by and the director to serve in co-operation with the Middlesex County Trustees for County Aid to Agriculture in the work of the Middlesex County Extension Service, under the provisions of Sections 40 to 45, Chapter 128, General Laws of Massachusetts.

ART. 10. To see if the Town will accept Section 73, Chapter 41, of the General Laws, or take any action relative thereto.

ART. 11. To see if the Town will appoint a committee to draw up a code of Building Laws for the Town or take any action relative thereto.

ART. 12. To see if the Town will create a Planning Board, or take any action relative thereto.

ART. 13. To see if the Town will instruct the Selectmen to provide a Dump for the use of the residents of the Town and will appropriate a sum not exceeding \$500 therefor.

ART. 14. To see if the Town will take any action in regard to the erection of a new school building and the location of the same, or in regard to providing additional school accommodations.

ART. 15. To see if the Town will release any interest it now has or at any time had by way of easement or otherwise in a lot of land known as "The North Lincoln School House Lot", located on the North State Road or Massa-

chusetts Avenue, so-called, and now the property of Mrs. Jennie MacDonald, or act anything in relation to this article.

ART. 16. To see if the Town will accept a certain parcel of land deeded to the Town by David Farquhar, beginning at the westerly corner of Middle and Mill Streets and running northeasterly about 175 feet, containing, say, 10,900 square feet. The deed to said land is recorded in Middlesex So. District, Book 5405, page 154.

ART. 17. To see if the Town will take any action toward extending the water pipes to the house of the late Mason Hunter, and appropriate money for the same.

ART. 18. To see if the Town will extend street lighting on the North State Road from the Concord line to the Lexington town line, and appropriate money therefor; or take any action in connection with street lighting.

ART. 19. To see if the Town will authorize the appointment of a committee of citizens to investigate and report to the Town on the possibility of establishing a Town Forest, or take any action in relation to the same.

ART. 20. To see if the Town will take any action toward the installation of a fire alarm system, appropriate any money or act anything in relation to this article.

ART. 21. To see if the Town will extend the electric street lights from Bedford Road to the Concord line on the Concord and Cambridge Turnpike and appropriate money for the same.

ART. 22. To see if the Town will accept a deed from Robert M. Pierce granting to the Town land owned by him adjoining the property received under the will of John H. Pierce, or take any other action in connection with same.

HEREOF FAIL NOT

And make due return of this WARRANT with your doings thereon to the Town Clerk at or before the time for the meeting aforesaid.

Given under our hands this 20th day of February in the year of our Lord one thousand nine hundred and thirty.

C. LEE TODD,
ROBERT D. DONALDSON,
HERBERT G. FARRAR,

Selectmen of Lincoln.

In accordance with the provisions of the foregoing Warrant the Annual Town Meeting was at the time and place specified and the following business transacted:

ARTICLE 1. George G. Tarbell was elected Moderator.

ART. 3. The following Town Officers were elected to serve for the current year:

Field Drivers.—

James Corrigan
William A. Robus
Philip H. Place

Fence Viewers.—

Elmer A. Rollins
James Corrigan
Philip H. Place

Surveyor of Lumber.—

Elmer A. Rollins

Measurers of Wood and Bark.—

Elmer A. Rollins
Charles E. Woodhull

Trustees of Grammar School Fund.—

Conrad P. Hatheway
F. Winchester Denio

ART. 4. Voted to accept the Reports of the Town Officers as printed in the Town Report.

ART. 5. Voted to adopt the recommendations of the Selectmen as to the appropriations for the ensuing year.

For Schools	\$35,500.00
“ Vocational Education	1,000.00
“ Center School Repairs	3,000.00
“ Public Welfare	2,300.00
“ Highways and Bridges	19,000.00
“ Highways a/c Maintenance of Chapter 90, Roads	1,000.00
“ Cemeteries	800.00
“ Library and Dog Tax	800.00
“ Board of Health	1,000.00
“ Tree Warden	1,000.00
“ Moth Work	500.00
“ Miscellaneous Expenses, including Police Expenses	12,000.00
“ Hydrants and other Water Service	1,980.00
“ Waltham Hospital Free Bed	400.00
“ Street Lights	2,450.00
“ Fire Department	1,200.00
“ Middlesex Extension Service	200.00
“ Town Note of 1929	15,000.00
“ Interest on Town Loans	2,100.00
“ Water Sinking Fund	825.00
“ Flagpole Committee	700.00
“ Veteran's Aid	300.00
“ Tercentenary Expense	250.00

Voted that of the money appropriated, the sum of \$825 be taken from the Water Works Treasury.

Voted that the sum of \$20,000.00 be taken from the Town Treasury.

ART. 6. Voted that the Taxes be collected in the same manner as last year.

ART. 7. Voted that the compensation of the Collector be one and one-half per cent of the amount collected.

ART. 8. Voted that the Town authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the financial year, beginning January 1, 1930, and to issue a note or notes therefor, payable within one year. Any debt or debts incurred under this vote to be paid from the revenue of the financial year, beginning January 1, 1930.

ART. 9. Voted that Hermon T. Wheeler be elected to serve and the money (\$200) appropriated for the Middlesex Extension Service be used in co-operation with the Middlesex Trustees for County aid to Agriculture under provisions of Sections 40 to 45, Chapter 128 General Laws of Massachusetts.

ART. 10. Voted that Section 73 of Chapter 41 of the General Laws be accepted.

ART. 11. Voted to pass over this Article.

ART. 12. Voted to pass over this Article.

ART. 13. Voted that the Selectmen be instructed to provide a Dump for the Citizens of the Town and that a sum, not exceeding one hundred dollars, be appropriated for that purpose.

ART. 14. Voted that all matters, relating to the erection of a new School House, the location of the same, or the providing additional school accommodation, be referred to a Committee, consisting of Mrs. Guilbert Winchell, Dr. Roland Mackenzie and E. Russell Davis, said Committee to

make a complete investigation of all matters relating to school accommodations and report the result of their investigations, together with any proposition or recommendations to the Town at a future meeting to be called to consider said report.

Voted that four members, to be appointed by the Chair, be added to this Committee.

The members appointed by the Chair are as follows: Anthony J. Doherty, Edith B. Farrar, Harry M. Condit, Jr., and Chester G. Peck.

Voted that the above Committee report at a Town Meeting to be called for a date not later than October 1, 1930.

ART. 15. Voted that the Town release any interest it now has or at any time had by way of easement or otherwise in a lot of land, known as the North Lincoln School House Lot, located on the North State Road or Massachusetts Avenue, so called, and now the property of Mrs. Jennie MacDonald.

ART. 16. Voted that the Town of Lincoln gratefully accept the parcel of land on Middle and Mill Streets, deeded to the Town by David Farquhar and that the Town Clerk be instructed to send Mr. Farquhar a copy of this vote.

In accordance with the above vote a copy has been sent to Mr. Farquhar.

ART. 17. Voted to pass over this Article.

ART. 18. Voted that this Article be laid on the table.

ART. 19. Voted that a committee, consisting of Percy P. Russ, Frederick M. Seeger, James De Normandie be elected to investigate and report to the Town on the possibility of

establishing a Town Forest, or take any action in relation to the matter.

ART. 20. Voted to pass over this Article.

ART. 21. Voted to appropriate the sum of \$350.00 to extend the Electric Street Lighting from Bedford Road to the Concord line on the Concord and Cambridge Turnpike.

ART. 22. Voted to accept the deed of Robert M. Pierce, granting to the Town, upon condition, certain land adjoining the property left to the Town under the will of the late John H. Pierce, together with the conditions and restrictions contained therein, such acceptance to take effect upon the successful termination of the proceedings now pending in court to modify the application of said will.

Voted to adjourn.

PROCEEDINGS OF THE STATE ELECTION

November 4, 1930

WARRANT

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, ss.

To any Constable in the Town of Lincoln, in said County:
GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Lincoln, duly qualified to vote in the election of State and County Officers, to assemble at Town Hall, on Tuesday, November 4th, at seven o'clock in the forenoon, to give in their votes for the following officers, viz: Governor; Lieutenant Governor; Secretary; Treasurer; Auditor; Attorney-General; Senator in Congress; Congressman; Councillor Senator; Representative in General Court; District Attorney; County Commissioners; Register of Probate and Insolvency; County Treasurer; and any other officer required by law to be chosen in the month of November of the current year.

All officers enumerated above are to be designated and voted for on one ballot, and also the following questions:

QUESTIONS

Question No. 1

PROPOSED AMENDMENT TO THE CONSTITUTION

Shall an amendment to the constitution relative to the apportionment of senatorial, representative and councillor districts, further described as follows:

The proposed amendment of the Constitution provides for the annulment of Article XXI of the Articles of Amendment of the Constitution and the substitution therefor of a new Article XXI, and for the annulment of Article XXII of the Articles of Amendment of the Constitution and the substitution therefor of a new Article XXII. The proposed amendment embodies in substance the following changes in and additions to said Articles XXI and XXII:

1. In proposed Article XXI, towns of twelve thousand inhabitants or more may be divided in forming representative districts. No precincts, however, in such towns may be divided. In taking the census the special enumeration of legal voters shall specify the number residing in each precinct of such towns. Under existing Amendment XXI no town may be divided and no specification of the number of voters in a precinct is required.

2. The division of a county into representative districts and the apportionment of representatives to districts therein is to be made by "The county commissioners or other body acting as such or, in lieu thereof, such board of special commissioners in each county as may for that purpose be provided by law, . . ." Under Article XXI as it now stands the division and apportionment is made by "The mayor and aldermen of the city of Boston, the county commissioners of other counties than Suffolk,—or in lieu of the mayor and aldermen of the city of Boston, or of the county commis-

sioners in each county other than Suffolk, such board of special commissioners in each county, to be elected by the people of the county, or of the towns therein, as may for that purpose be provided by law, . . . ” The time for assembling of such commissioners, board or body for the purpose of making such division and apportionment is also changed, from the first Tuesday of August next after each assignment by the Legislature of the number of representatives to each county, to a time within thirty days after certification by the Secretary of the Commonwealth to such commissioners, board or body of the number so assigned, or within such other period as the General Court may by law provide.

3. Under the proposed Articles, each special enumeration shall be the basis for determining the districts, senatorial, representative and councillor, for the ten-year period beginning in the fourth January following said special enumeration and the present division of districts is to remain in effect until January, 1939. Under the existing amendments the ten-year period is the period between the taking of each census. (Thus, the next redivision based upon the next census in 1935 would, under the proposed Articles, affect those elected in 1938 to hold office beginning in January, 1939, instead of affecting those elected in 1936 to hold office beginning in January, 1937. Under existing amendments representation of newly created districts begins in January of the second year after each ten-year census, whereas under the proposed Article it would begin in January of the fourth year thereafter.) The number of representatives (240), senators (40), and councillors (8) is not changed.

4. The Legislature may limit the time within which a division of representative, councillor or senatorial districts may be questioned by judicial proceedings. The existing amendments contain no provision that itself limits or authorizes the Legislature to limit such time, be approved?

Question No. 2

LAW PROPOSED BY INITIATIVE PETITION

Shall the proposed law which amends the General Laws by striking out Chapter 138, section 2A, which section provides that, "No person shall manufacture, transport by air craft, water craft or vehicle, import or export spirituous or intoxicating liquor as defined by section three, or certain non-intoxicating beverages as defined by section one, unless in each instance he shall have obtained the permit or other authority required therefor by the laws of the United States and the regulations made thereunder," be approved?

Question No. 3

LAW PROPOSED BY INITIATIVE PETITION

Shall the proposed law which amends General Laws, chapter 131, by inserting therein a new section number 59A, which in substance makes it a misdemeanor punishable by a fine of fine of fifty dollars for any person to use, set or maintain any trap or other device for the capture of fur-bearing animals which is likely to cause continued suffering to an animal caught therein and which is not designed to kill the animal at once or take it alive unhurt, except traps or other devices for protection against vermin, set or maintained within fifty yards of any building or cultivated plot of land to the use of which the presence of vermin may be detrimental, be approved?

The Polls to be opened at seven o'clock A. M., and may be closed at seven o'clock P. M., and you are directed to serve this Warrant by posting an attested copy thereof in each of the Post Offices and one of the churches, or in some other public place, seven days at least before the day appointed for said meeting, and to make seasonable return thereof with your doings thereon to the Town Clerk.

HEREOF FAIL NOT

Given unto our hands, this twenty-fifth day of October,
in the year of our Lord nineteen hundred and thirty.

C. LEE TODD,
ROBERT D. DONALDSON,
HERBERT G. FARRAR,
Selectmen of Lincoln.

A true copy attest:

JOHN J. KELLIHER,
Constable of Lincoln.

I have served this Warrant by posting an attested copy
in each of the Post Offices and one in the Railroad Station
seven days before the date of said meeting.

Signed: JOHN J. KELLIHER,
Constable.

In accordance with the provisions of the foregoing War-
rant the State Election was held in the Town Hall on the
date specified.

The Polls were declared open at 7 o'clock and closed at
7 o'clock P. M. when the Polls closed and the ballots
counted.

The result of the voting was as follows: .

Whole number of ballots cast

464

Proceedings at a Special Town Meeting
November 29, 1930

WARRANT

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, ss.

To either of the Constables of the Town of Lincoln, in said
County: GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify the legal voters of said Town of Lincoln, qualified to vote in Town Meeting for the transaction of Town affairs, to meet in the Town Hall in said Lincoln on Saturday, the twenty-ninth day of November next at eight P. M., then and there to act on all of the following Articles, by posting a copy of this WARRANT, by you attested, in each of the Post Offices and in some other public place in said Town seven days at least before the twenty-ninth day of November next:

ARTICLE 1. To choose a Moderator.

ART. 2. To see if the Town will accept a gift from Julian de Cordova of his estate in Lincoln situated on the shore of Sandy Pond, the same to be maintained by the Town of Lincoln as a public park, and also his residence located thereon, including the gallery connected therewith, to be maintained by the Town as a public museum for the art collection now housed there and for such additional articles of artistic merit as may be added thereto, or take any other action in connection with the matter.

HEREOF FAIL NOT

And make due return of this WARRANT with your doings thereon to the Town Clerk on or before the time for the meeting aforesaid.

Given unto our hands this twenty-first day of November in the year of our Lord one thousand nine hundred and thirty.

C. LEE TODD,
HERBERT G. FARRAR,
Selectmen of Lincoln.

November 22, 1930.

I have served this Warrant by posting an attested copy in each of the Post Offices and one at the Railroad Station, seven days before date of said meeting.

JOHN J. KELLIHER,
Constable.

In accordance with the provisions of the foregoing Warrant the meeting was called to order at 8 o'clock P. M. on the above date.

ARTICLE 1. George G. Tarbell was elected Moderator. Voted that the meeting stand adjourned for ten minutes.

Meeting called to order at 8:15 P. M.

ART. 2. Voted that Mr. Julian De Cordova be accorded the courtesy of the floor in order to explain the matters referred to in this Warrant as preliminary to a motion thereon.

Mr. De Cordova stated to the Town his purpose in desiring to make a gift of certain real estate and certain of its contents to be used, after his death, as a park and museum for the benefit of the inhabitants of the Town of Lincoln, and at the close of his remarks tendered to the Moderator for the town, a deed executed by him on November 29, 1930, and a certified copy of a contract with the Merchants National Bank, photographic copies of which are attached to the records of this meeting and which were read to the meeting by the Moderator.

Thereupon by motion of Mr. Todd, duly seconded, it was Voted to accept, with grateful acknowledgment of the generous benefaction, the gift from Julian De Cordova of his estate in Lincoln, situated on the shore of Sandy Pond, and also his residence located thereon, including the gallery connected therewith and the contents thereof, to be maintained as a public park and public museum in accordance with and as set out in the deed of gift, dated November 29, 1930, presented and read at this meeting, which deed of gift is hereby approved and accepted and the proper officers are hereby directed to cause the same to be recorded in the Registry of Deeds in the Southern District of Middlesex County.

Voted to adjourn.

(Attest) THOMAS L. GILES,
Town Clerk.

KNOW ALL MEN BY THESE PRESENTS

THAT I, Julian de Cordova, of Lincoln, Middlesex County, Massachusetts, do hereby give, grant, assign, transfer, set over and convey unto the Inhabitants of the Town of Lincoln, a municipal corporation organized by law and located in said Middlesex County, two certain parcels of land situated in said Lincoln and bounded and described as follows, to wit:

The first parcel containing twenty (20) acres, more or less, and beginning on the northerly side of the road leading from Lincoln Centre to Concord at a stone bound at land now or formerly of D. F. Drake, and running northerly and northwesterly on said Drake's land about fifty-five (55) rods to Sandy Pond;

Thence northeasterly by several angles on said Pond about fifty (50) rods to a stone bound at land of the heirs of Elisha Hagar;

Thence easterly on said Hagar's land about thirty-eight (38) rods to a stone bound at land formerly of Leonard W. Weston;

Thence southerly on said Weston land to a stone bound about forty-eight (48) rods;

Thence westerly on said Weston land as the wall stands, about seventeen (17) rods to a stone bound;

Thence southerly with one slight angle on said Weston land about thirty-two (32) rods to a stone bound at the road;

Thence westerly on said road about eight and one-half ($8\frac{1}{2}$) rods to the first named bound.

The second parcel beginning at the north side of the county road from Lincoln to Concord at the first parcel and running nearly east by said road, five (5) rods;

Thence running north by land formerly of Leonard W. Weston to land of the grantor ;

Thence running west by land of the grantor ;

Thence south by land of the grantor to the point of beginning, the east and west lines of said lot being parallel.

Being the same premises conveyed to me by Lowell A. Mayberry by deed dated March 7, 1913 and recorded with Middlesex South District Deeds, Book 3775, Page 38.

Also all my pictures, engravings, etchings, bric-a-brac, coins, curios and tapestries, and certain rugs which have been marked for identification, curtains, Japanese and Chinese crockery, and all the carved furniture contained in the buildings on said premises.

TO HAVE AND TO HOLD the same to the said Inhabitants of the Town of Lincoln, its successors and assigns, saving and reserving to me, the said Julian de Cordova, an estate in the premises and each and every part thereof for and during the term of my natural life without impeachment on my part for waste or any manner thereof whether equitable, voluntary, permissive or otherwise, and by whomsoever committed or suffered, and on the express agreement that I shall never at any time be called upon or required to furnish any security or surety that the above-mentioned personal property, or any part thereof, shall be forthcoming at the time of my death, to the use and behoof of the said Inhabitants of the Town of Lincoln, its successors and assigns, upon trust after my death to maintain said land as a public park for the benefit of the inhabitants of the Town of Lincoln in perpetuity, and the residence and art gallery, and any buildings erected in substitution and addition thereto, to maintain in perpetuity as a public museum under the name of "The de Cordova and Dana Museum" in memory of myself and my wife for the benefit of the inhabitants of the Town of Lincoln, and never to be subject to sale and/or

conversion of any kind whatsoever except as follows: That new buildings may be added or substituted for those now on the premises and the objects of art, or any part of them, contained in said museum are solely to be disposed of with the approval of an expert selected by the Director of the Museum of Fine Arts of Boston, Massachusetts, or the officer or Board for the time being exercising similar authority thereto.

And I, the said Julian de Cordova, for myself, my heirs, executors and administrators, covenant with the said Inhabitants of the Town of Lincoln, its successors and assigns, that I will promptly discharge all ordinary taxes levied upon the premises as and when the same become due, but this covenant shall not in any way bar me from taking any proceedings to contest the validity of any tax or to secure any abatement of the same whenever I deem the same to be improper or excessive.

IN WITNESS WHEREOF, I, the said Julian de Cordova, being unmarried, hereunto set my hand and seal this 29 day of November, A. D., 1930.

(Signed) JULIAN DE CORDOVA [Seal]

COMMONWEALTH OF MASSACHUSETTS

Suffolk ss.

November 29, 1930.

Then personally appeared the above-named Julian de Cordova and acknowledged the foregoing instrument, by him subscribed, to be his free act and deed, before me,

Board of Selectmen

Town of Lincoln

Massachusetts

Dear Sirs:

We hereby certify that the document hereto attached is a true copy of the Agreement entered into by and between Julian deCordova of Lincoln, Massachusetts, and The Merchants National Bank of Boston, under date of November 29, 1930, and that The Merchants National Bank of Boston holds the securities described on Schedule A of said Agreement.

Truly yours,

(Signed) E. F. MESSINGER.

Trust Officer

EFM:FAN

Enc.

WHEREAS Julian de Cordova, a citizen of the Town of Lincoln, is about to tender to the Town of Lincoln a deed to it of certain real estate and certain of the contents thereof, dated November 29, 1930, to be maintained after his decease as a park and museum, which deed is to be tendered to the

town at a special meeting of the inhabitants, to be held November 29, 1930, and

WHEREAS said de Cordova desires, as an inducement to the acceptance of said deed by the town, to make certain further financial provisions for the benefit of the town for the upkeep, maintenance and improvement of said park and museum, and

WHEREAS The Merchants National Bank of Boston (hereinafter called the "Depository") is willing to act as custodian of this agreement and is willing to carry out the provisions hereof to be carried out by the "Depository" as hereinafter contained, and

WHEREAS this instrument is to be null and void if the town does not accept said deed at said meeting,

NOW, THEREFORE, this indenture witnesseth the following covenants and statements on the part of said de Cordova and the Depository made to and with each other and to the Town of Lincoln:

FIRST—The said de Cordova and said Depository represent to and covenant with the Town of Lincoln that said de Cordova has deposited with the Depository the securities in negotiable form described in the attached Schedule A, aggregating a present market value of approximately Two Hundred and Fifty Thousand Dollars (\$250,000), from the proceeds of which if the said Town of Lincoln accept said deed at said meeting and (1) it shall be judicially determined that at the time of the decease of said de Cordova he has left no will, or (2) leaving a will, such will does not provide for a legacy outright or in trust of One Hundred and Fifty Thousand Dollars (\$150,000) to or for the benefit of the Town of Lincoln for the upkeep, maintenance and improvement of the deeded premises as a park and museum and which does not contain in addition a further substantial provision for the Town of Lincoln which, subject to such reasonable discretions as he may interpose, allows the income

of such further legacy or trust to be used in case of need for the upkeep, maintenance or improvement of said park or museum, or (3) leaving a will which does contain both such provisions, the estate of said de Cordova is insufficient to meet them both, then in any one of the three events, the Depositary (unless restrained by decree of a court of competent jurisdiction) will dispose of the securities deposited or any that may be substituted therefor or sufficient thereof to pay, and shall so pay, to the Town of Lincoln from the proceeds thereof the sum of Two Hundred Thousand Dollars (\$200,000) and from the decease of the said de Cordova until such payment, shall pay the income of said deposited or substituted securities to said Town of Lincoln. Any balance remaining shall be paid to the estate of said de Cordova. The then selectmen of the Town of Lincoln shall be the sole judges as to whether the further provisions referred to in this and the next paragraph are "substantial."

SECOND—If and when the Town of Lincoln or a trustee for its benefit shall have received from the executor of the will or administrator with the will annexed of said de Cordova the sum of One Hundred and Fifty Thousand Dollars (\$150,000) for the upkeep, maintenance and improvement of said park and museum and said will contains a provision for and the estate is sufficient to provide the further substantial provisions for the town above referred to, then the Depositary is to transfer, assign and set over the deposited securities or substituted securities to the estate of said de Cordova.

THIRD—The said de Cordova may at any time or from time to time substitute in whole or in part other marketable income-bearing securities for the securities then held, provided the Depositary shall be of the opinion that the substituted securities are of at least equal value to the then market value of the securities surrendered, provided, however, that at any time when the securities held hereunder by the Depositary shall in its opinion have a then market value in excess

of Two Hundred and Fifty Thousand Dollars (\$250,000) and the said de Cordova shall request, the Depositary shall deliver to said de Cordova such securities as he may request as will not reduce the then aggregate market value of the remaining securities to an amount less than Two Hundred and Fifty Thousand Dollars (\$250,000). The decision of the Depositary on market values shall be final.

FOURTH—The said de Cordova covenants that at any time when the market value of the securities held by the Depositary hereunder shall in the opinion of the Depositary fall below Two Hundred Thousand Dollars (\$200,000), he will and his executors, administrators and assigns shall on the request of the Depositary, add such further marketable income-bearing securities to be held under the provisions hereof as will in the opinion of the Depositary restore the aggregate market value to an amount not less than Two Hundred and Fifty Thousand Dollars (\$250,000).

FIFTH—The said de Cordova shall be entitled to receive the income, including stock dividends, rights and profits from the securities held by the Depositary hereunder during his lifetime, after deducting from said income, taxes and expenses, if any, and reasonable compensation to the Depositary.

SIXTH—This instrument shall bind the said de Cordova and his executors, administrators and assigns and the Depositary and its successors and assigns.

SEVENTH—This instrument shall constitute an irrevocable offer to the Town of Lincoln which will be binding upon the said de Cordova and his executors, administrators and assigns, the Depositary and its successors and assigns, and the Town of Lincoln and its successors upon the acceptance by the Town of Lincoln at the town meeting to be held on November 29, 1930, of the deed referred to in the preamble hereof.

EIGHTH—If the Town of Lincoln does not so accept, this instrument shall be null and void and the deposited securities shall be returned by the Depositary to the said de Cordova.

In witness whereof the said Julian de Cordova has hereunto set his hand and seal and the said The Merchants National Bank of Boston has caused these presents to be executed by its proper officer or officers and its corporate seal to be affixed this 29th day of November 1930.

Woodworth, Lewis W.,	So. Lincoln	Farmer

REPORT OF THE SELECTMEN

The Selectmen present the following report for the fiscal year ending December 31, 1930.

The Board was organized by the choice of C. L. Todd, Chairman, and R. D. Donaldson, Secretary.

APPOINTMENTS

The following appointments have been made during the year:

Sealer of Weights and Measures, John J. Kelliher.

Forest Warden and Moth Superintendent, John J. Kelliher.

Weigher of Coal, Hay and other Commodities, Elmer A. Rollins.

Inspector of Animals, John F. Farrar.

Janitor of Public Buildings and Caretaker of Public Grounds, Edward Graff.

Special Police, Herbert G. Farrar, Henry Warner, Andrew J. Dougherty, Jr., Daniel Ryan, M. H. Doherty.

District Nurse Committee, Robert D. Donaldson.

Inspector of Slaughtering, J. J. Kelliher.

Fire Engineers, M. H. Doherty, Thomas Dee, J. J. Kelliher, H. G. Farrar, A. J. Dougherty, H. S. Cousins, Sumner Smith.

Registrar, for three years, Ernest H. MacFarland.

Board of Survey, R. D. Donaldson.

The following table gives the appropriations made by the Town during the year 1930 and the appropriations recommended by the Board to be made at the next Annual Meeting:

	Appropriations for 1930	The Selectmen recommend the following appropriations for the ensuing year
For Schools	\$35,500	\$37,500
Vocational Education	1,000	1,200
Public Welfare	2,300	1,600
Highways and Bridges	19,000	19,500
Highways a/c Maintenance of Chap- ter 90, Roads	1,000	1,000
Cemeteries	800	800
Library and Dog Tax	800	1,000
Board of Health	1,000	2,000
Tree Warden	1,000	1,000
Moth Work	500	500
Miscellaneous Expenses	12,000	1,800
Hydrants and other Water Service	1,980	1,980
Waltham Hospital Free Bed	400	400
Street Lights	2,450	2,800
Fire Department	1,200	1,200
Middlesex Extension Service	200	25
Interest on Town Loans	2,100	2,100
Water Works	O	9,635
Veteran's Aid	300	300
Police Dept.	O	2,000
Town Hall, Expense a/c	O	1,850
Town Officers' Salary a/c	O	3,050

The appropriations for 1931 are recommended this year "without receipts" as the State auditing department has advised that all money to be spent by the different departments must be appropriated in full. This procedure, in the end, is as broad as it is long insofar as it effects our taxes, but it is much more complicated from a bookkeeping standpoint, and also there is a greater chance of making an error. Take, for example, the Board of Health account; heretofore we have appropriated, say, \$1,000. and receipts. We knew that the receipts would be about \$1,000. and that the Board of Health expected to spend, say, \$2,000: therefore, it follows that previously we needed to appropriate \$1,000. only, whereas now we must reckon the approximate receipts and include them in our appropriation. The Assessors, in figuring out the tax rate, must take into consideration the estimated receipts to be paid into the treasury by the several departments.

We recommend that the appropriation of \$19,500. for the Highway a/c be expended as follows:

\$15,000. for general highway work. Of this amount we think \$1,000. will be paid back to the Town for local work;

\$1,200. to be used in conjunction with the State and County, each appropriating an additional \$1,200., to widen and make over a short portion of the road on the Lincoln side of Adams Bridge, in accordance with a plan submitted by the County Commissioners;

\$3,300. to be expended to continue widening and remaking the Bedford road, beginning at a point completed on this road by the Town last year and going as far as the appropriation will allow. Some money has already been spent on preliminary work on this piece of road.

We wish to bring to the attention of the voters that the Treasurer reports a balance at the end of the year of

\$9,553.28 and the Collector of Taxes reports an uncollected tax of \$12,748.47, a total of \$22,301.75. Out of this must be paid a note of the Town of \$20,000.00 leaving an unexpended balance of \$2,301.75. Lincoln received from the State a/c Income taxes in 1929, \$9,892.00, in 1930, \$9,120.00, and in 1931 we are told that the amount which the Town will receive from the State will be materially reduced. It would seem, therefore, that we must be as careful as possible in making our appropriations.

As a matter of record, we report the town lines of Concord, Lexington and Bedford as having been perambulated and the bounds found to be intact.

The Selectmen have received and include in their report the report of The Department of Corporations and Taxation, Division of Accounts, who have audited the accounts of the Town of Lincoln from January 1, 1929, to October 2, 1930.

January 12, 1931.

To the Board of Selectmen:

Mr. C. Lee Todd, Chairman,
Lincoln, Massachusetts.

Gentlemen:

I submit herewith my report of an audit of the account of the Town of Lincoln for the period from January 1, 1929, to October 2, 1930, made in accordance with the provisions of Chapter 44 of the General Laws. This report is in the form of a report made to me by Mr. Edward H. Fenton, Chief Accountant of this Division.

Very truly yours,

THEODORE N. WADDELL,
Director of Accounts

Commonwealth of Massachusetts,
State House, Boston.

Mr. Theodore N. Waddell,

Director of Accounts,

Department of Corporations and Taxation,
State House, Boston.

Sir :

As directed by you I have made an audit of the books and accounts of the Town of Lincoln for the period from January 1, 1929, to October 2, 1930, and submit the following report thereon :

The financial transactions of the town, as recorded on the books of the several departments receiving or disbursing money for the town, were examined and verified.

The books and accounts of the town treasurer were examined and checked in detail. The recorded receipts were checked with such records as were available in the several departments collecting money for the town and with the other sources from which money was paid into the town treasury.

The payments made on order of the selectmen authorizing the disbursement of town funds were checked with such orders, and the payments made without orders were verified.

The cash book was footed throughout for the period covered by the audit, and the cash balance was verified by a reconciliation of the bank account with a statement furnished by the bank and by an actual count of the cash on hand.

The appropriations voted by the Town were listed from the town clerk's records of town meetings, and a comparison was made with the aggregate amount chargeable against each appropriation.

In checking the records of appropriation votes, it was noted that several departments have been voted the use of receipts in addition to the sums appropriated for their use. This practice is, in my opinion, contrary to the provisions of

Section 53, Chapter 44, General Laws, which reads as follows:

All moneys received by any town officer or department, except as otherwise provided by special acts and except fees provided for by statute, shall be paid by such officer or department upon their receipt into the town treasury. Any sums so paid into the town treasury shall not later be used by such officer or department without a specific appropriation thereof, except that sums allotted to towns for highway purposes by the commonwealth or a county, which shall be used only for the purposes specified by the officials making the allotment or to meet temporary loans issued in anticipation of such allotment as provided in sections six or six A, shall be available therefor without any appropriation.

I would therefore again recommend that, in the future, all appropriations be made for the full amount to be expended by each department, and that the receipts be estimated by the assessors in fixing the tax rate, as provided in Section 23, Chapter 59, General Laws.

I wish also to repeat the recommendation contained in the previous audit report, that separate appropriations be made for the salaries and expenses of the various officers, town hall maintenance, election expenses, care of public buildings, and police expenses; and that only a small appropriation be made for the miscellaneous account to cover items which cannot be properly charged against some department.

It was noted that the practice of paying over to the treasurer of the library trustees the appropriation voted by the Town for library purposes still continues, although the illegality of such practice was called to the attention of the officials in the report of the previous audit. Attention is therefore again called to Section 35, Chapter 41, General

Laws, as amended by Section 1, Chapter 65, Acts of 1926, which reads as follows:

The town treasurer shall give bond annually for the faithful performance of his duties in a form approved by the commissioner of corporations and taxation and in such sum, not less than the amount established by the said commissioner, as shall be fixed by the selectmen or mayor and aldermen, shall receive and take charge of all money belonging to the Town, and pay over and account for the same according to the order of the Town or of its authorized officers. No other person shall pay any bill of any department. He shall have the authority given to an auditor by section fifty-one; and shall annually render a true account of all his receipts and disbursements and a report of his official acts.

Attention is also called to Section 52, Chapter 41, General Laws, which reads, in part, as follows:

. . . The auditor or officer having similar duties in cities, and the selectmen in towns, shall approve the payment of all bills or pay rolls of all departments before they are paid by the treasurer, and may disallow and refuse to approve for payment, in whole or in part, any claim as fraudulent, unlawful or excessive; and in that case the auditor or officer having similar duties, or the selectmen, shall file with the city or town treasurer a written statement of the reasons for the refusal; and the treasurer shall not pay any claim or bill so disallowed. . . .

It was noted that an appropriation has been voted each year for the payment of temporary loans borrowed in anticipation of the revenue of the previous year and unpaid at the end of that year. This practice should be discontinued, as these loans were issued in anticipation of the revenue of the financial year in which the debt was incurred and was ex-

pressly made payable from such revenue by the vote authorizing the loan. Therefore an appropriation to pay such loans from the revenue of the following year is contrary to the provisions of Section 4, Chapter 44, General Laws.

It was noted that appropriations have been voted to be taken from funds in the treasury when there was no free cash available to meet such appropriation. For example, at the annual town meeting of 1930 it was voted to take \$20,000 from funds in the town treasury to apply on the appropriations voted at the meeting, although there was not free cash of this amount available at the time the vote was passed. As a result there was a revenue deficit on October 2, 1930, of \$5,940.74, as shown by the balance sheet appended to this report.

It was found that abatements have been granted on the levy of 1925 of \$299.22 in excess of the overlay for that year. This amount should be raised by the assessors in accordance with the provisions of Section 23, Chapter 59, General Laws.

As was the case at the time of the previous audit, apparently no record has been kept of the condition of the overlay accounts, which should be done in order that the latter part of Section 25, Chapter 59, General Laws may be complied with.

The books and accounts of the tax collector were examined and checked in detail. The commitments were reconciled with the assessors' warrants, the recorded collections were verified by a comparison with the treasurer's books and by an actual count of the cash on hand, the abatements were checked with the assessors' records of abatements granted, and the outstanding accounts were listed and reconciled.

The outstanding accounts were further verified by mailing notices to a number of persons whose names appeared on the books as owing money to the Town, and from the replies received it appears that the accounts, as listed, are correct.

The town clerk's records of receipts from dog and sporting licenses issued for the county and the State, respectively,

were examined, and the payments to the county and State were verified by the receipts on file.

The books and accounts of the treasurer of the library trustees were examined and checked, the cash book being footed and the cash balance verified. It was again found that the receipted vouchers had been destroyed at the end of the year, and it was therefore impossible to verify the expenditures for the year 1929 from this source. I would therefore again recommend that all payments from the appropriation voted by the town be made through the town treasury upon warrant or order approved by the selectmen, and that the original vouchers be retained for all payments made by the treasurer of the trustees from the income from trust funds.

The accounts of the water department covering charges for water rates, etc., were examined and checked, the receipts were verified by a comparison with the treasurer's books, and the outstanding accounts were listed: In order to do this it was necessary to analyze each card covering a particular service. The collector keeps the card records of services, and each year charges each customer the same amount as the previous year unless advised otherwise. No records were available in the water department to verify the total amount of the commitment. The cards should be kept by the water department and a detailed list of the various charges should be committed to the collector. When it is found necessary to abate a charge, a statement relative to the abatement should be given to the collector and a record kept in the department.

It was also noted that no appropriations have been voted for the water department as required by Section 2, Chapter 396, Acts of 1928.

At the present time there are a large number of outstanding accounts in the water department which are over a year old,— in some cases running back for several years. A determined effort should be made to collect these accounts

wherever it is possible to do so. Sections 42, A, B, C, D, E and F, Chapter 40, General Laws, were accepted at the town meeting of March 7, 1925, and these sections provide the Town with methods sufficient to collect these outstanding accounts after the necessary conditions have been complied with. Nothing appears to have been done, however, up to the present time to enforce collections, but as the Town has, as stated, accepted these sections, it would appear to be obligatory on the part of the water commissioners to carry out the vote of the Town.

The securities representing the investments of the water sinking funds were personally examined, the income was proved, and the funds of the various securities were found to be as recorded. It was not possible, however, to verify the cash in this fund, as it was included with funds belonging to the banking concern with which one of the commissioners is connected.

The securities representing the investments of the trust funds belonging to the Town were also examined, the income was proved, and the disbursements were verified wherever possible. It was not possible to verify the cash in most of these funds held by the commissioners of trust funds, as it was included with funds belonging to the banking concern with which one of the commissioners is connected.

In the report of the previous audit attention was called to the fact that a number of the securities in which the funds were invested were not legal investments for such funds. These securities, however, have not been changed, a large number of them being securities which are not legal investments for savings banks, as required by Section 54, Chapter 44, General Laws, which reads as follows:

Trust funds, including cemetery perpetual care funds, unless otherwise provided or directed by the donor

thereof, shall be placed at interest in savings banks, trust companies incorporated under the laws of the commonwealth, or national banks, or invested by cities and towns in securities which are legal investments for savings banks.

The securities of the trust funds are deposited at the office of the banking concern with which a member of the commissioners is connected, and it recommended that the securities be placed in the custody of the town treasurer as required by Section 46, Chapter 41, General Laws.

It is recommended that the treasurer of the sinking funds and the town treasurer, as treasurer of the trust funds, be bonded as required by Sections 44 and 46, Chapter 41, General Laws.

In addition to the departments and accounts mentioned, the records (where they were available) of all other departments receiving money for the Town were examined and verified.

The surety bonds of the tax collector and treasurer were examined and found to be in proper form.

Attention is again called to Section 13, Chapter 41, General Laws, which requires that the town clerk shall give bond for the faithful performance of his duties.

Appended to this report are tables showing a reconciliation of the treasurer's cash, summaries of the tax accounts and the trust and sinking fund transactions, together with a balance sheet showing the financial condition of the Town as of October 2, 1930.

For the courtesies extended and the assistance rendered during the process of the audit by the various town officials,

I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

EDW. H. FENTON,
Chief Accountant.

C. LEE TODD
ROBERT D. DONALDSON
HERBERT G. FARRAR

Selectmen.

REPORT OF SPECIAL COMMITTEE ON MATTERS PERTAINING TO THE LINCOLN SCHOOLS AND SCHOOL HOUSE ACCOMMODATIONS

The vote of the Town authorizing this Committee requests a report as to the housing needs of the Public Schools of the Town and obviously implies that not only the present needs should be considered but that those of the near future should also be outlined as far as possible. Your Committee felt that to arrive at conclusions it was necessary for them to familiarize themselves with modern educational methods and trends. They have also thought it necessary to compare the facilities and methods in vogue here in Lincoln with those in other similar communities in this state and elsewhere. They have recognized that our country is committed to Universal Education which beyond question means that it is incumbent upon each and every Community to provide the best that it can afford with an equal opportunity for all, rich or poor. Depending on the success of these provisions rests the type and character of the future citizenry of the country. The inferred responsibility is an equal one for each citizen of the Town whether a parent or not. After studying the various phases of the question and coming to certain seemingly logical conclusions themselves, they further engaged an outsider, an expert in just such things and whose viewpoint was entirely unbiased, to come in and make a similar study and give them the benefit of his study. Because all our conclusions so nearly coincide, it seems proper to give them to the Town as the result of our survey.

Inasmuch as many of the citizens of the Town may not be familiar with the physical aspects of the School system as it exists today, it seems wise to outline them briefly.

The Town maintains two schoolhouses:—the two-room wooden school in the south part of the Town which is over 38 years old and which houses grades 1 and 2; and the more modern brick school in the Centre which is 21 years old and houses grades 3 to 9 inclusive. The three upper grades or Senior High school pupils are sent out of Town to school; either to Concord or Waltham and occasionally to other Towns. Those who wish vocational training go to the special schools provided for this in Waltham, Boston, or Newton. The Centre and South are approximately $1\frac{1}{2}$ miles apart; the Centre School being situated at about the geographical center of the Town.

Last year there were 52 pupils in the South School; 176 in the Centre School and 46 attended High School out of Town. Of these latter only 5 attended vocational school.

The teaching staff consists of a superintendent, and 9 full time teachers, and two part time teachers in manual training and music. The morale of the teaching staff is excellent, and the average capability from Superintendent down seems high for towns of our size. The salaries seem to be reasonably sufficient to attract capable teachers of the right type, and the yearly turnover is not excessive. All teachers are of Normal School or College grade.

Approximately 76% of the pupils are transported to and from school, the cost last year for which was \$5,162.00. This is about the average yearly cost for the last ten years.

The Town pays tuition for the Senior High school pupils at the annual rate of \$125.00 per pupil in Concord, and \$100.00 in Waltham. \$5,978.43 was paid for tuition alone last year and in addition \$2,252.70 was paid for the transportation of High school pupils; this latter sum was repaid by the State. The Town is also reimbursed for one-half the tuition of vocational school students.

There is an individual class room for each grade and no grade has more than 36 pupils thus allowing for much more

individual work than is usual in some schools. No kindergarten is maintained.

We are committed to the so-called 6-3-3 plan which means in substance 6 years elementary, 3 years Junior High, and 3 years Senior High. This is in contrast to the old and fast becoming obsolete 8-4 system, i.e., 8 years Grammar school and 4 years High school. At the present time over 50% of the school children of this State have the advantage of Junior High system and each year the number is increasing. Progressive educators, while not unanimous, in the majority believe this the proper system.

With this necessarily brief description of our school system in mind, let us consider those things which seem to be in need of correction as far as the Committee can judge from criticisms overheard and from their own studies. No attempt is made to enumerate these in such an order as might aim to accentuate their relative importance.

We first call attention to certain conditions existing in the Centre School and their relation to a modern system of education. This school was built and equipped 21 years ago when the needs of the Town were much less than at present. Six good class rooms were provided, and also a superintendent's or principal's office, a teachers' room, a small room on the second floor for domestic science, and two basement rooms for playrooms. Seven grades are now housed in a building originally planned for six; the playrooms have been utilized for manual training and cooking and the teachers' room has become a combination teachers', nurse's, emergency, and clinic room. The extra class has been for several years temporarily housed in the small room located on the second floor originally designed to be used as a domestic science room and which is inadequately lighted and ventilated for use of more than fifteen pupils.

Meanwhile, in this 21 years, educational methods have progressed very fast and, with a recognition of the fact that

the child at the age of adolescence has varying needs and tendencies that need to be encouraged, taken advantage of, or corrected, as the case may be, new methods have been developed. Among these is the Junior High idea which aims to give the child enough latitude to gradually develop his individual traits in a way that will help him along further and faster on his educational path and also help him to find himself, and develop his possibilities. It aims to provide a gradual effective and natural transition period between the elementary schools and the more specialized High School, giving the pupil a chance to get a general insight of many things. This Junior High idea has been adopted in Lincoln and is definitely in the line of progress. It is now well beyond the experimental stage and its results have and do justify its continuance. However, it is obvious that the Committee, Superintendents, and teachers who have been intrusted with carrying out this plan have been seriously handicapped by not having the physical equipment in the Centre School to properly do so. Different School Committees and Superintendents have at various times called to the attention of the Town the lack of these essentials. Your Committee desires to re-emphasize the importance of providing these facilities if our schools are to compare favorably with the modern progressive standards of other towns. Great credit is due those in charge of our schools that the quality of the offering to the pupils has been kept up under existing conditions.

Particularly to be noted is the inadequacy of facilities for both indoor and outdoor physical education. Today this not only stresses physical development and hygiene but develops such attributes as cooperation, control of the emotions, fair play, loyalty, quick thinking, etc. As Prof. Dudley, our consultant, has remarked in his report:—"classroom preaching about these qualities is no substitute for their actual development."

Every critical visitor to our schools notices at once that nowhere in our school buildings is a place where the whole school can be gathered in one room. This makes it impossible to take advantage of the educational value of dramatics, many lectures, movies, entertainments, etc. Very recently a lecturer who had a message for the whole school was forced to repeat his talk three times before all the pupils could be reached. In order to accomplish this it was necessary to crowd three grades at a time into the largest classroom on the second floor of the Centre School. As this room has only one door used as both entrance and exit, the aversion to using it for such purposes can be readily understood. An Assembly Hall has been recognized as a need practically from the day the school was built.

In 1917 Mr. Benner, then Superintendent, says in his annual report: "We are a disunited school unit, and the chief reason is that we have no place to assemble as a school. We badly are in need of an Assembly Hall."

In 1918 Mr. Morss, Superintendent, says in his report: "We have no place to assemble our school."

In 1924 Mr. Love, Superintendent, says: "If the Town wants to go forward, a building program to improve the Junior High School must be considered and an auditorium, a gymnasium, a library, a laboratory for general science and adequate recitation room provided."

In 1922 a committee similar to the present one was appointed by the Town that consisted of Messrs. Peck, Tarbell, Doherty, Todd, and Dee, and Mrs. Farrar, and in their report state that "if an addition to the Centre School were to be authorized, proper provision should be made for a general assembly room."

Our committee must add their testimony to those of the past and stress their belief that the need of an assembly room is even greater now than then.

Departmental teaching, supervised study, and reference work, all essentials in the Junior High plan, have suffered from the lack of needed equipment. No room is set aside for study; studying must therefore be done in a room where another class is reciting. The reference and library room in the present school consists of a table and two chairs in the second floor corridor and is entirely insufficient. At the age of adolescence it is important that the child be shown and be duly impressed with the proper ways of finding facts for himself by thinking problems thru in a logical way aided by the use of books. This need should be remedied.

Science is today taught not only by text books but by observing things as they actually take place before the eyes. Every modern Junior High school today has laboratory facilities that, while not pretentious or expensive, usually include an aquarium, a plant box, an experiment table, and a cabinet for exhibits. In our Junior High School no such equipment is available.

As to the practical arts, a modern course for boys now includes much more than the wood-work of the old manual-training days and facilities are necessary to allow a boy who has a good idea to carry it thru from the drawing to the finished article. Our present equipment provides for but little more than this "manual training" of early days.

Practical arts for girls also includes today not only cooking and sewing but also home management, decoration, etc. The equipment varies much but is not usually expensive. Our present equipment consists of the stoves and cooking utensils in the basement and one solitary sewing machine in the sixth grade room.

Because of the fact that but few of the children have opportunity to go home to lunch, it is necessary for most of them to carry food to school which they must now eat in the classrooms. The facilities for preparing hot food, which many of the children need, are too limited. The present

arrangement is one that is severely condemned by both educators and hygienists; it has been noted by previous superintendents in their reports and is a situation that we believe should now be relieved.

From the viewpoint of the child who has reached the Junior High age we find there are many things missing which he finds his cousins in neighboring communities have to stimulate them in their work. The result seems to be that neither child nor parent have the pride in our school system that should prevail. The child is dissatisfied and fails to get the inspiration due him and the parent recognizing the failure blames the school, or the teacher, or the superintendent, little realizing that he, himself, has been at fault in not providing the surroundings necessary to stimulate the desired reactions.

The South School, as we have already pointed out, is a wooden building of an age that makes it increasingly a burden to keep in repair. To make only those repairs which would make it safe and healthy for those using it would require approximately \$1500. This building was closed for a considerable period and its reopening in 1921 was considered only as a temporary measure until increased facilities were available at the Centre School (See School Rept. 1921). Three years later the then Superintendent, Mr. Love, in his report says: "As it stands now, the present South Building is wasteful." Some of the shortcomings of this building are so obvious that hardly a glance at them is necessary to be convinced of their seriousness. Although only a two-room schoolhouse it requires two heaters. Much of the time there is water in the cellar. The toilets are of the open type and in the open cellar, necessitating a considerable effort to keep them in a clean and sanitary condition. There is no suitable room for the teachers. From the point of view of fire protection, the building can only be tolerated on the excuse that the class rooms are on one floor and there are two exits.

Since artificial lighting is missing, the children are handicapped on cloudy days.

There are to be sure, advantages which this school possesses: such as the segregation of the first two grades and the separate playfield for them, and its nearness to one of the more populous areas of the Town. But the committee does not believe these are sufficient to warrant continuing indefinitely the use of this building. The possession of the property by the Town is contingent upon its use for school purposes and if the Town continues to grow it might be used as a site for a future new school serving that portion of the Town although the lot is smaller than is recommended today for school purposes.

While, strictly speaking, it was not within the province of this committee to go into other than the housing needs of our school system, we feel that there is one need that should be brought to the attention of the Town; namely, the employment of another teacher whose principal duties would be supervision of physical education and who probably might take some Junior High subject.

It was necessary, therefore, for your committee to attempt to find some arrangement that will remedy these conditions at reasonable cost. Any plan adopted should be farseeing enough to take into consideration the needs of the Town for several years to come. The unanimous opinion seems to be that the Town will increase in population. One has only to witness the rapidity with which neighboring towns and cities have increased in population to see what the possibilities are right here in Lincoln. Lexington, for instance, with a 47% increase in population in 10 years has found it necessary to launch a school building program to cover the next three years. Wellesley, also 17 miles from Boston, has increased 50% and is trying to catch up in housing her school population. As nearly as we can ascertain, our probable growth in school population in the next ten years, if we continue to

grow only as we have in the past ten, will be 25.6% or in other words; where our total school enrollment in all grades (1 to 12) was 274 in 1929, we at least can expect 345 in 1939. It is for this number at least that we should make our plans. These figures seem all the more conservative if we consider that in the past 6 years only, there have been 69 new dwellings added to the taxable property in town.

Still another phase to be considered in planning for the future of our school system is our present and probable future financial position. While our committee does not pretend to qualify as experts in such matters, there are several facts which are apparent to us all: (1) Our Town is practically out of debt at the present time. (2) Our tax rate has been kept low. (3) There is in prospect, except for school needs, no call for any large expenditures. (4) For ten years past the average yearly increase in taxable property has been about \$90,000 and this seems likely to continue. When our present situation is contrasted with the situation that existed when the money was borrowed to build the present Centre School, our condition seems a very favorable one; then we had a bonded debt of \$85,500 for our Water system, which now has been very nearly liquidated. Furthermore our highway building program is sufficiently complete so that no large outlay should be necessary for new construction for some time. Incidentally, to get the proper perspective as to where schools should come in our plans for the future the comparison of the total amounts spent in Lincoln in the past ten years for both Highways and Schools is important; they are:—for Highways, \$386,964.94; for School, \$309,498.85. The inference would seem to be that the condition of the Town is such that next in order is a reasonable outlay to improve our school system.

What are the solutions to the problem that have been proposed or suggested and what are the relative merits and demerits of each?

- Plan 1. Suggests (a) adding to the Centre School so as to accommodate all of the first 9 grades in one building and furnishing an assembly hall-gymnasium, or (b) adding to furnish only those things needed in the Junior High Program and repairing South School.
- Plan 2. Suggests discontinuing grade 9 in the Centre School and sending it to either Concord or Waltham; repairing the South School and then continuing as in the past.
- Plan 3. Suggests building a new unit near present Centre School to be used as a Junior High School; to discontinue the South School and to move grades 1 and 2 in to the present Centre School.

Plan 1. This idea of an addition to the present Centre School Building to provide either the needed accommodations for the grades already there, i.e., assembly-gymnasium, lunch room; classroom for Grade 9; or its alternative of providing these same necessities and also additional class rooms to look after grades 1 and 2, so that the South School might be closed, was gone into fully by the Committee. As the plan seemed at first a logical one, we even went so far as to allow the firm of architects who planned the original building to draw sketches showing the way in which an addition of sufficient size could be made; and we also consulted another architect, experienced in school planning for his opinion of the possibilities in this respect. The unanimous opinion of the Committee and of the architects as well as of our consultant, Prof. Dudley, was that such an addition would be impractical:—(1) it would create a building, the size and appearance of which would be entirely out of place in our Town even though architecturally it might be made to conform; (2) it would result in much lost space such as unusually long corridors; (3) it would result in tearing out much of the present school with the expense in the end

equaling if not exceeding that of a new unit. The only economy of such a plan would be a very small one, through the smaller amount of fuel perhaps required, and the only advantage in the conduct of the school would be that of having all the children under one roof. The Committee has gone into this plan quite thoroughly and cannot advise it.

Considering next **Plan 2:** That of sending the Grade 9 out of Town to school. As we have mentioned previously, it has the advantage of continuing the segregation of the first two grades in a separate building with a separate playground. The cost is small compared with the construction and maintenance cost of a new building. This would also eliminate the necessity of using the small room in the Centre school as a classroom and leave it available as a library or conference room. Because of difficulties in adjusting the curriculum for the first two years of the Junior High, grades 7 and 8, with those of two different schools, Waltham and Concord, a choice could probably not be given. 17 of 34 Junior High divisions in Waltham have more than the recommended number of 35 pupils and so we question if Waltham would entertain the suggestion of additional Junior High students. If the Junior High program was to be followed in grades 7 and 8, the services of the teacher used as a "home room" teacher by Grade 9 would still have to be continued and her salary of \$1700 would still be an annual charge. There would be an extra tuition cost to the Town of \$125 each pupil per year or a minimum of \$2500. The tendency probably would be a reversion to the old grammar school idea which would be a decided step backward. More of our children would probably leave school before completing the 9th grade. The conditions at the South School must be remedied at a minimum expenditure of \$1500. No provisions would be made for future growth. Grades 7 and 8 would still be deprived of those things essential to carrying out the more modern Junior High program. There

would be no lunch room provision and there would be no room large enough to assemble the whole school. Children of ages 13 or 14 would be sent out of Town, a procedure, the wisdom of which might be questioned by parents, even though our evasion of the responsibility were justified in other ways. Professor Dudley unreservedly disagrees with this plan of eliminating Grade 9.

Plan 3. Suggests a logical solution of our problems of the present time and offers also the probability that for several years to come the problems that now vex us will not reoccur. It proposes that we build a modern school to house Grades 7, 8, and 9 and to include in it those necessities required to conduct a Junior High School according to modern educational standards. It can well be built near the present Centre School, made architecturally to conform to it and also to the setting. It may properly include the necessary class rooms, a library-study, a combination assembly room and gymnasium, facilities for science teaching, and practical arts, and conveniences for serving lunches.

The proximity of this building to the Centre School would allow its fullest use at little inconveniences by all of the grades. It would furthermore be planned in a way that will allow of future reasonable addition to care for growth of the school population beyond the scope of the initial plans. In turn the present 9th grade room and two other class rooms vacated in the Centre School could be used by grades 1 and 2 and the South School closed. This consolidation would allow for some simplification of the transportation problem by separating the older and younger children. Somewhat longer hours for the Junior High pupils would make room for the fuller curriculum while shorter hours for the younger children would satisfy one justified criticism of the present arrangement. With proper equipment a new school of this sort used in conjunction with the present Centre School, which has been put in excellent condition during the past

year, should properly care for the ordinary physical needs of our educational system for 10 to 15 years, assuming the Town has only the steady natural growth in population that can rightly be expected. With our natural endowments and a modern progressively conceived educational system, our Town needs to take second place to none as the ideal place to live in and raise our children.

In planning this new school building the future of the Senior High pupils should be considered seriously. It seems to your Committee that when the number of Senior High pupils for whom the Town must pay tuition becomes large enough to make it more economical to conduct its own Senior High School, the proper arrangement will be a six-year High School, i.e. a High School to include grades 7, 8, 9, 10, 11 and 12. This is becoming the accepted system where the number of pupils is not large and will be a feasible solution of our Senior High school problem when it occurs, which time may not be very distant. The yearly cost of High School pupils' tuition in Concord and Waltham is nearly \$6,000 and the cost of their transportation is an additional \$2,250. The number of pupils need not be very much larger before the financial economy of conducting our own High school will be obvious as the present charges for this service would be sufficient, even now, to provide the necessary teachers. Professor Dudley has recognized also this as the ultimate solution of our Senior High School problem and while he does not recommend it at present, he specifically states that he does not believe we would make a mistake if we proceeded with a six-year school at once. He has also outlined for us a six-year High School curriculum that would be reasonably complete and that would compare favorably with the offerings in Concord and Waltham.

Because of the relatively small number of pupils concerned, your Committee does not believe that a six-year High School should be established now but they do believe that in

planning a new Junior High School at this time, provisions should be made to allow for sufficient enlargement in the future to make of it a satisfactory six-year High School if the needs indicate such. This can easily be done as the gymnasium-assembly, practical arts rooms, science laboratory, lunch room and library are all essentials that would be utilized in either type school and the required addition for the larger school would consist only of a few class rooms.

In order to ascertain the probable cost of erecting a building sufficient for our needs as contemplated by the acceptance of this last-mentioned plan, your committee has requested a reputable firm of architects, who are actively engaged in such work, to study the suggestions of Professor Dudley as to the details of such a building and to give us an estimated cost. They have done so, and it is their opinion that \$75,000 is sufficient to erect a completely equipped building. The estimate contemplates the construction of brick building with exterior trim of wood and with a pitched roof covered with slate. It would contain two classrooms 23 feet x 29½ feet, a science room 23 feet x 32 feet (to be used as a regular classroom), a library-study 23 feet x 29½ feet, a practical arts room for boys 23 feet x 45 feet, a practical arts room for girls 23 feet x 45 feet, a conference room 23 feet x 11 feet, a gymnasium-assembly room 40 feet x 66 feet, a lunch room, and small rooms to be used as Health room, Teachers' room, or Principal's office. The interior detail would be carried out in accordance with the best school building construction, the corridors and stairways to be fireproof throughout, the class-room floors to be of slow burning wood construction, all plastering to be on metal lath, and the wood trim to be of hard pine. The heating, lighting, and plumbing would be complete and in accordance with the best practices. There would be toilets located on each floor. This estimate includes the usual finish grading but would not of course include relocating the ball-field.

As to equipment, all but expensive lunch room, laboratory, or practical arts equipment has been included.

The usual method of financing construction of this kind is by borrowing and repaying each year for a period of fifteen to twenty years a certain portion of the debt. This was the procedure followed when the Centre School was erected and the Town had no difficulty in meeting its obligations. The constantly increasing valuation of the Town very soon minimized any effect the added expense seemed to have on the tax rate. At the present yearly rate of increase in the Town's real estate valuation it is safe to assume that this fact would again be so if the Town saw fit to borrow for construction.

The question of the availability for use of the fund bequeathed to the Town for school purposes by the late Honorable Charles Sumner Smith has been raised and your Committee has attempted to ascertain Mr. Smith's intents and wishes in this respect. Therefore, we include herewith the words of the bequest as it occurs in his will and also a letter from Mr. Sumner Smith giving us his interpretation of his father's ideas:—

Bequest to Town under Will of Charles Sumner Smith

“I give to the Town of Lincoln, fifty thousand dollars, toward the building of a new school house on or in connection with land heretofore given by me to the Town. Said building shall provide accommodations for a High School, and I suggest that it be called The Charles Sumner Smith School and Playground. Until such school be built, I direct that the fund be held and invested in trust and that the income be added to the principal.”

October 24, 1930.

Members of Special School House Committee
Lincoln, Massachusetts

At the request of your Committee, asking me to give my ideas on my father's plan as to how and when the Town should use his bequest for a High School Building, I respectfully submit to you the following opinion resulting from many and various talks of my father.

He knew that the Town would need a High School sometime, and when he thought of a new building he thought in terms of \$100,000. He also knew that his bequest would reach that amount in about 15 years after it became available, consequently, considering the average past and probable future growth of Lincoln, he believed that he was giving the Town a legacy sufficient for a suitable High School when the latter should be considered a practical necessity. And when he thought of a High School he did not confuse the term with Junior High.

SUMNER SMITH.

Three members of your Committee firmly believe that the present facilities of the Lincoln schools are inadequate for the present needs as well as for the needs of the next ten years; that the financial condition of the Town is such that we can at this time well afford to improve them; and that the logical program is to proceed with Plan 3, after the details have been presented by a Building Committee.

They believe the proper procedure for the Town at this time is to elect such a Building Committee with authority to proceed to obtain plans and estimates of buildings to conform to Plan 3 and to further prepare in a graphic and concise manner the costs to the Town of this plan; and to present such in the Town report or by special report in such a

way that the Town may be prepared to act on the same and to make the necessary appropriation for construction of the building.

They further suggest that the Town now appropriate \$800 to be used by the Committee in procuring the necessary plans and estimates and in presenting their report.

The Committee gratefully acknowledges its indebtedness to Professor L. Leland Dudley of the Graduate School of Education of Harvard University, to Mr. Carl Shrader of the State Dept. of Education, to the firms of J. William Beal Sons, and to Parker, Thomas & Rice, and to Mr. Carl Hol-loran, Superintendent of Schools, and all others who have cooperated with them in their efforts.

Signed,

ANTHONY J. DOHERTY

MRS. GUILBERT S. WINCHELL

ROLAND C. MacKENZIE

The following members of your committee, though unwilling to subscribe to all of the statements in the foregoing report, nevertheless believe that the description of the present condition of the Lincoln schools and the argument for a Junior High School should be fully and fairly presented to the voters of the town. They believe that if the Town decides to build at this time it should build a Junior High School, so designed that a Senior High School unit can be added later when the need arises.

They do not believe, however, that the time has come for the establishment of a Junior High School in a separate building when there are only seventy pupils to enjoy the advantages of such a building. In their opinion the present equipment, though not of the most modern type, will suffice for the needs of the town for several years to come. When

the growth of the School population warrants it, a building for a six-year high school can be erected, incorporating the improvements outlined in the above report,—a building whose cost would be more nearly warranted by the larger number of pupils it would serve.

Plan 3, so called,—the erection of a Junior High Building at this time,—involves the scrapping of the investment in the South School, a minimum construction cost of \$75,000, and an increase in maintenance cost of approximately \$4,000 per annum. Plan 2,—the retention of the South School and the elimination of the ninth grade,—involves the outlay of a minimum of \$1,500 in repairs to the South School, and an increase in high school tuition cost of perhaps \$2,500 yearly.

The undersigned members of the committee favor Plan 2 as simpler, much less costly, and of equal value to the pupils of the schools. It must also be borne in mind that the Smith legacy, if allowed to accumulate, should in the course of a few years be sufficient to defray a large part, if not the whole, of the cost of the entire six-year high-school plant.

Respectfully submitted,

E. RUSSELL DAVIS

CHESTER G. PECK

REPORT OF A SURVEY
OF THE
BUILDING REQUIREMENTS OF THE
LINCOLN, MASSACHUSETTS,
PUBLIC SCHOOLS

L. Leland Dudley

Cambridge, Massachusetts September 12, 1930

REPORT OF A SURVEY OF THE BUILDING REQUIREMENTS OF THE LINCOLN, MASSACHUSETTS, PUBLIC SCHOOLS.

The purpose of this report is to determine whether there is need for new or additional school accommodations in Lincoln, and if so, what should be the nature of these and where should they be located. Obsolescence of schools for the purpose for which they were built may be caused by three different factors. First, due to the growth of the school population they may become too small, a defect which frequently can be remedied by an addition to the original plant. Or schools may become out-of-date because they do not provide proper facilities for a modern education. Frequently the nature of the building is such that, although there is sufficient room and the building is in good repair, the arrangement, kinds of rooms, lighting, and equipment, for example, are ill-adapted to a modern program of education. Often in such schools one finds certain desirable services or activities omitted entirely or housed under conditions so crude as to affect the quality of the work or service. Lastly, a building may wear out or depreciate to such an extent as to make its continued use a questionable economy. Usually all three of these factors are at work. Let us examine the two schools of Lincoln from these three angles.

The South School is a two-classroom wooden building, erected over thirty-five years ago, housing grades one and two. It is not overcrowded. The rooms are large, fairly well lighted by natural light considering the fact that it is used by the lower grades. The toilet facilities are not modern, are located in a rather dark and deep basement, and because of their location and construction are kept in a sanitary condition with difficulty. Though the building is heated by two heating plants, a hot-air furnace and a steam boiler, the entry rooms and cloak rooms are often cold in winter.

The building contains no teachers' toilet but does have a makeshift room used as a rest room and emergency room. Storage space for books and supplies is inadequate. A very serious criticism of the building is the lack of artificial lighting in the classrooms.

The school is in need of repairs. Water stands in the cellar after most rains, a condition which could probably be remedied with considerable outlay. The building needs painting both inside and out. The roof will need reshingling within a short time. To make the needed repairs to the building, to install electric lights and a teachers' toilet will undoubtedly cost in excess of \$4000. In view of the fact that the building will still be old in design and facilities when these improvements are completed, a serious question arises as to the advisability of putting so great an amount into the plant.

Two considerations offset this conclusion. The town has recently gone to considerable expense,—approximately \$790—to fence the school lot which contains about two acres of land. Moreover, possession of this piece of land by the Town is contingent upon its being used for educational purposes. Apparently the lot is fairly well located to serve the south part of the Town when growth demands additional schools in the future, though it is too early to predict this with any certainty. For a large central school of the future the lot at the South School is too small, an area of more than twice its size being desirable.

Before disposing of the problem presented by the South School, let us see what the problem is at the Center School.

The Center School is a modern school of good construction and in excellent repair. It houses grades three to nine for which six regular classrooms and a narrow, poorly-lighted room are provided. In addition to these the school contains two basement rooms, used one for practical arts for boys and one for sewing and cooking for girls. Satisfactory toilet facilities are located in the basement. There are also a

teachers' rest room, the superintendent's office, and a storage closet on the first floor.

The school is not overcrowded. Many classes could care for more pupils without crowding or without injury to the instruction given. It is rather because of the lack of certain facilities needed in a modern program of education that the plant is defective and indeed obsolete.

Probably the most striking defect in the school plant is the total absence of any indoor play or physical education facilities and assembly room. While one classroom on the second floor, somewhat larger than the others, now serves as an assembly room, its use for such purposes is quite impractical and at best only a make-shift. It is too small, and facilities for any sort of dramatic work are entirely lacking.

The need for an indoor play space, however, is more urgent than that for an assembly room. Though the outdoor facilities are fair, there are many days during the school year when outdoor play is not possible. If the physical education work is to consist of anything more than calisthenics, a space for conducting this work is imperative. Modern education stresses physical development; it also recognizes the unparalleled possibilities of developing right attitudes, cooperation, control of the emotions, fair play, and many other virtues through physical education. Classroom preaching about these qualities is no substitute for their actual development. For this reason a strong program of physical education is now recognized as a fundamental in modern schools. To accomplish this aim of education successfully adequate facilities for this work are needed. In Lincoln no indoor play room is available for the children of the upper grades.

In addition to an assembly hall and a play room, the Center School also lacks facilities for serving hot lunches to pupils. In schools where so many children bring their lunches a light and attractive room where children can eat together and where warm dishes may be prepared and served is highly

desirable. The present practice of having children eat their lunches in the classrooms is to be condemned on all grounds. Certainly the number of children who will benefit from the provision of a lunch room is sufficiently great, and is likely to be for many years, to warrant making better-than-average provisions for school lunches.

Though not entirely lacking, the facilities for practical arts for boys and cooking and sewing for girls are far too small and meagre in equipment. This type of work in grades six to nine has changed profoundly within the last few years. In the better schools it is no longer confined to woodworking for boys and cooking and sewing for girls. For boys the work should be organized largely on the general shop basis, the carrying out of a project often leading into sheet metal, electrical, or simple metal work. The general utility value of this type of work far exceeds the traditional woodworking course, which it includes and goes beyond. General home repair—soldering, repairing furniture, repairing electrical devices, etc., should be features of the work. The planning of projects, involving simple mechanical drawing, furnishes a thought-provoking content. The present room is inadequate in size for this type of course. The natural lighting, moreover, is not the best. If this type of work is changed, as it should be, greater space and a greater variety of equipment must be provided.

The practical arts work for girls should also be something more than mere sewing and cooking. The whole range of home activities is now included in this work—home decoration, sanitation, furnishing, management, for example. The equipment for such work need not be elaborate nor expensive, but ample room should be provided to serve for multiple uses. The present equipment for cooking is out of date, and facilities for other phases of home economics, now taught in grade-six room, consist merely of one old sewing machine.

The Center School contains no separate room for library

or study purposes, though it does possess a fairly good collection of books. A school housing grades seven, eight, and nine should make better provision for study and references than are at present found in Lincoln. The importance of this work, in view of the changed methods in education, warrants the provision of a library-study hall.

The facilities for the teaching of science are very poor. At present these classes are conducted, when necessary, in the cooking-sewing room. Although good results are being secured under present conditions, it would be highly desirable to have a classroom, somewhat larger than the ordinary classroom, fitted with a demonstration table, a show case, a growing table, and an aquarium. Such equipment would add interest and reality to the subject. The room could, of course, be used as a regular classroom.

There is also an obvious need for a health room. This room would be used for physical examinations of children, by the school nurse, and as an emergency room. The teachers' room is at present used for this purpose, but this arrangement is satisfactory neither for the teachers nor for the nurse.

To sum up, the Center School is a good building. It is not overcrowded, but was built to house a program of education considered adequate fifteen or twenty years ago, a program which is not now being followed in Lincoln schools. It lacks an assembly hall, a play room or gymnasium, a library, and a health room. The provisions for practical arts for both boys and girls are so small as to restrict the kind of instruction than can be offered therein. There are no special provisions for the teaching of general science. A lunch room is needed.

The solution to this problem is obvious. Since most of these deficiencies in the building affect chiefly the upper grades, it is clear that if they are to be provided, they should be erected as a separate building adjacent to the present

school. Were the existing building so constructed that an addition could be economically made thereto, this method would be preferable to a separate building, because certain facilities would then be accessible to all pupils. The plan of the school is such, however, that to add to it would probably produce a freakish building, would increase greatly the amount of space which could not be effectively used, would result in certain makeshift and odd-sized or poorly lighted rooms, and would possibly be more expensive, due to the alterations and necessary destruction of certain parts and walls of the building, than to build an entirely separate plant. In general, additions, unless they are planned for when the building is erected, are unsightly and usually not entirely satisfactory. The logical procedure in the case of Lincoln with its beautiful town center is to erect a separate plant adjacent to and, in a style of architecture, in keeping with the existing school. This plan would be far more satisfactory, might even be less costly, and would avoid the ugliness of an addition to a school not conceived with this possibility in mind. The new unit, of course, should be originally planned for future addition, thus avoiding in the future, the situation which has arisen now.

The idea of a separate unit to house these elements of the school is not a new one. Numerous cities and towns house single schools in more than one building. It is true that small separate units increase somewhat the costs of operation (fuel and janitors' salaries) and maintenance (repairs) but not to an excessive extent. If facilities in the new unit are used by children in the present school, the children will have to pass out of doors. Since the new unit should completely house grades seven to nine, the necessity for passing between buildings would be reduced to a minimum. After all, this is no great disadvantage.

Providing a new unit is built, what grades should be housed therein? Is a six-year high school (grades seven to

twelve) feasible? Should the ninth grade be eliminated and pupils sent to Waltham or Concord for this year of schooling?

The organization of a six-year high school does not seem to me to be feasible for Lincoln at the present time. The following table is an analysis of the program which could be offered in the six-year high school. It is based on six fifty-minute periods per day.

Program for Six-Year High School

<i>Subject</i>	<i>Grades</i>		<i>Periods per week</i>
English	7-12	7, 8, 9-10, 11-12 each 5	20
Social Science	7-12	7, 8, 9-10, 11-12; 5 in 7 and 7; 4 in upper	18
Mathematics	7-12	7, 8, 9-10, 11-12 each 5	20
Science	8-12	3 in 8; 4 in 9; 6 in 10-11; 6 in 12	19
Latin	9-12	5 in 3 yrs.	15
French	9-12	5 in 3 yrs.	15
Commerce	8-12	2 in 8; 5 in 9-10; 5 in 11-12	12
Art	7-12	7, 8, 9 one each; 10-12 5 or more	10
Music	7-12		6
P. A. Boys	7-12	7, 8, 9-8; 10-12 5	13
P. A. Girls		7, 8, 9-8; 10-12 5	13
Phys. Educ.	7-12	1 period per day B and G separate	12

It contains all the elements of a good high-school program, regardless of the size of the school. In accordance with best practice, it offers opportunities for children with differing abilities and interests to "major" or specialize in various fields—college preparatory, commerce, art, music, science,

or practical arts. The offering of this program would require a minimum of seven teachers, who would need to be selected carefully to teach various combinations of subjects. This compares with the equivalent of three and one-fifth full-time teachers at present employed in the upper three grades. It should be noted here, however, that the junior high school is now understaffed. More effective utilization of children's time, as well as greater specialization in subjects and greater emphasis on certain subjects for certain pupils, could be secured by the addition of another teacher. The figure seven, therefore, compares with four or a little more in the present school, since seven teachers in a six-year high school could do as effective work as four in the present junior high school grades.

This program would be the same as that offered in the Waltham and Concord high schools with the following exceptions: Waltham offers two years of German, three of Spanish, one of Astronomy and Geology, and several commercial subjects not feasible in Lincoln. Concord offers a richer course in practical arts, both for girls and for boys, than could economically be offered in Lincoln. No strictly vocational course could be offered. Moreover, in a seven-teacher six-year high school in Lincoln not all subjects could be offered each year. One year, for instance, geometry could be offered, the next year algebra, and likewise for other subjects. This, however, is no great disadvantage, since the instruction should be largely on an individual basis which is itself an advantage over the class recitation methods used in the larger schools. The organization of special sections for college preparatory students would not be feasible. Reliance would have to be placed upon individual work with the teacher for the extra or different work needed by these pupils. It is fair to say that the program which could be offered would be not inferior to the program now offered in Waltham and Concord. The problem of getting competent teachers

to teach various combinations of subjects would be a troublesome though not impossible one. With an excellent staff results might be as good or better than under present arrangements.

The total number in a six-year high school would be but little over a hundred. The distribution of pupils in grades seven to twelve inclusive this fall and last fall are given in the table below:

Number of Pupils Enrolled in Grades Seven to Twelve

Grade	Oct. 1, 1929	Sept. 8, 1930
7	36	23
8	18	33
9	17	13
10	9	15
11	14	9
12	13	14
	<hr/>	<hr/>
Total	107	107

With so few pupils the high school would be a small high school, as these schools go in this section of the country. The pupils would not secure the broadening influences coming from contact with other pupils and larger groups. On the other hand, some children who do not go on to high school in Waltham or Concord might continue if they could attend in Lincoln. A comparison of the lower grade enrollments with the high school grade enrollments shows that somewhere about forty or fifty per cent of the children leave Lincoln schools before completing high school. Just how much a six-year high school in Lincoln would do to correct this, it is impossible to say, but undoubtedly the distance of high-school facilities from their homes is one factor bearing upon this early elimination from school.

From a financial point of view a good six-year high school would be somewhat more costly than the present arrange-

ment. In 1929 high school transportation cost \$2,252.70, high school tuition \$5,978.43, making a total of \$8,231.13. The state reimbursement on account of high school transportation was \$2,033.04. The net cost of high school to Lincoln was therefore \$6,198.09.

Under a six-year high school plan the cost of three additional teachers,* at \$2,000 each, would be \$6,000. The state reimbursement would not exceed \$600. The cost of transportation would be extra, with no state reimbursement. There would also be the costs of maintenance, operation, capital, and interest occasioned by the larger building needed. The total cost of high school education under this plan would probably approach \$8,500 to \$9,000, making the plan cost from \$1,300 to \$1,800 more than the present plan.

It is obvious, however, that as Lincoln grows it will not be long before the balance will be in the opposite direction. With a population of 1,042 in 1920, of 1,306 in 1925, and of 1,497 in 1930 it is certain that before many years the town may be large enough to support a six-year high school. How soon this growth will materialize depends largely upon economic conditions, good roads, the breaking up of large estates, and the activities of real estate men. The lesson to be drawn is that any school built now should be so planned that additions to it are practical, beautiful, and inexpensive in the not-too-distant future.

To sum up, it does not seem wise to recommend at this time a six-year high school for Lincoln. The number of children is too small. There is distinct value to Lincoln children in attending the larger schools of Waltham and Concord because of the broader contacts and acquaintances they make. The cost of a local six-year high school, while not excessive, is greater than under the present plan. It should be added, however, that the Town would not make

* Three is taken as the number of extra teachers needed for the six-year high school because the town needs one more teacher in any case.

a mistake should it decide to proceed with a six-year school at once.

The question has been raised as to advisability of discontinuing the ninth grade in the local schools. One of the arguments advanced is that the educational training afforded in the Waltham and Concord schools would be superior in scope and variety to that provided locally. The program in the Lincoln ninth grade is satisfactory in scope with the exception of opportunities now offered in practical arts. With the addition of another teacher and with needed facilities provided in a new building, the offering for grade nine will be as broad as is desirable. Were the school ten times its present size there is no subject which should be offered in grade nine that does not now appear. Small classes will permit of very effective work. That this is a fact at present is attested by the good records of those who enter grade ten in Waltham and Concord.

If grade nine is discontinued, there is strong likelihood of the offering in grades seven and eight returning to that of the traditional eight-year elementary school. This would be very unfortunate. Certainly there is but scant possibility of the town's providing the facilities listed if the ninth grade is removed. Yet these things—the assembly room, play room, larger and better equipped practical arts shops, library, etc.—are needed by the seventh and eighth grades as well as by the ninth. If these facilities are furnished as is suggested, there is every possibility of the offering in Lincoln being superior to that in Waltham and Concord. The numbers in the junior-high-school grades, 65-73 pupils, is sufficient to provide a good program on a fairly economical basis. Little saving would result by eliminating the ninth grade as the cost of tuition would offset the instructional cost in Lincoln. Much may be said also in favor of keeping children of this age in local schools, even though that school is a consolidated school to which the pupils must be trans-

ported. It does not seem wise, therefore, to recommend the elimination of the ninth grade at Lincoln.

There remains now only the discussion of the proposed new building and of the disposition of the South School. The logical plan to follow appears to be to build, adjacent to the present building a new school unit to house grades seven, eight and nine. This move would free three classrooms in the Center School in two of which the two classes in the South School could be placed. The South School should not be given up entirely as a school site, but should be held if possible as a site for a future elementary school.

The new junior high school should be so constructed that additions can readily be made thereto, as it is probable that in the future it will need to be used as a six-year high school or at least as a part of a much larger junior high school. Its location next to the tract set aside for a playground is ideal. No other location should be considered. The initial building should contain the following units:

2 Classrooms 23 ft. x 29½ ft. x 12 ft.

Science Room 23 ft. x 32 ft. x 12 ft.

(To be used as a regular classroom)

Library—Study 23 ft. x 29½ ft. x 12 ft.

Practical Arts Room (Boys) 23 ft. x 45 ft.

Practical Arts Room (Girls) 23 ft. x 45 ft.

Conference Room 23 ft. x 11 ft.

Play Room with Stage 40 ft. x 66 ft. x 18 ft.

Health Room

Teachers' Rest Room

Principal's Office

Lunch Room

This building would be ample in size for the three grades and would provide facilities for an excellent program of education. If necessary, the conference room could be omitted, though it would find much service in a school of this character. It could be used for small classes, in addi-

tion to study groups, conferences, and student activities. It should be located adjacent to the Library-Study if possible and might well be separated from this unit by a thin partition fitted with clear glass windows. This would facilitate the supervision of both rooms.

The practical arts rooms should be well lighted and may be located on the ground floor. The boys' room should be supplied with a small finishing room and a small room for the storage of tools. Only a portion of the shop should be equipped with woodworking benches. A large door directly to the outside of the building will be found desirable.

The practical arts room for girls should be divided into two units—one small unit for a foods laboratory arranged on the unit kitchen plan and providing four unit kitchens. This part may be separated from the main portion of the room by a glassed partition, and should be well ventilated. The rest of the unit should be available as a general purpose room—for sewing and laboratory practice in household arts. It should be supplied with storage space, both for pupils' work and for equipment.

The Play Room-Assembly should be primarily a standard gymnasium, its use for assembly purposes being secondary. If equipped with a stage at one end, it will serve the purpose of a community gathering place as well as a gymnasium. As the seats will be movable, convenient provision should be made for their storage. When used as an assembly hall, this room will seat 300 persons. The erection of a unit of smaller size is not recommended since this size is standard for indoor games. It should serve the needs of the community for many years even though the school grows considerably. Locker and shower rooms, accommodating sixty boys and sixty girls, should be installed. If possible these should be so located and constructed that future additions can be made thereto. Storage space for equipment and possibly a small office should also be provided.

The lunch room should be attractive, well lighted, and ample in size to hold one hundred pupils. Simple provisions for serving hot dishes should be provided. It might advantageously be located adjacent to the cooking unit, but equipment and other facilities should be separate. In determining the size and location of this unit, consideration should be given the use to be made of it by lower grade children.

Ideally, toilet facilities should be placed on all floors. In a school of this size, however, location on the first floor only, not in the basement, would probably be sufficient until the school is enlarged.

Carefully planned, this building will provide excellent school facilities for Lincoln children for many years. As the town grows, additions can be made thereto without decreasing its effectiveness or beauty.

REPORT OF THE WARS MEMORIAL AND FLAGPOLE COMMITTEE

Your Committee during the past year completed its assignment with the erection of a flagpole on the Lincoln Library grounds and the purchase of a town flag.

The flag was raised for the first time on Armistice Day, November eleventh last.

C. LEE TODD

HERBERT G. FARRAR

R. D. DONALDSON

MRS. J. H. NORTON

ALBERT S. GRAVES, *Chairman.*

REPORT OF THE BOARD OF HEALTH

The first six months of the year 1930 were characterized by more than the average number of communicable diseases; but the average for the year was not appreciably greater than usual, since there were practically none reported during the final six months. As may be observed from the summary that follows, Chicken Pox and Measles account for the larger number:

Anterior Poliomyelitis	2
Chicken Pox	89
Dog Bite	2
German Measles	1
Lobar Pneumonia	2
Measles	21
Mumps	8
Scarlet Fever	5
Pulmonary Tuberculosis	4
Whooping Cough	1
Gonorrhea	4
	<hr/>
	139

The dual capacity of the Public Health Nurse as Agent of the Board and School nurse simplifies greatly the follow up of contacts and enforcement of quarantine regulations in communicable diseases and again this year has justified the arrangement. The Nurse has made 91 visits for the Board.

Early in the year Dr. Frank McGlinchey was appointed Milk Inspector in which capacity he also serves the City of Waltham. He is ably qualified and the arrangement gives

the Town the advantages of more frequent inspections and more prompt reports.

During the year 32 samples of milk have been analyzed and in general have been found good. In the few instances where the samples have shown greater variations from legal and safe standards than should be the case, the Board and the Milk Inspector have endeavored to cooperate with the dealer in finding the cause and remedying it. It has not been the policy of the Board in the past to publish the results of each separate analysis, but as this year samples have been taken frequently enough from some dealers to fairly average them, these averages are presented. All averages are better than the legal standard requirements.

						Fats	Solids
Average of 7 samples	Raw Milk	DeNormandie	..	4.60	13.95		
" " 6 "	" "	" Higginson	3.82	12.90		
" " 5 "	" "	" Glendale	4.15	13.41		
" " 4 "	Pasteurized Milk	Glendale		3.82	12.60		
" " 5 "	" "	" Woodridge		4.74	13.90		

We have cooperated with the School authorities in milk inspection as well as in the control of communicable diseases.

One new Pasteurizing plant was inspected and licensed during the year.

The Board has licensed 8 piggeries after inspection and have refused to authorize any extensions or enlargements. In one instance permission to move existing equipment to a location further from the highway was given. Several additional inspections have been made and observance of the regulations checked. The Board believe they are carrying out the will of the Town in taking this attitude on the extension and regulation of piggeries. During the year several complaints about piggeries have reached the Board and have been investigated and in each instance have been found to be due to the spreading of pig manure on the land and not

promptly ploughing it in. These violations are petty but provocative in a neighborhood and can only be prevented by the cooperation of those concerned.

As no unusual expenditures are anticipated for the coming year, the Board believes the appropriation of \$1000 and receipts will suffice again this year.

ROLAND C. MacKENZIE,
RICHARD K. CONANT,
ROBERT D. DONALDSON.

REPORT OF THE NURSING COMMITTEE

In March, 1921, the Town made its first appropriation for a District Nurse. When September 1, 1931, comes round the Town will have completed a decade of nursing service. During that time the nurse's work has increased in scope and in importance until the nurse is now a valuable member of our community life.

The following is a summary of the year's work. The total number of district calls is 469, divided as follows,—medical 170, surgical 165, maternity 79, child welfare 55. The school work is well described in the report of the school nurse.

In order to bring the financial methods of this department into line with the best practice it is recommended that this year the Town appropriate the full amount necessary to carry on the nursing project, namely the sum of \$1,600 for the nurse's salary, and \$300 for operating expenses, a total of \$1,900. The probable receipts of the department will be from the School Committee \$400, from Sudbury \$350, and from fees \$200, a total of \$950. This sum will be subtracted by the assessors in determining the tax rate and thus no additional burden will be placed upon the Town. The net cost of the service will be \$950. The appropriation will be expended under the direction of the Board of Health as usual.

Respectfully submitted

EDITH B. FARRAR

ROLAND C. MACKENZIE

ROBERT D. DONALDSON

MIDDLESEX COUNTY EXTENSION SERVICE

The following is a report of the work of the Middlesex County Extension Service as developed in the Town of Lincoln for the year 1930.

In agriculture, the work in the town this year largely took the form of farm visits made upon request. 32 of these farm visits were made upon request to assist with fruit and dairy problems. Judges were furnished for the Lincoln Grange fair.

For the benefit of the homemakers there are two new groups carrying on the work, namely: North Lincoln, Lincoln Center. The North Lincoln group is under the leadership of Mrs. Hoyt Conary and Miss Sarah Brooks. The two projects developed during the year have been on vegetable preparation and the improvement of home grounds.

Eighteen boys and girls have enrolled in 4-H club work, largely in poultry and garden clubs. Mr. H. S. Cousins has served as local leader. Under his guidance the poultry club has been able to secure much good training. In addition to visiting his poultry plant they have taken several trips to other plants in the town.

Eight educational motion picture shows were given to a total attendance of 1316.

Many local people took part in the several county-wide meetings held during the year, such as the county picnic at Wayside Inn, Sudbury, and the Homemakers' Day at Lexington.

January 5, 1931.

Respectfully submitted,

HERMON T. WHEELER,

Director.

REPORT OF INSPECTOR OF ANIMALS

To the Board of Selectmen:

The number of cattle inspected this year have been 506, sheep 16, goats 2, swine 5,432, and with very few exceptions found them to be in excellent condition.

Respectfully submitted,

JOHN F. FARRAR,

Inspector of Animals.

REPORT OF TREE WARDEN

The Tree Warden submits to the Town a brief report for the year 1930.

The work of this department has been continued as in former years removing dead trees, dead limbs and limbs obstructing the highways. Lincoln has a great many trees per mile of roadway and the majority of them must be climbed to remove dead or dangerous limbs, all of which means a great deal of work.

The scarcity of the Elm Leaf Beetle was again noticeable this year.

The methods used in handling the Gypsy Moth was practically the same as in past years, creosoting the nests on trees along the roadsides and omitting again this year the spraying. However, in some parts of the Town there is an increase of egg clusters in woodland bordering roads, which may have to be sprayed this coming season.

The cutting of brush and thinning on roadsides on several of the roads was done this year. This work we find very necessary as the roads are narrow.

The total expenditure of this Department for 1930 is \$1,343.01. I recommend that \$1,000.00 be appropriated for Tree Work and \$500.00 for Moth Work this year.

Respectfully submitted,

JOHN J. KELLIHER.

REPORT OF THE COMMITTEE ON THE JOHN H. PIERCE LEGACY

Your Committee reports that on March 6, 1930, a Court Decree was entered modifying the provisions of the John H. Pierce Legacy to conform to the wishes of the Town. The decree follows :

THE COMMONWEALTH OF MASSACHUSETTS

Middlesex, ss.

Supreme Judicial Court
In Equity

Town of Lincoln, Petitioner,

v.

Attorney General of the Commonwealth, and others,
Respondents.

Final Decree

This cause came on to be heard at this sitting and was argued by counsel; and thereupon, upon consideration thereof, it is ordered, adjudged and decreed :

1. That the Town of Lincoln be and hereby is authorized to rent, sell or make such other disposition of the buildings given by the late John H. Pierce to the said Town of Lincoln as in their discretion the Selectmen shall consider advisable; and to use any proceeds from such renting or other disposition of said buildings in conjunction with the income given by the wills of the late John H. Pierce and the late Elsie Pierce as hereinafter provided.

2. That the Town of Lincoln be and it hereby is authorized to use as much of the annual income bequeathed to it under the wills of the late John H. Pierce and the late Elsie Pierce as in their discretion the Selectmen of the said Town of Lincoln shall consider advisable for the maintenance of the property devised to the said Town of Lincoln by the said John H. Pierce for a park; and to use the balance of said income to provide hospital treatment for such inhabitants of the said Town of Lincoln as in their opinion the said Selectmen shall consider to be in financial need thereof.

By the Court,

Your Committee recommends that the Town appoint a committee to prepare a comprehensive plan for the development of the John H. Pierce land as a park, to be submitted to the Town at a future Town Meeting. Any such plan should be coordinated with future school development.

REPORT OF WATER COMMISSIONERS

The Water Commissioners respectfully submit the following report:

The pipe system has held up well with the exception of the wooden pipe on Farrar Road. A plan for this renewal has been under consideration for several years and it now looks as though the right time had come for it.

In the Fall the large pump sucked air and was responsible for stirring up much corrosion in the pipes and causing considerable inconvenience among the water users. The valves were overhauled and the pump has given satisfaction since. Both pumps are now in good working order.

The water pipe was extended in North Lincoln from the terminus opposite the house of Edward H. Rogers to supply Miss Sarah W. Brooks. In East Lincoln extension was made by 6 inch pipe from the terminus opposite the City of Cambridge house on Winter Street to the corner of Trapelo Road, and up the road to the Mason Hunter place. Guarantees for the first extension were not necessary, and for the second are on file.

The shores of Sandy Pond are clean from the banks to the edge of the water, and, with the exception of a few small pieces of land, all wood which may fall into the pond has been cut by abutters. The latter have taken an interest in removing the unsightly dead trees, thereby adding much to the beauty of the surroundings.

The water in Sandy Pond in October fell to five feet below the high water mark, the lowest since 1909. The water takers were asked to try and be economical with the use of

water and to restrict irrigation ; the result was an immediate shortening of the hours of pumping, but the amount of water pumped per capita is still very high compared with other towns of the State. At the present time the Town of Concord takes water from Sandy Pond for its users on Sandy Pond Road, Turnpike and Hawthorne Street, and the Board is advised that Concord cannot be restricted any more from using Sandy Pond water unless the pipes on these streets are renewed. The normal pressure for the rest of Concord would be too great for these old pipes. At the time of writing the Pond is a little less than four feet below high water mark.

Wet seasons raise the Pond so high that the overflow is a nuisance, and dry seasons lower it so that the supply is doubtful, and this is the case with all the local ponds whether they are used as water supplies or not. Nevertheless, if Lincoln grows, the Water Board should always watch the supply in Sandy Pond and in dry times see that Concord is restricted or entirely stopped.

The Treasurer's report shows that the Water Works has a balance in the bank of \$11,485.81 and uncollected rates of \$3,406.39. The bonds outstanding amount to \$37,000, and the sinking fund to \$29,405.41, and by adding \$800 yearly from the Water Works income to the sinking fund until the last bond is due in 1937, provision is made for retiring the entire bonded debt, which at one time amounted to \$87,000.

From the foregoing report the Town can readily see that the Water Works are in good physical and financial condition, and if the Board were to be allowed to continue independently their plan of running the water system, the chances are that improvements would be made from the income and the condition kept up well. As it is, the Legislature passed a law in 1928 requiring the appropriation for the Water Works to be voted by the Town and to be taken

from the water account. Therefore, the Board has estimated its budget for the coming year and recommends that the Town vote the appropriation.

Power	\$1,600.00
Salaries	825.00
Interest	1,410.00

REPORT OF FIRE DEPARTMENT

South Lincoln, Mass.,
January 31, 1931.

To the Board of Selectmen:

The Board of Fire Engineers herewith submit their twenty-third Annual Report ending December, 1931.

FORCE

The Fire Department consists of the following: one chief, six engineers, and nineteen call men.

APPARATUS

The Apparatus belonging to the Department is as follows: One 600-gallon pump, two combination trucks, twenty-seven extinguishers, eight ladders and 2,500 feet of hose.

LOCATION OF APPARATUS

Pump and Number 2 Combination Truck at Doherty's Garage, South Lincoln, and Number 3 Combination Truck at T. J. Dee's, North Lincoln.

FIRES

Eighty-seven alarms have been answered. Pump and Number 2 Combination Truck responded to six chimney, fifty-three grass and wood, one oil stove, three autos, one building, and four calls out of town.

Number 3 Combination Truck responded to seventeen forest and grass, one chimney, one oil stove.

NO LOSS.

It is the opinion of the fire engineers that a fire alarm signal should be installed.

Very truly,

M. H. DOHERTY, *Chief*

T. J. DEE

J. J. KELLIHER

H. G. FARRAR

A. J. DOHERTY, Jr.

H. S. COUSINS

SUMNER SMITH

REPORT OF THE SUPERINTENDENT OF STREETS

To the Board of Selectmen:

I herewith submit the following report for the year ending December 31, 1930:

There was very little snow last winter which made very little breaking out roads to do.

We worked on the Lexington road digging off some of the bad curves, widened out the Bedford road by blasting out the stones on the edge of the road. We built about one-half mile of Penetration road, seventeen feet wide, one course of stone from four to six inches deep and penetrated it with asphalt at a cost of about five thousand dollars, making a very good road which will last a good many years.

We used oil and Tarvia on most of the roads and spread on sand for cover, scraped the back roads and cleaned out the gutters.

The Gas Company and the Electric Light Company held up the work on some of the roads, but in the end fixed them up in a very satisfactory condition.

The Highway Department is in good condition. Both trucks have been overhauled this year and are in good shape for work.

The guide boards are in very good condition except a few which need repainting, which will be seen to soon.

The amount available for road work was:

Highways	\$19,000.00
State Aid	4,000.00
Receipts available	4,624.00
Chapter 90 Work	1,000.00
Total	<u>\$28,624.60</u>

The amount expended is approximately as follows:

HIGHWAY ACCOUNT

Labor	\$4,000.00
Repairs	450.00
Supplies	5,667.00
Hay and grain	750.00
Telephone and light	60.00
Trucks and gas	1,843.00
Rent	400.00
Blasting, etc.	480.00
Snow Work	485.00
Steam Roller	260.00
	<hr/>
Total	\$14,395.00

STATE AID ACCOUNT

Labor	\$5,120.00
Material	5,690.00
	<hr/>
Total	10,810.00

CHAPTER 90 ACCOUNT

Labor	\$1,695.00
Material	1,430.00
	<hr/>
Total	\$3,124.00

Respectfully submitted,

WILLIAM H. SHERMAN,

Superintendent of Streets.

REPORT OF THE COLLECTOR OF TAXES

All taxes assessed prior to April 1, 1929, have been collected. Of the levy of 1929 there remains uncollected the sum of \$1,264.91. Action has been started for the collection of this amount and will be collected very soon.

Of the 1930 levy, \$10,518 remains uncollected, and of this amount, approximately \$1,000 is on account of the Motor Vehicle Excise Tax.

THOMAS L. GILES,
Collector of Taxes.

AUDITOR'S REPORT

I hereby submit a report of all the money paid out by the Town Treasurer by order of the Selectmen of Lincoln.

I have visited Mr. Todd at his office and was shown all securities and investments held by him.

JAMES W. LENNON,
Auditor.

JOHN F. FARRAR,

Treasurer.

REPORT OF THE TRUSTEES OF THE LINCOLN LIBRARY

Your Trustees submit on the following pages the reports of the Treasurer and of the Librarian for the year ending December 31, 1930.

Mrs. Edith B. Farrar has been appointed Librarian, vice Mrs. Bodley, resigned.

It is planned to recatalog the juvenile books during the coming year. This will entail an additional expense of one hundred and fifty dollars. Your Trustees ask for an appropriation of one thousand dollars for the year ensuing.

Report of commission for relief in Belgium.

Service, Robert W.—Ballads of a Bohemian.

Who's Who in America.

Wiggam, Albert E.—Marks of an educated man.

Woolf, Virginia—Room of one's own.

REPORT OF THE CEMETERY COMMISSIONERS

During 1930 the three cemeteries have been given the usual general care; the tombs in the cemetery at the Town Hall have been put in good condition and the wall running from these tombs toward the Town Hall has been repaired and pointed up. The addition to the New Cemetery has been surveyed by Frank P. Cutter of Lexington and the plans of the lots and roadways are now in the hands of the commissioners. The roadways have already been staked out. The commissioners hope during 1931 to have these roads built and some planting of trees and shrubs begun. This year, also, the large hedge around the Arbor Vitae Cemetery will have to be trimmed and straightened. For this work and for general care the commissioners ask an appropriation of \$800.

EDWARD F. FLINT
FRITZ CUNNERT
H. P. WHITNEY

SCHOOL CALENDAR

Mid-Winter Term, begins Monday, January 5, 1931, ends Friday, February 20, 1931; seven weeks.

Spring Term, begins Monday, March 2, 1931, ends Friday, April 17, 1931; seven weeks.

Summer Term, begins Monday, April 27, 1931, ends Wednesday, June 17, 1931; seven and one-half weeks.

Fall Term, begins Tuesday, September 8, 1931, ends Wednesday, December 23, 1931; sixteen weeks.

REPORT OF SCHOOL COMMITTEE

To the Voters of Lincoln:

The annual report for the year 1930 together with reports of the Superintendent of Schools and School Nurse is herewith presented.

As noted in the Superintendent's report, several changes in the teaching staff took place during the year, but your Committee feel that some progress is being made toward reducing to a minimum the number of resignations effective each year. Your Committee and also the Superintendent have adopted the policy of securing the best teachers obtainable commensurate with the salary offered and of retaining such teachers over a period of years if possible. In passing, it may be said that the salaries now paid to our teachers are above the average paid in communities similar to Lincoln and should attract good teachers.

In response to a general demand for special instruction in music, it was decided to again introduce this subject in the schools and Mr. William Taunton of Sudbury was engaged to supervise this study. Although giving but one day each week to this work, yet, we feel that definite progress is being made and that satisfactory results will be attained.

Transportation

The matter of transportation has its problems as consistently as ever. New demands for additional service have to be met and cared for. However, it would appear that local transportation and its incidents is not one that is peculiar to Lincoln alone. All communities appear to be affected alike. Your committee aims to solve this problem

in such a way as to give service where the need demands it. Owing to recent demands, new arrangements have been made for additional transportation facilities to be put into effect in the near future, whereby it is hoped that all sections of the town will receive adequate service.

School Buildings

The special appropriation of three thousand dollars for repairs on the Centre School has placed this building in very good repair. A program of renewal of the desks and furnishings in the several rooms is now being carried out and at least one of the rooms will be refurnished this year. Other than completing this refurnishing, and the refinishing of the black-boards, it would seem that this building should not need special attention for several years.

The South School, however, must have attention this present year, and this regardless of what action the Town may take on the recommendation of the Special Committee on School Accommodations to be presented at the March meeting. This building should be painted both inside and out. The teacher's room provided with toilet and bowl; facilities for procuring hot water installed, the cellar made water proof and white-washed. Also outside and around the building should be cemented and the grounds in front of the building graded. To do these necessary repairs, if the building is to be continued as at present, will necessitate an expenditure estimated at between fifteen hundred and eighteen hundred dollars. If the building is to be used permanently a larger expenditure will be necessary in that it should be entirely gone over including the heating, toilets, weather proofing the windows, installation of electric lights, new curtains and refurnishing the second grade room.

The Committee wishes to make public mention of two benefactions received during the past year. Mr. Julian de Cordova has established a fund for the purchase of medals,

his purpose being "to stimulate scholarship, invite emulation of worthy achievement, and foster those qualities necessary for good citizenship." The medal is awarded under the following conditions:—No pupil shall be eligible for this award who has not received an average mark of "B" in his regular classwork during the school year. No pupil shall be eligible for this award who shall have received a mark of "U," or "unsatisfactory," in Health Habits, Cooperation, Industry, Courtesy, Preparation, Conduct or Effort." The Codman family contributed generously toward the cost of the new fence around the South School lot, thus helping to make possible an improvement which has received much favorable comment.

Finances

Your committee reports an unexpended balance of the amount of six hundred thirty-two dollars and seventy-one cents (\$632.71), from the general school appropriation for this year. Owing to increases in local transportation, teachers' salaries and a few other minor items, the Committee are compelled to ask for an increase in the appropriation over that of last year and would recommend the following:

For general school expenses.....	\$37,500.00 ✓
For vocational education	1,200.00
	<hr/>
	\$38,700.00
For repairs on South School.....	\$ 1,800.00

Respectfully submitted,

ANTHONY J. DOHERTY
HARRY M. CONDIT, Jr.
EDITH B. FARRAR

SUPERINTENDENT'S REPORT

To the School Committee of Lincoln:

In this, my second annual report as Superintendent of Schools, I have summarized briefly the outstanding changes and accomplishments of the year just ended.

Changes in Personnel

Miss Marjorie M. Howard began her duties in the Junior High School in September in place of Miss Helen Smiley who resigned to be married.

Miss Thelma Sanderson, who taught in the South School, accepted a position in Quincy during the month of February. Her place was filled by Miss Alice Dufort who resigned in September to accept a position in Leominster.

Miss Esther R. Comer began her duties as teacher in grade two with the opening of school in September.

Mr. William Taunton of Sudbury was elected as Supervisor of Music in February and has since given one day a week to this work.

Mr. John Donovan of South Lincoln was appointed janitor at the South School.

Transportation

In order to relieve congestion on the school busses the Committee authorized two extra trips which have been in operation since September. One extra trip is made to Kidder's Corner, the other to the railroad station.

It is interesting to note that your Committee provides transportation for seventy-nine per cent of the pupils attending the local schools and that only fifty-two children walk to school.

The long wait now necessary before certain children are transported at the close of school will be relieved when the plan now under consideration by the Committee is put into effect.

High School Pupils

Tuition for forty pupils in high and vocational schools is now being paid by the Committee. This number is distributed as follows:

Concord High	24
Waltham High	7
Weston High	3
Waltham Trade—Day Division.....	1
Evening Division	2
Boston Trade for Boys.....	2
Boston Trade for Girls.....	1

Enrollment

The membership by age and grade as of October first is given on another page.

Health

The report of the sixth year of the Dental Clinic under the auspices of the Dental Clinic Committee will be found in the report of the School Nurse.

Under a rule of the Committee only pasteurized milk is served in the schools and the dealer from whom it is purchased is designated by the Committee.

The distribution of cocoa during cold weather to all pupils who wish it is made possible through the Cocoa Fund established by contributions from pupils, parents, and organizations in the Town. In order that the public may know whence this money comes and how it is expended I am including a statement of such receipts and expenditures as a part of this report.

Diphtheria toxin-anti-toxin was administered by the School Physician during the Fall Term to seventy children including eleven of pre-school age.

The physical examination required by law was also completed early in the term by Doctor Wood, the School Physician.

Tests of sight and hearing were made as usual and where necessary notices of defects were sent to parents.

Of General Interest

During the summer of 1930 the Center School was painted outside and completely redecorated inside.

Following the recommendation made last year that the class rooms be refurnished, grades three and four are now equipped with modern school furniture.

Five new exit doors were installed during the summer.

At the close of school in June the first award of the deCordova Medal was made to the following pupils, John Algeo, Helen Farrar, Charles Copeland, and Jane Lennon. This award was established by a gift from Mr. Julian de Cordova and is to be given annually to one boy and one girl in the Junior High School and to one boy and one girl in grades five and six, who in the opinion of the teachers and Superintendent maintain certain standards of scholarship and school citizenship.

The following pupils won awards in a state-wide poster contest sponsored by the Massachusetts Society for the Prevention of Cruelty to Animals:

Second Prize Medals—Dorothea Veinot	Grade 9
Jane Lennon	Grade 6
Honorable Mention—Elizabeth Jackman	Grade 7
Leonard Rooney	Grade 8
Anna Buchanan	Grade 9

The Class of 1929 gave a fund of \$53.23 to the school for the purchase of books. Fifty-one volumes of fiction, travel, history, have been purchased and there is an unexpended balance of \$2.34.

The maximum salary for teachers was raised one hundred dollars to become effective September, 1930.

We are now sending to parents cards warning of unsatisfactory work on the part of pupils at intervals between the regular marking periods. These cards are followed by conferences between the teachers and the pupils, the Superintendent and pupils, and in many cases with the parents. Gratifying results have been attained in closer cooperation between the home and the school and in better work from the pupil.

Of the sixteen pupils graduated from the Junior High School in June all but one entered high school in September.

Attendance has been very regular, particularly since the beginning of the Fall term. Cases of tardiness and dismissal have been greatly reduced and we hope to have both of these evils cut to a minimum by the close of the present school year. It may be noted here that a rule of the Committee forbids dismissal except in case of emergency.

During the Spring vacation four rooms were equipped with new window shades.

No extensive repairs were made to the South School but a new bulkhead was built and the blackboards were refinished. The Committee also authorized the erection of a chain link fence to replace the wooden one partially destroyed by fire.

Your Committee is respectfully urged to give careful consideration to the following recommendations.

Your budget for the year 1931 should contain a special appropriation to be expended for extensive repairs to the South School if no definite action is taken by the Town for the erection of another school unit.

The refurnishing policy you have inaugurated should be continued during the year, when at least two more rooms should be refurnished.

A start should be made in refinishing the blackboards in the Center School.

A gas range should be installed in the cooking room in place of the coal range used at present.

In any school having one room and one teacher for each grade there must of necessity be many pupils who could profit by special help. To give this help during regular school hours is difficult no matter how skillful the teacher may be. This condition is aggravated by the fact that as many of our pupils are transported, "after-school" help is next to impossible except in the higher grades. To aid in overcoming this handicap I recommend the election of another teacher to give such help to pupils.

May I again express my appreciation of the cooperation given to me during the year by your Committee, the teachers, pupils, and parents.

Respectfully submitted,

CARL F. HOLLORAN,

Superintendent of Schools.

ANNUAL REPORT OF SCHOOL NURSE

To the Lincoln School Committee:

A report of the school nursing for the year ending December 31, 1930, is hereby submitted.

The schools have been visited daily. 812 office calls of pupils treated or advised, 241 home visits made and 43 trips to hospitals, etc. 27 pupils have been taken home from school owing to illness.

We had 9 cases of Measles, 2 cases of Scarlet Fever, 58 cases of Chicken Pox and 1 case of Mumps, from January 1st to the closing of school in June. From September to December 31st we were entirely free from any communicable diseases.

The Lincoln Dental Committee began their annual clinic at the Center School December 6, 1929, working 2 days a week until April 18, 1930. Mrs. Robert G. Loring is Chairman of the Committee, and Dr. William L. Cosgrove, a graduate of the Harvard Dental School, was the dentist in charge. The Clinic took care of 112 pupils, making 84 cleanings, 60 extractions and 337 fillings. Of the 230 pupils in the school 65% have had all dental defects corrected; this is an improvement of 15% over last year. 48.7% of the 65% were done by the Dental Clinic and 16% by family dentists.

Dr. David Zacks of the State Department made a follow-up on the Underweight Clinic on February 21, 1930, discharging the two cases carried from last year.

The teachers carried on a very interesting program for Health Week, April 29—May 2. Making milk bottles for height and weight records, daily checking on hours of sleep, play, etc., talks on health habits, considering proper foods, using health mottoes for penmanship, dramatizing health

stories and many other interesting things. The following percents are the results of the Mouth Campaign as of May 1, 1930: Grade IV, 71%; III, 68%; II, 59%; I, 58%; IX, 56%; V, 47%; VI, 46%; VII, 35%; VIII, 24%.

The physical examination was conducted by Dr. Wood in September. The number of children examined was 233. Dr. Wood found 16 had mucous membranes below normal in color—meaning a slight anaemic condition, 26 had poor posture, 2 had pediculosis, 6 had nits, 39 defective teeth, 58 defective tonsils—(31 needing advice from the family physician), 21 symptoms of adenoids, 32 hypertrophied glands, 3 deformities (under treatment), 1 hernia, 2 nervous affections, 1 doubtful thyroid gland, 2 heart defects, 26 10% or more underweight.

The Board of Health, acting in conjunction with the School Committee, authorized the holding of a Diphtheria Prevention Clinic. Dr. Wood, the school physician, did the work. The clinic was held November 5th, 12th and 19th. 70 children were treated, of whom 11 were pre-school.

5 lessons in First Aid were given to one of the Girl Scout troops.

During the year I assisted Dr. Wood with the physical examination of all pupils, sent out the notifications and did the necessary follow up work. Weighed and measured all pupils four times during the year. Re-admitted pupils after Contagious Diseases and other routine procedure.

39 days were spent in Sudbury.

Respectfully submitted,

DOROTHY R. SNELLING, R. N.

January 26, 1931.

NOTICE:

Business Meeting, Monday, March 2, at 7:30 P. M.

WARRANT

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, ss.

To either of the Constables of the Town of Lincoln in said
County: GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify the legal voters of said Town of Lincoln, qualified to vote in Town Meeting for the transaction of Town affairs, to meet in the Town Hall in said Lincoln on Monday, the second day of March next at 7.30 o'clock P. M., then and there to act on all of the following Articles, except Article 2, and also to meet in said Town Hall on Saturday, the 7th day of March next, at 12 o'clock Noon, then and there to act on the following Article 2, by posting a copy of this Warrant, by you attested, in each of the Post Offices and in some other public place in said Town seven days at least before the second day of March next:

The polls for voting the Australian ballot on Saturday, March 7th, will be open at 12.00 o'clock Noon, and may be closed at 6.30 o'clock P. M.

ARTICLE 1. To choose a Moderator.

ART. 2. To bring in their votes for the following Town Officers and any other Officers required by law, to be elected by Australian Ballot, viz.:

One Town Clerk for one year.

One member of the Board of Selectmen for three years.

One member of the Board of Assessors for three years.

One member of the Board of Health for three years.

One Treasurer for one year.

One Collector for one year.

One Auditor for one year.

Two Constables for one year.

One Tree Warden for one year.

One member of the Sinking and Trust Fund Commissioners for three years.

One member of the Trustees for Free Public Lectures for three years.

One member of the School Committee for three years.

One member of the Board of Water Commissioners for three years.

One member of the Board of Cemetery Commissioners for three years.

Also to vote "Yes" or "No" on the following question:

"Shall licenses be granted for the sale of non-intoxicating beverages in this Town?"

ART. 3. To bring in their votes for any committees, commissioners, trustees and other officers, required by law to be elected by ballot or otherwise.

ART. 4. To hear and act upon the reports of Town Officers, Committees, Commissioners and Trustees.

ART. 5. To appropriate money for the necessary and expedient purposes of the Town and enact anything in relation to the same.

ART. 6. To determine the manner of collecting taxes for the ensuing year.

ART. 7. To determine the compensation of the Collector of Taxes for the ensuing year.

ART. 8. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the financial year beginning January 1, 1931, and to issue a note or notes therefor, payable within one year, any debt or debts incurred under this vote to be paid from the revenue of the financial year beginning January 1, 1931.

ART. 9. To see if the Town will vote to raise and appropriate the sum of \$25, or some other amount, and elect a director, the money to be spent in the Town in the furtherance of and the director to serve in cooperation with the Middlesex County Trustees for County Aid to Agriculture in the work of the Middlesex County Extension Service,

under the provisions of Section 40-45, Chapter 128, General Laws of Massachusetts.

ART. 10. To see if the Town will accept the funds for perpetual care of cemetery lots left by the following persons:

Orille J. Flint	\$300.00	Ellen F. Whitney	\$100.00
Samuel Hartwell	300.00	E. H. Rogers	250.00
Annie A. Ray	300.00	Ellen T. Trask	200.00
John H. Peirce	500.00	Thomas Huddleston	200.00
Marie L. Thompson	500.00	Joa Pacewicz	400.00
Geo. F. Harrington	100.00	Mary S. Rice	87.27
Francis Flint	250.00	Julia A. Bemis	300.00
Wm. W. Benjamin	500.00	Donald Gordon	300.00
Abija Jones	300.00	Elizabeth G. Chapin	300.00

ART. 11. To see if the Town of Lincoln will provide Fifty Dollars for the decorating of the Soldiers' Graves on Memorial Day.

ART. 12. To hear and act upon the report of the Special Committee on matters pertaining to the Schools and School House Accommodations.

ART. 13. To see if the Town will take any action in regard to the erection of a new school building or in regard to providing additional school accommodations and appropriate any money therefor.

ART. 14. To see if the Town will instruct the Selectmen to do what they can, with the aid of expert advice, to correct the dangerous traffic conditions at the Centre, having particularly in mind: first, the danger from cars driving at high speed from Sandy Pond Road across Station Road; second, the danger of cars running into the watering-trough on misty nights; third, the danger from cars stopping at the

corner to inquire the way, because of lack of sign-boards. And to see if the Town will appropriate one hundred dollars therefor.

ART. 15. To see if the Town will take any action toward the installation of a fire alarm system, appropriate any money or act anything in relation to this article.

ART. 16. To see if the Town will appoint a committee to prepare a plan for the development of the John H. Pierce land as a park and also prepare a plan for the control and routing of traffic at Lincoln Center, these plans to be submitted to the Town at a future Town Meeting, or take any action relative thereto.

HEREOF FAIL NOT

And make due return of this WARRANT with your doings thereon to the Town Clerk at or before the time for the meeting aforesaid.

Given under our hands this 9th day of February in the year of our Lord one thousand nine hundred and thirty-one.

C. LEE TODD,
ROBERT D. DONALDSON,
HERBERT G. FARRAR,
Selectmen of Lincoln.

TOWN CLERK'S REPORT

Proceedings of a Town Meeting held
March 2, 1931

WARRANT

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, ss.

To either of the Constables of the Town of Lincoln in said
County: GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify the legal voters of said Town of Lincoln, qualified to vote in Town Meeting for the transaction of Town affairs, to meet in the Town Hall in said Lincoln on Monday, the second day of March next, at 7.30 o'clock P. M., then and there to act on all the following Articles, except Article 2, and also to meet in said Town Hall on Saturday the 7th day of March next, at 12 o'clock Noon, then and there to act on the following Article 2, by posting a copy of this Warrant, by you attested, in each of the Post Offices and in some other public place in said Town, seven days, at least, before the second day of March next. The Polls for voting the Australian Ballot on Saturday, March 7th, will be open at 12 o'clock Noon and may be closed at 6.30 P. M.

ARTICLE 1. To Choose a Moderator.

ART. 2. To bring in their votes for the following Town Officers, and any other officers required by law, to be elected by Australian Ballot, viz.:

One Town Clerk for one year.

One member of the Board of Selectmen for three years.

One member of the Board of Assessors for three years.

One member of the Board of Health for three years.

One Treasurer for one year.

One Collector for one year.

One Auditor for one year.

Two Constables for one year.

One Tree Warden for one year.

One member of the Sinking and Trust Fund Commissioners for three years.

One member of the Trustees for Free Public Lectures for three years.

One member of the School Committee for three years.

One member of the Board of Water Commissioners for three years.

One member of the Board of Cemetery Commissioners for three years.

ART. 3. To bring in their votes for any Committees, Commissions, Trustees or other Officers, required by law, to be elected by ballot or otherwise.

ART. 4. To hear and act on the reports of Town Officers, Committees, Commissions, and Trustees.

ART. 5. To appropriate money for the necessary and expedient purposes of the Town, and exact anything in relation to the same.

ART. 6. To determine the manner of collecting taxes for the ensuing year.

ART. 7. To determine the compensation of the Collector for the ensuing year.

ART. 8. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the financial year beginning January 1, 1931, and to issue a note or notes therefor, payable within one year, and any debt or debts incurred under this vote to be paid from the revenue of the financial year beginning January 1, 1931.

ART. 9. To see if the Town will vote to raise and appropriate the sum of \$25.00 and elect a Director, the money to be spent in the Town in the furtherance of and the Director to serve in co-operation with the Middlesex County Trustees for County Aid to Agriculture in the work of the Middlesex County Extension Service, and the Provisions of Sections 40-45, Chapter 128, General Laws of Massachusetts.

ART. 10. To see if the Town will accept the funds for perpetual care of Cemetery lots left by the following persons:

Orville J. Flint	\$300.00	Ellen F. Whitney	\$100.00
Samuel Hartwell	300.00	E. H. Rogers	250.00
Annie A. Ray	300.00	Ellen T. Trask	200.00
John H. Pierce	500.00	Thomas Huddleston	200.00
Marie L. Thompson	500.00	Joa Pacewicz	400.00
George F. Harrington	100.00	Mary S. Rice	87.27
Francis Flint	250.00	Julia A. Bemis	300.00
William W. Benjamin	500.00	Donald Gordon	300.00
Abija Jones	300.00	Elizabeth G. Chapin	300.00

ART. 11. To see if the Town will provide Fifty Dollars for the Decorating of the Soldiers' Graves on Memorial Day.

ART. 12. To hear and act upon the report of the Special Committee on matters pertaining to the Schools and School House Accommodations.

ART. 13. To see if the Town will take any action in regard to the erection of a new school building, or in regard to providing additional school accommodations and appropriate any money therefor.

ART. 14. To see if the Town will instruct the Selectmen to do what they can, with the aid of expert advice, to correct the dangerous traffic conditions at the Center, having particularly in mind, first: the danger from cars driving at high speed from Sandy Pond Road across Station Road; second, the danger of cars running into the watering troughs on misty nights; third, the danger from cars stopping at the corner to inquire the way, because of lack of sign-boards, and to see if the Town will appropriate one hundred dollars therefor.

ART. 15. To see if the Town will take any action towards the installation of a Fire Alarm System, appropriate any money or act anything in relation to this Article.

ART. 16. To see if the Town will appoint a Committee to prepare a plan for the development of the John H. Pierce land as a park, and also a plan for the control and routing of traffic at Lincoln Center, these plans to be submitted to the Town at a future Town Meeting or take any action relative thereto.

HEREOF FAIL NOT

And make due return of this Warrant with your doings thereof to the Town Clerk, before the time of the meeting aforesaid.

Given under our hands this 9th day of February in the year of our Lord one thousand nine hundred and thirty-one.

(Signed) C. LEE TODD,
ROBERT D. DONALDSON,
HERBERT G. FARRAR,
Selectmen of Lincoln.

On the reverse of the above Warrant is the following:

I have served this Warrant by posting an attested copy in each of the Post Offices and one at the Railroad Station seven days before date of said meeting.

(Signed) JOHN J. KELLIHER,
Constable.

In accordance with the provisions of the foregoing Warrant the Annual Town Meeting was held at the time and place specified and the following business was transacted:

ARTICLE 1. F. Winchester Denio was elected Moderator.

ART. 3. Under this Article the following officers were elected:

Field Drivers.—

John E. Smith
Edmund W. Giles

Fence Viewers.—

Elmer A. Rollins
James Corrigan

Surveyor of Lumber.—

Elmer A. Rollins

Measurer of Wood and Bark.—

Charles E. Woodhull
Hermon T. Wheeler

Trustees of Grammar School.—

F. Winchester Denio
Conrad P. Hatheway

ART. 4. Voted to accept all reports except the reports of the Water Commissioners and the Town Auditor.

Voted to accept the Report of the Water Commissioners.

Voted to accept the Auditor's Report.

ART. 4. Voted to accept the Reports of the Town Officers as printed in the Town Report.

ART. 5. Under this Article the following amounts were appropriated:

For Schools	\$37,500.00
“ Vocational Education	1,200.00
“ Public Welfare	1,600.00
“ Highways and Bridges	19,500.00
“ Highways a/c Maintenance Chapter 90, Roads	1,000.00
“ Cemeteries	800.00
“ Library and Dog Tax	1,000.00
“ Board of Health	2,000.00
“ Tree Warden	1,000.00
“ Moth Work	500.00
“ Miscellaneous Expenses	1,800.00
“ Hydrants and other Water Service	1,980.00
“ Waltham Hospital Free Bed	400.00
“ Street Lights	2,800.00
“ Fire Department	1,200.00
“ Middlesex Extension Service	25.00
“ Interest on Town Loans	2,100.00
“ Water Works	9,635.00
“ Veterans' Aid	300.00
“ Police Department	2,000.00
“ Town Hall Expenses a/c	1,850.00
“ Town Officers Salaries a/c	3,050.00
“ Repairs to South School House not exceeding	1,800.00
“ Correcting Traffic Conditions at the Center	100.00

Voted that the sum of \$9,635.00 be taken from the Water Works Treasury.

Voted that of the sum of \$19,500.00 appropriated for Highways and Bridges, \$4,000.00 be used with like amounts appropriated by the State and County for resurfacing the Cambridge Turnpike in Lincoln, and \$1,200.00 of the said \$19,500.00 to be expended also with like amounts from the State and County for the rebuilding of the approach to the Lincoln end of Lee's Bridge.

ART. 6. Voted that the Taxes for 1931 be collected in the same manner as last year.

ART. 7. Voted that the compensation of the Collector of Taxes be one and one-half of one per cent of the amount collected.

ART. 8. Voted that the Treasurer be authorized, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the financial year, beginning January 1, 1931, and to issue a note or notes therefor, payable in one year, any debt or debts incurred under this vote to be paid from the revenue of the financial year beginning January 1, 1931.

ART. 9. Voted to appropriate the sum of \$25.00 to be spent in the Town in the furtherance of the work of the Middlesex County Extension Service under the provisions of Sections 40-45, Chapter 128, General Laws of Massachusetts.

ART. 10. Voted to accept the Funds for the perpetual care of Cemetery Lots left by the persons named in this Article.

ART. 11. Voted to pass over this Article.

Voted to take up Article 4.

ART. 4. Voted that the Report of the Committee on a Town Forest be accepted and placed on file.

Voted to take up Articles 12 and 13 together.

ART. 12 and ART. 13. Under these Articles a motion was made that that part of the Report of the Special Committee on Schools and School House Accommodations, and signed by Mrs. Guilbert Winchell, Roland C. MacKenzie and Anthony J. Doherty be accepted and that the sum of \$800.00 be appropriated to be used by a Committee consisting of Robert Donaldson, Jr., Dr. Edwards W. Herman, Richard K. Conant, Anthony J. Doherty and Mrs. Donald Macomber, to procure the necessary plans and estimates for a School Building and the development of a playground and report their recommendations at a future Special Town Meeting. This motion was lost by a vote of 84 yeas to 138 no's.

Voted that all Reports of the Committee on Schools under Articles 12 and 13 be received and the Committee be discharged.

ART. 14. Voted that the Selectmen be instructed to do what they can immediately, with the aid of expert advice, to correct the dangerous traffic conditions at the Center, that \$100.00 be appropriated therefor and that this action shall not stand in the way of a more thorough and permanent working out of the whole problem, as proposed in Article 16. Voted that the above sum of \$100.00 be taken from the Treasury.

ART. 15. Voted that the Fire Engineers investigate the subject of Fire Alarm, its cost, etc., and report at a future Town Meeting.

ART. 5. Article 5 was here taken up and it was voted to appropriate a sum not exceeding \$1,800.00 for repairs to the South School House. Voted that the above sum be taken from the Treasury.

ART. 16. Voted that a Committee be appointed to prepare a plan for the development of the John H. Pierce land as a Park and also a plan for the control and direction of traffic at Lincoln Center, these plans to be submitted to the Town at the next Annual Town Meeting, that the Committee be directed to obtain the approval of the Selectmen for any expenditure in connection with the preparation of the plan for the Park, and that the sum of \$100.00 be appropriated for any expenditure in connection with the plan for the control of traffic at Lincoln Center, that this Committee be directed to consider future school development in connection with any plan drawn, that the Committee consist of the following:

One member of the Selectmen to be chosen by the Selectmen; one member of the School Committee to be chosen by the School Committee, and Mr. Albert S. Graves, Mr. Frank E. White, and Mrs. John Adams. Voted that the above sum of \$100.00 be taken from the Treasury.

Voted to adjourn.

EXTRACT FROM THE REVISED LAWS CHAP. 29
AS AMENDED BY CHAP. 280, ACTS OF 1912

Sect. 6. Parents within forty days after the birth of a child and every householder within forty days after the birth of a child in his house shall cause notice thereof to be given.

Sect. 8. A parent, keeper, superintendent or other person who is required by Section 6 to give or cause to be given notice of a birth or death who neglects so to do for ten days after the time limited therefor, shall forfeit not more than five dollars for such offense.

Licenses

There have been issued for 1931, one Kennel License and 173 Dog Licenses—127 Males, 26 Females, and 20 Spayed Females, for which the County Treasurer has been paid the sum of \$439.20.

There have been issued for 1931, 69 Resident Citizens' Sporting Licenses for which the sum of \$172.50 has been paid to the Division of Fisheries and Game.

WILLIAM H. DAVIS,
Temp. Town Clerk.

JURY LIST FOR 1931

As prepared by the Board of Selectmen.

<i>Name</i>	<i>Address</i>	<i>Occupation</i>
Coburn, Edward S.	So. Lincoln	Farmer
Codman, Thomas N.	So. Lincoln	Retired
Cousins, Harold S.	Lincoln	Farmer

Sherman, Daniel E., Jr.	So. Lincoln	Farmer
Smith Sumner	Lincoln	Farmer
Tarbell, George G.	Lincoln	Farmer
Whitney, Harold P.	Lincoln	Secretary
Woodworth, Lewis W.	So. Lincoln	Farmer

REPORT OF THE SELECTMEN

The Selectmen present the following report for the year ending December 31, 1931:

The Board was organized by the choice of George G. Tarbell, Chairman, and Robert D. Donaldson, Secretary.

The appointments made by the Selectmen are printed with the list of Town officers.

During the past year the Cambridge Turnpike has been resurfaced and widened, the work being done with the aid of the State and County, under the supervision of the Division of Highways. Your Board was somewhat startled to learn, after the contracts for this work had been signed and the work started, that the Department of Public Works was to conduct a survey to determine what route, if any, could be used as a State Highway to supplement the North State Road.

This survey was reported on late in the fall, and recommended the construction of a forty-foot paved highway along the Turnpike. The report and more recently the bill filed in the State Senate includes certain charges to be made against the various towns, Lincoln's share being estimated at \$15,000.00. Your Board believes that highway construction of this nature, where no local benefit accrues, should be paid entirely from funds available to the State from the gasoline tax. To this end your Board has been in communication with the Massachusetts State Association of Selectmen with whom action will be joined to relieve the Town of this charge if possible. It is not thought probable, however, that immediate construction will be started on this highway.

The widening of the approaches to Lee's Bridge was done under contract, and has materially improved the highway at that point. This work was also done with State and County aid.

No State and County aid has been requested for the ensuing year except the usual amount for maintenance of Chapter 90 roads. Your Board feels that the amount normally expended on new construction can well be spent on strictly local roads where help would not be granted under Chapter 90. With this in view your Board has considered a program for work on local roads. The widening and resurfacing of Tower Road; resurfacing with stone of Station Road between Codman Road and South Great Road; widening of Bedford Road between the Turnpike and the North State Road with the resurfacing of this road with stone at a later date; widening and resurfacing of Winter Street and the easterly end of Trapelo Road; the straightening of the dangerous curve on Bedford Road at the foot of the hill south of the Turnpike. All this work could not be accomplished in one year, but your Board recommends that this program be started this year and carried as far as the appropriation will allow.

During the past year white lines were painted on certain of the roads. These lines are of great help in the regulation of traffic, particularly on the S curve west of Bent's corner on the South Great Road. The lines are difficult to maintain properly on roads which are not surfaced with stone, as the necessary oiling and sanding preclude the painting until after that work has been done and until the oil and gravel have become bound into the road surface.

It is the belief of the Board that the Highway Department of the Town should be motorized as soon as the horses of the Department give out or can be disposed of to

advantage. The loss of time from horse-drawn equipment is not economical in this day of reliable motor transportation.

The grade crossing over the Boston & Maine tracks of the South Great Road will probably not be undertaken this year, according to the last advices from the Department of Public Works. During the summer a traffic count was taken by registration number at this crossing to determine the percentage of Lincoln cars travelling over the highway at this point. The Sunday count was 1.14%, the week-day count 3.62%, and the average was 1.62% Lincoln traffic. These figures were presented to the Commissioner of Public Works at a hearing to determine Lincoln's share of the cost of the project. Under the law authorizing the grade crossing, Lincoln will be charged a maximum of ten per cent down to a minimum of five per cent of the total which is estimated to be \$150,000.00. No order has been handed down as yet, but it is hoped that the Commissioner will see from the figures presented, the justice of making the minimum assessment against Lincoln.

During the past year the exterior trim of the Town Hall has been painted. The walls of the upper hall are in need of refinishing and a new curtain for the stage should be installed. It would, in the opinion of the Board, be advisable to provide at the same time for an asbestos curtain. These repairs are recommended.

The lines between the Towns of Wayland and Lincoln, and also between Waltham and Lincoln have been perambulated this year in accordance with statutory requirements.

The Treasurer reports a balance of \$17,124.42. The Collector of Taxes reports total uncollected taxes of \$20,735.35.

From this total of \$37,859.77 must be taken a \$20,000.00 anticipation note and the overlay accounts of \$2,922.83 leaving net assets of \$14,936.94 of which \$11,503.01 is free cash. It is fortunate that the Town enters the new year in such a sound financial condition. Extraordinary expenditures face us. A special tax of \$5,900.01 is the Town's share of the cost of the County sanatorium, insurance premiums due amount to \$2,269.12. The future holds a probable charge of fifteen thousand dollars for the State highway and another tax of from seventy-five hundred dollars to fifteen thousand dollars for the grade crossing. The Commissioner of Corporations and Taxation advises that receipts from the income tax will be about twenty per cent less for the ensuing year while the State tax will be more. Our local valuation increased materially last year due almost entirely to the addition of the public service pipes and conduits for which the valuation increase was \$115,478. No such increase can be expected this year or in the near future. Building is at a standstill and there are more houses in Lincoln for sale than the market can absorb. We should not gamble on an increased valuation. Your Board has pared its budget to the minimum consistent with the proper administration of the affairs of the Town, and urges that all recommendations for the expenditure of money be carefully scrutinized and that the Town appropriate only for those things which are essential.

Table giving the appropriations made by the Town during the year 1931 and the appropriations recommended by the Board to be made at the next Annual Meeting:

	Appropriations for 1931	The Selectmen recommend the following appropriations for the ensuing year
For Schools	\$37,500.00	\$36,500.00
Vocational Education	1,200.00	1,200.00
Public Welfare	1,600.00	1,800.00
Highways and Bridges	19,500.00	19,500.00
Highways a/c Maintenance of Chap- ter 90, Roads	1,000.00	1,200.00
Cemeteries	800.00	600.00
Library and Dog Tax	1,000.00	1,794.39
Board of Health	2,000.00	2,000.00
Tree Warden	1,000.00	1,000.00
Moth Work	500.00	500.00
Miscellaneous Expenses	1,800.00	1,600.00
Hydrants and other Water Service	1,980.00	2,070.00
Waltham Hospital Free Bed	400.00	400.00
Street Lights	2,800.00	3,000.00
Fire Department	1,200.00	1,400.00
Middlesex Extension Service	25.00	0
Interest on Town Loans	2,100.00	2,000.00
Water Works	9,635.00	7,535.00
Veterans' Aid	300.00	340.00
Police Dept.	2,000.00	2,000.00
Town Hall, Expense a/c	1,850.00	3,450.00
Town Officers' Salary a/c*	3,050.00	3,575.00
\$100, 1931; * Clerk \$350, Inspector of Animals \$100, 1932; Assessors—Chairman \$175, Clerk \$200, other member \$150, Auditor \$150, Fire Engineers \$25 each, Selectmen \$200 each, Treasurer \$300, Registrars \$25 each, Collector of Taxes 1½% on amount collected, estimated \$1,200.		
Insurance		2,269.12
Center Traffic Signs	100.00	0
Center Traffic Survey	100.00	0
Repairs on So. School	1,800.00	0
Election Expenses	0	175.00
Reserve Fund	0	1,000.00

Respectfully submitted,

GEORGE G. TARBELL
 ROBERT D. DONALDSON
 HERBERT G. FARRAR

ASSESSORS' REPORT

The Board of Assessors submit the following report:

Number of persons, partnerships, and corporations assessed on property	410
Number of polls assessed	471
“ “ acres of land assessed	8,654 $\frac{5}{8}$
“ “ dwelling-houses assessed	383
“ “ horses assessed	118
“ “ cows assessed	372
“ “ sheep assessed	15
“ “ neat cattle, other than cows assessed	93
“ “ swine assessed	3,182

REPORT OF THE TEMPORARY COLLECTOR OF TAXES

I hereby submit amounts of unpaid taxes as of December 31, 1931:

\$17,301.42 for the 1931 assessment.

3,209.81 for the 1930 assessment.

224.12 for the 1929 assessment.

Subsequent to this report all the 1929 taxes have been paid.

Action will be started immediately to insure the collection of all the outstanding 1930 taxes in the near future.

JOHN P. HOWARD,

Temporary Collector.

TREASURER'S REPORT

The receipts and expenditures for the year 1931 have been as follows:

AUDITOR'S REPORT

I hereby submit a report of all money paid out by the Town Treasurer on order of the Selectmen of Lincoln.

I have examined the books and accounts of the officers entrusted with the receipt, custody, or expenditure of money and find that the reports of these officers to the Town are correct. I have verified the cash balance of each of such officers by reconciliation of bank balances and count of cash.

JAMES W. LENNON,
Auditor.

Sworn to before me this 1st day of February, 1932.

HENRY A. GRIMWOOD,
Justice of the Peace.

REPORT OF THE SUPERINTENDENT OF STREETS

To the Board of Selectmen :

I herewith submit the following report for the year ending December 31, 1931:

Last winter there were a number of snow and ice storms which caused icy roads, which had to be covered with sand almost every day in January and February.

In March the truck and teams hauled sand most of the time getting ready for spring work, also worked on ledge at the end of Tower Road.

In April we patched most of the roads and scraped out the gutters where needed.

The months of May, June and July were spent in putting out oil and tarvia on most of the roads and teaming sand for covering the same.

In August we started work on the Turnpike, cutting brush and widening out the road. We worked there most of the time up to December 31st, except when patching and doing other necessary work. The Turnpike is in good condition now and with very little expense should last a good many years.

The work at Lee's Bridge was done by outside labor as it was mostly mason work. The road was built by contract under the supervision of the State and County.

The Highway Department is in about the same condition as last year.

Respectfully submitted,

WILLIAM H. SHERMAN

REPORT OF WATER COMMISSIONERS

The Water Commissioners respectfully submit the following report:

The work laid out for the past year was completed for a figure \$452.00 less than the amount of the budget. The Board has no plans for any important extensions or renewals for the coming year, and considers the whole plant in good running order after the pumping station is painted, and after the blue prints of the recent changes in the pipe lines and services have been made.

87,000,000 gallons were pumped at a cost of \$28.74 per million gallons, figured on salary and power expenses.

The Board has estimated its budget for the coming year and recommends that the Town vote the appropriation:

Power	\$2,000
Salaries	825
Interest	1,410
Repairs and Renewals	700
Sinking Fund	800
Insurance	150
Miscellaneous	1,000
Venturi Recording Meter	650

Respectfully submitted,

SUMNER SMITH
JOHN J. KELLIHER
ROBERT R. HUNTER

Statistics Relating to Distribution System

Mains

1. Renewed during the year, 1,460 ft. 6 in. pipe.
2. Discontinued during the year, none.
3. Total now in use, 27,969 miles.
4. Number of hydrants added during the year, 2.
5. Number of hydrants replaced, 4.
6. Number of hydrants (public and private) now in use, 138.
7. Number of stop-gates renewed, none. Number of stop-gates added during the year, 0.
8. Number of stop-gates now in use, 157.
9. Number of blow-offs, 31.
10. Range of pressure on mains, 40 pounds to 100 pounds.

Services

11. Renewed, 9. Discontinued, 0.
12. Number of service taps added during the year, 2.
13. Number now in use, 417.
14. Meters now in use, 14.

	E. RUSSELL DAVIS, <i>Treasurer.</i>

REPORT OF BOARD OF HEALTH

The Board met for organization on March 28, 1932, and elected Dr. Mackenzie as Chairman and Mr. Conant as Secretary. Mrs. Dorothy Snelling was reappointed as Agent and Dr. Frank McGlinchey as Milk Inspector. Mr. J. J. Kelliher was renominated as Inspector of Slaughtering.

Communicable diseases have been relatively infrequent during the year and at no time were present in epidemic proportions. Those reported to the Board follow:

Anterior Poliomyelitis	1
Chicken Pox	3
Dog Bite (1 by Rabid dog)	5
Lobar Pneumonia	1
Measles	1
Mumps	6
Whooping Cough	1
Gonorrhea	2

39 visits were made by the nurse for the Board of Health. Again this year the Board has co-operated with the School Board in making available Toxin-anti toxin for diphtheria prevention in children of pre-school and school age. We believe the total absence for several years of diphtheria among the children justifies the continuance of this preventative measure.

After inspection of the premises, licenses to retail Milk were granted to the following: DeNormandie Farm, Higginson Farm, Glendale Farm, Woodridge Farm, H. L. Stone, Floyd Verrill, Whitcomb Farms, A. Daonsky, G. P. Kimball, E. R. Haines, Gayer Lunch, A. E. Fernald. One pasteurizing plant was inspected and relicensed.

47 samples of milk taken from dealers have been analyzed and in general found good. Samples have been taken frequently enough to fairly average the results and so the following are published:

<i>Average of</i>				<i>Fats</i>	<i>Solids</i>	<i>Bact. per c.c.</i>
8 samples	Raw Milk	DeNormandie		4.59	13.45	99,230
8	"	"	Higginson	3.92	12.75	226,200
8	"	"	Glendale	3.93	12.70	176,850
5	"	"	Grasslands	3.98	12.59	33,800
8	Pasteur. Milk	Woodridge		4.63	13.39	11,170
4	"	"	Glendale	3.85	12.67	14,250
6	"	"	H.L.Stone	3.86	12.44	15,584

Permits to sell Denatured Alcohol were given to Doherty Garage, Rice Garage, Reed & Burns, and Haynes Garage.

Permits to keep Swine until May 1, 1932, were given the following:

Boyce Brothers	100	swine
Albert S. Brooks	50	"
Charles R. Butcher	44	"
Edward S. Coburn	70	"
John N. Connors	600	"
Nicholas Cotoni	50	"
Dominichello & Son	50	"
Prescott L. Davis	105	"
Louis W. Dean	500	"
Albert W. Hanlon	400	"
John E. MacHugh	50	"
Cornelius Shea	500	"
Manuel Silva	500	"
John Wilson	70	"
Fred Pimental	50	"

All piggeries were inspected several times during the year and in general there has been co-operation with the Board in correcting objectionable features.

It has been possible to keep within the budget allowance for the year; and furthermore, as the receipts have somewhat exceeded the estimates made at the beginning of the year, the net cost to the Town of health activities has been somewhat less than the \$1,000 raised by taxation. It is recommended that the appropriation for 1932 be \$2,000 as in 1931.

ROLAND C. MacKENZIE
RICHARD CONANT
ROBERT D. DONALDSON

REPORT OF THE CEMETERY COMMISSIONERS FOR THE YEAR 1931

During the year 1931 our three cemeteries have been given the usual careful attention. The high hedge around the Arbor Vitae Cemetery has been trimmed; the new roads in the addition to the New Cemetery have been laid out, the loam removed, and the gravel surface will be added this spring. Considerable brush has been cut on the north line of the New Cemetery.

For general care of all our cemeteries during 1932 and for additional work on the roads in the new addition the Commissioners ask for an appropriation of \$600.

EDWARD F. FLINT
FRITZ CUNNERT
H. P. WHITNEY

REPORT OF FIRE DEPARTMENT

South Lincoln, Mass.,
January 31, 1932.

To the Board of Selectmen:

The Board of Fire Engineers herewith submit their twenty-fourth Annual Report ending December, 1931:

FORCE

The Fire Department consists of the following: one chief, six engineers, and nineteen call men.

APPARATUS

The Apparatus belonging to the Department is as follows: One 600-gallon pump, two combination trucks, twenty-seven extinguishers, eight ladders and 2,000 feet of hose.

LOCATION OF APPARATUS

Pump and Number 2 Combination Truck at Doherty's Garage, South Lincoln, and Number 3 Combination Truck at T. J. Dee's, North Lincoln.

FIRES

Sixty-seven alarms have been answered. Pump and Number 2 Combination Truck responded to five chimney, forty grass and wood, three auto, five building, and four calls out of town.

Number 3 Combination Truck responded to thirteen forest and grass, one motor-cycle.

LOSS \$4,500

It is the opinion of the Fire Engineers that a fire alarm signal should be installed.

Very truly,

M. H. DOHERTY, *Chief*

T. J. DEE

J. J. KELLIHER

H. G. FARRAR

A. J. DOHERTY, JR.

H. S. COUSINS

SUMNER SMITH

TREE WARDEN'S REPORT

The Tree Warden submits a brief report for the year ending December 31, 1931:

The work of the department has been carried on as in former years, removing dead trees, dead limbs, and limbs obstructing the highways, and also the cutting of brush and thinning on the roadsides on several of the roads was done this year, where it interfered with public travel. As we have a good many miles of very narrow roads in Lincoln, our work cannot be confined to any one section, but we do try to keep our highways passable and safe for the general public.

The scarcity of the Elm Leaf Beetle has been quite noticeable the past several years; however, the punctured leaves on elm trees in one or two places in Town indicate their presence again. Spraying with arsenate of lead as soon as there is foliage enough on the trees to hold the poison generally takes care of the Beetle before he does a great deal of damage.

The method used in handling the Gypsy Moth was practically the same as in past years—creosoting the egg-clusters on trees along the roadsides and omitting again this year the spraying; however, in some parts of the Town we found a slight increase in the number of egg-clusters in woodland from that of last year.

The total expenditure of this Department for 1931 is \$1,394.25. I recommend that \$1,000 be appropriated for Tree Work and \$500 for Moth Work this year.

Respectfully submitted,

JOHN J. KELLIHER.

REPORT OF THE COMMITTEE ON THE PUBLIC HEALTH NURSE

To the Board of Selectmen:

A brief summary of nursing work in Lincoln during the past year is hereby submitted. The total number of district calls made is 512, divided as follows: Medical 223, surgical 173, child welfare 72, maternity 44. Board of Health work and social service work have required 82 visits. School work has been carried on as usual, and 41 days have been spent in Sudbury.

The appropriation asked for by the Board of Health includes, as it did last year, an amount sufficient to cover the cost of the nursing project during the current year.

Respectfully submitted,

EDITH B. FARRAR
ROLAND C. MacKENZIE
R. D. DONALDSON

REPORT OF INSPECTOR OF ANIMALS FOR 1931

To the Board of Selectmen:

I have examined 51 barns, and found 402 cows, 102 young cattle, and 23 bulls. Many of the dairy barns have been recently whitewashed, which gives them a clean, healthy appearance. Ten herds are under State and Federal supervision, and application for the necessary tests have been made by many other owners. I found 22 sheep, 1 goat, and 8,766 swine, an increase of 3,334 over last year.

Dogs have caused more trouble the past year than in previous years. One dog came into Lincoln from the Wayland district, and, after killing and biting several of our dogs, was destroyed through the prompt action of Mrs. Ella Seeckts and Thomas T. Giles. The head of the animal was sent to Boston and the examination proved the dog to be a victim of rabies.

The law reads that every owner or keeper of a dog three months old, or over, shall cause the same to be licensed on or before April first of each year. Said dog shall wear a collar bearing the owner's name and a tag with a number corresponding to the number of the license. If this law were strictly complied with, dog troubles would be greatly lessened.

Respectfully submitted,

JOHN F. FARRAR,

Inspector of Animals.

REPORT OF THE MIDDLESEX COUNTY EXTENSION SERVICE

The following is a report of the work done by the Middlesex County Extension Service in the Town of Lincoln during the year 1931:

The farmers of Lincoln have shown a great deal of interest in the work of the Extension Service for the past year, and over thirty farm visits were made upon request. These visits were largely on dairy, poultry and fruit problems. Some time was spent on the question of area testing of Bovine Tuberculosis eradication, the improving of market problems for milk, dairy replacements and forage crops. Spray service cards were sent to fruit growers interested. The Storrow Farm was again successful in producing fruit that was more than 90% clean, and gained recognition in the State as qualified for the 90% Clean Apple Club. A judge was furnished for the fruit show in connection with the Grange fair.

For the homemakers, two groups—namely; North Lincoln and Lincoln Center, carried on a series of meetings, which included discussion on "The Saving of Time, Money and Energy in the Home." This work was carried on under the leadership of Mrs. Hoyt Conary, Miss Sarah Brooks, Mrs. E. H. Davison and Mrs. H. Cousins. In addition, these ladies passed on the information to 150 other homemakers who could not attend the meetings. There was also a group of mothers under the leadership of Mrs. James Powers and Mrs. M. H. Doherty carrying the Child Guidance work. These meetings have been planned to help parents to better understand their children and to develop

a constructive program for children. A talk was given before a group of homemakers on furniture arrangement and judges were furnished for the women's work at the Grange fair.

Seven boys and girls were enrolled in 4-H Club Work, and Mr. H. L. Dean served as Town Chairman. Miss Charlotte Donaldson, Clifford Bowles and Mr. H. S. Cousins served as local leaders. During the year a Town Committee on 4-H Club Work was formed with Mrs. G. Winchell as Chairman, along with Mrs. P. R. Snelling, Garden club leader; Miss Florence Wheeler, Membership Chairman; H. L. Dean, Chairman of Exhibits; George Tarbell, Chairman of Finance; Mrs. Cornelius Shea and Miss Elleana Butcher, North Lincoln representatives; Mrs. George Erickson and Miss Bertha Bowles representatives of South Lincoln; H. S. Cousins, poultry club leader. This Committee decided that there was a need for 4-H Club Work in Lincoln. It is hoped that with the guidance of this Committee club work will be carried on in a much larger way during the coming year.

A series of eight educational motion pictures were given during the year to a total audience of 1,300.

Several townspeople availed themselves of the opportunity of attending county-wide meetings on poultry, fruit growing and dairying, as well as the Homemakers' Day at Lexington and the County Picnic at Wayside Inn.

Respectfully,

SUBMITTED BY THE MIDDLESEX
COUNTY EXTENSION SERVICE.

REPORT OF THE TRUSTEES OF THE LINCOLN LIBRARY

Your Trustees submit on the following pages the reports of the Treasurer and of the Librarian for the year ending December 31, 1931.

It is gratifying to note an increase of forty-three and one-half per cent in the total circulation of books during 1931.

During the past year the juvenile books have been recataloged. This completes the cataloging of fiction and juvenile. Estimates have been obtained on the cost of cataloging the non-fiction. To have this work done by a professional cataloger would cost about one thousand dollars. The Librarian has offered to do it for the sum of six hundred dollars, the cataloging to be spread over a period of three years. The completion of this work will give to the Library a modern system of cataloging and one capable of indefinite expansion. Your Trustees recommend that this be done and have included the sum of two hundred dollars for the year's work in their budget for 1932. In connection with this the non-fiction has been looked over the past year by Miss Jones, Field Adviser for the State Department of Libraries, and the obsolete books, of which there were many, have been withdrawn from the shelves. This was done at no cost to the Town.

For some time the Library fence has been a source of concern to your Trustees. The breaks in the rails and posts have increased so that the Trustees were finally faced with a problem of very large expense of repair or removal. Several architects and landscape architects were consulted, all of them being of the opinion that the Library and the Center would be greatly improved in appearance by the removal of the fence. This course was decided on and the fence removed.

A new central light has been installed in the Librarian's room and lights added along the east shelves in the book room, giving needed and sufficient light in both places.

During the past year the copper valleys on the north and east roofs of the Library have given out, and though temporarily patched should be renewed. The interior walls of the building are in need of refinishing and the floors should be sanded and refinished. Estimates for this work give an outside figure of seven hundred and twenty-five dollars. Your Trustees believe that it is poor economy to allow the buildings of the Town to deteriorate and recommend that this work be done.

Fines and other miscellaneous receipts are turned over to the Town Treasurer. Such receipts should be expended for Library purposes and your Board recommends that they be so appropriated by the Town.

The list of new books added to the Library is to be printed this year on separate leaflets for distribution at the Library. It is hoped that this will prove a convenience to the citizens.

Your Trustees recommend that the sum of seventeen hundred and ninety-four dollars and thirty-nine cents plus the dog tax be appropriated for the year ensuing, the budget being based on the following estimates:

Normal operating expenses and cataloging	
(Plus dog tax)	\$1,000.00
Extraordinary repairs	725.00
Fines and receipts	69.39

ANTHONY J. DOHERTY
JOHN F. FARRAR
C. LEE TODD

Summer Term, begins Monday, April 25, 1932, ends Friday, June 17, 1932; eight weeks.

Fall Term, begins Wednesday, September 7, 1932, ends Friday, December 23, 1932; sixteen weeks.

Mid-Winter Term begins Monday, January 3, 1933.

REPORT OF SCHOOL COMMITTEE

To the Voters of Lincoln:

Your Committee is pleased to report very satisfactory progress on school matters generally. Decided co-operation is shown between superintendent and teachers, and also more active interest by parents in connection with the work of the schools. All of which is decidedly agreeable to your Committee.

Again we wish to record the very pleasing information that during this year, as well as the year previous, no changes were made in our teaching staff, a condition that would naturally imply satisfactory results with the work of this department.

Transportation

It was found necessary during the year to again rearrange some of the bus routes, owing to the fact that some of the busses were carrying loads beyond their capacity. A new route was laid out and an additional bus provided. Also the routes in the north section of the Town demanded certain changes, and with the co-operation of Mr. Dee, in the purchase by him of a new and larger bus, it would appear that suitable and satisfactory service is being maintained in this part of the Town. On the whole the service as now operating, without question gives to the Town transportation facilities equal to that given in any community and far better than that given generally throughout the State.

School Buildings

Your Committee is pleased to state that both our school buildings are now in very good repair. Last year the Center School building was given a thorough renovation

both inside and out. This year, by the expenditure of the special appropriation of \$1,800.00, the South School building and grounds have been greatly improved. There should be no demand other than for very ordinary repairs in connection with these buildings for a period of several years. Also, except for the second grade room at the South School, all the rooms are now equipped with modern school furniture—another item of expense that may be eliminated for some time to come.

Finances

Your Committee, being mindful of present-day conditions and of the burden of higher taxes, with which all communities are being confronted, want in every way to co-operate and to reduce to a minimum its demand for school expenses for the year 1932. Also having in mind that any limitation upon the amount to be appropriated may be safely made without affecting the educational facilities and opportunities offered.

To this extent and upon careful examination of its budget your Committee is able to reduce somewhat its appropriation for general school expenses from that of last year and would recommend the following:

For general school expenses.....	\$36,500.00
For vocational education	1,200.00
	<hr/>
	\$37,700.00

Annexed hereto is a summary of Receipts and Expenditures on account of the schools for the present year. Also Reports of the Superintendent and School Nurse.

Respectfully submitted,

ANTHONY J. DOHERTY
HARRY M. CONDIT, JR.
EDITH B. FARRAR

Summary of Expenses—School Department

1931

Salaries	\$18,414.00	
Expenses of School Committee.....	9.04	
Expenses of Superintendent	146.78

SUPERINTENDENT'S REPORT

To the School Committee of Lincoln:

At the regular meetings of your Committee I have presented rather detailed reports of matters concerning the schools. This report will be more of a review of the outcomes of your discussions, your counsel, and the favorable action taken on many of the suggestions made by your Superintendent.

In March, 1931, all pupils above the first grade were given the New Stanford Achievement Test. This is a series of ten tests covering such subjects as paragraph meaning, word meaning, spelling, language usage, literature, history, geography, and arithmetic. In grades two and three the tests are confined to reading, spelling, and arithmetic. A brief presentation of some of the results may be of interest to the parents of our pupils.

In order that the following table may be easily interpreted the following explanation should be kept in mind:

The best single index for grading pupils is the Educational Age. This is based on the composite score of the complete test. The actual or chronological age of a child does not always coincide with the educational age. To illustrate: a child whose actual age is twelve years should have an educational age of twelve years with a score of 76. Should this twelve-year-old child score 85 his educational age would be thirteen years, one month.

The following chart shows the number of pupils in our schools who have an Educational Age in excess of their Actual Age. Over 60% are doing school work better than the average for their age and grade:

Number of pupils having Educational Age exceeding Chronological Age:

<i>Grade</i>	<i>Less than 1 year</i>	<i>More Than 1 year, less than 2 years</i>	<i>Over 2 years</i>	<i>Number exceeding</i>	<i>Number in class</i>	<i>% of class exceeding</i>
2	8	4	3	15	29	51.72
3	5	9	2	16	26	61.54
4	7	11	7	25	34	73.53
5	4	3	11	18	28	64.29
6	2	3	7	12	24	50.00
7	3	5	6	14	23	60.87
8	4	3	8	15	23	65.22
9	2	2	2	6	12	50.00
Totals	35	40	46	121	199	60.80

Average for School

Educational Age exceeds Chronological Age by less than 1 year 17.59%

Educational Age exceeds Chronological Age by more than 1 year but less than 2 years... 20.10%

Educational Age exceeds Chronological Age by more than 2 years 23.12%

By dividing the Educational Age of a pupil by his Actual Age we find his Educational Quotient, or EQ. To illustrate: a 12-year-old pupil who has an educational age of 12 years will have an EQ of 100; a 12-year-old pupil who has an educational age of 15 years will have an EQ of 125. The range of Educational Quotients in our schools was from 64 to 153 with a medium score of 107, which means that there were as many scores above 107 as there were below it. One hundred twenty-four pupils had EQ's of 100 or better. The largest single grouping was that of 33 pupils with EQ's ranging from 116 to 121.

An EQ much above 100 is generally regarded as an indication of superior intelligence, but such factors as industry, interest, and good teaching must be taken into consideration.

Only 37 pupils had EQ's of 90 or less. Many factors contribute to this condition, such as lack of opportunity, poor native endowment, or a language handicap. A low intelligence level cannot be inferred from a low EQ. Sixteen of the 37 had repeated one or more grades in school; while 14 came from homes where English is not the principal language.

In 41 cases the Chronological Age exceeded the Educational Age. Of this number 19 had repeated grades in school and 20 had a language handicap.

Such results as the above are gratifying and speak for themselves.

The Committee is to be commended for the splendid response to my recommendation made in 1930 that the schools be equipped with modern school furniture. During the Christmas recess of 1931 the work of refurnishing the Center School was completed.

During the summer the South School was completely redecorated and the outside repainted. The front lawn at this school was graded at the same time. All this work

was done by James F. Donaldson & Co., of Lincoln, under a special appropriation granted at the last Town Meeting.

Blackboards in three rooms at the Center School were re-finished.

No changes have been made in the teaching staff since the last annual report.

The De Cordova Medals for scholarship and citizenship were awarded in June to Clyde Harvey, Winifred Gerrish, Gordon Winchell, and Priscilla Farrar.

For the second successive year our pupils participated in the state-wide poster contest of the M. S. P. C. A. with the following pupils winning awards:

Gold Medals—

Miriam French
Paul Nelson

George Browning
Hazel Butcher

Silver Medals—

Mary Seeger
Jane Lennon

Myrna Huntley
Meta Vantwuyver

Honorable Mention—

Alice Meriam
Elizabeth Jackman

Richard Winchell
James Cunningham

Two new Ford busses were placed in operation last year. One is a replacement and the second operates on a new route. Four enclosed busses now carry approximately 200 pupils per day.

The Town is now paying high school tuition for 39 pupils and vocational tuition for 6 pupils. The pupils are distributed as follows:

Concord	29	Boston Trade	2
Waltham	9	Waltham Vocational	4
Weston	1		
	<hr/>		<hr/>
	39		6

Your Committee is respectfully urged to consider the following recommendations during the coming year:

The election of a teacher to give help to pupils who are not up to regular grade standards.

Tuition and transportation charges should be made for those pupils attending our schools who are not legal residents of the Town. Such is the general practice throughout the state, but it is a matter wholly within the discretion of the local School Committee.

I again take this opportunity to record my appreciation of the excellent co-operation extended to me by your Committee, and by the teachers, pupils, and parents.

Respectfully submitted,

CARL F. HOLLORAN,

Superintendent of Schools.

ANNUAL REPORT OF SCHOOL NURSE

To the Lincoln School Committee:

A report of the school nursing for the year ended December 31, 1931, is hereby submitted:

The schools have been visited daily, 152 home visits made, 725 office calls of pupils treated or advised, 58 trips to hospitals, clinics, etc., 21 pupils taken home from school owing to illness, all pupils weighed and measured four times, Dr. Wood assisted with the physical examinations, and all other necessary routine work carried out.

The schools have been entirely free from communicable diseases with the exception of one case of Mumps last March.

On May 29, 1931, Dr. Wood gave the Schick Test to 64 children, and on November 10, 17 and 24, 1931, Diphtheria Toxin-antitoxin was given to 35 children (23 school and 12 pre-school).

A very successful Dental Clinic was conducted by the Lincoln Dental Committee, of which Mrs. Robert G. Loring is Chairman. The dentist was Dr. William L. Cosgrove, of Lexington.

Total number of clinic days	23
Total number of pupils treated	92
Total number of cleanings	84
Total number of fillings	181
Total number of extractions	62
Percentage treated by clinic dentist	40
Percentage treated by family dentists	22
Percentage of dental defects corrected in 1929	50
Percentage of dental defects corrected in 1930	65
Percentage of dental defects corrected in 1931	61

The results of the physical examinations made by Dr. Wood in September, of 240 pupils, showed: 37 with carious teeth; 60 with tonsils and adenoids; 8 with hypertrophied glands; 2 with slight heart defects; 1 with a Hernia; 1 with pediculosis; and 43 were 10% or more underweight.

Respectfully submitted,

DOROTHY R. SNELLING, R. N.

REPORT OF THE JOHN H. PIERCE PARK COMMITTEE

The Committee was organized by the choice of Albert S. Graves, Chairman, and Frank E. White, Secretary.

Your Committee felt that the proper treatment of the Park would depend almost entirely on the Landscape Architect employed for the necessary technical advice and work. With this in view, consultations were held with a number of men whom your Committee believed would know of the qualifications of such experts. Among those so consulted, were park commissions of other towns, playground directors, and architects. From information so gathered, four landscape architects were requested to meet with your Committee. With each one the whole problem was discussed in a general way, and his previous work of a similar nature examined. The final choice was made of Mr. Robert W. Beal. His experience in playground work was much greater than the others', and his attitude that the park should be treated as a natural feature of New England landscape coincided with the views of your Committee.

The plan, as finally submitted, is drawn with the view of containing all features which may be desirable during a long period of years. Your Committee wishes to stress the fact that whereas certain features may seem unnecessary for Lincoln at the present time, they are planned for so that they can be constructed when and if needed and still bear a harmonious relation to the whole; a result which would not be accomplished if the plan were added to piecemeal, as the needs of the Town increased in years to come.

The construction of the Park and playground units are so planned that they extend over a period of years. The fund

left by Mr. Pierce should be sufficient to take care of the cost of this construction.

It should be borne in mind that Mr. Robert M. Pierce has a life interest in the present house and land to a point fifty feet north of and following the line of the present driveway. The plan for the baseball and track unit requires grading of land within this fifty feet. Any such grading can be done only with the permission of Mr. Pierce.

Your Committee recommends that the first work to be undertaken should be the baseball and football field, the planting along Station Road and Weston Road, and the track, if sufficient funds are available for this latter feature; work to be started in the Spring of 1932.

Your Committee was instructed to undertake a survey and plan of traffic control at the Centre, so that any needed major change in the future would not conflict with the plan for the development of the Park. Mr. Beal was directed to make this study, and his final plan for the routing of traffic did not contemplate any taking of land from the Park.

The sudden death of Mr. Albert S. Graves in October was a distinct loss to the Town and to the Committee. His interest in the Park and his love of Lincoln were at all times an inspiration to the members of the Committee who worked with him. Mr. Harry M. Condit, Jr., was chosen Chairman to succeed Mr. Graves.

The report of Mr. Beal covering the details of the plan follows.

Respectfully submitted,

HARRY M. CONDIT, JR.,
Chairman.

MARIAN ADAMS
GEORGE G. TARBELL
FRANK E. WHITE

Outline

This report proposes to show in a logical manner the reasons behind the plan which accompanies it called the "General Plan" for the John H. Pierce Park. The first phases of the study will include a consideration of the property itself, its topography, natural and artificial features, etc. The second, will be a study of the outside factors affecting the development, and the third phase will be the determination of the type of layout with the features it should contain. Then it will be time for a statement of the principles guiding the development of the plan, after which will come the survey of the plan itself. The study will then conclude with a consideration of the cost of carrying out the construction, with a program for dividing it over a period of years.

The Property—Its Topography

First then is the consideration of the property available. The tract contains a little over thirty acres of greatly varying topography. There is a difference of over sixty feet in elevation from the side of the property at the north, along Station Road to the southeast corner of the property at Weston Road. There is also a part of the south border that rises to an elevation that is practically equivalent to that of Station Road, and there is very little of the area which is even approximately level. It is all a part of a large drainage area which comes down from higher slopes on the north and west as may be readily appreciated from a glance at the contours on the portion of the geological survey map opposite. Though the property is plainly marked by the drainage flows that have taken place through it, only one stream appears on the surface and that is in the southern portion of the property. Many parts of the area are quite wet at times and there are indications that the sub-surface must be well permeated with water. There are outcroppings of

ledge, especially in the southwest section, and boulders are present over the parts that have not been cultivated.

The Property—Natural Growth

The natural growth has been greatly influenced and regulated by man and beast. Except for a pine grove in the middle section of the area and the junipers, pines, oaks, and maples scattered in the south and west sections, there is little that can be called natural planting. Rows of maples and elms have been planted along the north, east and south boundaries. Lombardy poplars have been placed in a double row along the brook, there is an apple orchard in the west section, some shrubbery around the house, and a number of blue spruce near the pine grove. All these are distinctly artificial notes in the landscape.

The Property—Artificial Features

Other artificial features are two structures, the Pierce residence and the barn or garage. These are found in the approximate middle of the area. The house is a large Colonial structure, wood frame, and appears to be in excellent condition. Its disposition is important to our project and, therefore, must be considered. There are three things that can be done to a building of this kind. The first is to adapt it for use where it is; the second is to make use of it at some other point on the property; the third is to dispose of it, either by having it moved away intact or by having it torn down. Because it divides the property into two parts, neither of which seems to be adequate in itself, its position is exceedingly unfortunate for the proper development of the area for park purposes. It is not the type of building that one would construct for a field house to provide for the equipment and needs of the caretaker of the area, neither is it suitable for a caretaker's home, being far

too elaborate for such use. It could probably be altered for the use of clubs, such as Boy Scouts, Girl Scouts, etc., but investigation seems to show that these requirements are well taken care of in Lincoln and that there is no need for additional housing. It appears that there is no demand for this building either in the present location or in any other location on the property. This leaves only the third alternative, that of disposing of it in some way just as soon as it becomes possible. For the purpose of the present study it is assumed that the house is to be removed.

The barn or garage is a more modest structure similar in architectural treatment to the house. It is a story and a half building with a basement. Inconspicuously placed at the rear of the property, it is of such size and character that it might readily be adapted for use as a field house where caretaker's supplies, rooms and possibly accommodations for visiting teams could be housed. For this study, it is assumed that the barn will become available for use.

Outside Influences—Location

The second major consideration in the outline is that of the outside factors which influence the development. From reference to the copy of the Zone Map of Lincoln opposite it is apparent that the property lies in the appropriate geographical center. On this map there is spotted an approximation of the location of the dwellings in Lincoln. Doubtless many houses are missing because this was done hastily from an automobile while riding over the streets, but it is sufficient for the purpose in that it may be assumed from it that the center of population is also close by the Pierce land. This map shows also that all the local Lincoln roads lead radially to the northeast corner of the property, where they form an intersection known as Lincoln Center. For descriptive purposes the location of the tract of land and the Center are identical.

Outside Influences—The Neighbors

The east and north property lines abut on Weston and Station Road respectively. The south line separates land privately owned, as does the south part of the west line. Along the northern part of the west boundary the land abuts Town property where Center School, the main elementary school of Lincoln is located. This is important as it brings the program of physical education in the school into the consideration of the layout. Directly across the Center from the Pierce land the Town Library is located, and only a few hundred feet up Bedford Road there are two churches and the Town Hall. Therefore, it may be observed that the location is not only physically ideal, but it is ideal from every aspect of the Town's life i. e. social, religious, political, and educational. It can well be called a perfect location.

Outside Influences—The School Problem

Of the various aspects of Town life the educational has the greatest influence upon our problem, therefore, a brief summary of the school situation in its relation to the area is necessary. The first and second grades are housed at the South School located some mile and a half south and they will not need to be considered. In the present Center School are the grades from three to nine inclusive. A Committee studying the problem of increased accommodations reported to the Town at the March meeting of 1930, but although all agreed that additional housing would be necessary in the near future, only three of the seven members were in favor of immediate construction. As a result, no new building was voted. From the report, however, it seems fairly clear that when the building is built it will be a combined Junior-Senior High School with the possibility of the Junior High section coming first and the Senior part being added later. While

the location of this new building has not been definitely settled, it is fairly obvious that it will be somewhere at the Center, and for the purpose of this report it is being assumed that it may be on or directly adjacent to the Pierce land.

Summary—The Type of Development

It may be seen then that the area has intrinsic assets which seem to permit a successful development into a park, and it has strong outside influences which seem to demand that in part, at least, it be developed as play fields for physical development of the children of the schools. What then is the type of layout to be sought? Because of the almost universal demand for a more intensive recreational use of existing as well as new park areas it is not hard to find. The type has been called by Hubbard and Hubbard in "Our Cities Today and Tomorrow," "a playfield park" and the description of it is quoted here: "We find a growing tendency to combine in an area from fifteen to twenty-five acres opportunity for active and passive recreation for all members of the family, except for those who are willing to go further afield for golf or bathing. According to landscape opportunity offered, some part of the area is developed for quiet strolling or sitting in the shade, but the greater part is planned for active exercise, with two standard-size athletic fields, men's and women's outdoor gymnasiums, a little children's corner and wading pool, tennis courts and field house.

"When co-operation between municipal recreation and school authorities makes possible the use of high and junior high schools as community centers, the neighborhood playfield-park may be combined with school grounds. In any case, substantial bounding plantations are recommended which afford space for walks and seats for those who do not wish to participate in games or join the spectators."

Units to be Included

In considering the units which should be contained within Lincoln's playfield park, the space available at the Center School is of great value. When one is planning for the play of children of the third grade, as well as the young men of the Town teams, it is quite obvious that separate areas should be provided. Luckily there is space about the Center School large enough for a diamond which, though not well graded, is adequate for the use of the lower grades. There is also room for a small children's playground which already has some equipment, and there is an additional area where general games can be played and a small football gridiron may be marked out. These are mentioned especially because they make the duplication of the areas, which might be assumed as inevitable, unnecessary in the Pierce land layout. What then should be included in the play units? There should certainly be one good baseball diamond, and one football field. To care for the needs of the future school there should be a running track. Without question there should be a separate playfield for girls large enough for field hockey. The physical development of our school girls is gradually becoming recognized as every bit as important as that of our school boys. It was absurd to ever think that the ancient saying, "A healthy body makes a healthy mind," could be applied to boys alone. There should also be space provided for small court games such as outdoor basketball, volley ball, etc., and there should be as many tennis courts as the demand warrants and the limitations of the area allow. Tennis is an excellent game which is constantly increasing in importance and will be played long after the school age. It is extremely valuable because it does not require a large per person area, and particularly because it is not necessary to get together a large group in order to play. There should, if possible, be some large and level area that is not definitely

assigned to any one game but where the popular game of the moment, such as touch football, lacrosse, soccer, or handball (among present-day games) may be played, or where large groups can drill, do gymnastics, or play prisoner's base, etc., even while the organized games are taking place on the main playfield. This sort of an area is extremely important because of its elasticity in use.

In addition to these intensive game units there should be within the property small areas where play facilities are made attractive to the very young children. There should be quiet retreats provided for those more advanced in years who seek their recreation primarily from being outdoors with a chance to enjoy the trees, the birds and the flowers. Water is an extremely important element in adding life, beauty and reflection to any natural landscape and should be secured. Winter sports including skating, skiing, snowshoeing, and sliding are becoming increasingly popular and certainly have an important place on the list.

Guiding Principles for Study

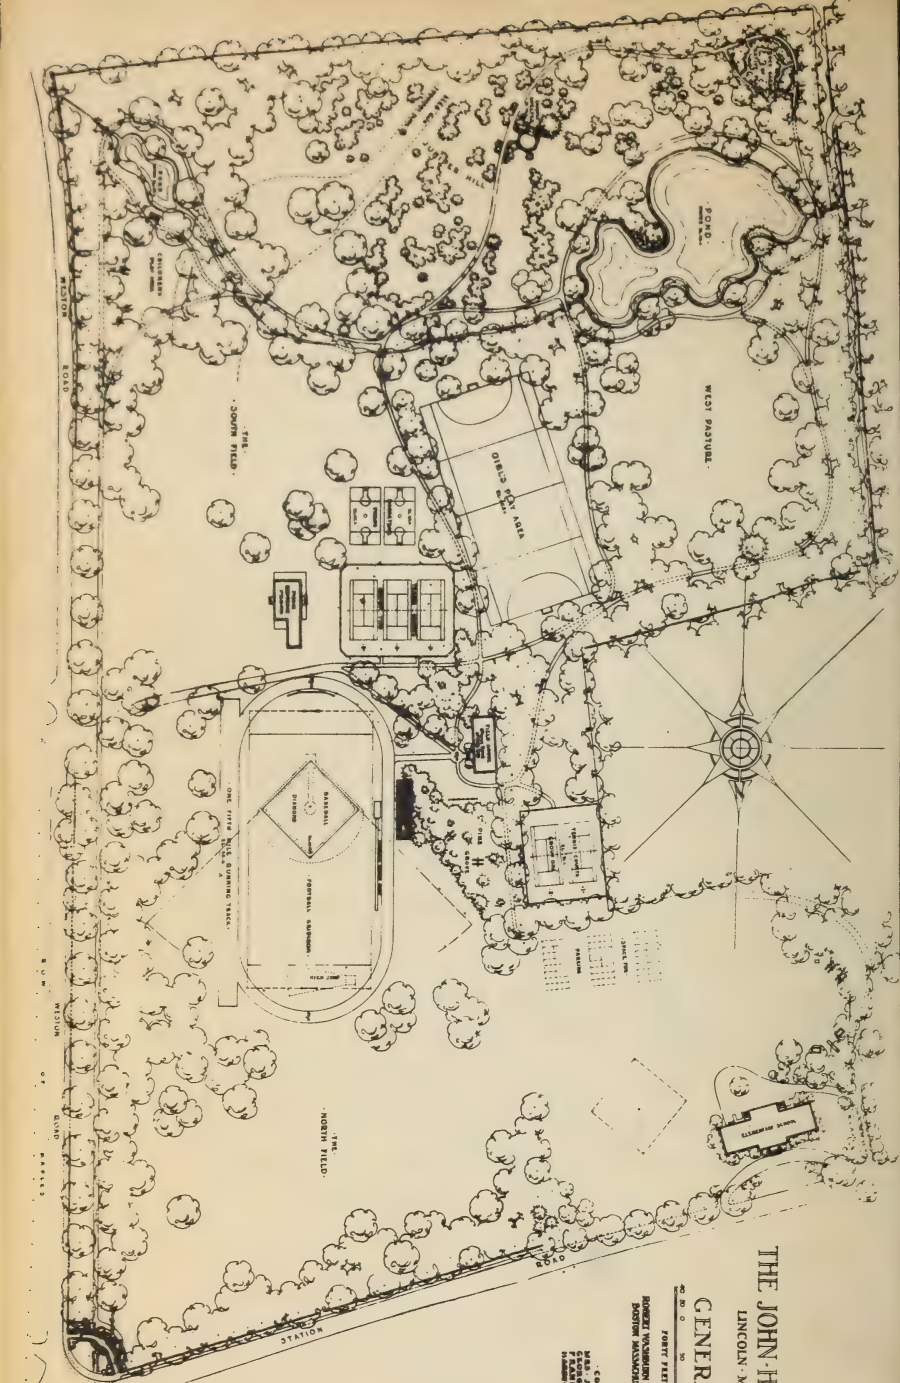

The guiding principles for the development of the plan are the next items for consideration. It should be stated, especially for the benefit of the readers of this report who are not members of the Committee (and it is hoped there may be many) that before employing its professional adviser, the Committee took infinite pains to make sure that he was in complete accord with it on the following points:

1. That the plan of development should look well into the future.
2. That the athletic or playfields necessary should be subordinated as much as possible.
3. That after the modifications for use had been made the resultant treatment should become as completely a natural area of typical Lincoln scenery as possible.

Future Growth of Town

With these principles in mind the proper approach to the problem naturally leads first, to a consideration of what the future growth of Lincoln may be. Statistics, which it is believed unnecessary to include in this report, have been gathered and comparisons of population and growth have been made with the surrounding towns such as Wellesley, Lexington, Arlington, Belmont, etc. From the figures obtained and, because of the very beautiful natural features in Lincoln, the many opportunities for development, and the new high speed connection with Boston that is soon to be made available, it is perfectly safe to predict an increase of approximately 100% in growth by 1950. This means that where the population of Lincoln is 1497, or say 1500 now, it should be 3000 in 1950, and the school population, if it increases in the same ratio, would be about 330 pupils for the first six grades, 136 for Junior high grades and 80 pupils for the high school grades or a total of 546. This growth in the Town and school populations bears directly on our problem because 1950 is only a short eighteen years away, and the fundamental features of the plan should be established to last for several generations.

It should be constantly borne in mind that a comprehensive development for a project of this type must recognize this future growth. Any plan which does this may naturally have some particular unit or thing which does not seem necessary under present use or conditions. Provision for them does not imply that such would be carried out at once. They would be done when the time was right or it may be that even if the item is done in the regular course of construction it will scarcely be properly matured for use by the time the need exists.

THE JOHN H. PIERCE PARK LINCOLN, MASSACHUSETTS

GENERAL PLAN

ROBERT WILSON, INC., LANDSCAPE ARCHITECTS
BOSTON, MASSACHUSETTS - ESTABLISHED IN 1918

CONSTRUCTION
BY
THE
CITY OF LINCOLN
MASSACHUSETTS

Other Principles

The other guiding principles, namely, the subordination of the play areas, and the desire to create a typical piece of Lincoln scenery can best be considered after inspection of the plan. It is sufficient to state at this point that a careful study of Lincoln landscape was made in order that the adviser might be thoroughly imbued with its characteristics. Therefore, with a rather clear understanding of the factors influencing the design it is now possible to examine the proposed "General Plan" to see if it fulfills the requirements of the problem.

The Plan—The Athletic Unit

Because of the very decided influence of the topography upon the scheme and the fact that the athletic unit as such is the most important in its bearing upon the topography, that feature of the plan is taken up first. In an area of limited size and in a town with the population of Lincoln it is the practical and most economical development to place the football gridiron and baseball diamond within the running track. The standard running track is one laid out to allow four laps to a mile or what is commonly called "a quarter mile track." The outstanding feature of such a track is that the straightaway usually provides opportunity for a 220-yard run. A track of this size and with this straightaway is not only extremely difficult and tremendously expensive to construct on this area because of the variance in topography, but it is also of such size that it would dominate the entire northeastern part where it is possible to put it. At an early date the Committee agreed with the landscape architect that a running track, which provided the features of a quarter mile track was not a necessity, and that, if it proved advisable a one-fifth of a mile running track with the one hundred-yard straighta-

way could be used. This size track is used on a great many high school athletic fields in New England and has proved perfectly satisfactory from their standpoint of use. The handicaps are not great and the saving in cost of construction and in space is large. Its use makes it possible to include many other features, therefore, the one-fifth mile track has been adopted.

The development of this athletic unit, that is, the football field and the baseball diamond superimposed on the running track, means that for an economical layout a very large, practically level area must be obtained. Such an area does not occur within the bounds of our property and some grading is necessary in any location. Next to grading cost, the most important factor in determining just how the athletic unit shall lie is the orientation of the baseball diamond. The relation of the sun to the football gridiron and track is important but it is not generally considered of so vital consequence as its relation to the diamond. Many studies of this subject have been made from which come the consensus of opinion that the best location is, generally speaking, with home plate and second base on a north and south line. The positions may be reversed, having home plate at either north or south, but the home plate at the south throws the right fielder into the sun in preference to the left fielder and this has become generally preferred where no other factors determine the final location.

Taking these points into consideration it is found that there is only that part of the area laying between the approximate north side of the residence and Station Road which is readily available for this athletic unit. In any other part of the area, the orientation is much less desirable and the variance in topography involves more expensive grading.

Looking at the contour of this section of the property it is found that the more the unit is moved to the north

towards Station Road the greater the variance in topography becomes and the final position, with reference to the grading problem, seems to be one which is about as indicated on the general plan. Even this location will involve a fill of three to four feet over the southern part and a cut of five to six feet in the extreme north part. It brings the south turn of the track approximately on the old entrance drive and the north turn of the track well into the middle of the field before the slope begins to get steep. Its position east and west is determined by balancing the desire to keep it well back from Weston Road in order that it may be screened from the street, with the desire to keep it away from the pine grove on the west side in order that that natural feature will not be spoiled. The slope in that portion and the desire to preserve the grove also determine very definitely that home plate should be at the south end of the layout.

The Plan—West of Athletic Unit

On the west side of this unit where it snuggles into the grove and becomes least conspicuous, a small grandstand with about two hundred person capacity is shown. It is proposed to build this of substantial wood construction on concrete piers. Additional spectator capacity is assured on the banking itself. The present barn appears on the plan slightly to the south in its original location to be remodelled as a Field House. The shell will serve admirably for this purpose insuring space for lockers and showers for visiting teams (possibly also for Town teams), caretaker's room and office, a space for storage of athletic equipment, and a fine space in the basement for tools and supplies needed for the upkeep of the park. It is assumed that lockers and showers for the school pupils and teams would be provided in any new school building. In the area at the west of the Field House and in the Pine Grove some see-saws and swings

would be placed for the use of the small children while their parents are attending games.

A parking field is indicated slightly to the north on the school property. It is hoped that this may be developed through co-operation with the school authorities. This will allow easy access to the west side of the running track where the Field House and Grandstand are located and where spectators will naturally congregate. It will not be used when there is a game taking place on the Center School Playground, and only by any number of cars when there is some special game or gathering on the new field.

It is believed that six tennis courts are a minimum to supply the future requirements of the area but only five are shown on the plan pending the disposition of the Pierce house. These are shown in two groups; one of two courts behind the pine grove near the corner of the school property, and one of three courts at the southwest end of the running track. As the scheme is to build the two courts numbered 1 and 2 first and then to add 3, 4, and 5, as needed, a sixth court, making a fourth in the second group, could easily be added when required. The major consideration in the location of the tennis courts is an inexpensive place to grade, good drainage, and proper orientation which is with the long axis of the court north and south.

The Plan—South and West of Athletic Unit

The lower tennis courts and the two basketball areas which are suggested at the south of the court, make a rather pleasant break between the athletic unit which will be primarily for the boys' use and the playfield for the girls or field hockey area which is located to the west of these courts. This area, while far from being smooth, is perhaps the largest unit of nearly level area on the property, and, surrounded as it is by trees, will develop into a very beautiful playfield which is well back from the street, and will give

the girls that privacy which is essential to the proper conduct of their athletic development. The open pasture to the west of this area may also be used as a supplementary girls' field. It would make an excellent place for archery practice or contests.

The Plan—East of the Athletic Unit

Turning now to the east or Weston Road side of the athletic unit it is found that there is a strip two hundred feet wide from the side of the running track to the road. This should provide ample space for planting which will screen and separate the running track, and there would be a chance within this area to secure additional parking space later if it becomes necessary.

Just off the southeast end of the track immediately in front of the Pierce Residence the area is left in an undisturbed state. It is believed that this section might be considered as a location for a new Town building and it does not seem wise to jeopardize its use for such a purpose. In the meantime, it will remain undisturbed and no interference with the rights of tenancy, which the present Mr. Robert Pierce holds, is necessary. Below this to the south on the slope there is a considerable area through which one of the drainage courses runs. It is proposed to smooth this out at comparatively small expense, making it available for an unassigned play area which for convenience in reference is called "The South Field." Though there will be considerable slope from north to south it can be used easily for general play. Its value will be much increased if it should be a school building which is placed near the south end of the running track because the area will be close to the building where classes in physical education could be taken directly to it even during school periods. In case no building were ever put in this locality this entire space could easily be made available for play or park use.

The Plan—The Pond and Brook

The whole southern part of the area, below the South Field and Girls' Play Area and to the west of this area is to be developed as improved and restored natural scenery where rest and recreation may be obtained in the summer and where snow sports may take place during the winter. In the middle part near the western side there is a low area which is at present divided by a small brook. The brook has been artificially stoned up in a straight line down through this section, and it is far from beautiful in its present aspect. The plan suggests that by excavation and flooding a good sized portion of this valley be covered to form a pond which will include the present brook thus causing its straight lines to disappear. Because of the trees near at hand and the pleasant slope on the south this pond should be very attractive in summer and, as it will be sheltered by the high hill on neighboring property to the west, it should freeze early and make an excellent place for informal skating. Space for hockey games, however, will be best obtained by erecting back boards and spraying parts of the football gridiron. Besides adding a great deal to the appearance of the park, the pond will rid it of a damp, almost swampy area, and the excavation necessary would provide excellent material for use in connection with the planting of laurel, inkberry, azaleas and other ericaceous plants.

The problem of obtaining water to maintain the level of the pond is not a serious one even though the Town supply is limited at present and cannot be depended on for a supplementary supply. As previously stated, the ground is well permeated with water, and excavation will probably bring some of it to the surface. It is definitely known that on the hill, on private property to the west, there are springs, and it might be possible to obtain permission to tap one or more of these as an added source of supply. The pond will not be deep and most of the water from the brook below can

easily be recirculated through it at no operating expense, by the use of a hydraulic ram. Repeated observation warrants the statement that there will be a sufficient increase in the amount of water which flows into the brook, during its progress across the area, to permit the amount necessary being taken from it to maintain the level and a flow of water in this pond. Consultation with pump men who handle rams has proved that the problem is entirely practical and quite inexpensive to do.

To the east of the dam which will hold back the pond the brook will be restored to an open channel all the way down to the southeastern corner of the property. Part of this is covered over at the present time and in the greater portion of the central part of the area the brook is almost five feet deep down between stone walls. The idea of the new treatment is to remove these walls wherever possible and open up the channel of the brook to develop it as a pasture stream. At the lower end, the plan proposes again excavating and damming up a low area to form a smaller pond which is primarily to take care of the water condition in the southeastern corner of the property. The layout provides also a little play space near the pond, where small children can have see-saws, swings and sand boxes. As all this southeastern corner is to be thickly planted with trees, the effect of a brook under, and in among the trees, and a pond in a grove will be obtained.

The Plan—Juniper Hill

The hill at the south is labelled "Juniper Hill" in order to suggest the proposed treatment. At present this hill is rather bare and bleak and as it may all be seen at once there is no desire to go forth in search of more interesting aspects. It is planned that it be clothed with a rather heavy planting of red cedars, ground junipers and possibly a few pine. Proper grouping of these will make the slope very attrac-

tive and will create a typical bit of Lincoln scenery such as may still be found in parts of the Town but which will probably disappear all too soon.

At the top of the hill where the elevation is highest a structure called "Rustic Shelter" is placed. This is to serve as an attractive look-out point from which in summer excellent views may be obtained over the athletic field to the north, over the pond to the west and over the brook and smaller pond to the east. In the winter, the shelter will be used as a warming place in connection with winter sports, and, with that in mind, a large open fireplace is indicated on the south side of the structure where it will not interfere with the views over the park. The starts of the toboggan slide and sled run are found near the Shelter from which point these are carried down among the junipers to finish the ride on the uphill slope near the street; a clever arrangement because when one is getting weary it allows him to take his "one last slide" as a part of his start home.

The Plan—The Rock Garden

In the very southwest corner there is a small section where there is an outcrop of ledge. This is shown for development as a natural rock garden, the thought being to keep the outcropping rock as free from any artificial look as possible and to bring in only such additional rock as would be required for the proper construction of recesses to hold the native plants. This would be a feature of the "Nature Trail" which is to run from this point along the west border of the property and back to the rear of the Field House. Along this Nature Trail, which will be kept in a very natural aspect, native flowers and shrubs (especially those which attract the birds) will be introduced and marked in such a way that they may be observed and studied.

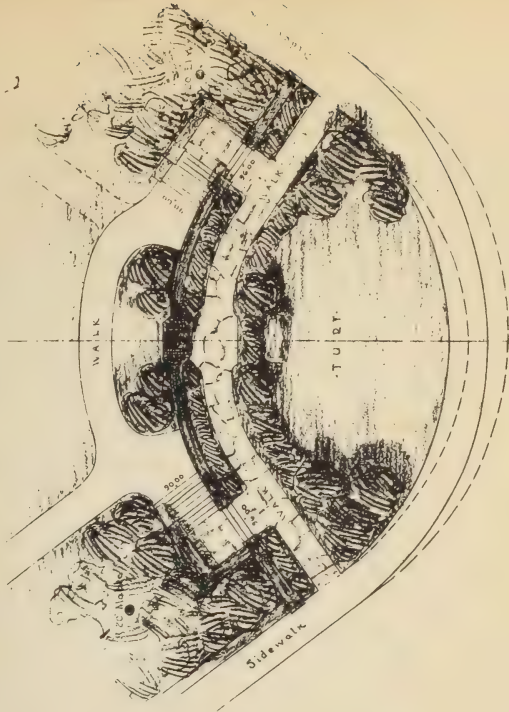

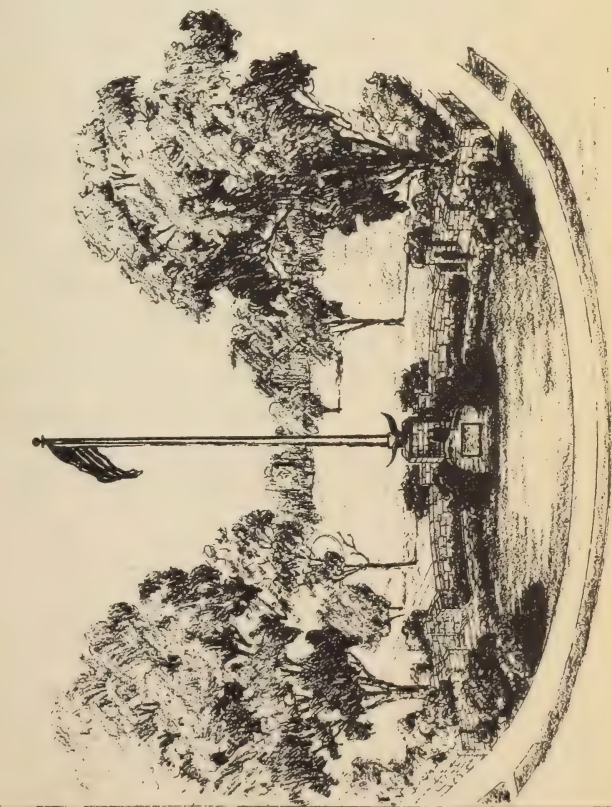

The Plan—North of the Athletic Unit

Turning from this part of the area to the section to the north end of the running track the plan shows an area between Station Road and the track labelled "The North Field," then an area close to the street, as along Weston Road, which has been used for planting and screening of the interior areas. The idea is to make this North Field usable for unassigned play when necessary without attempting much grading on it. Though it is far from level, it has an even cross slope, and this large open field will not only be a valuable space for informal play or community gatherings but it will also give a feeling of spaciousness to the whole layout. The planting along Station Road will form a native grove and there will be places under the trees where people may rest and enjoy views over the play areas to the south. Though no hesitancy has been felt about making suggestions, the school grounds of the elementary school have been left as they are except for the idea of a little more studied grouping of the children's play apparatus, and some additional planting to give shade at the southwest corner.

At the junction of Weston Road and Station Road a recommendation is made which deserves some consideration. The intersection of five roads, already referred to as Lincoln Center, is on a considerable slope to the north up which the road to Bedford continues. Some treatment of the park corner which abuts the Center seems necessary because of the fact that the property inside slopes off very quickly from it. In other words, something which closes the view from both sides is believed essential at this point. As the Committee asked its adviser to consider the Center concurrently with the study of the Pierce property, improvements which include the whole area are naturally involved.

The Plan—Entrance Treatment at Northeast Corner

In looking over the Center two items were discovered that could be used to accomplish the result desired. The first is the flagpole which is now in the library triangle. It is apparent that this was put here because at the time it was the only desirable location. As no attempt has been made to give it a setting, there seems to be no particular reason why it should stay there if a better setting can be found. The second is the war memorial which is placed in front of the library building. The large clump of shrubbery behind it detracts from the appearance of the building, and adds nothing of value as a setting to the memorial itself. The library grounds will be benefited by the removal of both these items and if they were placed in a setting properly prepared for them, they would be a real asset to the Center. In addition a feeling of enclosing the Center on the park side as it is already enclosed by structures on the other sides, could be obtained by moving them over to that corner. The scheme as shown on the General Plan, suggests cutting the present stone wall about fifty feet from the corner on each side and returning it into the property, making an area in front of the wall which will be graded up and really become a part of the Center. The wall is carried around on a curve and at the approximate middle it is developed with a proper architectural base to receive the Town flagpole. On either side are openings through the wall from which steps lead down to the level of the park about six feet below. In front of the wall there will be a nearly level grassed area on which the memorial boulder is to be placed. The bronze eagle may, of course, be returned to its position on the boulder, but an eagle in a position where he can be looked down upon seems to lose some of his lofty inspiring qualities. With that in mind a more elevated position for him is highly recommended. As his

JOHN H. PIERCE PARK

Robert Waltham Ouel
Landscape Architect

weight is three hundred and forty pounds it is out of the question to put him on top of the pole but a suitable place at the upper part of the architectural treatment of the base of the pole might be provided. More detailed consideration of this feature which would be necessary before construction could be undertaken would determine the most practical and charming arrangement, but a study sketch accompanying this report shows in a general way the idea in mind.

This whole feature by clever handling can be beautiful from all viewpoints inside the park area, and the flagpole in this location would be much higher, much better seen, and much more available for general Town use than if placed in a more interior section of the property. By opening up the view at the corner, by the removal of the two line poles, and by slight modification of the road curve, this improvement would greatly benefit the flow of traffic between Station and Weston Roads. By framing in the park side and by a more appropriate setting for the flagpole and memorial, the interior aspect of the Center would be much improved, but even all these assets are outweighed by the greater value of attaining a straightforward, simple, inviting method of entering the park.

The Plan—Roads and Walks

There are no roads on the development except those which permit access to the parking space, because on account of the limited size of the area it is considered far better to keep all vehicular traffic out. Walks are indicated connecting points where it is believed people would desire to go, where it is desired to lead them, and where most intensive use of the area is to be expected. The idea is to subordinate these just as much as possible by carefully fitting them to the topography, by letting them become leafy and moss grown, and yet at the same time providing by proper sub-drainage, where necessary, a means whereby

people can get around conveniently even in bad weather. The walks will be gravel, usually six feet wide, in order that small service trucks or wagons may make use of them in the necessary maintenance of the area. They need be constructed only as the demand for them arises but for the better preservation of the area some anticipation of this demand is advisable.

The Plan—Planting

The general treatment of the planting over the project is of utmost importance. Considerable planting is shown along Weston Road and also along Station Road to provide, as mentioned before, a separation between the street and the intensive play areas with the idea of reducing the predominance of these areas and with the idea of obtaining a natural aspect. This can best be done by using a great many trees in the planting and not as many shrubs as might ordinarily be found in an area of this kind. The scheme is to get away from the formality of the trees along the street as rapidly as possible. Oaks and elms will be generously used in this section of the area and in the southern parts oaks, pines and birches in addition to the junipers, already mentioned, will form the main substance of the planting. They will not be planted in orderly lines but will be in scattered groups massed to produce natural grove-like effects. Along the north side of the North Field flowering dogwood, hawthorns, and mountain ash planted along the border of the larger trees will add greater attraction to the planting. Where shrubs are used, native plants such as viburnums, black alder, sumac, dogwoods, mountain laurel, elder and other similar material will be employed almost exclusively. Existing trees are saved wherever possible. Unfortunately no trees can be kept within the intensive playfield area. There are seven large elms in good con-

dition existing there which it is possible to move with safety. They are well forth consideration for removal if funds are sufficient to permit it because they can be used to advantage on the east side of the property to obtain results that it would take 30-40 years to get without them.

There are also certain types of trees already mentioned as not in keeping with the attempt to secure a natural bit of Lincoln Landscape, the ultimate removal of which is highly desirable. The Lombardy Poplars along the brook are rapidly going to decay and should be removed at the earliest possible moment. The shrubbery around the house is very much overgrown and can well be sacrificed when the time arrives. The blue spruces which come in the left fielder's area are beautiful specimens in themselves but do not fit in the composition as a whole, and the change in grade makes their removal necessary. If it is not possible to find anyone to take them it is believed that the cost of moving them, which would be at least twelve hundred and fifty dollars, is sufficient to justify cutting them down. The apple orchard in the southwest part involves much the same problem. These are no doubt, beautiful trees, yet the orchard is not deserving of the space it occupies in this limited area in which a natural picture is being attempted. As it will probably be some years before the development of this section is undertaken it is suggested that the trees be allowed to remain at present but as they become old and unworthy they be removed and not replaced.

Summary

It would appear then that from the survey of the design that the plan does recognize very plainly the topography, and the natural assets; it has measured carefully the value of the artificial features; it provides the facilities which will be needed in Lincoln not only for the present but for

some time to come and there are even included unassigned spaces which may be used for any development of play that cannot now be foreseen. Natural park-like facilities are secured in what should be a most attractive manner; the playfields are subordinated as much as possible considering the size and natural limitations of the piece of property available. The feeling of perpetuating a natural Lincoln landscape is kept predominately in mind and while this idea cannot be adequately shown in any flat design or even by means of sketches, it is the ardent desire of the designer, and future planting plans would be drafted to secure that effect. It is confidently believed that with proper planting and due time for development under proper guidance, the area will appear much more natural twenty to forty years from now than it does today.

No study of an area of this kind would be complete without some consideration of the cost of carrying the scheme out. The plan has been prepared with the idea that it will probably be carried on over a period of years and the most comprehensive development of the area has been given much more weight than the ultimate cost. At the same time due care has been paid to economy of construction and to keeping the development a reasonable, sensible proposition for a Town the size of Lincoln to undertake.

The Plan—Cost of Construction

Before submitting a general estimate of cost it should be made very clear that the following figures are arrived at without the use of final detailed drawings. Though the quantities are estimated, their estimation is necessarily very rough at this preliminary stage. The figures are, therefore, based chiefly on the designer's experience with other projects of a similar nature and are based on the particular

type of design that he has in mind. They can be used only as a basis for discussion and individual items may vary a great deal if definite contract figures are obtained. To intelligently pass on them it is necessary for anyone else to ascertain the details the designer has in mind. It does not seem necessary to go into these details in this report other than to state that it is recommended that each unit of the area, as it is carried out, be executed in accordance with the best principles of construction the money available will permit. This may make progress somewhat slower but it will save doing over units, and the maintenance cost will be tremendously reduced.

For the first consideration of cost a general estimate for the whole work as if carried out at one time by competitive bids, under present conditions is submitted. After this table there will follow a scheme of progress adapting the funds which are at present available to the construction programme.

General Estimate of Cost

General Grading

Playfield	\$9,500	
Entrance Feature	500	
Girls' Play Area	1,500	
South Field	500

Professional Services, Engineering, etc.—10%.....	5,428	
	<hr/>	\$12,713
		<hr/>
TOTAL		\$59,713

The proposition involves, therefore, the expenditure of about sixty thousand (\$60,000) dollars. This lump sum doubtless seems large for this kind of project but that is chiefly because it has not been customary to approach the solution with due regard to the future and with a known total cost in view. If the same amount were involved in the construction of a new library, school or other public building it would seem a comparatively small figure, yet this project is undoubtedly more important and enduring than any one building can possibly be. Fortunately, it is not necessary for the Town of Lincoln to have to consider this as one expenditure. Through the foresight of the late John H. Pierce, a fund has been established the income of which amounts to \$3,000 per year, from which it is assumed that at least \$2,500 will be available for park development. In addition, in the period that has already elapsed the income has accumulated to provide a fund from which about \$15,000 is available for immediate construction if work is started in 1932. The figure is based on a present accumulation of about \$12,500 plus the \$2,500 income for 1932.

A programme follows based on the initial expenditure and an annual outlay of \$2,500. Naturally the work will cost slightly more if carried out in this way, but with proper planning, duplication and waste can be reduced to a minimum. It is also quite obvious that a programme of this kind looking so far to the future has to be subject to liberal interpretation. The sequence is considered about right at this time but if it developed that a programme for one year could not be entirely carried out, or, if wonderful to relate, more work might be done, then the next year's project would be retarded or advanced accordingly. Special conditions such as the availability of material for a certain purpose—cinders for the running track, planting material at especially attractive prices, the early removal of the Pierce Residence, the construction of a new Town building making filling material available, etc.,—would be sufficiently good common sense reasons for changing the sequence.

Project I

The first project is naturally directed toward the main athletic unit or the Playfield for Boys. There are decided economies in handling this as one season's contract, as the following figures will show. The total cost, however, is more than the \$15,000 available, and it may be necessary to make an abrupt break in the work in order to keep within that amount. With this thought in mind, the first project is divided under four alternatives according to the main items included. The first construction operation would be doing something to the eight elm trees, therefore, a decision as to whether they be moved or cut down is necessary. Then to save immediate expenditure surfacing the running track might be omitted. Therefore, alternatives are given for removing the trees, and for omitting the track. The table follows:

Boys' Play Field

- Alternative A—Transplanting Elms and Building Running Track.
 Alternative B—Transplanting Elms and Omitting Running Track.
 Alternative C—Cutting down Elms and Building Running Track.
 Alternative D—Cutting down Elms and Omitting Running Track.

	A	B	C	D
Transplanting 7 Elms, Removing 1.....	\$ 2,450	\$ 2,450	\$ 500	\$ 500
Cutting 8 Elms and Removing Stumps.....			5,100*	5,400
Stripping and Replacing Top Soil	5,100*	5,400	4,000	4,000
Excavating and Filling Subsoil.....	4,000	4,000	1,800	1,500
Drainage	1,800	1,500	750	850
Fertilizing, Seeding, Raking	750	850	500	500
Water Supply	500	500		
Track Surfacing and Curbing	2,250		2,250	
Additional Drainage	300		300	
	<u>\$17,150</u>	<u>\$14,700</u>	<u>\$15,200</u>	<u>\$12,750</u>

10% for Contingencies.....

Professional Services

	1,715	1,470	1,520	1,275
	2,500	2,500	2,500	2,500
	<u>\$21,365</u>	<u>\$18,670</u>	<u>\$19,220</u>	<u>\$16,525</u>

* Under A and C about 750 cu. yds. loam will be available for other use.

A. Cost of Running Track if added later

Excavating Loam from Track.....	\$ 750
Track Surfacing and Curbing.....	2,750
Additional Drainage	350
	<u>\$3,850</u>
10% Contingencies	385
Professional Services	650
	<u>\$4,885</u>

It may be seen, therefore, from the above figures that the simplest job namely grading, draining, and seeding the playfield area, cutting down the elms and loaming over the space for the running track could be done for \$16,525 or if figures were obtained before spring is really here and business conditions remain as they are today, it is possible that it might be done inside the \$15,000 available. By referring to the figures in A, however, it is found that to add the running track later would cost about \$5,000 whereas a comparison of Alternatives C and D shows that it would cost only \$2,695 if done in the initial programme. In other words, if it is possible in any way to obtain the additional amount required under C the saving would be almost 100%—or, the saving alone would enable the Town to pay 6% interest on the principle for ten years and even then be some \$700 to the good. The course of procedure is for the Town to decide. That is the reason why the first division is put as Project I which may be completed in one, two or three years.

	<hr/>	2,500

Project 18

Unforeseen Items, etc.	2,200	
Professional Services	300	
	<hr/>	2,500

The Summary in this way is as follows:

Project I

(Including Track and Moving Elms).....	\$21,500
Seventeen Subsequent Projects @ \$2,500.....	42,500
	<hr/>
	\$64,000

This shows an increase in doing it in this extended period of only \$4,000 over the figure as given in the lump sum estimate. This is probably not large enough but for convenience the original estimates have been used instead of adding to them in each instance. It may well be anticipated that one or two years more might be necessary for completion.

Proceeding on this basis, and providing that the Town appropriates no funds for the development, it is evident that within a period of twenty years the Town of Lincoln will have the essential items of a layout which is at the present time unequalled in any town of its size in New England. Any appropriation by the Town would simply speed up the time of completion. By the time the main construction programme is carried out the area will be so far developed that the income will be just about adequated for replacement and maintenance; thus the future upkeep of the layout is assured.

A park of this kind does not attain its character quickly. Where planting material is so important, the results do not really begin to appear in less than ten, fifteen, or sometimes twenty years of growth and the landscape aspect of the area will be appreciated fifty or one hundred years hence much

more than it is in the next fifteen years. While it is planned for the future, in order to secure a mature effect at a reasonably early date, it is necessary to start at the present and especially to accomplish at an early stage as much planting as is possible. It is to be hoped that undue stress on the need for play areas will not tear this from mind. This also applies to some of the features or areas shown on the plan. Even at the risk of repetition it should be stated that while it may seem that some items will not be needed for a long time, it is quite possible that an early start on them is necessary to make them available when they are wanted.

Your Committee, if it is allowed to carry on the development of this area, will naturally be subject to criticism which will not always be constructive. At times the progress will seem slow, and the detail of the work will be trying, but as you begin to see the logical development of construction and the drawing together of the various units to form the completed composition you are now trying to visualize, you will get a large amount of pleasure and happiness from working with it. The fact still remains that there is no pleasure quite so great as giving happiness to others. Your Committee, or any subsequent Committee on development, should receive a large degree of satisfaction in carrying out a project which you believe to be well conceived and which you know will afford great happiness not only to all the present inhabitants of the Town of Lincoln, but to all ages in the coming generations.

ROBERT WASHBURN BEAL.

NOTICE:

Business Meeting, Monday, March 7, at 7:30 P. M.

WARRANT

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, ss.

To either of the Constables of the Town of Lincoln in said
County: GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify the legal voters of said Town of Lincoln, qualified to vote in Town Meeting for the transaction of Town affairs, to meet in the Town Hall in said Lincoln on Monday, the seventh day of March next at 7.30 o'clock P. M., then and there to act on all of the following Articles, except Article 2, and also to meet in said Town Hall on Saturday, the 12th day of March next, at 12 o'clock Noon, then and there to act on the following Article 2, by posting a copy of this Warrant, by you attested, in each of the Post Offices and in some other public place in said Town seven days at least before the seventh day of March next:

The polls for voting the Australian ballot on Saturday, March 12th, will be open at 12.00 o'clock Noon, and may be closed at 6.30 o'clock P. M.

ARTICLE 1. To choose a Moderator.

ART. 2. To bring in their votes for the following Town Officers and any other Officers required by law, to be elected by Australian Ballot, viz.:

One Town Clerk for one year.

One member of the Board of Selectmen for three years.

One member of the Board of Assessors for three years.

One member of the Board of Health for three years.

One Treasurer for one year.

One Collector for one year.

One Auditor for one year.

Two Constables for one year.

One Tree Warden for one year.

One member of the Sinking Fund Commissioners for three years.

One member of the Trust Fund Commissioners for three years.

One member of the Trustees for Free Public Lectures for three years.

One member of the School Committee for three years.

One member of the Board of Water Commissioners for three years.

One member of the Board of Cemetery Commissioners for three years.

Also to vote "Yes" or "No" on the following question:

"Shall licenses be granted for the sale of non-intoxicating beverages in this Town?"

ART. 3. To bring in their votes for any committees, commissioners, trustees and other officers, required by law to be elected by ballot or otherwise.

Selectmen

ART. 4. To hear and act upon the reports of Town Officers, Committees, Commissioners and Trustees.

Selectmen

ART. 5. To appropriate money for the necessary and expedient purposes of the Town and enact anything in relation to the same.

Selectmen

ART. 6. To determine the manner of collecting taxes for the ensuing year.

Selectmen

ART. 7. To determine the compensation of the Collector of Taxes for the ensuing year.

Selectmen

ART. 8. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the financial year beginning January 1, 1932, and to issue a note or notes therefor, payable within one year, any debt or debts incurred under this vote to be paid from the revenue of the financial year beginning January 1, 1932.

Selectmen

ART. 9. To see if the Town will vote to raise and appropriate the sum of fifty-nine hundred dollars and one cent to meet the Town's share of the cost of the Middlesex County Sanatorium, determine how the money shall be raised or take any action relative thereto.

Selectmen

ART. 10. To see if the Town will provide for a Committee to revise the By-Laws of the Town or take any action relative thereto.

Selectmen

ART. 11. To see if the Town will direct the Commissioners of Trust Funds to take the necessary action to transfer the Abbie J. Stearns Fund for Town Hearse to the Abbie J. Stearns Fund for Lincoln Library or take any action relative thereto.

Selectmen

ART. 12. To see if the Town will provide for a Committee to draw up recommendations for the naming of the streets of the Town or take any action relative thereto.

Selectmen

ART. 13. To see if the Town will direct the School Committee to receive open bids for the transportation of school children before awarding the contracts for such transportation, the bids to be made on each route of transportation and for a period of two years, or take any action relative thereto.

On Petition

ART. 14. To see if the Town will extend the street lights from Storey's Corner, so called, down old Winter Street to the Waltham line, and appropriate money for the same.

On Petition

ART. 15. To see if the Town will install electric lights on the South Great Road from the Weston line to Bent's Corner, so called, and on Codman Road from Bent's Corner, so called, to Blodgett's Corner, so called, appropriate money for the same or take any action relative thereto.

On Petition

ART. 16. To see if the Town will take any action toward the installation of a fire alarm system, appropriate any money or act anything in relation to this article.

On Petition

HEREOF FAIL NOT

And make due return of this WARRANT with your doings thereon to the Town Clerk at or before the time for the meeting aforesaid.

Given under our hands this 8th day of February in the year of our Lord one thousand nine hundred and thirty-two.

GEORGE G. TARBELL,
ROBERT D. DONALDSON,
HERBERT G. FARRAR,

Selectmen of Lincoln.

TOWN CLERK'S REPORT

Proceedings of a Town Meeting Held March 7, 1932

WARRANT

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, ss.

To either of the Constables of the Town of Lincoln in said County:

GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify the legal voters of said Town of Lincoln, qualified to vote in Town Meeting for the transaction of Town affairs, to meet in the Town Hall in said Lincoln on Monday, the seventh day of March next at 7.30 o'clock P.M., then and there to act on all of the following Articles, except Article 2, and also to meet in said Town Hall on Saturday, the 12th day of March next, at 12 o'clock Noon, then and there to act on the following Article 2, by posting a copy of this Warrant, by you attested, in each of the Post Offices and in some other public place in said Town seven days at least before the seventh day of March next. The polls for voting the Australian ballot on Saturday March 12th, will be open at 12 Noon, and may be closed at 6.30 o'clock P.M.

Article 1. To choose a Moderator.

Article 2. To bring in their votes for the following Town Officers and any other officers required by law, to be elected by Australian Ballot, viz.:

One Town Clerk for one year.

One member of the Board of Selectmen for three years.

One member of the Board of Assessors for three years.

One member of the Board of Health for three years.

One Treasurer for one year.

One Collector for one year.

One Auditor for one year.

Two Constables for one year.

One Tree Warden for one year.

One member of the Sinking Fund Commissioners for three years.

One member of the Trust Fund Commissioners for three years.

One member of the Trustees for Free Public Lectures for three years.

One member of the School Committee for three years.

One member of the Board of Water Commissioners for three years.

One member of the Board of Cemetery Commissioners for three years.

Also to vote "Yes" or "No" on the following question:

"Shall licenses be granted for the sale of non-intoxicating beverages in this Town?"

Article 3. To bring in their votes for any committees, commissioners, trustees and other officers, required by law to be elected by ballot or otherwise.

Article 4. To hear and act upon the reports of Town Officers, Committees, Commissioners and Trustees.

Article 5. To appropriate money for the necessary and expedient purposes of the Town and enact anything in relation to the same.

Article 6. To determine the manner of collecting taxes for the coming year.

Article 7. To determine the compensation of the Collector of Taxes for the ensuing year.

Article 8. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the financial year beginning January 1, 1932, and to issue a note or notes therefor, payable in one year, any debt or debts incurred under this vote to be paid from the revenue of the financial year beginning January 1, 1932.

Article 9. To see if the Town will vote to raise and appropriate the sum of fifty-nine hundred dollars and one cent to meet the Town's share of the cost of the Middlesex County Sanitarium, determine how the money shall be raised or take any action relative thereto.

Article 10. To see if the Town will provide for a Committee to revise the By-Laws of the Town or take any action relative thereto.

Article 11. To see if the Town will direct the Commissioners of the Trust Funds to take the necessary action to transfer the Abbie J. Stearns Fund for Town Hearse to the Abbie J. Stearns Fund for Lincoln Library or take any action relative thereto.

Article 12. To see if the Town will provide for a Committee to draw up recommendations for the naming of the streets of the Town or take any action relative thereto.

Article 13. To see if the Town will direct the School Committee to receive open bids for the transportation of school children before awarding the contracts for such transportation, the bids to be made on each route of transportation and for a period of two years, or take any action relative thereto.

Article 14. To see if the Town will extend the street lights from Storey's Corner, so called, down old Winter Street to the Waltham line, and appropriate money for the same.

Article 15. To see if the Town will install electric lights on the South Great Road from the Weston line to Bent's Corner so called, and on Codman Road from Bent's Corner, so called, to Blodgett's Corner, so called, appropriate money for the same or take any action relative thereto.

Article 16. To see if the Town will take any action toward the installation of a fire alarm system, appropriate any money or act anything in relation to this article.

HEREOF FAIL NOT

And make due return of this WARRANT with your doings thereon to the Town Clerk at or before the time for the meeting aforesaid.

Given under our hands this 8th day of February in the year of our Lord one thousand nine hundred and thirty-two.

(Signed) GEORGE G. TARBELL,
R. D. DONALDSON,
HERBERT G. FARRAR,
Selectmen of Lincoln.

On the reverse of the Warrant is the following:

February 24, 1932.

I have served this Warrant by posting an attested copy in each of the Post Offices and one at the Railroad Station seven days before date of said meeting.

(Signed) JOHN J. KELLIHER,
Constable.

In accordance with the provisions of the foregoing Warrant the Annual Town Meeting was called to order at 7.30 o'clock P.M., in the Town Hall by the temporary Town Clerk, who read the Warrant, and presided at the Election of a Moderator.

Article 1. Robert D. Donaldson, Jr., was elected Moderator.

Article 3. Under this Article the following Officers were elected:

Field Drivers —

Andrew J. Dougherty, Jr.
Michael J. Diamond.

Fence Viewers —

Elmer A. Rollins
James Corrigan

Surveyor of Lumber —

Elmer A. Rollins

Measurers of Wood and Bark —

Charles E. Woodhull
Hermon T. Wheeler

Trustees of Grammar School Funds —

F. Winchester Denio

Conrad P. Hatheway

Article 4. Voted to take up the reports as they appear in the Town Report.

Town Clerk's report. Accepted.

Selectmen's report as it appears in Town Report. Accepted.

Report of the Assessors. Accepted.

Report of Temporary Collector of Taxes. Accepted.

Treasurer's report as it appears in Town Report. Accepted.

Auditor's report as it appears on page 53 and following. Accepted.

Report of Commissioners of Sinking and Trust Funds. Accepted.

Report of Superintendent of Streets. Accepted.

Water Commissioners' report. Accepted.

Voted to accept all other reports with the exception of the School Committee, and the old John H. Pierce Park Committee.

Voted to accept the Report of the School Committee.

A motion was made: That the report of the John H. Pierce Park Committee be recommitted to the same committee with the addition of Robert D. Donaldson, Jr., for further study as to the plan for the development of Pierce Park, eliminating the

ball field and track, and for the location of the ball field and track elsewhere, and that when submitted, the Selectmen call a special Town Meeting for consideration thereof. The following substitute motion was then offered: That, the report of the Committee on the development of the John H. Pierce land for Park purposes be accepted, and that the Selectmen be directed to proceed at once to make such arrangements and contracts as may be necessary for the construction of a baseball playing field either in the location as recommended by the Committee, or in a location adjoining the present Center School grounds and, or in connection with said school grounds; and that such funds as are now available from the John H. Pierce bequest to the Town for Park purposes be applied in the construction of said playing field, and expended in this work during the present Spring of 1932.

This substitute motion was lost, 93 Yes — 130 Nos.

The original motion to recommit was then taken up. A motion was made to add the names of Foster Bunker and Roger Faber to the Committee. Motion lost.

The original motion to recommit was then voted on. Motion carried.

Article 5. Moved: That the sum of \$36,500 be appropriated for Schools.

Moved: That the sums recommended by the Selectmen on Page 31 be appropriated, with the exception of Public Welfare, that item to be \$2,100; and Town Officers Salary a/c, that item to be \$3,525. Motion carried.

The amounts appropriated follow:

For Schools	\$36,500 00
“ Vocational Education	1,200 00
“ Public Welfare	2,100 00
“ Highways and Bridges	19,500 00

For Highways a/c Maintenance of Chap. 90,	
Roads	\$1,200 00
“ Cemeteries	600 00
“ Library and Dog Tax	1,794 39
“ Board of Health	2,000 00
“ Tree Warden	1,000 00
“ Moth Work	500 00
“ Miscellaneous Expenses	1,600 00
“ Hydrants and other Water Service	2,070 00
“ Waltham Hospital Free Bed	400 00
“ Street Lights	3,000 00
“ Fire Department	1,400 00
“ Interest on Town Loans	2,000 00
“ Water Works	7,535 00
“ Veterans' Aid	340 00
“ Police Department	2,000 00
“ Town Hall Expenses a/c	3,450 00
“ Town Officers' Salary a/c	3,525 00
“ Insurance	2,269 12
“ Election Expenses	175 00
“ Reserve Fund	1,000 00

Voted that of the amount appropriated, the sum of \$3,500.00 be taken from Free Cash.

Voted that of the amount appropriated, the sum of \$7,535.00 be taken from the Water Works Treasury.

Voted that of the amount appropriated, the sum of \$600.00 be taken from the Cemetery Fund.

Article 6. Voted that the Taxes for 1932 be collected in the same manner as last year.

Article 7. Voted that the compensation of the Collector of Taxes be one and one-half percent of the amount collected.

Article 8. Voted that the Town authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of revenue of the financial year beginning January 1, 1932, and to issue a note, or notes therefor, payable within one year, any debt or debts incurred under this vote to be paid from the revenue of the financial year beginning January 1, 1932.

Article 9. Voted that the Town appropriate the sum of fifty-nine hundred dollars and one cent to meet the Town's share of the cost of the Middlesex County Sanitarium, and that the appropriation be taken from free cash in the Treasury.

Article 10. Voted that the Moderator appoint a committee of three to revise the By-Laws of the Town and that this Committee be instructed to present such revised By-Laws to the Town at the next Annual Town Meeting. The Moderator appointed the following: Sumner Smith, Richard K. Conant, John F. Farrar.

Article 11. Voted that the Town direct the Commissioners of Trust Funds to take whatever action is necessary to transfer the Abbie J. Stearns fund for Town Hearse to the Abbie J. Stearns Fund for Lincoln Library.

Article 12. Voted that the Moderator appoint a Committee of three to draw up recommendations for naming the streets of the Town, and that this Committee be instructed to report such recommendations to the Town at the next Annual Town Meeting.

The Moderator appointed the following: Miss Mary L. Wheeler, Guilbert Winchell, Andrew J. Dougherty, Jr.

Article 13. Voted to pass over this Article.

Article 14. Voted that the Town extend the street lights from Storey's corner, so called, down old Winter Street to the Waltham line, and appropriate the sum of \$250.00 for the same.

Article 15. A motion to pass over this Article was lost, Yes 44, Nos 82. Voted that the Town install electric lights on the South Great Road from the Weston line to Bent's corner, so called, and on Codman Road from Bent's corner, so called, to Blodgett's corner, so called, and appropriate the sum of \$200.00 for the same.

Article 16. A motion to pass over this Article was lost, Yes 39, Nos 77. Voted that a fire alarm system be installed in the Town, and that a Committee consisting of the Selectmen and the Fire Engineers be appointed to arrange for the carrying out of this work, and that the sum of \$1,500.00 be appropriated for this purpose or as much thereof as may be needed.

Voted to adjourn.

TOWN ELECTION

March 12, 1932

Under provision of Article 2 of the Warrant the Election of Town Officers was held in the Town Hall on the above date. The meeting was called to order by the Moderator Robert D. Donaldson, Jr. The ballot box was inspected and found to be in good working order.

The following were appointed Ballot Clerks, and duly sworn:

Loren W. Ferdinand, Thomas J. Dee, D. Everett Sherman, Jr., Raymond Hagerty, Walter Lovejoy, Thomas Norton. The Polls were declared open at 12 o'clock Noon. At 6.28

P.M., it was Voted to keep the Polls open until 7.30 P.M., at which time the Polls were declared closed. The ballots were counted and tabulated with the following result:

Whole number of votes cast 552.

**RECORD OF THE PRESIDENTIAL PRIMARY
ELECTION**

April 26, 1932

WARRANT

THE COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, ss.

To either of the Constables of the Town of Lincoln:

GREETING:

In the name of the Commonwealth you are hereby required to notify and warn the inhabitants of said Town who are qualified to vote in Primaries to meet in the Town Hall, Tuesday, the twenty-sixth day of April, 1932, at one o'clock P.M., for the following purposes:

To bring in their votes to the Primary Officers for the Election of Candidates of Political Parties for the following offices:

4 Delegates-at-Large to the National Convention of the Republican Party.

4 Alternate Delegates-at-Large to the National Convention of the Republican Party.

12 Delegates-at-Large to the National Convention of the Democratic Party.

12 Alternate Delegates-at-Large to the National Convention of the Democratic Party.

2 District Delegates to the National Convention of the Republican Party, 9th Congressional District.

2 Alternate District Delegates to the National Convention of the Republican Party, 9th Congressional District.

2 District Delegates to the National Convention of the Democratic Party, 9th Congressional District.

2 Alternate District Delegates to the National Convention of the Democratic Party, 9th Congressional District.

The polls will be open from one P.M. to seven P.M. And you are directed to serve this Warrant by posting attested copy thereof seven days at least before the time of said meeting as directed by vote of the Town. Hereof fail not and make return of this Warrant with your doings thereon at the time and place of said meeting.

Given under our hands this eleventh day of April A.D., 1932.

(Signed) GEORGE G. TARVELL,
R. D. DONALDSON,
HERBERT G. FARRAR,
Selectmen of Lincoln.

On the reverse of this Warrant is the following:

Lincoln, April 18, 1932. I have served this Warrant by posting attested copies in each of the Post Offices and one at the Railroad Station seven days before date of said Meeting.

(Signed) JOHN J. KELLIHER,
Constable.

Pursuant to the above Warrant the Presidential Primary Election was held on the above date.

The following were appointed Election Officers and were sworn by the Town Clerk: Thomas J. Dee, Lindol French, D. Everett Sherman, Jr., Raymond E. Hagerty, James DeNormandie, Thomas F. Norton. WILLIAM H. DAVIS,
Town Clerk.

PROCEEDINGS OF A SPECIAL TOWN MEETING
HELD IN THE TOWN HALL, LINCOLN

June 27, 1932

WARRANT

THE COMMONWEALTH OF MASSACHUSETTS
MIDDLESEX, ss.

To either of the Constables of the Town of Lincoln, Massachusetts in the County of Middlesex,

GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of said Town, qualified to vote in elections and in Town affairs, to meet at the Town Hall in said Lincoln on Monday the twenty-seventh day of June next at eight o'clock in the P.M., then and there to act on the following articles:

Article 1. To choose a Moderator.

Article 2. To hear and act on the report of the John H. Pierce Park Committee.

Article 3. To see if the Town will accept an anonymous gift of $7\frac{1}{4}$ acres of land, more or less, situated northwest of Station Road in the rear of the residence of Harold S. Cousins or take any action relative thereto.

Article 4. To see if the Town will construct a baseball field with a road leading to it both on land accepted under Article 3, appropriate the sum of \$4,950.00 for the same, or take any action relative thereto.

Article 5. To see if the Town will vote to extend the water pipes from Station Road to the field accepted under

Article 3, and appropriate the sum of \$1,000.00 therefor, or take any action relative thereto.

Article 6. To see if the Town will consent to two modifications in the agreement between Mr. Julian deCordova and the Merchants National Bank dated November 29, 1930, and made for the benefit of the Town of Lincoln, as follows:

1. The omission of the words "income-bearing" as they apply throughout the Agreement to the securities deposited with the Merchants National Bank, and as the words "income-bearing" apply to any securities deposited in addition thereto.

2. Changing the words and figures "two hundred and fifty thousand dollars (\$250,000.00)" when they occur in the fourth paragraph of the Agreement to read "Two hundred thousand dollars (\$200,000.00)."

Article 7. To see if the Town will vote to relay the water pipes between the Reservoir Drive and Wheeler's Lane, appropriate money therefor, or take any action relative thereto.

Article 8. To see if the Town will appropriate the sum of \$2,500.00 to be expended on making improvements on the Center School Grounds, or take any action in the matter.

And you are directed to serve this Warrant by posting attested copies thereof at each of the two Post Offices and one other public place, in said Town, seven days at least before the time of holding said meeting.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Town Clerk, at the time and place of meeting, as aforesaid.

Given under our hands this fifteenth day of June in the year of our Lord one thousand nine hundred and thirty-two.

(Signed) GEORGE G. TARBELL,
R. D. DONALDSON,
HERBERT G. FARRAR,
Selectmen of Lincoln.

On the reverse of this Warrant is the following:

June 15, 1932.

MIDDLESEX, ss.

Pursuant to the within Warrant, I have notified and warned the inhabitants of the Town of Lincoln by posting up attested copies of the same at the Railroad Station and in each of the Post Offices seven days before the date hereof, as within directed.

(Signed) JOHN J. KELLIHER,
Constable of Lincoln.

In accordance with the provisions in the foregoing Warrant, the Special Town Meeting was called to order at 8 o'clock P.M. Monday, June 27, 1932, by the Town Clerk, and the following business transacted.

Article 1. Robert D. Donaldson, Jr., was elected and sworn as Moderator.

Article 2. Voted to accept the report of the Committee.

Article 3. Voted that the Town accept with grateful acknowledgment the anonymous gift of seven and one-quarter acres of land, more or less, situated northwest of Station Road in the rear of the residence of Harold S. Cousins. Voted unanimously, that the Town instruct the Selectmen to extend to the anonymous donor of this land the deep appreciation and gratitude of the Town for this generous gift.

Article 4. Voted that the Town appropriate the sum of one thousand dollars to be expended on the construction of the road leading to said baseball field, accepted under Article 3, and that Lincoln labor be used for this work.

Article 5. Voted that the Town appropriate the sum of one thousand dollars to extend a 6" cement lined, precalked water pipe to the field accepted under Article 3, and that

the money be taken from the Water Works Treasury, and that Lincoln labor be used for this work.

Article 6 Voted unanimously that the Town consents to two modifications in the agreement between Mr. Julian deCordova and the Merchants National Bank dated November 29, 1930, and made for the benefit of the Town of Lincoln, as follows:

1. The omission of the words "income-bearing" as they apply throughout the Agreement to the securities deposited with the Merchants National Bank, and as the words "income-bearing" apply to any securities deposited in addition thereto.

2. Changing the words and figures "two hundred and fifty thousand dollars (\$250,000.00)", when they occur in the fourth paragraph of the Agreement to read two hundred thousand dollars (\$200,000.00).

Article 7. Voted that the Town relay the water pipes between Reservoir Drive and Wheelers Lane, and appropriate a sum not exceeding three thousand dollars (\$3,000.00), the same to be taken from the Water Works Treasury.

Article 8. Voted to pass over the Article.

Voted to adjourn 9.30 P.M.

WILLIAM H. DAVIS,
Town Clerk.

PROCEEDINGS AT STATE ELECTION

November 8, 1932

WARRANT

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, ss.

To either of the Constables of the Town of Lincoln,

GREETING:

In the name of the Commonwealth you are hereby required to notify and warn the inhabitants of said Town who are qualified to vote in State Election to meet in the Town Hall, Tuesday, the eighth day of November, 1932, at 7 o'clock A.M., for the following purposes:

To bring in their votes for the election of the following officers and questions: Presidential Electors; Governor; Lieutenant-Governor, Secretary, Treasurer, Auditor, Attorney General, Congressman, Councillor, Senator (1), Representative in General Court (1), County Commissioners (2), Sheriff.

Questions

In all Cities and Towns

Question No. 1. Law Proposed by Initiative Petition

Shall the proposed law which defines and legalizes the practice of chiropractice, establishes a board of registration of chiropractors and defines the number, mode of appointment, tenure, qualification and compensation of its members, and its powers and duties; provided for the preliminary qualifications, examination, certification, original registration and annual license of chiropractors, and regulation of their practice, and defines the mode, subjects and fees for examination, the mode of practice and penalties; and other matters related thereto, which are chiefly as follows: — That chiropractice be “the science or practice of locating and

adjusting by hand the malpositions of the articulations of the human spine." That any person, with one preceding year's residence in this Commonwealth and with degree from a qualified chiropractic school received at least one year prior to the date when this law takes effect, may, within ninety days after such date, be certified by the board at its discretion without examination. That otherwise no person, except a member of the board of registration, shall practice chiropractic unless, being over twenty-one years of age, of good moral character and graduated from a reputable chiropractic school after personally attending courses of at least twenty-two hundred sixty minute daylight hours given to persons qualified to graduate from a public high school, he shall qualify by examination, pay a fee of twenty-five dollars and be registered and certified; except that any person licensed in another State maintaining standards equal to those of this Commonwealth may be registered without examination. That the examination be scientific and practical in character, in subjects including anatomy, physiology, symptomatology, hygiene, sanitation, chemistry, histology, pathology, chiropractic analysis, and the principles and practice of chiropractics. That the board may, after hearing, revoke a certificate for cause. That the board shall make an annual report and shall keep public records of its proceedings and of the names of persons examined or registered by it, and of the names and addresses of all registered chiropractors, who shall pay an annual license fee, promptly notify the board of any change in address and furnish such other information as the board may require. That the board consist of three members, residents of the Commonwealth for three years, graduates of a chartered chiropractic school having power to confer degrees in chiropractic, to be appointed by the Governor, with the advice and consent of the Council, for a term of three years. That the board have authority to administer oaths, summon witnesses, and take testimony and adopt reasonable rules and regulations pertaining to their duties, and that they pay into the State treasury fees received by them, and that they receive compensation and reimbursement for expenses in such amounts as may be annually appropriated therefor, not exceeding the amount of such fees. Penalties are provided for practicing chiropractic without holding a certificate or for using the words "Chiropractic Practitioner," the letters "D. C.," or any title or letters indicating engagement in such practice, or for buying, selling, or fraudently obtaining any diploma or record of registration. It is further provided that the present law relating to the registration of physicians and surgeons and providing penalties for the unauthorized practice of medicine shall not be held to discriminate against registered chiropractors; but no chiropractor, unless registered as a physician or surgeon, may practice obstetrics, or administer drugs, or perform surgical operations by the use of instruments, or hold himself out as and

for other than a chiropractor, *which was disapproved in the House of Representatives by a vote of fifty in the affirmative and one hundred and fifty-one in the negative, and in the Senate by a vote of thirteen in the affirmative and twenty-one in the negative, be approved?*

NO

In all Cities and Towns

Question No. 2. Law Proposed by Initiative Petition

Shall the proposed law which provides for an additional method of nominating candidates for nomination, at the State primaries in September, by members of political parties, for those offices to be filled by all the voters of the Commonwealth at a State Election. It provides that the State conventions of the political parties, in each State Election year, shall be held before and not after the State primaries, as now, namely, not later than June 15th, in order to elect delegates to such party conventions, party primaries are established to be held on the last Tuesday in April. Among other things, these State conventions may endorse candidates for offices to be filled by all the voters and to be voted upon at the State primaries. Such endorsement places a candidate in nomination, at such State primaries, without the necessity of filing nomination papers. The name of the endorsed candidate is to be placed first on the ballot and against his name is to be placed the words "Endorsed by (the name of political party) convention," in addition to the eight-word statement now authorized by laws. Candidates endorsed by a party convention may accept said endorsement within ten days, and having so accepted may not withdraw. It also provides for the election of district members of State Committees, and members of ward and town committees at the proposed party primaries in April, as well as delegates to the State party conventions instead of at the State primaries in September, as now. It also provides for the election of delegates to national conventions (to nominate candidates for President) at the proposed party primaries instead of at the primaries, now especially held for that purpose, and which existing law requires to be held on the last Tuesday in April (the same day proposed for the proposed party primaries). It also provides for certain other new provisions of law and certain changes in existing laws, relating to holding State conventions and party primaries, the number and election of delegates to State conventions, the number of members at large of a State committee and other matters, which in more detail chiefly are as follows: State conventions are to be composed solely of delegates elected at the party primaries, and the number is to be one

from each ward and Town and one additional for every fifteen hundred votes or major fraction thereof above the first fifteen hundred votes cast at the preceding State Election in such ward or Town for the political party candidate for Governor, instead of a number now fixed by the State committee of each party (not less than one from each ward or town) and certain members designated by existing laws. The time, for notice to the State Secretary by Aldermen or Selectmen of their determination to hold primaries by wards, precincts, or groups of precincts, to be March 1, instead of August 1, as now. The names of candidates for election for delegates, to a State convention and for district members, of a State committee to be arranged individually by alphabet instead of in groups arranged by lot, as now. Vacancies in the office of delegate to a State or National convention not to be filled except in case of a tie vote, and then by delegates from the same district, within ten days, and if no other delegate or if not so filled, then by a State committee, rather than solely by the remaining members of the delegation; and statement of filling of such vacancy to be filed with the State Secretary. Seating of delegates at State conventions to be in groups by senatorial districts, and order of business at said conventions defined. Voting on candidates, by a convention to be by roll call if more than one candidate for the office, or by groups of delegates unless any member of such group objects. The number of members at large of a State committee of a political party to be fixed by the State convention of a party instead of by the State committee, as now. The existing provisions as to preparation and filing of nomination papers, objects to nominations, preparation, number, substance, arrangement and form of ballots, hours during which polls shall be open, opening of ballot boxes, canvass and return of votes, return and certification of votes, now applicable to State primaries to be applicable to the proposed party primaries. The power of a State committee to fix the number of delegates to a National convention to be continued, but the date, of giving notice to the State Secretary, of such fixations to be March 1 instead of on or before the third Wednesday in March, as now. The power of City and Town committees to fix the number of members of ward and Town Committees to be continued, but the date, of giving notice to the State Secretary, of such fixations to be March 1 instead of August 1, as now, *which was approved in the Senate by a vote of twenty-one in the affirmative and seventeen in the negative, and was disapproved in the House of Representatives by a vote of sixty-two in the affirmative and one hundred and thirty-eight in the negative, be approved?*

Question No. 3. Proposed Amendment to the Constitution of the United States

Is it desirable that the proposed amendment to the Constitution of the United States —

Article

Section I. The terms of the President and Vice-President shall end at noon on the 20th day of January, and the terms of Senators and Representatives at noon on the 3rd day of January, of the years in which such terms would have ended if this Article had not been ratified, and the terms of their successors shall then begin.

Section II. The Congress shall assemble at least once in every year, and such meeting shall begin at noon on the 3rd day of January, unless they shall by law appoint a different day.

Section III. If, at the time fixed for the beginning of the term of President, the President-elect shall have died, the Vice-President-elect shall become President. If a President shall not have been chosen before the time fixed for the beginning of his term, or if the President-elect shall have failed to qualify, then the Vice-President-elect shall act as President until a President shall have qualified; and the Congress may by law provide for the case wherein neither a President-elect nor a Vice-President-elect shall have qualified, declaring who shall then act as President, or the manner in which one who is to act shall be selected, and such person shall act accordingly until a President or Vice-President shall have qualified.

Section IV. The Congress may by law provide for the case of the death of any of the persons from whom the House of Representatives may choose a President whenever the right of choice shall have devolved upon them, and for the case of the death of any of the persons from whom the Senate may choose a Vice-President whenever the right of choice shall have devolved upon them.

Section V. Sections 1 and 2 shall take effect on the 15th day of October following the ratification of this Article.

Section VI. This Article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by the legislatures of three-fourths of the several states within seven years from the date of its submission — be ratified by the General Court?

Question No. 4

Shall the Representative in the General Court from the Thirteenth Middlesex District be instructed to vote to request the President and the United States Senate to enter into full co-operation and membership in the League of Nations, with the explanatory reservation that the United States shall not engage in War with any Nation, except by vote of Congress, as provided in the United States Constitution, and such other reservations as they deem wise.

All the above candidates and officers are to be voted for upon one ballot.

The polls will be open from 7 A.M. to 7.30 P.M. And you are directed to serve this Warrant by posting attested copies thereof seven days at least before the time of said meetings as directed by vote of the Town.

Hereof fail not and make return of this Warrant with your doings thereon at the time and place of said meeting.

Given under our hands this twenty-ninth day of October, A.D., 1932.

(Signed) GEORGE G. TARBELL,
R. D. DONALDSON,
HERBERT G. FARRAR, -
Selectmen of Lincoln.

On the reverse of the above Warrant is the following:

November 1st, 1932.

I have served this Warrant, by posting an attested copy in each of the Post Offices and one at the Railroad Station, seven days before date of said meeting.

(Signed) JOHN J. KELLIHER,
Constable.

In accordance with the provisions of the foregoing Warrant the meeting was called to order by Robert D. Donaldson who read the Warrant. The following were appointed and

sworn as Ballot Clerks and Tellers — Raymond Hagerty, Thomas Norton, Andrew Dougherty, Jr., Thomas Dee, Edmund Giles, Alfred Coughlan, D. Everett Sherman, Jr., L. Ferdinand.

The Ballot Box was inspected and found to be in good working order.

The Polls were declared open at 7 A.M., by R. D. Donaldson who presided until 9.45 A.M., George G. Tarbell then took charge until 12.45 P.M., R. D. Donaldson then took charge assisted by Herbert G. Farrar. Polls were declared closed at 7.30 P.M. The result was read by the Town Clerk at 8.15 P.M., and was as follows:

Total number of ballots cast 689.

REPORT OF THE SELECTMEN

The Selectmen present the following report for the year ending December 31, 1932:

The Board was organized by the choice of George G. Tarbell, Chairman, and Robert D. Donaldson, Secretary.

The appointments made by the Selectmen are printed with the list of Town officers.

Public Buildings and Grounds

During the past year the upper and lower halls of the Town Hall have been redecorated. The outside walls of the lower hall were furred and plastered. This was made necessary due to the original plaster having been laid directly on the brick, with the result that dampness had so deteriorated the plaster that it crumbled badly in many places. Before completion of the painting the roof was carefully gone over, but even so, new leaks seemed to appear too frequently. We are afraid that properly to stop future leaks the roof should be reshingled.

The work for the new asbestos and decorative curtains was contracted for, but due to many delays and trouble in obtaining the specified material for the velour curtain, this work has not been completed. When it was seen that a delay would ensue your Board insisted on the installation of a temporary curtain at no expense to the Town.

The new baseball field is well under way. During the fall the field was graded so that the diamond follows a true grade. The field was seeded and a very fine catch resulted. With

good luck in the spring weather and no unreasonable amount of winter-kill the field should be ready for use during 1933. The road to the field is rough graded and will be scraped, rolled and oiled in time for the opening of the field. If in the future more funds are available to provide a "skinned" diamond, the grading can be carried well beyond the infield by using loam from the parking area for this purpose. This would improve the parking area as the subsoil is gravel. Sufficient funds remain to build a first-class back-stop. In addition, players' benches have been donated, to be erected in the spring. With the exception of the road, all this has been made possible by contributions from interested citizens to whom this Board has extended its sincere appreciation on behalf of the Town.

During the fall the corner field of the John H. Pierce Park was prepared and seeded. It was found necessary to re-lay most of the drain pipe as it had become clogged in many places. We plan to carry on the planting of the Park so that it will always be a simple and dignified bit of New England scenery, using only those trees or shrubs indigenous to New England.

Highways

During the past year our local roads have received the major consideration of the Highway Department. The easterly end of Trapelo Road was scarified and rolled, as was Winter Street. Tower Road was widened in many places, scarified and rolled, and the existing culverts widened, so that now this road is greatly improved both as to the surface and in eliminating several dangerous corners.

The work on Chapter 90 Maintenance, has included the normal upkeep and in addition new fences on the South Great Road and the start of widening that road on Garfield Hill.

During last spring your Board was represented at several hearings and informal conferences relative to the new State Road along the Cambridge Turnpike. Under the original bill the Town was liable for the land damages, but in an amount not exceeding 25% of the cost of construction of the highway within the Town limits. As this construction cost was estimated to be about \$250,000.00 our liability could have been over \$60,000.00. The estimated liability was \$15,000.00. We are glad to report that the bill as finally passed and signed by the Governor calls for a maximum assessment against the Town of \$2,000.00. It is improbable that construction will reach Lincoln this year, but we will doubtless be called on for payment of the \$2,000.00 during 1933. The plan for abolishing the grade crossing in South Lincoln has been postponed until such time as economic conditions warrant its construction.

For the coming year, your Board recommends that the appropriation be used as far as possible in work in widening our local roads, or other work that can be done largely by hand labor. We plan a material reduction in oiling and sanding, blasting, the rental of road machinery, extraordinary repair on equipment and purchase of new equipment. Under finances we will recommend that labor be paid for at a rate of 45c per hour, but we have made no reduction in our labor item, believing that it may be necessary to use the larger amount for the relief of distress caused by present unemployment. In making up our budget, we have reduced the recommendations for highways by \$3,800.00 and have added to the recommendation for Chapter 90 Maintenance, \$1,300.00, a net reduction of \$2,500.00. This was done only after an arrangement with the office of the District Engineer of the Department of Public Works that work on Chapter 90 roads, after normal maintenance, should be as far as possible of such a nature as to furnish a maximum of labor.

Public Welfare

The serious economic situation has brought to Lincoln an unusual demand for emergency employment. It is a duty of government to relieve distress. It is not a duty of government to provide employment for all who are out of work unless and until there is danger that the element of distress may enter into the situation. There is a difference between the two. We believe that where help must be given it is wiser and far more charitable to provide aid through work in one of the departments rather than make public welfare cases of any of our citizens. This past year not one Lincoln citizen whose legal settlement is in Lincoln, and who has been physically able to work, has been placed on our public welfare records. The extension or renewal of water mains, work on the Highway Department, the new ball field, and the generous co-operation of citizens who have furnished private work have made possible this record, of which the Town should be proud.

Hospital aid extended by the John H. Pierce fund has been greater than should be expected or could be regularly provided under normal conditions. The fund has been a blessing this year to many Lincoln citizens who ordinarily would not have required aid.

Fire Department

The Fire Engineers have recommended the purchase of a new forest fire truck. We believe the citizens should give careful consideration to this question. The present truck is seventeen years old and seems to have reached the stage where constant repairs are necessary. In normal times we would not hesitate to recommend the purchase of a new truck, which is needed both for reliability of operation and for efficiency in the fighting of forest fires. The question of

the saving of the necessary appropriation at this time appears to be on the border line with unwise economy.

Finances

The most important question before the Town today is that of economy. The extraordinary expenses of last year brought only a slight increase in our tax rate. This was due to the large amount of free cash available for use and to a low appropriation for 1932 overlay. The outlook for the coming year is very gloomy. It will not be safe to take any money from the apparent free cash, which amounts to \$5,859.61. To use this money as actual free cash it would be necessary to collect the entire 1932 tax levy during the coming year. In addition, the receipts from the Commonwealth will be greatly reduced as will our miscellaneous receipts. The State tax will be materially higher. At the time of writing this report it would seem that several thousand dollars must be saved under last year's appropriations to keep our tax rate from climbing to figures which will be a serious hardship to many whose income is perilously near to their fixed charges. In too many cases income is already below fixed charge. We must make every effort not to add to the financial difficulties of many of our fellow citizens.

In making our recommendations for appropriations we have cut every possible item that in our opinion is not absolutely necessary. We believe that the seriousness of the present economic situation, where the income of practically every citizen of the Town has been heavily reduced, demands that the employees of the Town share in comparatively small degree the burdens that are borne by everyone else. We do not believe that such reductions should establish a permanent basis of pay but that the present schedules should be restored as soon as sane economic levels return. We recommend that

the salary of Town officers, elected and appointed, be reduced 10%; that labor be paid for at the rate of 45c per hour, that all other employees of the Town receiving annually \$1,000.00 or more for full time, or that amount proportionately for part time, be reduced 10% in salary. The salary of the Health Nurse having already been cut by at least that amount should not be further reduced.

In the table of recommendations the amount requested by the School Committee is \$1,200.00 more than is recommended by this Board.

The time has come when budgets of government must be balanced, not by increased or new taxes, but by reduced expenditures.

	Appropriations for 1932	The Selectmen recommend the following appropriations for the ensuing year
For Schools	\$36,500 00	\$34,500 00
Vocational Education	1,200 00	1,200 00
Public Welfare	2,100 00	3,000 00
Highways and Bridges	19,500 00	15,700 00
Highways Chapter 90, Maintenance	1,200 00	2,500 00
Cemeteries	600 00	600 00
Library and Dog Tax	1,794 39	876 00
Board of Health	2,000 00	1,600 00
Tree Warden	1,000 00	800 00
Moth Work	500 00	500 00
Miscellaneous Expenses	1,600 00	1,200 00
Hydrants and other Water Service	2,070 00	0
Waltham Hospital Free Bed	400 00	0
Street Lights	3,450 00	3,200 00
Fire Department	1,400 00	1,600 00
Interest on Town Loans	2,000 00	1,000 00
Water Works	11,535 00	7,820 00
Veterans' Aid	340 00	180 00
Police Department	2,000 00	1,850 00

Treasurer.

AUDITOR'S REPORT

I hereby submit a report of all money paid out by the Town Treasurer on order of the Selectmen of Lincoln.

I have examined the books and accounts of the officers entrusted with the receipt, custody, or expenditure of money and find that the reports of these officers to the Town are correct. I have verified the cash balance of each of such officers by reconciliation of bank balances and count of cash.

JAMES W. LENNON,
Auditor.

Sworn to before me this 25th day of January, 1933.

HENRY A. GRIMWOOD,
Justice of the Peace.

Treasurer.

REPORT OF THE SUPERINTENDENT OF STREETS

To the Board of Selectmen:

I herewith submit the following report for the year ending December 31, 1932:

In January we worked most of the time on the Turnpike teaming gravel for widening out the side and building fences.

February, March, and April were spent in doing the snow work, teaming sand, working on Tower Road digging out the side to widen the same and patched most of the roads.

In May and June most of the roads were scraped with a Power Grader, tarvia and oil was put on the same and covered with sand.

July and August was spent on Trapelo Road, Winter Street and Tower Road scarifying the surface with the steam roller, grading the roads, rolling them down and putting on oil and sand. We teamed gravel to fill up the low places, etc.

The most of September was spent on the South Great Road teaming gravel for filling on the side of Garfield Hill and building cable guard rail fence.

In October and November we patched the roads, teamed gravel to Storow Road, built fences and put in several culverts where needed.

Most of December was spent on Bedford Road, digging out the stones and widening the same, blasting ledge, etc., on Coburn Road, and hauling gravel to the Ball Field Road.

The Highway Department is in about the same condition as last year, with the exception of a small truck purchased by the Town to be used by this department.

Respectfully submitted,

WILLIAM H. SHERMAN.

REPORT OF WATER COMMISSIONERS

The Water Commissioners submit the following report:

The large pump, reservoir, and main pipe lines are in good condition. The small pump still works well, but might give out suddenly. The Board is investigating new pumps to determine if their general efficiency would make it profitable to replace the old one.

The pipe renewal from the reservoir entrance to Wheeler's Corner cost \$3,300.00, running over the appropriation \$300.00; and the extension to the new playground cost \$1,200.00, running over the appropriation \$200.00. Both jobs were done as nearly as possible by inhabitants who were out of work, at a time when they were unlikely to find work. This accounts for the cost being a little above the estimate. No renewals are recommended this year unless the Town wishes to use surplus cash of the Water Works to employ labor on renewals.

Maps should be completed for pipe work done the past four years.

Below is listed uncollected water rates for back years as of January 1, 1933:

1927	\$127 00	1930	\$404 50
1928	124 00	1931	2,520 08
1929	62 00	1932	4,584 12

The Board recommends that the Town vote its estimated budget for 1933:

Power	\$2,200 00
Salaries	825 00
Interest	1,095 00
Repairs and renewals	1,000 00
Sinking Fund	800 00

Insurance	\$150 00
Miscellaneous	1,500 00
Maps	250 00
	<hr/>
	\$7,820 00

91,021,000 gallons were pumped at a cost of \$28 per million gallons, figured on salary and power expenses.

Respectfully submitted,

SUMNER SMITH,
JOHN J. KELLIHER,
ROBERT R. HUNTER.

Statistics Relating to Distribution System

Mains

1. Renewed during the year 1,178 ft. 12 in. pipe.
2. Discontinued during the year, none.
3. Added during year 598 ft. 6 in. Total now in use, 28,082 miles.
4. Number of hydrants added during the year, 1.
5. Number of hydrants replaced, 5.
6. Number of hydrants (public and private) now in use, 139.
7. Number of stop-gates renewed, 2. Number of stop-gates added during the year, 4.
8. Number of stop-gates now in use, 161.
9. Number of blow-offs, 31.
10. Range of pressure on mains, 40 pounds to 100 pounds.

Services

11. Renewed, 8. Discontinued, 0.
12. Number of service taps added during the year, 3.
13. Number now in use, 420.
14. Meters now in use, 14.

E. RUSSELL DAVIS, *Treasurer.*

REPORT OF BOARD OF HEALTH (1932)

The Board met for organization soon after the Annual Town Meeting and re-elected Doctor Mackenzie as Chairman, Mr. Conant as Secretary, Mrs. Dorothy Snelling as Agent, and Doctor McGlinchey as Milk Inspector. Mr. J. J. Kelliher was renominated as Inspector of Slaughtering and subsequently confirmed by the State Board. During the summer Mrs. Snelling resigned as Public Health nurse and in conformity with the arrangement that has existed for several years her successor, Mrs. Marian Ober, was appointed Agent.

During April an epidemic of measles started in the South School and there were 24 cases in Grades 1 and 2. This accounts for the only unusual situation encountered during the year in the control of communicable diseases. The following were reported to the Board as required by law:

Chickenpox	8
Dog Bite	1
Influenza	4
Lobar Pneumonia	2
Measles	54
Mumps	4
Scarlet Fever	4
Whooping Cough	5

Licenses to retail milk were granted to: DeNormandie Farm, Glendale Farm, Higginson Farm, Woodridge Farm, H. L. Stone, Floyd Verrill, A. Donosky, J. H. Corliss, E. R. Haines, Gayer Lunch, A. E. Fernald, Sarah Bill.

One pasteurizing plant at Woodridge Farm was relicensed.

Fifty-seven samples of milk were taken from dealers and from the school and particularly to be noted is that the averages are generally much better than those of last year:

	Average of		% Fats	% Solids	Bact. per c. c.
8 Samples	Raw Milk	DeNormandie	4.71	13.72	17,610
8	"	"	4.24	12.71	24,290
8	"	"	4.22	13.04	28,080
11	Pasteur. Milk	Woodridge	4.68	13.79	5,180
7	"	"	4.06	12.69	5,210
5	"	"	3.96	12.59	8,820
9	"	"	4.09	12.77	8,890
1	"	"	4.00	12.64	20,000

Permits to sell denatured alcohol were given to Doherty Garage, Rice Garage.

After a public hearing permits to keep swine until May 1, 1933 were granted to the following:

Boyce Brothers	100 swine
Charles R. Butcher	30 "
Edward S. Coburn	70 "
Nicholas Cotoni	30 "
Albert W. Hanlon	300 "
Cornelius Shea	400 "
Manuel Silva	300 "
John Wilson	30 "

Two (2) piggeries were discontinued during the year and the permits for four others were held in abeyance until the contentions of objectors are proven or disproven, or until the regulations of the Board are complied with.

The Board believes an appropriation of \$1,600 will be sufficient for the coming year unless the Town sees fit to replace the Health Nurse's car at this time.

ROLAND C. MACKENZIE,
RICHARD CONANT,
ROBERT D. DONALDSON.

REPORT OF THE CEMETERY COMMISSIONERS

During the past year no new work has been undertaken in the three cemeteries in Lincoln but the usual general care has been given, the roads in the New Cemetery have been scraped, some brush and undergrowth have been cleaned out and trees and shrubs trimmed.

For the coming year your Commissioners recommend that the roads in the New Cemetery be graded, using gravel from a convenient bank in the cemetery grounds, and that they be oiled, so that weed growth will be kept down and the roads made passable during the winter and spring months. They also recommend further cleaning out of underbrush in the wooded sections and trimming of trees.

To take care of this work and for general care your Commissioners ask for an appropriation of \$600 and further recommend an additional \$400 to be taken from the cemetery funds, this \$400 to be expended in giving work in the cemeteries to unemployed men in the Town, under the direction of the Cemetery Commissioners.

EDWARD F. FLINT,
GEORGE E. CUNNINGHAM,
H. P. WHITNEY.

REPORT OF FIRE DEPARTMENT

South Lincoln,
January 19, 1933.

To the Board of Selectmen:

The Board of Fire Engineers herewith submit their twenty-fifth Annual Report ending December, 1932.

Force

The Fire Department consists of the following: one chief, six engineers, and twenty-five call men.

Apparatus

The apparatus belonging to the department is as follows: One 600-gallon pump, two combination trucks, ten extinguishers, eight ladders and 1,850 feet of 2½-inch hose and 600 ft. of 1½-inch hose.

Location of Apparatus

Pump and Number 2 Combination Truck at Doherty's Garage, South Lincoln, and Number 3 Combination Truck at T. J. Dee's, North Lincoln.

Fires

Seventy-eight alarms have been answered. Pump and Number 2 Combination Truck responded to ten chimney, thirty-six grass and wood, three auto, four building and one out of town.

Number 3 Combination Truck responded to eighteen forest and grass, three chimney and three building.

Loss \$15,600

The Fire Department succeeded in raising \$85.00 with which they bought much needed equipment, rubber coats, hats and rubber boots.

M. H. DOHERTY, *Chief*,
T. J. DEE,
J. J. KELLIHER,
H. G. FARRAR,
A. J. DOUGHERTY, JR.,
H. S. COUSINS,
SUMNER SMITH.

TREE WARDEN'S REPORT

The Tree Warden submits a brief report of the work done on the trees and against the gypsy and brown tail moths for the year ending December 31, 1932. The work has been carried on as in former years, removing dead trees, dead limbs, and limbs obstructing the highways, and also the cutting of brush and thinning on several of the roads was done this year where it interfered with public travel. As we have a good many miles of narrow roads in Lincoln, our work cannot be confined to any one section, but we do try to keep our highways passable and safe for the public.

The scarcity of the elm leaf beetle has been quite noticeable the past several years; however, we found it necessary this year to spray several of our large elms, with arsenate of lead, with very good results.

The method used in handling the gypsy moth was practically the same as in past years — creosoting the egg clusters on trees along the roadsides and omitting again this year the spraying; however, in some parts of the Town we found a slight increase in the number of egg clusters in woodland from that of last year.

The total expenditure of this department for 1932 is \$1,349.38. I recommend that \$800.00 be appropriated for tree work and \$500.00 for moth work this year.

Respectfully submitted,

JOHN J. KELLIHER.

REPORT OF THE PUBLIC HEALTH NURSE COMMITTEE

The year of 1932 has been a busy one in all branches of the nursing work. The total number of district calls was 948, divided as follows: 576 medical, 161 surgical, 119 child welfare, 30 maternity, and 62 Board of Health. In addition there was social welfare work to be done, and the regular school work to be carried on as usual. Twenty-three visits were made to the Sudbury schools.

Two changes which occurred during the year should be noted. Mrs. Dorothy Snelling resigned her position as nurse after seven years of efficient service, and the Town of Sudbury terminated its agreement for the use of our nurse in the Sudbury schools. Mrs. Marion N. Ober was elected in Mrs. Snelling's place, and has proved eminently satisfactory.

The committee had hoped to be able during the coming year to replace the nurse's car, which has given three years of service. It seems best, in the interests of economy, to ask for no appropriation for this purpose at the present time. We hope for better things next year.

Respectfully submitted,

EDITH B. FARRAR,
ROLAND C. MACKENZIE,
R. D. DONALDSON.

REPORT OF INSPECTOR OF ANIMALS FOR 1932

To the Board of Selectmen:

I have inspected 52 barns and found 378 cows, 98 young cattle, 29 bulls, 36 sheep, and 10 goats. The barns are all in good condition. Four herds have been added to the number under State and Federal supervision, and practically all the rest of the milk raisers in Town have petitioned for the tuberculin test. It is hoped that the test will be given to the remaining herds by early spring.

I have inspected 14 piggeries and found 3,594 swine. I found the condition of the piggeries steadily improving. One reason, I think, is that the swine raisers fear that the Board of Health may revoke their permits to keep pigs if things are not kept up to the standard.

Respectfully submitted,

JOHN F. FARRAR,
Inspector of Animals.

REPORT OF THE MIDDLESEX COUNTY EXTENSION SERVICE

In agriculture the principal work done with the dairymen was on the eradication of bovine tuberculosis. A general meeting was held for promoting this work and a petition circulated to have the cattle in the Town tested on the area test plan. Twenty farm visits were made to dairymen in promoting this work, and in addition assistance was given on dairy replacements, forage crops, and markets. Assistance was given those farmers who had to have an emergency test made of their herd in order to hold their milk market.

Fifteen farm visits were made to fruit growers and market gardeners, and a fruit meeting was held during the winter of interest to several local men.

There are three groups of homemakers in Lincoln carrying the homemaker's day project. Seventy women attended these group meetings, and as a result 464 new practices were adopted. These women passed information along to 376 others.

Twenty-six women attended the child guidance group meetings. The information was passed on to 37 women and 353 new practices were adopted.

A single meeting on furniture and its arrangement was held in South Lincoln.

Two members of the Extension staff have each spent two afternoons training the Girl Scouts for their homemaker's badge. The girls have been given help and suggestions on several different phases of homemaking.

An active 4-H Club Town Committee has brought the enrollment in Lincoln from 7 to 52 boys and girls, in clothing, garden, poultry, and canning clubs. Mrs. Guilbert Winchell

is chairman of the committee. Club leaders are Mrs. D. L. Hamilton, H. S. Cousins, Mrs. Guilbert Winchell, Mrs. M. Doherty; and other members of the Town Committee are Mrs. C. Shea, Mrs. Philip Snelling, Miss Bertha Bowles, and Miss Florence Wheeler, and Mr. H. L. Dean.

A tour to the best 4-H gardens in the Town was made by the garden club, some of whom also visited the Market Garden Field Station in Waltham.

All clubs exhibited at the Lincoln Fair.

Respectfully submitted by

THE MIDDLESEX COUNTY
EXTENSION SERVICE.

REPORT OF THE TRUSTEES OF THE LINCOLN LIBRARY

Your Trustees submit on the following pages the reports of the Treasurer and of the Librarian for the year ending December 31, 1932.

During the past year the interior of the library has been painted, the floors sanded and waxed, and certain repairs made on the roof, including a new copper valley on the north-east side. New window shades were purchased for the reading room and librarian's room, and new draperies for the reading room.

The re-cataloging of the non-fiction has been started and approximately one-third of this work has been finished. Your Trustees plan to complete another third during the coming year. We foresee no extraordinary expense ahead and ask for an appropriation of eight hundred and seventy-six dollars plus the dog tax for the year ensuing:

Respectfully submitted,

ANTHONY J. DOHERTY,
JOHN F. FARRAR,
DOROTHY B. HILL,
C. LEE TODD,
GEORGE G. TARBELL.

REPORT OF THE COMMITTEE ON NAMING THE ROADS OF LINCOLN

The committee appointed to recommend names for the streets of the Town felt that, to avoid confusion, old names and names established by usage should be kept as far as possible and that, for the guidance of strangers, the names of important roads should be continued for the greatest practicable distances. In studying the situation, the committee found that usage had developed in these ways, to a large extent, so that the principal needs seemed to be for uniformity and for authorizing what is already tradition in names. In a few cases only have changes in the use of roads raised problems.

The committee recommends the following names:

South Great Road, numbered Route 117, from the Concord line at Lee's Bridge to the Weston line.

North Great Road, numbered Route 2, from the Concord line to the Lexington line.

Concord-Wayland Road, numbered Route 27, from the Concord line to the Wayland line.

Old Concord Road, from the Concord-Wayland Road at Baker Bridge to the Concord-Wayland Road near St. Anne's Church.

Farrar Road, from the Concord-Wayland Road to the Oxbow Road.

Oxbow Road, from the Wayland line to the Wayland line, continuing the name given to the road in Wayland.

Old Sudbury Road, from the South Great Road near Haynes's Crossing (both ways) to the Wayland line.

Trapelo Road, from the centre of the town past the Library to the Waltham line.

- Weston Road*, from the center to the Weston line toward Silver Hill.
- Station Road*, from the centre, past the railroad station, across the South Great Road, to the Wayland line.
- Sandy Pond Road*, from the centre, past Sandy Pond, to the Concord line.
- Bedford Road*, from the centre, past the Town Hall and the Shea and Fleming houses, to the North Great Road.
- Virginia Road*, from the North Great Road, opposite the end of Bedford Road, past Hartwell Farm, to the Concord line.
- Old Bedford Road*, from the Bedford Road, past the site of the old North Schoolhouse, to the Virginia Road at the McHugh house.
- Bedford Lane*, from the North Great Road near the Keizer place, across the Virginia Road, to the Bedford line.
- Cambridge Turnpike*, from the Concord line, past the Loring house, to the Lexington line.
- Brooks Road*, from the Cambridge Turnpike at the Brooks house to the North Great Road at the Concord line.
- Lexington Road*, from the Trapelo Road at the three-cornered cemetery to the Cambridge Turnpike at the Loring house, then from the Cambridge Turnpike at the Farquahar place to the Lexington line.
- Old Lexington Road*, from Bedford Road at the foot of the Common, past the Donaldson house, to the Lexington Road.
- Library Lane*, from the Bedford Road, behind the Library, to the Trapelo Road.
- Mill Street*, from the Lexington Road near the Farquahar place to the North Great Road.
- Nelson Road*, from the North Great Road at the Nelson place to the Lexington line.

Page Road, from the Trapelo Road to the Cambridge Turnpike, past the Page place.

Winter Street, from the Trapelo Road, past the Coane house (both ways) to the Waltham line.

Silver Hill Road, from the Trapelo Road, past the Herman house, to the Weston Road.

Conant Road, from the Weston Road, past the Browning house, to the Weston line.

Old County Road, from the Weston line near the junction with Conant Road, past the Cambridge Basin, to the Lexington line near the junction with the Cambridge Turnpike.

Tower Road, from Station Road at the Doctor Chapin house to the Weston line.

Peirce Hill Road, from the Tower Road at the Peirce houses to the Station Road.

McIntosh Lane, from the Station Road at the Hodges house to the Storrow Farm Road.

Baker Bridge Road, from the Sandy Pond Road, past Storrow Farm, to the Concord-Wayland Road.

Walden Road, from the Concord-Wayland Road, past the Codman place to the South Great Road.

Respectfully submitted,

MARY L. WHEELER,
GILBERT WINCHELL,
ANDREW J. DOUGHERTY, JR.

REPORT OF THE COMMITTEE ON BY-LAWS

Proposed By-Laws of the Town of Lincoln

ARTICLE I

Town Meetings

Section 1. The annual town meeting shall be held on the first Monday of March in each year at 7.30 P.M., for the consideration of all business except the election of such officers and the determination of such matters as by law are required to be elected or determined by ballot. The election of such officers and the determination of such matters as by law are required to be elected or determined by ballot shall take place on the following Saturday, when the polls shall be open from 12 M. until 7 P.M. or until such later hour as the meeting may by vote determine.

Sec. 2. Notice of every town meeting shall be given by posting copies of the warrant calling the same, attested by the officer making service thereof, in each of the post-offices within the town, and in one other public place within the town.

Procedure at Town Meetings

Sec. 3. Only voters shall be admitted to the place of meeting or to a defined portion thereof, and the check list shall be used in the enforcement of such order. This order shall be enforced by the Moderator.

Sec. 4. All votes, unless otherwise provided by law, shall be taken in the first instance by a voice vote. If the Moderator is in doubt as to the result of the vote, or if seven registered voters immediately doubt the vote, the Moderator shall call either for a standing vote or for a vote by ballot or by use of the check list as the Moderator may determine.

Sec. 5. When a question is before the meeting, the following motions, to wit:

To adjourn,
 To lay on the table,
 For the previous question,
 To postpone to a time certain,
 To commit, recommit, or refer,
 To amend,
 To postpone indefinitely,

shall be received and shall have precedence in the foregoing order; and the first three shall be decided without debate.

Sec. 6. On proposed amendments involving sums of money, the larger or largest amount shall be put to the question first, and an affirmative vote thereon shall be a negative vote on any smaller amount.

Sec. 7. When a report of a committee is placed in the hands of the Moderator, it shall be deemed to be properly before the meeting for its action thereon, and a vote to accept the same shall discharge the committee; for the adoption of the recommendations of the committee, however, a specific vote shall be required. No appropriation shall be made under the report of any committee of the town until the matter has been considered and reported upon by the Finance Committee.

ARTICLE II

Finances

Section 1. The town treasurer shall have the custody of all funds belonging to the town, including trust funds, except funds for which other provision is made by law. Except as provided in Section 5 in this Article, he shall pay no money from the treasury except upon a warrant signed by a majority of the Selectmen, stating the account to which the same is chargeable. Such warrant shall be sufficient authority to the treasurer to pay the same, and the payment thereof shall

discharge him from all liability on account of the money so paid.

Sec. 2. The water commissioners and all other boards, committees and officers shall, on the first day of each month, pay to the town treasurer all sums collected by them the month previous to the custody of which the treasurer is entitled.

Sec. 3. A majority of the water commissioners, school committee, or of any board, or committee, and any officer having charge of the expenditure of an appropriation, shall approve in writing all accounts, claims, bills and pay-rolls properly chargeable to such appropriation, and shall transmit the same with his or their approval to the selectmen. All other accounts, claims, bills and pay-rolls shall be examined by the selectmen and, if proper, shall be approved by them. The selectmen shall label all accounts, claims, bills and pay-rolls which have been approved either by themselves or by the other officers before mentioned, and shall keep a record thereof in a book kept for the purpose, stating the persons to whom payable, the amounts and dates thereof, and the funds, or appropriations, from which the same are payable.

Sec. 4. No money except State and County taxes, and principal and interest of town notes or bonds, final judgments of courts and money payable to the commissioners of sinking funds, shall be paid from the town treasury except upon a warrant therefor signed by a majority of the selectmen.

Sec. 5. The treasurer shall file and safely keep all approved and receipted accounts, claims, bills, and pay-rolls, and all vouchers, cancelled bonds, notes, scrip, and other evidences of indebtedness of the town which have been paid from the treasury. Except as otherwise provided by law, the treasurer shall have custody of deeds, bonds, contracts, insurance policies, and other similar documents owned by the town,

except that the bond given by the treasurer to the town shall be in the custody of the selectmen.

Sec. 6. No warrant shall be issued by the Selectmen unless there is sufficient appropriation to pay the same, except for money payable to the commissioners of sinking funds.

Sec. 7. The selectmen and treasurer respectively shall make a record, in a book kept for the purpose, of each appropriation, with a list of the drafts drawn against such appropriation, and shall make a record of all bonds, notes, scrip or other evidence of indebtedness of the town, signed or countersigned by them.

Sec. 8. When the bills contracted or approved by any board, committee, or officer have exhausted the entire appropriation for such board, committee, or officer, they shall incur no further expenditure, except in such cases where such expenditure may be required by law; and it shall be the duty of each board, committee or officer before the close of the financial year to approve all accounts, claims, bills and pay-rolls chargeable to their appropriation. During the interval between the thirty-first day of December in each year and the time of making the next annual appropriations, town officers authorized to make expenditures may incur liability in carrying on the work intrusted to them and payments therefor shall be made from the town treasury from any available funds therein, and the same shall be charged against the next annual appropriation. Such liability and expenditure incurred for any purpose shall not exceed in any month the sums spent for similar purposes during any one month of the preceding year; and, provided, further, that said officers may expend in any one month for any new officer or board lawfully created an amount not exceeding one-twelfth of the estimated cost for the current year. All interest and debt falling due in said period shall be paid.

Sec. 9. Unless the town shall expressly otherwise vote,

no extension of water pipes shall be made unless before the work of construction is begun one or more of the persons whom it is proposed to supply with water by means of such extension, shall file with the town clerk a bond with sureties satisfactory to the water commissioners, conditioned to pay to the town for five years next following the completion of such extension and the letting of water into the same, a sum sufficient, together with the net annual income from such extension, to amount annually to five per centum of the total cost thereof.

Sec. 10. There shall be a Finance Committee composed of three voters of the Town who shall serve without pay and shall not, while serving on said committee, hold any other Town office. Within thirty days after the adjournment of the Town Meeting at which this By-Law is adopted, the Moderator shall appoint three persons to serve on said Committee, one person for a term of three years, one person for a term of two years, and one person for a term of one year. Thereafter the Moderator shall appoint, within thirty days after the adjournment of every Annual Town Meeting, one person to serve on said Committee for a period of three years. The members of the Committee shall hold office until their successors are appointed and qualified, and any vacancy shall be filled by the remaining members of the Committee and the Moderator. The Committee shall choose a chairman and a secretary and shall, prior to the Annual Town Meeting, confer with the Selectmen for consideration of the annual budget, and may hold public hearings. The Committee shall consider all questions that require the expenditures of money and shall consult with all boards, committees, or officers on their respective annual or special requests for appropriations. The committee shall make reports and recommendations in the Annual Town Report or by special report on any question brought before the Town at a Town Meeting other than the Annual Town Meeting.

Sec. 11. Within forty-eight hours after the dissolution or adjournment without day of any Town Meeting, the Town clerk shall transmit to the Selectmen, to the town treasurer, to the auditor, and to the assessors respectively, a certified copy of all votes appropriating money or authorizing the expenditure of money or otherwise affecting the finances of the Town, and within the same period the town clerk shall transmit to all other town officers or committees a certified copy of any vote of the Town affecting their respective powers or duties.

ARTICLE III

Town Seal

Section 1. The design of the town seal shall be: a circle, in the border the words "Lincoln. Incorporated in 1746 as a precinct; in 1754 as a Town"; in the center, a shield, in the chief or upper part of which on a cross, gules, a fleur-de-lis, gold, from the old seal of Lincoln, England, and in the base of the shield a view of the present town hall; crest, the old chestnut tree standing upon the common in Lincoln; in saltire two shepherd's crooks; the device thereof being as follows:

Sec. 2. All deeds and other legal documents made, given or entered into by the Town requiring a seal shall be sealed with the Town seal, and signed in behalf of the Town by a majority of the selectmen.

Sec. 3. The town clerk shall have the custody of the Town seal.

ARTICLE IV

Powers and Duties of Officers

Section 1. The Selectmen shall have general direction and management of the property and affairs of the Town in all matters not otherwise provided by the law of the Commonwealth or by these by-laws.

Sec. 2. The selectmen may compromise claims and suits to which the Town is a party, provided that they shall act upon the advice of counsel when the amount claimed by or against the Town exceeds \$200.00.

Sec. 3. The selectmen shall have, unless it is otherwise voted by the Town, full authority as agents of the Town to institute and prosecute suits or other proceedings in the name of the Town before any tribunal, to appear and represent or defend the Town before any tribunal in all suits and other proceedings against the Town or in which the Town has an interest, to employ counsel for the purpose aforesaid, and for other purposes when it may be expedient to do so, and to take all necessary and proper measures for the protection of the interests and rights of the Town.

Sec. 4. If the Town shall, at any meeting called for the purpose, choose a committee on claims, such committee shall have and exercise exclusively all the powers and duties conferred upon the selectmen by the two preceding sections.

Sec. 5. The town clerk shall keep a file of all town reports, reports of all committees chosen by the Town, and all original documents relating to the affairs of the Town which may come into his possession. It shall be the duty of the town clerk to see that all conveyances of real estate to the town are properly recorded in the Registry of Deeds.

Sec. 6. The collector of taxes shall cause to be printed upon each tax bill a statement of the law relative to the date when taxes are payable, the rate of interest charged on unpaid taxes, and the valuation upon which such tax is based, and, in case a tax bill covers two or more parcels of real estate, the tax bill shall be itemized by the assessors to show the tax on each parcel which shall be identified.

Sec. 7. No officer or board of the Town shall make any contract on behalf of the Town in which such officer or any

member of such board is directly or indirectly financially interested, except competitive contracts.

Sec. 8. Except in cases of public calamity or extreme necessity, whenever any work is required to be done for the Town and a contract for labor or materials, or both is to be made in behalf of the Town, for an amount exceeding the sum of \$500.00, the town officer, having the matter in charge, shall solicit proposals for the same from two or more reliable parties, regularly engaged or employed in such work or business, or shall publicly advertise for bids, but no contract shall be split, separated or divided for the purpose of reducing the amount thereof below said sum of \$500.00.

Sec. 9. The commissioners of trust funds shall act as the grammar school fund trustees.

ARTICLE V

Records

Section 1. Books, records and laws received by the Town from the Commonwealth shall be deposited in the public library building.

Sec. 2. It shall be the duty of the Town officer by whom any book mentioned in the preceding section is received, to cause the same to be at once deposited in the public library building.

Sec. 3. Such books may be used by the inhabitants of the Town within such building, and may be taken therefrom upon written receipt to the librarian for a period not exceeding one day at any one time for use in any Town meeting, or by or before any committee or official of the Town.

ARTICLE VI

Reports and Publications by the Town

Section 1. The annual reports of the Town officers, boards

and committees shall be prepared and submitted to the selectmen in form suitable for printing on or before the twentieth day of January in each year. The selectmen shall cause such reports to be printed and one copy to be distributed to each house in the Town seven days at least before the annual meeting.

Sec. 2. The selectmen shall cause to be printed and bound each year with the annual reports of the town officers, boards and committees, a copy of the records of the town meetings during the preceding year; a statement of all devises, bequests and donations to the Town during the preceding year; a list of all laws of the Commonwealth accepted by the Town during the year; all by-laws adopted by the Town since the preceding annual report; copies of the laying out, alteration, locating anew or discontinuance of any highway or town-way within the limits of the Town during the preceding year; and a statement of all outstanding bonds, notes and obligations of the Town for the payment for money.

Sec. 3. The selectmen shall from time to time cause to be printed a sufficient number of copies of the by-laws of the Town and shall incorporate therewith a list of the laws of the Commonwealth which have been accepted by the Town.

ARTICLE VII

Water Works

Section 1. The water commissioners may appoint a water registrar who, under the direction of said board, shall take and tabulate prior to June first of any year a complete census of the water fixtures connected with the water works which are then in use and report the same to the board, assess the rates, and perform any other duties required by the board.

Sec. 2. The board shall transmit the assessments for water rates to the collector of taxes, who shall collect the same and turn the proceeds over to the town treasurer the first of every month.

Sec. 3. Water taxes shall be payable to the collector in advance the first day of July in each year.

Sec. 4. No tap for a service shall be made until the board votes for it, and the board may demand a suitable deposit before allowing the tap.

Sec. 5. Upon the non-payment of the water rates by October fifteenth of the year in which they are due, the collector shall serve a summons upon the delinquent; and, unless said rates are paid within ten days thereafter, together with twenty cents for said summons, the collector shall notify the superintendent, who shall shut off the water, and it then shall not be turned on until the amount due, together with the twenty cents for the summons and one dollar for the shutting off and one dollar for the turning on, is paid. The foregoing provisions shall apply if two or more parties take water from the same service pipe, although one or more of them may have paid the proportion due from him or them. Said summons may be served in any of the ways provided by law for the service of a summons for the non-payment of a tax.

Sec. 6. The said board may make abatements in the water rates in such cases as it may deem proper; and may temporarily shut off the water from any street after giving notice of their intention so to do.

Sec. 7. Said board shall keep suitable books in which shall be entered the names of all water-takers and the amount charged; which books shall be open to inspection.

ARTICLE IX

Repeal

Section. 1. All by-laws or parts of by-laws heretofore adopted, which are inconsistent with the provisions of the foregoing by-laws, except the zoning by-law, are hereby repealed and annulled; but the provisions of the foregoing by-laws, so far as they are the same as the provisions of by-

laws heretofore adopted, shall be construed as a continuation of said by-laws, and not as new enactments.

Sec. 2. The repeal of a By-Law heretofore adopted shall not affect any act done, ratified or confirmed, or any right accrued or established, nor any action, suit or proceeding commenced or had, nor affect any punishment, penalty, or forfeiture incurred under such by-law.

Prepared and submitted by the By-Law committee.

RICHARD K. CONANT,
F. WINCHESTER DENIO,
SUMNER SMITH.

REPORT OF SCHOOL COMMITTEE

To the Voters of Lincoln:

Your Committee are pleased to report very satisfactory progress in the conduct of the schools and in the co-operation maintained between the Superintendent and teachers in the carrying out of the school program, all of which tends toward the accomplishment of those results much desired. The interest shown by the parents in the work of the pupils is becoming more and more noticeable each year, and it is a wish of the Committee that this interest be continued. Superintendent and teachers are pleased to receive visits from parents and are always ready and willing to give a parent any information relative to the work being done by his or her child, and to offer and receive any suggestion of a helpful nature in such cases. It is hoped that parents will take full advantage of this opportunity and thus learn from observation what the schools are doing for the child.

Again another year has passed without change in our Teaching Department, a condition most pleasing to both Superintendent and committee and one that we hope may continue.

The committee wish to take this opportunity to extend to Mr. Norman Fradd of the Physical Education Department of Harvard University, and now a resident of Lincoln, its appreciation of the work done by him in connection with a posture survey of all the children in our schools, and feel that this service is deserving of the general thanks of all parents.

Transportation

No changes of importance have taken place in this Department during the year. Four busses of modern design and in charge of competent drivers are now being operated giving to the Town transportation facilities equal to any furnished throughout the State, and covering practically all sections of the Town.

School Buildings and Grounds

During the past two years both of our school buildings were put in good repair and other than minor matters that constantly appear, no extraordinary repairs were necessary the past year, and very little expense for repairs is anticipated the coming year.

While the above comment may be applied to the buildings, a much different situation exists as to the grounds. It has been noticed that for several years the lower part of the playground of the Centre School is fast becoming more spongy and water-soaked, and in many places along the lines of the underground drainage ditches, depressions are becoming more and more numerous, thus causing a condition bordering on the dangerous, as the grounds continue to be used. While no positive or accurate figures as to the cost of putting the grounds into proper condition have been obtained, advice and information as to what is necessary to be done toward properly draining this part of the playground and the approximate cost for such work has been secured. Relying somewhat on the information received, your Committee are of the opinion that it would require approximately two thousand (\$2,000) dollars, to do this work.

While the Committee would very much desire that this work be done the coming spring, yet, it feels that it is for the Town to consider at this time whether or not it wishes to provide such funds as may be needed for this improvement. In any event, your Committee feels that it has done its full duty in calling to the attention of the Town, conditions as at present existing with respect to this playground.

Finances

The all-important and much debated subject throughout the country at the present time is that of ECONOMY IN GOVERNMENT, and a very pressing call for a reduction in national, state and municipal expenses. Insofar as Lincoln

is concerned, it may be said that it is fortunate in that it is one of the very few municipalities exempt from waste or extravagance in its expenditures, and holds the very enviable position of being one of the very few towns in the Commonwealth free from debt.

Economy in government is sought by all and all should work to that end and exert every effort to eliminate waste and extravagance in any department, or over any appropriation placed under their control. It must be borne in mind, however, that while economy should be exercised to the greatest extent, very careful consideration should be given in its application to appropriations made for school support, in order that by its application the morale and high standard of the schools would not suffer.

Having these facts in mind, your Committee in preparing its budget for the present year, and after a careful consideration of each item, have caused reductions to be made where in their best judgment a saving could be had. As a number of our school expenditures are fixed, such as high school tuition, fuel, health, ordinary repairs, and even books and supplies, only in a few instances may any great saving be made. Your Committee, however, have been able through a reduction in the cost of local transportation and by the withholding of the annual increase granted to teachers who have not as yet reached the maximum in salaries, and a slight reduction in the item of books and supplies, to reduce the amount required for school expenditures from that of the year 1932 by about one thousand (\$1,000) dollars, and would respectfully recommend the following appropriations:

For General School Expenses	\$35,700 00
For Vocational Education	1,200 00
	<hr/>
Total	\$36,900 00

This does not take into consideration any appropriation in connection with improvements that may be made upon the

Centre School Playground, if the Town decides such improvements should be made.

A summary of receipts and expenditures on account of the schools for this year is hereto annexed, together with reports of the superintendent and school nurse.

Respectfully submitted,

ANTHONY J. DOHERTY,
HARRY M. CONDIT, JR.
EDITH B. FARRAR.

SUMMARY OF EXPENDITURES FOR SCHOOLS 1932

Salaries	\$19,115 00	
Superintendent's Expenses	126 56	
Textbooks	437 84	
Supplies	433 22	
Fuel	752 60	
Miscellaneous Operating Expenses	547 79	
Repairs	341 89	
Health	625 69	
Local transportation	7,412 00	
High School transportation	2,182 70	
High School tuition	4,518 47	
<hr/>		
Total	\$36,493 76	\$36,493 76

Received on Account of Schools, 1932

Commonwealth of Massachusetts		
Part I, Chap. 70	\$2,010 00

Total	\$4,945 84	\$4,945 84

Vocational Account

Expenditures	\$1,178 86
Received from Commonwealth of Mass. for Vocational Educa- tion	532 50

There is due from the Commonwealth of Massachusetts on account of High School Transportation for the year 1932, the sum of — \$2,033.85.

SUPERINTENDENT'S REPORT

To the School Committee of Lincoln:

Herewith is submitted my fourth annual report as Superintendent of Schools.

The most significant item I have to report, and the one which gives me the greatest satisfaction, is this: for the third consecutive year there has been no change in the teaching staff of our schools. I know of no other town in the Commonwealth where such a condition exists.

To keep a teaching staff intact over a period of three years must result in increased efficiency and strengthened morale. The ultimate gain is for the pupil who becomes accustomed to certain teachers who in turn come to know the strength and weakness of the individual pupil.

No better opportunity will be afforded me to record my appreciation of the unstinted co-operation which these teachers have given to me. Their attention to their duties cannot be questioned; their willingness to assist pupils has been demonstrated time and time again. Pupils and parents have found them to be patient, understanding, and co-operative.

To the teaching corps, in the final analysis, belongs the major credit for the success of any school. I have said before and record it now sincerely that the staff in the Lincoln schools is the equal of many much more widely advertised and highly paid staffs. They are a credit to the community they serve.

The de Cordova Medal, which is awarded annually for scholarship and good school citizenship, was given in June to Alice Meriam and George Browning of grade six, and to Emily Rand and Joseph Martella of grade seven.

At the request of the Board of Selectmen the schools prepared a program for the Washington bicentennial. This was given in the Town Hall, April 11, 1932, to a capacity audience.

The pupils presented a cantata, "George Washington," illustrated by living pictures. The trustees of the Bemis Lecture Fund co-operated in the presentation on the same program a lecture on George Washington by John K. Lacock.

The teachers and pupils were glad to co-operate with the officers of the Lincoln Post, American Legion in the preparation of the exercises on Memorial Day.

For the third successive year we participated in the Poster Contest of the Massachusetts S. P. C. A. in which the following pupils won awards:

Bronze Medal — First Prize

Harry Davis	James Cunningham
Elizabeth Jackman	Lucille LaFrance

Silver Medal — Second Prize

Randolph Foreman	Ann Tarbell
Florence McDonald	

Honorable Mention

Emmons Bowles	Priscilla Farrar
Lucy Rand	Winnifred Gerrish
Marjorie Hill	

The Town is now paying tuition for forty-seven pupils in high and trade schools.

Concord High School	27
Waltham High School	13
Boston Public Latin School	1
Boston Trade School	2
Waltham Vocational School	4

A posture survey directed by Mr. Norman Fradd of the Physical Education Department of Harvard University was started in December. The results are not available as this report is being written.

The physical condition of the schools is excellent. Except for such repairs as are needed to keep them in good condition

the maintenance cost will be small this coming year. No extensive repairs are necessary.

When everybody is scrutinizing costs in an effort to keep expenses within reason it may be of interest to the citizens of Lincoln to study the following tables.

The first table is based on membership as of October first, and the teacher's payroll of the same date. The school year is figured on the basis of 180 days.

Year	Membership October 1		Payroll Per Day		Teaching Cost Per Pupil Per Day	
	JHS	Elem	JHS	Elem	JHS	Elem
1932	64	181	\$26 39	\$50 00	\$0 4123	\$0 2762
1931	61	179	25 28	48 33	0 4144	0 27
1928	66	160	21 67	45 00	0 3283	0 2813
1927	62	172	25 56	47 22	0 4123	0 2745

Data for the following tables are from Massachusetts Department of Education Reports, Part II. All figures are for the year ending June 30.

Year	Salaries	Average Membership	Per Pupil Cost
1932	\$16,360 00	235	\$69 64
1931	15,834 00	232	68 25
1928	15,622 00	222	70 37
1927	15,177 00	207	73 32

The following table is based on all costs of instruction, including teacher's salaries, textbooks, supplies, etc.

Year	Expenses of Instruction	Average Membership	Cost per Pupil
1932	\$17,260 21	235	\$73 45
1931	17,581 02	232	75 78
1928	16,876 09	222	76 02
1927	16,084 83	207	77 70

Again let me record my appreciation for the counsel of your committee, and for your co-operation.

Respectfully submitted,

CARL F. HOLLORAN,
Superintendent of Schools.

Pupils Graduated June, 1932

REPORT OF SCHOOL NURSE

To the Lincoln School Committee:

A report of the school nursing for the year ending December 31, 1932, is hereby submitted. The schools were visited daily, 139 home visits made, 672 office calls of pupils treated or advised. Sixteen trips to hospitals or clinics, and 57 pupils taken home from school owing to illness.

Assisted Doctor Wood with the yearly physical examinations and all pupils were weighed and measured four times.

Notification of any physical defect was sent to parents, and corrections were many.

Communicable diseases were as follows: —

Chicken-pox	1 case
Measles	29 cases
Scarlet fever	1 case
Mumps	1 case

Doctor Wood gave diphtheria toxin-antitoxin to nine pupils and the Schick test to 37 children (23 school and 14 pre-school).

The Lincoln Dental Committee, of which Mrs. Robert Loring is chairman, conducted the dental clinic at the Center School. Doctor William Cosgrove, of Lexington, was the dentist.

Sixty-seven per cent of the pupils received dental certificates either from Doctor Cosgrove or their family dentists.

A posture survey, under the supervision of Mr. Norman Fradd of Lincoln, was started in December.

The result of this survey will be known later and a working program be decided upon to help those who need it.

Respectfully submitted,

MARION N. OBER, R.N.

School Nurse.

NOTICE:

Business Meeting, Monday, March 6, at 7.30 P.M.

WARRANT

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, ss.

To either of the Constables of the Town of Lincoln in said County:

GREETINGS:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify the legal voters of said Town of Lincoln, qualified to vote in Town Meeting for the transaction of Town affairs, to meet in the Town Hall in said Lincoln on Monday, the sixth day of March next at 7.30 o'clock P.M., then and there to act on all of the following Articles, except Article 2, and also to meet in said Town Hall on Saturday, the 11th day of March next, at 12 o'clock Noon, then and there to act on the following Article 2, by posting a copy of this Warrant, by you attested, in each of the Post Offices and in some other public place in said Town seven days at least before the sixth day of March next:

The polls for voting the Australian ballot on Saturday, March 11th, will be open at 12.00 o'clock Noon, and may be closed at 6.30 o'clock P.M.

Article 1. To choose a Moderator.

Article 2. To bring in their votes for the following Town Officers and any other Officers required by law, to be elected by Australian Ballot, viz.:

One Town Clerk for one year.

One member of the Board of Selectmen for three years.

One member of the Board of Assessors for three years.

One member of the Board of Health for three years.

One Treasurer for one year.

One Collector for one year.

One Auditor for one year.

Two Constables for one year.

One Tree Warden for one year.

One member of the Sinking Fund Commissioners for three years.

One member of the Trust Fund Commissioners for three years.

One member of the Trustees for Free Public Lectures for three years.

One member of the School Committee for three years.

TOWN CLERK'S REPORT

**Proceedings of the Annual Town Meeting Held
March 6, 1933**

WARRANT

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, ss.

To either of the Constables of the Town of Lincoln in said County:

GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify the legal voters of said Town of Lincoln, qualified to vote in Town Meeting for the transaction of Town affairs, to meet in the Town Hall in said Lincoln on Monday, the sixth day of March next at 7.30 o'clock P.M., then and there to act on the following Articles, except Article 2, and also to meet in said Town Hall on Saturday the eleventh day of March next, at 12 o'clock Noon, then and there to act on the following Article 2, by posting a copy of this Warrant, by you attested, in each of the Post Offices and in some other public place in said Town seven days at least before the sixth day of March next. The polls for voting the Australian ballot on Saturday, March eleventh will be open at 12 o'clock Noon, and may be closed at 6.30 o'clock P.M.

Article 1. To choose a Moderator.

Article 2. To bring in their votes for the following Town Officers required by law, to be elected by Australian Ballot, viz.:

One Town Clerk for one year.

One member of the Board of Selectmen for three years.

One member of the Board of Assessors for three years.

One member of the Board of Health for three years.

One Treasurer for one year.

One Collector for one year.

One Auditor for one year.

Two Constables for one year.

One Tree Warden for one year.

One member of the Sinking Fund Commissioners for three years.

One member of the Trust Fund Commissioners for three years.

One member of the Trustees for Free Public Lectures for three years.

One member of the School Committee for three years.

One member of the Board of Water Commissioners for three years.

One member of the Board of Cemetery Commissioners for three years.

Article 3. To bring in their votes for any committees, commissioners, trustees and other officers, required by law to be elected by ballot or otherwise.

Article 4. To hear and act upon the reports of the Town Officers, Committees, Commissioners and Trustees.

Article 5. To appropriate money for the necessary and expedient purposes of the Town and enact anything in relation to the same.

Article 6. To determine the manner of collecting taxes for the ensuing year.

Article 7. To determine the compensation of the Collector of Taxes for the ensuing year.

Article 8. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the financial year beginning January 1, 1933, and to issue a note or notes therefor, payable within one year, any debt or debts incurred under this vote to be paid from the revenue of the financial year beginning January 1, 1933.

Article 9. To see if the Town will vote to appropriate a sum sufficient to pay the County of Middlesex as required by law, the Town's share of the net cost of care, maintenance and repair of the Middlesex County Tuberculosis Hospital and for care and treatment of tubercular patients up to June 30, 1932, under Acts of 1928, Chapter 385 as amended by Acts of 1931, Chapter 60 including interest and discount on temporary notes issued therefor as assessed in accordance with the provisions of Chapter 111 of the General Laws and Acts in amendment thereof and in addition thereto or take any action in relation thereto.

Article 10. To see if the Town will adopt the By-laws recommended by the Committee appointed to revise the By-laws of the Town or take any action relative thereto.

Article 11. To see if the Town will direct the Selectmen to appoint Field Drivers, or take any action relative thereto.

Article 12. To see if the Town will direct the Selectmen to appoint two or more Fence Viewers or take any action relative thereto.

Article 13. To see if the Town will vote to elect a Moderator for the term of one year, or take any action relative thereto.

Article 14. To see if the Town will vote to name the roads of the Town, or take any action relative thereto.

Article 15. To see if the Town will vote to purchase a new Forest Fire Truck, appropriate the sum of two thousand dollars therefor, or take any action relative to the same.

Article 16. To see if the Town will appropriate the sum of four thousand dollars to purchase from the Commonwealth of Massachusetts \$4,000, Town of Lincoln bonds 4s of 1937 and that this amount be taken from the Water Works treasury.

HEREOF FAIL NOT

And make due return of this WARRANT with your doings thereon to the Town Clerk at or before the time for said meeting aforesaid.

Given under our hands this 14th day of February in the year of our Lord one thousand nine hundred and thirty-three.

(Signed) GEORGE G. TARBELL,
ROBERT D. DONALDSON,
HERBERT G. FARRAR,
Selectmen of Lincoln.

On the reverse of the Warrant is the following:

February 21, 1933.

I have served this Warrant by posting an attested copy in each of the Post Offices and one at the Railroad Station seven days before date of said meeting.

(Signed) JOHN J. KELLIHER,
Constable.

In accordance with the provisions of the foregoing Warrant, the Annual Town Meeting was called to order at 7.30 o'clock P.M., in the Town Hall by the Town Clerk, who read the Warrant and presided at the Election of a Moderator.

Article 1. Robert D. Donaldson, Jr., was elected and sworn as Moderator.

Article 3. Dr. Philip W. Place, James Corrigan and William H. Sherman were elected Fence Viewers.

Charles E. Woodhull and Hermon T. Wheeler were elected Measurers of Wood and Bark.

Conrad P. Hatheway and F. Winchester Denio were elected Trustees of Grammar School Funds.

Voted to pass over Office of Surveyor of Lumber.

Article 4. Voted to accept the following reports:

Town Clerk, Selectmen, Assessors, Collector of Taxes, Treasurer, Auditor, Sinking and Trust Commissioners, Superintendent of Streets, Water Commissioner, Board of Health,

Cemetery Commissioners, Fire Department, Tree Warden, Public Health Nurse Committee, Inspector of Animals, Middlesex Extension Service, Trustees of Lincoln Library, Committee on naming roads, Committee on By-Laws, School Committee.

Article 5. Voted to allow Mr. G. G. Tarbell to speak on the Finances of the Town.

Voted to allow Mr. A. J. Doherty to speak on the School expenditures. A motion that the School appropriation be \$30,000 was amended to \$35,700 for Schools and \$1,200 for Vocational Education. Amendment was lost.

The original motion was then put, and also lost.

Voted that the Hall be cleared of non-voters during the counting of votes.

Voted that the sum of \$34,500 be appropriated for Schools.

Voted that the Water Works appropriation be considered separately.

Voted to appropriate all items on Page 61 of the Town Report except "Town Hall and Grounds," that Item to be \$2,150.

Voted the Water Works appropriation be \$6,205, this amount to be taken from the Water Works Treasury.

Other appropriations were voted as follows:

Vocational Education	\$1,200.00
Public Welfare	3,000.00
Highways and Bridges	15,700.00
Highways, Chapter 90, Maintenance	2,500.00
Cemeteries	600.00

Library and Dog Tax	\$876.00
Board of Health	1,600.00
Tree Warden	800.00
Moth Work	500.00
Miscellaneous Expenses	1,200.00
Street Lights	3,200.00
Fire Department	1,600.00
Interest on Town Loans	1,000.00
Veterans' Aid	180.00
Police Department	1,850.00
Town Officers' Salary a/c	3,175.00
Insurance	260.74
Election Expenses	75.00
Reserve Fund	1,000.00

This total together with Appropriations under Article 9, of \$422.56, Article 15 of \$2,000, and Article 16 of \$4,000 make a grand total of \$89,594.30; \$10,205 of which is to be taken from Water Works Treasury, Balance \$79,389.30.

Article 6. Voted that the Taxes for 1933 be collected in the same manner as last year.

Article 7. Voted that the compensation of the Collector of Taxes be 1 and 35/100's of the amount collected.

Article 8. Voted that the Town authorize the Treasurer with the approval of the Selectmen to borrow money in anticipation of the revenue of the financial year beginning January 1, 1933, and to issue a note or notes therefor, payable within one year; any debt or debts incurred under this vote to be paid from the revenue of the financial year beginning January 1, 1933.

Article 9. Voted that the sum of \$422.56, this being the Town's share of the net cost of care, maintenance and repair

of the Middlesex County Tuberculosis Hospital including interest on temporary notes issued therefor, and for the Town's share of the cost of care and treatment of tubercular patients up to June 30, 1932, under Acts of 1928, Chapter 385 as amended, including interest and expenses, be and the said sum hereby is appropriated.

Article 10. Under this Article the following proposed By-Laws were unanimously adopted, as printed in the Town Report for the year 1932 on pages 147 to 157, with the following corrections and omission:

Article 1, Section 5—In place of the words "To adjourn" insert the following "To fix the time to which to adjourn." Add to the words "For the previous question" the following "by two-thirds vote."

Article 7, Section 5—Omit the words—"The foregoing provisions shall apply if two or more parties take water from the same service pipe, although one or more of them may have paid the proportion due from him or them."

Article 9 should read *Article 8*.

Article 11. Voted that the Town direct the Selectmen to appoint two Field Drivers on the first meeting after the annual election.

Article 12. Voted that the Town direct the Selectmen to appoint two Fence Viewers on the first meeting after the annual election.

Article 13. Voted that the Town elect a Moderator by Australian ballot at the annual election, his term expiring at the adjournment *sine die* of the next annual election.

Article 14. Under this Article the recommendations of the Committee on naming the roads of Lincoln were taken up.

Voted that the Concord-Wayland Road as recommended be changed to Concord Road.

Voted that Old Bedford Road as recommended be changed to Bedford Lane and that Bedford Lane as recommended be changed to Old Bedford Road.

A motion to change Station Road as recommended to Lincoln Road was lost.

Voted that Walden Road as recommended be changed to Codman Road.

A motion to ask the same committee to serve another year was lost, as was also a motion that the report of the committee be referred to a future meeting.

Voted that a committee of five be appointed to recommend a name for Station Road so-called, said committee to be appointed by the Moderator, and to be composed of residents of Station Road, and report at the next Town Meeting. The Moderator appointed the following committee:

Mr. A. J. Doherty, chairman, Mrs. C. Lee Todd, Mr. Harland B. Newton, Mr. H. S. Cousins and Mrs. Dana M. Greely.

With the above changes the names of roads read as follows:

South Great Road, numbered Route 117, from the Concord line at Lee's Bridge to the Weston line.

North Great Road, numbered Route 2 from the Concord line to the Lexington line.

Concord Road, numbered Route 27, from the Concord line to the Wayland line.

Old Concord Road, from the Concord Road at Baker Bridge to the Concord Road near St. Anne's Church.

Farrar Road, from the Concord Road to the Oxbow Road.

Oxbow Road, from the Wayland Line to the Wayland line, continuing the name given to the road in Wayland.

Old Sudbury Road, from the South Great Road near Hayne's Crossing (both ways) to the Wayland line.

Trapelo Road, from the center of the town past the Library to the Waltham line.

Weston Road, from the center to the Weston line toward Silver Hill.

Sandy Pond Road, from the center, past Sandy Pond, to the Concord line.

Bedford Road, from the center, past the Town Hall and the Shea and Fleming houses to the North Great Road.

Virginia Road, from the North Great Road, opposite the end of Bedford Road past Hartwell Farm to the Concord line.

Bedford Lane, from the Bedford Road past the site of the old North Schoolhouse to the Virginia Road at the McHugh house.

Old Bedford Road, from the North Great Road near the Keizer place across the Virginia Road, to the Bedford line.

Cambridge Turnpike, from the Concord line, past the Loring house to the Lexington line.

Brooks Road, from the Cambridge Turnpike at the Brooks House to the North Great Road at the Concord line.

Lexington Road, from the Trapelo Road at the three-cornered cemetery to the Cambridge Turnpike at the Loring house, then from the Cambridge Turnpike at the Farquhar place to the Lexington line.

Old Lexington Road, from Bedford Road at the foot of the Common, past the Donaldson house, to the Lexington Road.

Library Lane, from the Bedford Road, behind the Library, to Trapelo Road.

Mill Street, from the Lexington Road near the Farquhar place to the North Great Road.

Nelson Road, from the North Great Road at the Nelson place to the Lexington line.

Page Road, from the Trapelo Road to the Cambridge Turnpike past the Page place.

Winter Street, from the Trapelo Road past the Coane house (both ways) to the Waltham line.

Silver Hill Road, from the Trapelo Road, past the Herman house to the Weston Road.

Conant Road, from the Weston Road, past the Browning house to the Weston line.

Old Country Road, from the Weston line near the junction with Conant Road, past the Cambridge Water Basin, to the Lexington line near the junction with the Cambridge Turnpike.

Tower Road, from Station Road at the Doctor Chapin house to the Weston line.

Peirce Hill Road, from the Tower Road at the Peirce house to the Station Road.

McIntosh Lane, from the Station Road at the Hodges house to the Storrow Farm Road.

Baker Bridge Road, from the Sandy Pond Road, past Storrow Farm to the Concord Road.

Codman Road, from the Concord Road past the Codman place to the South Great Road.

Respectfully submitted,

(Signed) MARY L. WHEELER,
GUILBERT WINCHELL,
ANDREW J. DOUGHERTY, JR.

Voted that the Town adopt the names of the roads as recommended by the Committee on Naming the Roads of the Town as they appear on pages 144, 145 and 146 of the Report of the Officers of Lincoln for the year 1932 as amended.

Article 15. Voted that the Town appropriate the sum of \$2,000 for a new Forest fire truck, to be spent under the supervision of the Selectmen and fire engineers.

Article 16. Voted that the Town appropriate the sum of \$4,000 to purchase from the Commonwealth of Massachusetts \$4,000, Town of Lincoln bonds 4's of 1937 and that this amount be taken from the Water Works Treasury.

Voted to adjourn at 11.45 P.M.

(Signed) WILLIAM H. DAVIS,
Town Clerk.

SPECIAL STATE ELECTION
HELD IN THE TOWN HALL, LINCOLN
March 21, 1933

WARRANT

THE COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, ss.

To either of the Constables of the Town of Lincoln,

GREETING:

In the name of the Commonwealth you are hereby required to notify and warn the inhabitants of said Town who are qualified to vote in Elections to meet in the Town Hall, Tuesday the twenty-first day of March, 1933, at twelve o'clock Noon, for the following purposes:

To bring in their votes to the Election Officers for the Election of Candidates for the following offices:

1. Representative in General Court for the Thirteenth Middlesex District. The polls will be open from twelve Noon to seven P.M.

And you are directed to serve this Warrant by posting attested copies thereof seven days at least before the time of said meeting as directed by vote of the Town.

Hereof fail not and make return of this Warrant with your doings thereon at the time and place of said meeting.

Given under our hands this eighth day of March, A.D., 1933.

(Signed) GEORGE G. TARBELL,
HERBERT G. FARRAR,
Selectmen of Lincoln.

On the reverse of the Warrant is the following:

March 9th, 1933.

I have served this Warrant by posting attested copies in each of the Post Offices and one at the Railroad Station seven days before date of said meeting.

(Signed) JOHN J. KELLIHER,
Constable.

Pursuant to the above Warrant the polls were declared open by Herbert G. Farrar who read the Warrant and presided at the Election. The following Ballot Clerks were duly sworn: Thomas J. Dee, Edmund Giles, Raymond Hagerty, Andrew J. Dougherty, Jr., Lorrin W. Ferdinand, D. E. Sherman, Jr.

Polls were declared closed at 7 P.M., and the result announced as follows:

Total vote	259
George G. Tarbell of Lincoln	259
Blanks	0
Total	259

(Signed) WILLIAM H. DAVIS,
Town Clerk.

Vote of Middlesex District Number 13 for Representative in the General Court as determined and declared at the Town Clerks' meeting held at Concord, March 25, 1933:

	Con- cord	Lin- coln	Sud- bury	Way- land	Weston	Total
George G. Tarbell, Lincoln	142	259	50	47	148	646
Edward M. Stone, Lincoln				1		1
Francis J. A'Hearn, W. Concord			1			1
Harvey Fairbanks, Sudbury			1			1

REPORT OF THE SELECTMEN

The Selectmen present the following report for the year ending December 31, 1933.

The Board was organized by the choice of George G. Tarbell, Chairman, and Robert D. Donaldson, Secretary.

The appointments made by the Selectmen are printed with the list of Town officers.

Highways

During the past year the appropriation for Town roads, so called, has been expended in normal maintenance and in widening the northerly end of Bedford Road. No additional stone surfacing has been attempted, your Board feeling that work which utilized the maximum of hand labor should have preference.

Under the Chapter 90 appropriation work has been started in straightening some of the bad curves on Route 117, the South Great Road. Garfield Hill has been widened and a new fence erected there on one side of the road. It is our present plan to request a double allotment for work on Route 117 this coming year. With a two thousand dollar appropriation from the Town and four thousand dollars each from the State and County, a good start could be made at the easterly end of the road. At the date of writing this report it is uncertain whether this recommendation will be final, due to the fact that a resolve has been filed in the Legislature calling for an investigation as to the need for a state highway along this route. Of course should the Department of Public Works rebuild this road from the Highway Fund, we

would recommend other use for the Chapter 90 appropriation. We have requested the County Commissioners to re-locate the road, anticipating that it will remain a Chapter 90 highway.

Three highway projects were submitted to and approved by the Civil Works Administration. These were the widening of Silver Hill Road, of Brooks Road, and the straightening of the bad curve on Bedford Road at the foot of the hill. The work was not completed under the Civil Works Administration, but will be finished during the coming year as part of the highway program. Under these Civil Works Administration projects we authorized the use of the Town trucks and teams with drivers, the blasting of certain ledges, and cost of gravel as the Town's contribution towards these public works.

Public Buildings and Grounds

Little in the way of repairs has been attempted on the Town Hall during the past year. The roof, on which considerable money has been expended in the past, still develops leaks under certain unfavorable conditions. We believe that the only way properly to stop further trouble is to re-slate the entire roof. This will be very expensive and should not be undertaken until absolutely necessary.

The baseball field has turned out to be a great success. We approved a small payment from Town funds to complete the grandstand, for which there was not a sufficient balance in the ball field account. At some time in the future the field can be further graded with loam taken from the parking area and from the roadway leading to the northerly end of the property. We plan to erect a fence along the left field boundary.

The John H. Pierce Park has been planted with native hardwood and evergreen trees which in time will form a

natural frame for that portion of the park immediately contiguous to the center. During the fall we started work on two tennis courts just before the Civil Works Administration projects were initiated by the Federal Government. Inasmuch as the Town's allotment of money available for labor under the Civil Works Administration was greatly in excess of any requests made to this Board for work, we believed it advisable to postpone the building of the courts until such time as the work would be again needed for the relief of unemployment.

Fire Department

The new forest fire apparatus has proven to be a great success. Not only is it very efficient for brush fires, but it is capable of throwing a good stream from a hydrant. It will handle incipient building fires as efficiently as the large pump. A similar piece of apparatus should be bought for North Lincoln as soon as economic conditions warrant.

Public Welfare

There has been the expected increase in public welfare costs. We anticipate a further substantial increase during the coming year. Although we have maintained the policy of not placing able-bodied citizens on the public welfare rolls, we are constantly receiving requests for aid which must be so charged. Welfare cases in other municipalities where legal settlement is in Lincoln, are increasing.

In many cities and towns the cost of maintaining the Department of Public Welfare has materially decreased due to the work furnished by the Federal Government on Civil Works Administration projects. Lincoln, however, having no able-bodied men on the public welfare rolls, has in consequence been unable to transfer any of this financial burden onto the Federal Government.

Audit of Town Accounts

In April the accounts of the Town were audited by the Division of Accounts of the Department of Corporations and Taxation. The report of the audit follows, with correspondence relative thereto, which is self-explanatory.

THE COMMONWEALTH OF MASSACHUSETTS

Department of Corporations and Taxation

Division of Accounts

State House, Boston

May 24, 1933

To the Board of Selectmen

Mr. George G. Tarbell, *Chairman*

Lincoln, Massachusetts

Gentlemen:—I submit herewith my report of an audit of the accounts of the town of Lincoln for the period from January 1, 1932, to April 11, 1933, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Edward H. Fenton, Chief Accountant of this Division.

Very truly yours,

(Signed) THEODORE N. WADDELL,

Director of Accounts.

TNW: CAB

Mr. Theodore N. Waddell

Director of Accounts

Department of Corporations and Taxation, State
House, Boston.

Sir:—In accordance with your instructions, I have made an audit of the books and accounts of the town of Lincoln for

the period from January 1, 1932, to April 11, 1933, and submit the following report thereon:

The financial transactions of the town as recorded on the books of the several departments receiving or disbursing money for the town, were examined and checked.

The books and accounts of the treasurer were examined and checked. The cash book footings were verified and the receipts were analyzed and checked by a comparison with the records in the departments collecting money for the town and with the other sources from which money was paid into the town treasury.

The payments were checked with the orders, bills, vouchers, and pay-rolls approved by the selectmen and authorizing the treasurer to disburse town funds.

The cash balance on April 11, 1933, was verified by a reconciliation of the bank balance with statements furnished by the bank of deposit.

The appropriations and transfers voted by the town, as shown by the town clerk's records, were listed and compared with the charges against the several appropriations.

The town debt, revenue loans, and interest were verified, and the payments were checked with the amounts falling due and with the canceled securities and coupons on file.

The savings bank books and securities representing the investments of the various trust funds were examined and listed. The cash balances were reconciled with statements furnished by the banks of deposit as of April 11, 1933. The income was proved and the withdrawals were checked with the receipts as shown on the cash books of the treasurer and of the trustees of trust funds.

The books and accounts of the library treasurer were examined and checked. The receipts of the treasurer were

compared with the income and with the amounts transferred from the town, and the payments were proved. The cash balance was verified by a count of the cash on hand and by a reconciliation of the bank statement.

The books and accounts of the tax collectors from October 3, 1930, the date of the previous audit, to April 11, 1933, were examined and checked. The taxes outstanding at the time of the previous examination were audited, and all subsequent commitment lists were reconciled with the assessors' warrants. The payments to the treasurer were verified by a comparison with the treasurer's books, the recorded abatements were checked with the assessors' records of abatements granted, and the outstanding accounts were listed and proved.

Verification notices were mailed to a number of persons whose names appeared on the books as owing money to the town. Replies were received from six taxpayers to the effect that the taxes in question had been paid. In five of these cases it was found, upon subsequent detailed checking of postings, that the amount had been entered on the cash book of the present collector but had not been posted to the corresponding commitment book; and in the sixth case it was found that although the taxpayer presented a receipted bill for 1932 taxes, the payment had been applied apparently to outstanding taxes of 1931. It is urged that the tax collector keep his books and accounts in a more accurate manner in the future.

The books and accounts of the water collectors from October 3, 1930, the date of the previous audit, to April 11, 1933, were examined and checked. The commitments of water charges were examined and checked in detail. The recorded payments to the treasurer were compared with the treasurer's books and the outstanding accounts were listed.

The town clerk's records of sporting and of dog licenses were examined, the payments of the State and county being

verified with the receipts on file and the payments to the town treasurer being compared with the treasurer's cash book.

The accounts of the health, school, and cemetery departments, in addition to those of all other departments collecting money for the town or committing bills for collection, were examined and reconciled with the treasurer's books.

It was noted that it has been the custom to meet the highway pay-rolls by the issuance of a single check drawn in favor of the highway superintendent, the actual payments to the highway employees being made by this official. It is recommended that this practice be discontinued in order to comply with Section 35, Chapter 41, General Laws, as amended, which provides that no person, other than the treasurer, shall pay any bill of any department.

The surety bonds of the treasurer, collector, and town clerk for the faithful performance of their duties were examined and found to be in proper form.

General ledger accounts were compiled, and a balance sheet, showing the financial condition of the town as of April 11, 1933, was prepared and is appended to this report. Appended herewith are also tables showing a reconciliation of the town treasurer's, tax collector's and library treasurer's cash, summaries of the tax, assessment and departmental accounts, as well as tables showing the water sinking fund and trust fund transactions.

For the courtesies extended by the various town officials during the progress of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

(Signed) EDWARD H. FENTON,

Chief Accountant.

EHF: CAB

TOWN OF LINCOLN

Office of the Board of Selectmen

June 15, 1933.

Director of Accounts,
 State House,
 Boston, Massachusetts.

Dear Sir:—Reference the recent audit of the accounts of the Town of Lincoln and the recommendation contained therein that the treasurer make direct payment to the highway employees. This Board has appointed the superintendent of highways to be paymaster and has bonded him for one thousand (\$1,000) dollars, an amount in excess of any sum which he handles for the payroll. This procedure will be of great assistance to the employees and I trust it will meet with your approval.

Very truly yours,

(Signed) GEORGE G. TARBELL,
Chairman.

GGT: MGR

THE COMMONWEALTH OF MASSACHUSETTS

Department of Corporations and Taxation

Division of Accounts

State House, Boston

June 23, 1933.

Hon. George G. Tarbell, *Chairman*,
 Board of Selectmen,
 Lincoln, Massachusetts.

Dear Mr. Tarbell:—I am in receipt of your letter of the fifteenth instant and note your statement that you have

bonded the Superintendent of Highways in the amount of \$1,000, as paymaster for the Highway Department and in reply I would state that I am of the opinion that this will overcome the objection to the former method of having money distributed by the Superintendent of Highways who was not qualified to act as paymaster for the town treasurer.

Very truly yours,

(Signed) EDWARD H. FENTON,
Acting Director of Accounts.

EHG: HGS

Finances

The Town of Lincoln has no bonded indebtedness. During the past year, by purchase or through the cancellation of the Town of Lincoln bonds held by the Sinking Fund, the last of the Water Works Bonds was retired. Comment seems unnecessary. It is an exceedingly bright spot in an otherwise dismal picture.

We invite attention to the report of the Tax Collector. This shows that there is an increase of 21% in outstanding taxes at the close of the fiscal year over those of December 31, 1932. Cash in the Treasury amounts to \$15,352.56, from which must be withheld the overlay accounts amounting to \$6,102.91. The assets of the Town applicable to current expenditures are \$9,249.65 in cash and \$29,044.19 in uncollected taxes, against which there is an outstanding revenue loan of \$20,000.00. In other words, the sum of \$10,750.35 must be collected from the outstanding taxes before there is any free cash to draw upon.

Receipts during the coming year can only be estimated. The Commonwealth will collect and distribute a smaller amount in normal income and corporation taxes. There will be some increase in net return to the Town due to the

special tax levied on the dividends of Massachusetts corporations. The final disposition of the State Highway Fund, as yet undetermined, will be material. The best estimate that can be made at this time is that the net return from the Commonwealth will be approximately the same as last year, assuming that a substantial portion of the Highway Fund is used for general revenue or as a direct return to the cities and towns.

The appropriations for the coming year will show a substantial increase over last year if the Town wishes to maintain its present standard of service. A year ago the appropriations were cut to the bone in an effort to save a high tax rate at a time when the citizens of the Town could ill afford such an increase. Today the conditions are little different, although municipal credit is not at the moment as serious as a year ago. Of the appropriations recommended, that for public welfare is sufficient only to take care of cases already on our books with a very small reserve for new ones. Any cut in the library appropriation must be taken from the item for books. One hundred dollars could be saved by the Board of Health if the Town sees fit not to have a substitute nurse for a month in the summer. The increase in the miscellaneous account is made necessary through the possibility of a continuation of the Civil Works program which makes necessary the employment of a timekeeper and bookkeeper. It is impossible for the members of this Board personally to care for the tremendous amount of paper work required by the Federal authorities. The street lights appropriation was too close for reasonable safety last year. The Fire Department must have new hose. The interest on revenue loans can only be estimated, based on current rates and probable tightening of credit due to huge Federal borrowings. The police department car is old and must be replaced. The final bill of the former tax collector was presented last year necessitating a special appropriation therefor. The State election

and primaries account for the increase in that appropriation. In the schools five hundred dollars can be saved over the amount requested by the school committee. We understand this is an item to care for a possible restoration of salaries in the fall if conditions warrant. However, the school committee does not provide for the final grading and seeding of the school grounds made necessary by the drainage system installed under the C. W. A. If this project is not continued after April 15th by the Federal government it should be completed by the Town. We have therefore provided for it in our recommendation.

Under our new by-laws this is the last year in which this Board will act as your finance committee. We have always considered it a paramount duty to the citizens of the Town to recommend the essentials only, to bear in mind that it is your money, not ours, that must be spent, and to remember that no people in all history have been contented under heavy taxation.

	Appropriations for 1933	The Selectmen recommend the following appropriations for the ensuing year
For Schools	\$34,500 00	\$39,300 00
Vocational Education	1,200 00	1,200 00
Public Welfare	3,000 00	4,000 00

Treasurer.

AUDITOR'S REPORT

I hereby submit a report of all money paid out by the Town Treasurer on order of the Selectmen of Lincoln.

I have examined the books and accounts of the officers with the receipt, custody, or expenditure of money and find that the reports of these officers to the Town are correct.

I have verified the cash balance of each of such officers by reconciliation of bank balances and count of cash.

JAMES W. LENNON,
Auditor.

Sworn to before me this 25th day of January, 1934.

HENRY A. GRIMWOOD,
Justice of the Peace.

ANALYSIS OF EXPENDITURES

The following table gives an analysis of expenditures by percentage, showing the net cost to the Town of each department. Percentages are figured after crediting all receipts applicable to each department against the expenses of that department.

	<i>1932</i>	<i>1933</i>
	<i>Per Cent</i>	<i>Per Cent</i>
Schools	41.2	44.6
Highways	18.2	20.7
Salaries	4.3	4.8
Street Lights	3.4	4.6
Police	2.2	2.5
Miscellaneous Accounts	2.1	1.5
Public Grounds and Buildings	2.9	2.9
Public Welfare	2.1	4.8
Moth and Tree Work	1.6	1.7
Fire	3.4	5.4
Interest on Revenue Loans	1.1	1.2
Library	2.5	1.2
Health	1.	1.4
Cemeteries	.9	1.
Miscellaneous	.4	.6
Insurance	2.7	.5
	<hr/>	<hr/>
Total	100.	100.

REPORT OF THE SUPERINTENDENT OF STREETS

To the Board of Selectmen:

I hereby submit the following report for the year ending December 31, 1933:

In January and February, after finishing the snow work and sanding the icy roads, most of the time was spent digging out along the sides of the Bedford road to widen same.

During the month of March the men were digging out the sides of the road and building a wall near the schoolhouse.

In the month of April the men were patching practically all of the roads, putting gravel on the Old Bedford Road and Mill Street, and putting in culverts where needed.

Most of the month of May was spent scraping the roads, cleaning up the edges, and getting them ready for oiling.

In June and July sand was teamed the first part of these months. The rest of the time was spent putting out tarvia and oil, and covering the same with sand.

In August we blasted out rocks on the Bedford Road, dug out the loam, and used gravel for widening; then as a finish oiled the road.

In September more work was done widening the Bedford Road, patching other roads, and starting work on the Chapter 90 roads, filling in on the Garfield Hill, etc.

In October and November the men worked on the Chapter 90 roads, filling in the sides of the curves, to straighten them out.

During December we finished the work on the Chapter 90 roads, put up some guard rail fence, and the last part of the month worked on the Silver Hill and Brooks Roads.

The Highway department is in about the same condition as last year.

Respectfully submitted,

WILLIAM H. SHERMAN.

REPORT OF WATER COMMISSIONERS

The Water Works are out of current and funded debt for the first time in their existence, and had a cash balance of about \$22,000 notwithstanding that the Town was presented with water last year which regularly cost over \$2,000 and also that a 15% discount was allowed on bills paid prior to October 15th, provided all old accounts were satisfied. It is expected that the same or perhaps larger discount will be maintained in the future.

By employing various means of collection many old accounts have been reduced or paid up until the amount of uncollected bills has commenced to shrink for the first time in many years. While this progress is encouraging, pressure on collections must be maintained continually or the present gain will soon be lost.

The Board recommends that the sum of \$10,000 be included in the budget for the purpose of replacing the old pump with a new one.

The Board also recommends that \$7,500 be included in the budget for the purpose of replacing 4-inch pipe with larger pipe in parts of the pipe system where the Board judges the new pipe will give the most benefit to the most clients in the matter of pressure and fire protection.

With this end in view, the Board used the unexpended balance of last year's budget in laying 1,104 feet of 8-inch pipe down old Lexington Road as a preliminary move toward helping Flint Road and East Lincoln pressure.

Permanent map work is a matter of six years behind, and as this is a very important item for the future managers of the system, the Board recommends that \$500 be included in the budget for this purpose, and that the Town emphasize that the work be done this year.

The Board itemizes the following budget which is recommended to be appropriated for 1934:

Power	\$2,400 00
Salaries	825 00
Repairs and renewals	1,000 00
New Pump	10,000 00
New Pipe and laying	7,500 00
Miscellaneous	250 00
Maps	500 00

\$22,475 00

Respectfully submitted,

SUMNER SMITH,
JOHN J. KELLIHER,
ROBERT R. HUNTER.

Statistics Relating to Distribution System

Mains

1. Renewed during the year 12 in. pipe, none.
2. Discontinued during the year, none.
3. Added during year 1,104 ft. 8 in. Total now in use, 28.291 miles.
4. Number of hydrants added during the year, 2.
5. Number of hydrants replaced, 3.
6. Number of hydrants (public and private) now in use, 141.

7. Number of stop-gates renewed, none. Number of stop-gates added during the year, 3.
8. Number of stop-gates now in use, 164.
9. Number of blow-offs, 31.
10. Range of pressure on mains, 40 pounds to 100 pounds.

Services

11. Renewed, 6 Discontinued, none.
12. Number of service taps added during the year, 1.
13. Number now in use, 421.
14. Meters now in use, 14.

E. RUSSELL DAVIS,
Treasurer.

REPORT OF BOARD OF HEALTH FOR 1933

The Board met on March 28 in order to elect officers for the ensuing year. Dr. DeNormandie was elected chairman, and Mr. Conant was elected secretary. Mrs. Marion Ober was appointed agent, Mr. J. J. Kelliher was nominated inspector of slaughtering and later was confirmed by the Department of Public Health.

During the year the following diseases, as required by law, were reported to the Board: Chicken pox, 41; measles, 1; German measles, 1; whooping cough, 6; dog bite, 3.

The Chadwick Clinic for diagnosis of tuberculosis in children was held in November, with most satisfactory results.

At the present time 399 cattle in 42 herds have been tested for tuberculosis and are now under State and Federal supervision. Lincoln has not yet been declared an accredited area, and it is to be hoped that in the coming year it will become accredited.

Doctor McGlinchey has acted as inspector of milk. Licenses were granted to the following farms to retail milk: Floyd Verrill, H. L. Stone, Glendale Farm Dairy, Higginson Farm, Cedar Hill Farm, DeNormandie Farm, Woodridge Farm, and to the following stores: C. E. Philbrook, G. P. Kimball, R. Hodgson, Dud's Place, A. Donosky, J. H. Corliss, A. E. Fernald, Sarah Horne and James A. Bustead. One pasteurizing plant was relicensed. One license to retail milk was refused because of inadequate equipment.

One undertaker was licensed.

Permits to sell denatured alcohol were granted to the Doherty, Rice, and Reed and Burns Garages.

A total of 66 samples of milk were taken from the dealers and at all times the milk was found to be of low bacteria count (not over 15,000), and with satisfactory fats and solids.

The secretary has given to the Town Treasurer \$21.00 received from licenses.

The Board has given much thought to the supervision and regulation of the piggeries. The conditions in some of the piggeries are unsatisfactory. It does not appear that we can obtain better conditions unless we seek court action. Court action may be expensive, and unless the Town specifically authorizes us to, we shall not take it except in serious breaches of our regulations. The licenses of two piggeries have been held in abeyance. Licenses were granted to the following: Manuel Silva, 500 pigs; John Connors, 600; Cornelius Shea, 400; John Wilson, 50; Nicholas Cotoni, 30; J. H. McHugh, 30; Boyce Brothers, 90.

For 1934 we ask for an appropriation of \$2,200.

Respectfully submitted,

ROBERT L. DENORMANDIE,
ROBERT D. DONALDSON,
RICHARD K. CONANT.

REPORT OF CEMETERY COMMISSIONERS

During the year, in addition to the usual general care of the three cemeteries in Lincoln, the three cornered cemetery at the junction of the Lexington and Trapelo Roads has been greatly improved in appearance by a careful trimming of the high arbor vitae hedge, trimming of the trees at the entrance, and a thorough raking and cleaning.

The 1933 appropriation of \$600 did not permit of the grading of the roads in the New Cemetery as recommended in our report for 1932 but this work has recently been started under a C W A grant and will be completed shortly.

We are frequently in receipt of complaints that the one water faucet at the entrance to the New Cemetery does not satisfactorily meet the convenience and requirements of the people of Lincoln and that the distances to the far corners of the cemetery from this one faucet are unreasonably long. While we do not feel that we should recommend at this time the expenditure of the amount necessary to install additional faucets, we should be glad to have the question discussed at the annual meeting in March. To lay approximately 600 feet of 2-inch pipe with two more faucets would cost about \$500.

It is planned during the coming spring to plant a number of trees in the Wheeler lot addition to the New Cemetery and to put the fence at the entrance to the Arbor Vitae Cemetery in good condition.

For general care in the three cemeteries during 1934 we recommend an appropriation of \$600.

EDWARD F. FLINT,
GEORGE E. CUNNINGHAM,
H. P. WHITNEY.

E. RUSSELL DAVIS, *Treasurer.*

REPORT OF THE FIRE DEPARTMENT

South Lincoln, January 3, 1934.

To the Board of Selectmen:

The Board of Fire Engineers herewith submit their twenty-sixth Annual Report ending December 31, 1933.

Force

The Fire Department consists of the following; one chief, six engineers, and twenty-five call men.

Apparatus

The apparatus belonging to the department is as follows: One 600-gallon pump, one combination 350-gallon pump and forest fire truck, and one combination hose truck, eight extinguishers, eight ladders, 1,850 feet of 2½ inch hose, 600 feet of 1½-inch hose, 700 feet of 1-inch hose, 185 gallons of water can be carried in booster tank of combination forest fire truck.

Location of Apparatus

Number 1 Pump, and Number 2 Pump and Combination Forest Fire Truck at Doherty's Garage, South Lincoln, and Number 3 Combination Truck at T. J. Dee's, North Lincoln.

Fires

Sixty-two alarms have been answered, Number 1 Pump and Number 2 Pump and Combination Forest Fire Truck

responded to nine chimney fires, twenty-four grass and wood, six auto, twelve building, one false, and two calls for help.

Number 3 Combination Truck responded to five grass and wood, one chimney, two buildings. Loss \$13,800.

The Fire Department should have at least 500 feet more of 2½-inch double jacket hose.

M. H. DOHERTY, *Chief*,
T. J. DEE,
J. J. KELLIHER,
H. G. FARRAR,
A. J. DOUGHERTY, JR.,
H. S. COUSINS,
SUMNER SMITH.

TREE WARDEN'S REPORT

The Tree Warden submits a brief report of the work done on the trees, and against the gypsy and brown-tail moths for the year ending December 30, 1933.

The work has been carried on as in former years, removing dead trees, dead limbs, and limbs obstructing the highways, and also the cutting of brush and thinning on several of the roads was done this year where it interfered with public travel. As we have a good many miles of narrow roads in Lincoln, our work cannot be confined to any one section, but we do try to keep our highways passable and safe for the public.

The scarcity of the elm leaf beetle has been quite noticeable the past several years, however, the punctured leaves on elm trees in several places indicate their presence again and the necessity of spraying with arsenate of lead as soon as there is foliage enough on the trees to hold the poison.

The method used in handling the gypsy moth was practically the same as in past years — creosoting the egg clusters on trees along the roadsides and omitting again this year the spraying. However, in some parts of the town we found an increase in the number of egg clusters in woodland from that of last year.

The total expenditure of this department for 1933 is \$1,289.80. I recommend that \$800.00 be appropriated for tree-work and \$500.00 for moth work this year.

Respectfully submitted,

JOHN J. KELLIHER.

REPORT OF LINCOLN NURSING COMMITTEE

January 1, 1933 — December 31, 1933

By a vote passed at the annual Town Meeting in March, 1928, the supervision of the health nurse was "vested in a committee of three, one a member of the Board of Health, chosen by that Board, one a member of the School Committee, chosen by that Committee, and one chosen by the Board of Selectmen." This year the committee consisted of Doctor DeNormandie, chosen by the Board of Health, Mrs. Herman, chosen by the School Committee, and Mr. Donaldson, chosen by the Selectmen. Mrs. Herman was elected chairman.

During the year January 1 to December 31, 1933, the nurse made 1,609 calls. This, however, does not include any of her school work, which appears in her report as school nurse. Sub-divided, these calls are as follows: Medical, 699; surgical, 88; maternity, 48; child welfare, 222; board of health, 100; taking of patients to hospitals or doctors' offices, 10; collecting fees for the dental clinic, 51; school census, 227; town welfare, 164.

The nurse has collected for her visits \$404.05, which has been handed to the Town Treasurer.

The Metropolitan Life Insurance Company notified the committee in May that it was discontinuing its service in Lincoln on June 16, 1933, owing to the relatively small number of policyholders in the Town.

Through the generosity of the Lincoln Chapter of the Red Cross in donating \$200, a new car was purchased for the nurse's use. The balance of the cost of the car was charged to the Board of Health. This car was delivered to her on April 8.

This year the amount of welfare work that the nurse has done has increased a great deal, and until the present economic condition has improved there seems no reason to think that it will immediately be lessened. This, the committee believes, it is right to include in the nurse's work, for it is surely part of the welfare of the Town. The committee, however, feels that it should call the attention of the citizens to the fact that jitney work is not a part of the nurse's work, and only in cases of necessity and emergency should she be asked to take patients to hospitals.

Respectfully submitted,

GLADYS DEY. HERMAN,
ROBERT D. DONALDSON,
ROBERT L. DENORMANDIE.

REPORT OF INSPECTOR OF ANIMALS FOR 1933

To the Board of Selectmen:

For two reasons the number of cattle in Lincoln has decreased. One is the State has made a general Tuberculin test in the Town and as a result quite a few cattle have reacted and have been destroyed. Where reactors have been found, the State requires a thorough cleaning and disinfecting if the owner expects any remuneration from the State and Federal government. The other is some of our dairymen owing to unsatisfactory prices of milk have disposed of their cattle. This year I find 410 cattle, a decrease of 95 over last year.

The State has been making a general clean up and disinfecting of barns where the owner was willing. If the owner was not willing, he was requested to sign a paper showing that he had a chance to have a clean up. This work was done under the C. W. A. act.

Swine 3,790 and in spite of the fact that the price of hogs has been lower than ever known before the number seems to be on the increase. Sheep 29. Goats seem to have become extinct.

Respectfully submitted,

JOHN F. FARRAR,
Inspector of Animals.

REPORT OF THE MIDDLESEX COUNTY EXTENSION SERVICE

The following is a report of the work developed in Lincoln during the year 1933, by the Middlesex County Extension Service.

Considerable interest has been shown this year by the farmers of Lincoln in fruit growing and market gardening. Many home visits were requested to give help with individual problems. Sectional and county-wide meetings were held which were well attended by local farmers.

The Storrow estate (James B. David, manager) was successful in producing apples clean enough to make the Massachusetts 90% Clean Apple Club.

A county bee keepers meeting was held at the Walter E. Copeland farm, which created a great deal of interest.

A spray service was maintained throughout the year, and other information sent out on the culture and marketing of apples.

Local dairymen have been interested in the problem of marketing milk, and have attended county meetings for this purpose.

Farm visits were made to assist in the growing of alfalfa, dairy replacements, and among poultrymen, to assist in disease control.

Lincoln has been an active town as far as Extension work with homemakers is concerned. There are three groups carrying the homemakers' day program, one child guidance group, and two groups in children's coat and hat making.

The leaders for the various groups located in Lincoln Center, Baker Bridge, and North Lincoln are: Mrs. Harold Cousins, Mrs. James Powers, Mrs. W. C. Pierce, Mrs. E. H. Davison, Miss Sara Brooks, Mrs. Hugh Conary, Mrs. A. W. Hanlon, Mrs. A. S. Brooks, Mrs. M. H. Doherty, Mrs. William Pierce, Mrs. R. W. Rogers, Mrs. W. F. Yoemans, Mrs. V. B. Brown, and Mrs. Patrick F. Lennon.

The splendid co-operation and leadership of the late Mrs. W. B. Rockwell are keenly missed by her friends, and the Extension Service feels that it has lost a loyal supporter.

Boys and girls 4-H Club work was carried on during the year under the chairmanship of Mrs. Guilbert Winchell. Garden, clothing, poultry and canning projects were carried on, with Mrs. Matthew Doherty, Arthur Powers, Clifford Bowles, Mrs. D. L. Hamilton, and H. S. Cousins as leaders.

The garden club this year had an especially fine program which included talks by a number of experts, trips to well-planned gardens, and a tour of 4-H gardens. The Lincoln Club invited club members from other towns to these programs.

Mrs. D. L. Hamilton attended the state local leaders' camp at the Massachusetts State College in Amherst. Several club members spent a week at the Middlesex 4-H Camp.

Bettie Fisher, Marguerite Burns, and Myrna Huntley took part in the county dress revue.

The 4-H Clubs invited other towns to display 4-H exhibits at the Lincoln Fair. Lincoln won the cup this year for the best all-town exhibit, in competition with two other communities.

THE MIDDLESEX COUNTY
EXTENSION SERVICE.

REPORT OF THE TRUSTEES OF THE LINCOLN LIBRARY

Your Trustees submit on the following pages the reports of the Treasurer and of the Librarian for the year ending December 31, 1933.

During the past year we have made every effort to limit expenditures. The comparatively large balance held by the Treasurer is due to the fact that no coal was paid for during the fiscal year. Fewer books have been purchased than in past years. Repairs and supplies have been held to a minimum.

The re-cataloging is approximately two-thirds completed and we recommend that this work be finished during the coming year. For this and the ordinary expenses of operation with a small increase in the items for books and repairs we ask for an appropriation of \$981.28 plus the dog tax for the year ensuing.

Nineteen hundred and thirty-four marks the fiftieth anniversary of the dedication of the Library. We plan to observe this anniversary in some fitting manner during the year.

Respectfully submitted,

GEORGE G. TARBELL,
ANTHONY J. DOHERTY,
JOHN F. FARRAR,
DOROTHY B. HILL,
C. LEE TODD.

BY-LAWS OF THE TOWN OF LINCOLN

Adopted March 6, 1933

ARTICLE I

Town Meetings

Section 1. The annual town meeting shall be held on the first Monday of March in each year at 7.30 P.M., for the consideration of all business except the election of such officers and the determination of such matters as by law are required to be elected or determined by ballot. The election of such officers and the determination of such matters as by-law are required to be elected or determined by ballot shall take place on the following Saturday, when the polls shall be open from 12 M. until 7 P.M. or until such later hour as the meeting may by vote determine.

Sec. 2. Notice of every town meeting shall be given by posting copies of the warrant calling the same, attested by the officer making service thereof, in each of the post-offices within the town, and in one other public place within the town.

Procedure at Town Meetings

Sec. 3. Only voters shall be admitted to the place of meeting or to a defined portion thereof, and the check list shall be used in the enforcement of such order. This order shall be enforced by the Moderator.

Sec. 4. All votes unless otherwise provided by law, shall be taken in the first instance by a voice vote. If the Moderator is in doubt as to the result of the vote, or if seven regis-

tered voters immediately doubt the vote, the Moderator shall call either for a standing vote or for a vote by ballot or by use of the check list as the Moderator may determine.

Sec. 5. When a question is before the meeting, the following motions, to wit:

To fix the time to which to adjourn,
 To lay on the table,
 For the previous question, by $\frac{2}{3}$ vote,
 To postpone to a time certain,
 To commit, recommit, or refer.
 To amend,
 To postpone indefinitely,

shall be received and shall have the precedence in the foregoing order; and the first three shall be decided without debate.

Sec. 6. On proposed amendments involving sums of money, the larger or largest amount shall be put to the question first, and an affirmative vote thereon shall be a negative vote on any smaller amount.

Sec. 7. When a report of a committee is placed in the hands of the Moderator, it shall be deemed to be properly before the meeting for its action thereon, and a vote to accept the same shall discharge the committee; for the adoption of the recommendations of the committee, however, a specific vote shall be required. No appropriation shall be made under the report of any committee of the town until the matter has been considered and reported upon by the Finance Committee.

ARTICLE II

Finances

Section 1. The town treasurer shall have the custody of all funds belonging to the town, including trust funds, except

funds for which other provision is made by law. Except as provided in Section 4 in this Article, he shall pay no money from the treasury except upon a warrant signed by a majority of the Selectmen, stating the account to which the same is chargeable. Such warrant shall be sufficient authority to the treasurer to pay the same, and the payment thereof shall discharge him from all liability on account of the money so paid.

Sec. 2. The water commissioners and all other boards, committees and officers shall, on the first day of each month, pay to the town treasurer all sums collected by them the month previous to the custody of which the treasurer is entitled.

Sec. 3. A majority of the water commissioners, school committee, or of any board, or committee, and any officer having charge of the expenditure of an appropriation, shall approve in writing all accounts, claims, bills and pay-rolls properly chargeable to such appropriation, and shall transmit the same with his or their approval to the selectmen. All other accounts, claims, bills and pay-rolls shall be examined by the selectmen and, if proper, shall be approved by them. The selectmen shall label all accounts, claims, bills and pay-rolls which have been approved either by themselves or by the other officers before mentioned, and shall keep a record thereof in a book kept for the purpose, stating the persons to whom payable, the amounts and dates thereof, and the funds, or appropriations, from which the same are payable.

Sec. 4. No money except State and County taxes, and principal and interest of town notes or bonds, final judgments of courts and money payable to the commissioners of sinking funds, shall be paid from the town treasury except upon a warrant therefor signed by a majority of the selectmen.

Sec. 5. The treasurer shall file and safely keep all approved and receipted accounts, claims, bills, and pay-rolls, and all

vouchers, cancelled bonds, notes, scrip and other evidences of indebtedness of the town which have been paid from the treasury, except as otherwise provided by law, the treasurer shall have the custody of deeds, bonds, contracts, insurance policies, and other similar documents owned by the town, except that the bond given by the treasurer to the town shall be in the custody of the selectmen.

Sec. 6. No warrant shall be issued by the Selectmen unless there is sufficient appropriation to pay the same, except for money payable to the commissioners of sinking funds.

Sec. 7. The selectmen and treasurer respectively shall make a record, in a book kept for the purpose, of each appropriation, with a list of the drafts drawn against such appropriation, and shall make a record of all bonds, notes, scrip or other evidence of indebtedness of the town, signed or countersigned by them.

Sec. 8. When the bills contracted or approved by any board, committee, or officer have exhausted the entire appropriation for such board, committee, or officer, they shall incur no further expenditure, except in such cases where such expenditure may be required by law; and it shall be the duty of each board, committee or officer before the close of the financial year to approve all accounts, claims, bills and pay-rolls chargeable to their appropriation. During the interval between the thirty-first day of December in each year and the time of making the next annual appropriations, town officers authorized to make expenditures may incur liability in carrying on the work intrusted to them and payments therefor shall be made from the town treasury from any available funds therein, and the same shall be charged against the next annual appropriation. Such liability and expenditure incurred for any purpose shall not exceed in any month the sums spent for similar purposes during any one month of the

preceding year; and, provided, further, that said officers may expend in any one month for any new officer or board lawfully created an amount not exceeding one-twelfth of the estimated cost for the current year. All interest and debt falling due in said period shall be paid.

Sec. 9. Unless the town shall expressly otherwise vote, no extension of water pipes shall be made unless before the work of construction is begun one or more of the persons whom it is proposed to supply with water by means of such extension, shall file with the town clerk a bond with sureties satisfactory to the water commissioners, conditioned to pay to the town for five years next following the completion of such extension and the letting of water into the same, a sum sufficient, together with the net annual income from such extension, to amount annually to five per centum of the total cost thereof.

Sec. 10. There shall be a Finance Committee composed of three voters of the Town who shall serve without pay and shall not, while serving on said committee, hold any other town office. Within thirty days after the adjournment of the Town Meeting at which this By-Law is adopted, the Moderator shall appoint three persons to serve on said Committee, one person for a term of three years, one person for a term of two years, and one person for a term of one year. Thereafter the Moderator shall appoint, within thirty days after the adjournment of every Annual Town Meeting, one person to serve on said Committee for a period of three years. The members of the Committee shall hold office until their successors are appointed and qualified, and any vacancy shall be filled by the remaining members of the committee and the Moderator. The Committee shall choose a chairman and a secretary and shall, prior to the Annual Town Meeting, confer with the Selectmen for consideration of the annual budget, and may hold public hearings. The Committee shall consider all questions that require the expenditures of money and shall

consult with all boards, committees, or officers on their respective annual or special requests for appropriations. The Committee shall make reports and recommendations in the Annual Town Report or by special report on any question brought before the Town at a Town Meeting other than the Annual Town Meeting.

Sec. 11. Within forty-eight hours after the dissolution or adjournment without day of any Town Meeting, the Town clerk shall transmit to the Selectmen, to the town treasurer, to the auditor, and to the assessors respectively, a certified copy of all votes appropriating money or authorizing the expenditure of money or otherwise affecting the finances of the Town, and within the same period the town clerk shall transmit to all other town officers or committees a certified copy of any vote of the Town affecting their respective powers or duties.

ARTICLE III

Town Seal

Section 1. The design of the town seal shall be: a circle, in the border the words "Lincoln. Incorporated in 1746 as a precinct; in 1754 as a Town"; in the center, a shield, in the chief or upper part of which on a cross, gules, a fleur-de-lis, gold, from the old seal of Lincoln, England, and in the base of the shield a view of the present town hall; crest, the old chestnut tree standing upon the common in Lincoln; in saltire two shepherd's crooks; the device thereof being as follows:

Sec. 2. All deeds and other legal documents made, given or entered into by the Town requiring a seal shall be sealed with the Town seal, and signed in behalf of the Town by a majority of the Selectmen.

Sec. 3. The town clerk shall have the custody of the Town seal.

ARTICLE IV

Powers and Duties of Officers

Section 1. The Selectmen shall have general direction and management of the property and affairs of the Town in all matters not otherwise provided by the law of the Commonwealth or by these by-laws.

Sec. 2. The selectmen may compromise claims and suits to which the Town is a party, provided that they shall act upon the advice of counsel when the amount claimed by or against the Town exceeds \$200.00.

Sec. 3. The selectmen shall have, unless it is otherwise voted by the Town, full authority as agents of the Town to institute and prosecute suits or other proceedings in the name of the Town before any tribunal, to appear and represent or defend the Town before any tribunal in all suits and other proceedings against the Town or in which the Town has an interest, to employ counsel for the purpose aforesaid, and for other purposes when it may be expedient to do so, and to take all necessary and proper measures for the protection of the interests and rights of the Town.

Sec. 4. If the Town shall, at any meeting called for the purpose, choose a committee on claims, such committee shall have and exercise exclusively all the powers and duties conferred upon the selectmen by the two preceding sections.

Sec. 5. The town clerk shall keep a file of all town reports, reports of all committees chosen by the Town, and all original documents relating to the affairs of the Town which may come into his possession. It shall be the duty of the town clerk to see that all conveyances of real estate to the town are properly recorded in the Registry of Deeds.

Sec. 6. The collector of taxes shall cause to be printed upon each tax bill a statement of the law relative to the date when taxes are payable, the rate of interest charged on unpaid

taxes, and the valuation upon which such tax is based and, in case a tax bill covers two or more parcels of real estate, the tax bill shall be itemized by the assessors to show the tax on each parcel which shall be identified.

Sec. 7. No officer or board of the Town shall make any contract on behalf of the Town in which such officer or any member of such board is directly or indirectly financially interested, except competitive contracts.

Sec. 8. Except in cases of public calamity or extreme necessity, whenever any work is required to be done for the Town and a contract for labor or materials, or both is to be made in behalf of the Town, for an amount exceeding the sum of \$500.00, the town officer, having the matter in charge, shall solicit proposals for the same from two or more reliable parties, regularly engaged or employed in such work or business, or shall publicly advertise for bids, but no contract shall be split, separated or divided for the purpose of reducing the amount thereof below said sum of \$500.00.

Sec. 9. The Commissioners of trust funds shall act as the grammar school fund trustees.

ARTICLE V

Records

Section 1. Books, records and laws received by the Town from the Commonwealth shall be deposited in the public library building.

Sec. 2. It shall be the duty of the Town officer by whom any book mentioned in the preceding section is received, to cause the same to be at once deposited in the public library building.

Sec. 3. Such books may be used by the inhabitants of the Town within such building, and may be taken therefrom upon written receipt to the librarian for a period not exceeding

one day at any one time for use in any Town meeting, or by or before any committee or official of the Town.

ARTICLE VI

Reports and Publications by the Town

Section 1. The annual reports of the Town officers, boards and committees shall be prepared and submitted to the selectmen in form suitable for printing on or before the twentieth day of January in each year. The selectmen shall cause such reports to be printed and one copy to be distributed to each house in the Town seven days at least before the annual meeting.

Sec. 2. The selectmen shall cause to be printed and bound each year with the annual reports of the town officers, boards and committees, a copy of the records of the town meetings during the preceding year; a statement of all devises, bequests and donations to the Town during the preceding year; a list of all laws of the Commonwealth accepted by the Town during the year; all by-laws adopted by the Town since the preceding annual report; copies of the laying out, alteration, locating anew or discontinuance of any highway or townway within the limits of the Town during the preceding year; and a statement of all outstanding bonds, notes and obligations of the Town for the payment for money.

Sec. 3. The selectmen shall from time to time cause to be printed a sufficient number of copies of the by-laws of the Town and shall incorporate therewith a list of the laws of the Commonwealth which have been accepted by the Town.

ARTICLE VII

Water Works

Section 1. The water commissioners may appoint a water registrar who, under the direction of said board, shall take

and tabulate prior to June first of any year a complete census of the water fixtures connected with the water works which are then in use and report the same to the board, assess the rates, and perform any other duties required by the board.

Sec. 2. The board shall transmit the assessments for water rates to the collector of taxes, who shall collect the same and turn the proceeds over to the town treasurer the first of every month.

Sec. 3. Water taxes shall be payable to the collector in advance the first day of July in each year.

Sec. 4. No tap for a service shall be made until the board votes for it, and the board may demand a suitable deposit before allowing the tap.

Sec. 5. Upon the non-payment of the water rates by October fifteenth of the year in which they are due, the collector shall serve a summons upon the delinquent; and, unless said rates are paid within ten days thereafter, together with twenty cents for said summons, the collector shall notify the superintendent, who shall shut off the water, and it then shall not be turned on until the amount due, together with the twenty cents for the summons and one dollar for the shutting off and one dollar for the turning on, is paid. Said summons may be served in any of the ways provided by law for the service of a summons for the non-payment of a tax.

Sec. 6. The said board may make abatements in the water rates in such cases as it may deem proper; and may temporarily shut off the water from any street after giving notice of their intention so to do.

Sec. 7. Said board shall keep suitable books in which shall be entered the names of all water-takers and the amount charged; which books shall be open to inspection.

ARTICLE VIII

Repeal

Section 1. All by-laws or parts of by-laws heretofore adopted, which are inconsistent with the provisions of the foregoing by-laws, except the zoning by-law, are hereby repealed and annulled; but the provisions of the foregoing by-laws, so far as they are the same as the provisions of by-laws heretofore adopted, shall be construed as a continuation of said by-laws, and not as new enactments.

Sec. 2. The repeal of a By-Law heretofore adopted shall not affect any act done, ratified or confirmed, or any right accrued or established, nor any action, suit or proceeding commenced or had, nor affect any punishment, penalty, or forfeiture incurred under such by-law.

A true copy attest: —

WILLIAM H. DAVIS, *Town Clerk.*

Boston, Mass., May 16, 1933.

The foregoing by-laws are hereby approved.

JOSEPH E. WARNER, *Attorney General.*

Mid-Winter Term, begins January 8, 1934, ends February 16:
6 weeks.

Spring Term, begins February 26, ends April 13: 7 weeks.

Summer Term, begins April 23, ends June 15: 8 weeks.

Fall Term, begins September 5, ends December 21: 16 weeks.

REPORT OF SCHOOL COMMITTEE

To the Voters of Lincoln:

Although your Committee in carrying out a program of economy that was general throughout all departments of the Town was more or less handicapped in not being able to do all that was desired, it is happy to say that through the efforts of the Superintendent, teachers, and others connected with the School organization, the character of the work and the high standing of the Schools has been maintained. For this co-operation by teachers and others, the Committee wishes to express its fullest appreciation.

As officers of the Town entrusted with the expenditure of its largest single appropriation, your Committee are not unmindful of its responsibilities to the tax-payers. Yet it must be admitted that the first responsibility resting on the Committee is that of maintaining in its Schools the high standard and efficiency consistent with the needs—and they should also have in mind that the citizens of the Town would wish to give, without indulging in extravagance, every facility and opportunity to acquire the best possible instruction for those attending the Schools. This has always been the aim of the Committee; and, from its experience in this endeavor, it has had brought forcibly to its attention the one fact; that to acquire the best necessarily incurs cost consistent with its quality. In other words, if the best is to be procured it will have to be paid for accordingly.

The Committee is in full realization of the fact that the whole country generally is still in an unsettled condition and that economy should still be the watchword. In preparing the budget, this fact is kept constantly before it, but it also realizes that it owes a very positive duty to the citizens and to their children to maintain their Schools at the highest standard of efficiency, and when the choice comes between rigid economy

and high standard of efficiency the Committee feel that to a certain reasonable degree, the former should give way to the latter. In this stand, the Committee feels that it will have the whole-hearted support of the citizens.

At this time your Committee would like to call the attention of the parents to certain matters that are deemed quite important—in the judgment of the Committee a very important matter that it believes is not fully understood by parents whose children attend High Schools outside the Town, and also the pupils themselves, is that of jurisdiction and disciplinary control. In order that there may be no misunderstanding as to this matter in the future, the Committee desires to state that all pupils attending such Schools and for whom tuition and transportation is furnished and paid for by the Town, are at all times under the charge and control of the Superintendent and School Committee of the Town of Lincoln.

It is one of the duties of the Superintendent to follow the work of these pupils and to satisfy himself and also the Committee that they are doing the work required of them. While the Town is obligated to furnish tuition and transportation to these pupils, it is not required to continue in the Schools any pupil, who in the judgment of the Superintendent and the Committee, does not accomplish the work required of them, and whose only aim, apparently, is to do as little work as possible in order to “get by,” and in certain cases do not “get by.” The cost of tuition and transportation to Concord High School per pupil each year is approximately \$180.00, and to Waltham High School nearly the same amount; therefore, the Committee feel that it would not be doing its full duty if it permitted the expenditure of such an amount when such expenditure was not justified by the results. We hope parents will have this matter in mind at all times and try to impress the same upon those who come under their charge.

Another matter in which the parent could give most valuable assistance to the Superintendent comes in connection with the selection by the pupil of the course of study he or

she is to pursue on entering the Junior High School and to follow through in the Senior High School. Very often the pupil is permitted to make his own selection and also some times, at the request of the parent, he takes a course of study for which he is not (or in the judgment of Superintendent may not be) equipped. The ultimate result in such cases is a floundering around by the pupil and the creation of a dislike for this particular course. He later changes to another course and finally after three years or more of this unsettled condition, and perhaps graduating, has very little to show for so many years of school attendance. We would urge that in this most important matter the parents confer with both teachers and Superintendent before such election is made. They will find them at all times very ready and willing to co-operate and advise as to the course that is best adapted in their judgment for this pupil. What has been said respecting the advice and co-operation of the Superintendent and teachers to those attending the higher schools also applies to those in the elementary classes. It is their desire and aim to at all times meet the parents and to accept and offer such suggestions as they may feel will be of assistance in accomplishing such results as may be specifically desired. It is noted that more parents are taking an interest in the work the schools are doing and it is sincerely hoped that this interest will continue to grow, for in no other way can it be better known what result is being attained and what the tax-payer is receiving for his contribution toward the support of the schools.

In the report of the Superintendent will be found references to the Chadwick Clinic, also the Posture Survey as conducted by Mr. Fradd. Both of these have contributed materially to the School Health Program and the Committee, on behalf of the Town, wishes to extend to those responsible for such services their thanks and appreciation.

Transportation

The only change in transportation during the year came in connection with the need of additional facilities to transport more than the usual number of pupils to Concord. This was because of the fact that all of the graduating class of June elected to go to Concord, this making 38 pupils. Accommodations were found to be inadequate, in that the bus then in use could not carry all. This was remedied by the purchase of a larger bus by Doherty's Garage, in which ample room is now provided for all.

School Buildings and Grounds

Both school buildings, outside of minor matters, are in very good condition. Occasional leaks have appeared in both buildings and have been repaired promptly. The tower on the Centre School, however, should have attention in the near future because of the action of water on part of the wooden structure. Upon examination made, it appears that the foundations or base of the pillars supporting the dome have become more or less rotted and if permitted to continue in this condition for any length of time may become dangerous. It is hoped that through the assistance of the Civil Works Administration Program, many of these minor repairs may be attended to in the near future. The Superintendent is preparing a list of such matters as should have immediate attention and it is hoped that this project will meet the approval of this administration.

The Committee is pleased to report that the much needed draining and grading of the Centre School grounds is progressing; this having been made possible under the Civil Works Administration Program. It is expected that by the re-laying of the surface drains and the addition of many finger drains, so called, in that part of the field heretofore damp and spongy, and the grading and seeding of this section, the grounds will be very much improved and the full area will become adaptable for use.

Finances

In preparing the budget of School Expenses for the year 1933, each item was gone over very carefully and cut to the lowest minimum; in fact as was proved later such cuts in some of the items were much below the safety margin. The items of High School "Tuition and Transportation" were based on conditions existing at the time of preparing that budget, but it was later discovered that no provision had been made to take care of any extra pupils;—that is, pupils moving into the Town during the year, as also the fact that the class graduating from the Junior High School in June all elected to go to Concord High School. Again at the Town Meeting a further cut of \$1,250 was made from that amount as asked for and recommended by the Committee. This necessitated a reduction in the salaries of teachers and janitors, which cut was based on the amount required and estimated at the time of preparing the budget and was equal to a reduction of $7\frac{1}{2}\%$ of the salary of each. Although protected by statute from a reduction in his salary, the Superintendent elected to share the cut with the others, thus preventing the necessity of a greater reduction in the salaries of the teachers and janitors.

After the opening of the schools in September, the Superintendent called the attention of the Committee to the fact that after a careful check-up on expenditures at that time, it would appear that the Committee was facing a deficit of about \$1,600.00 in order to carry through to the end of the fiscal year. This amount would be required principally to take care of the additional cost of High School Tuition and Transportation, and did not take into consideration any allowance for extraordinary expenses that might occur.

Upon receipt of this information from the Superintendent, the Chairman of the Committee was delegated to confer with the Selectmen and ascertain whether the sum of \$1,800 could be provided from the Miscellaneous or Overlay Account of

the Town, or if a Special Town Meeting would have to be called to supply this amount. The Chairman of the Selectmen informed us that after consultation with the Department of Accounts at the State House, he was advised that no appropriation at that time would be legal as there was not any free cash in the Town Treasury. This was because so large an amount of taxes were then uncollected. It appeared at this time that the Committee would be faced with its only alternative; that of closing the schools on December 1, at which time its appropriation would have been exhausted. The Committee, after conference with the Selectmen and Concord School authorities, were able to make the following arrangements:—

1. Received from the Account "Unforseen Expenses" by transfer by the Selectmen, the sum of \$600.
2. Defer the usual payment made in advance to Concord for tuition charges.

This made possible the covering of the deficit. However, the deficit payment to Concord will have to be met in this 1934 appropriation.

A detailed statement of costs of education and support in our schools has been prepared by the Superintendent and it is found in his report to the Committee. A careful study of this statement will throw some light on the matter of costs of instruction, however, due consideration should be given to the quality and standard of the education furnished.

In preparing the budget of School Expenses and Needs for the year 1934, very careful consideration has been given to each item, and reductions made where possible. Below is shown a statement showing how the school appropriation is divided.

Estimate of Expenses for Year 1934

1. Salaries	\$19,500.00
2. Superintendent's Expenses	100.00
3. Fuel	800.00
4. Books and Supplies	700.00
5. Health	605.00
6. Miscellaneous Operating Expenses	400.00
7. Repairs	300.00
8. Local Transportation	6,678.50
9. High School Transportation	2,640.00
10. High School Tuition	7,300.00
11. Reserve	200.00
12. School Grounds, under C. W. A. work	300.00
	\$39,523.50

The Committee would respectfully recommend the following appropriations for 1934:

1. For General School Expenses	\$39,500.00
2. For Vocational Education	1,200.00

This does not take into consideration any appropriation to complete the draining and grading of the Centre School Playground in the event that sufficient money is not available to complete the program being carried out under the Civil Works Administration.

Attention is here called to item No. 12 of the above statement. At the time of submitting the project for work to be done on the Centre School grounds, it called for an expenditure of \$1,500, from which sum \$500 would have to be furnished by the Town, \$200 of this amount toward the purchase of drain pipe and \$300 for grading material. The School appropriation having been exhausted, the \$200 was furnished by the Selectmen from funds in their charge and the item of \$300 for

grading was to be charged against the School appropriation for 1934.

We would like to record here the sudden passing of Mr. Harry M. Condit, Jr., who had nearly completed six years as a member of the School Board. To say that Mr. Condit was keenly interested in the Lincoln Schools would be but a mild expression complimentary to him. We can say without hesitation that he wanted our Schools to be of the highest standard and was ever willing and did work and give his best efforts to accomplish this end.

To fill the vacancy caused by the death of Mr. Condit, a joint meeting of the Board of Selectmen and School Committee was held and Dr. Roland C. MacKenzie was elected to serve until the election at the Town Meeting in March, 1934.

A summary of receipts and expenditures on account of the Schools for this year, together with the report of the School Nurse is attached to this report.

Respectfully submitted, ·

ANTHONY J. DOHERTY,
GLADYS DEYONGH HERMAN,
DR. ROLAND C. MACKENZIE.

SUMMARY OF EXPENDITURES AND RECEIPTS ON ACCOUNT OF SCHOOLS

For the Fiscal Year Ending, December 31, 1933

Expenditures

Salaries:	
Teachers	\$13,381.97
Supervision	3,944.60
Janitors	1,424.63
Superintendent's expenses	91.22

For tuition and transportation	\$799.80
Net cost of vocational education	219.99

SUPERINTENDENT'S REPORT

January 8, 1934.

To the School Committee of Lincoln:

The following report covering the fiscal year is the fifth report of the present Superintendent. Only such materials are included as may be of interest to the general public or which should be a part of the permanent records of the Town.

On June 6, all pupils were given the Metropolitan Achievement Test. The results were generally excellent. On the basis of these tests pupils are now receiving special help in those subjects in which weakness was found. Of significant interest to me was the close correlation between the scores achieved in such an impartial test and the "marks" given by the teachers on report cards.

A grant of money from the Federal Government under the Civil Works Act has made possible the draining of the play area at the Center School. When seeded and rolled this should be an excellent surface for play activities. Two hard-surfaced courts will be available for volley ball and similar games.

Upon the joint request of the School Committee and the Board of Health the State Department of Public Health held a Chadwick Clinic in Lincoln. This clinic aims to discover those pupils infected with tuberculosis and give advice when necessary how best to overcome it. Special care of those children who have infection usually prevents the development of lung tuberculosis in later life.

Early in 1933 the posture pictures taken by Mr. Fradd were sent to the parents. A public meeting was held at the Town Hall and Mr. Fradd explained the purpose of the survey. As a result there has been considerably interest in correct posture.

The de Cordova Medal was awarded in June to Ellen

Wheeler in the Elementary School, and to Grace Wheeler and Guilbert Winchell in the Junior High School.

The town is at present paying tuition and transportation charges for pupils attending the following schools:

Concord High School	38
Waltham High School	5
Weston High School	1
Boston Public Latin	1
Waltham Trade School	7

The splendid reception given the Cantata "George Washington" in 1932 prompted us to give another in 1933. On May 12, the pupils presented to a capacity audience the cantata "Rip Van Winkle," illustrated with slides made by the pupils. Plans are now under way for an operetta to be given by the pupils the evening of February 9, 1934.

In order to dispel any misunderstanding regarding the cost of these performances it should be noted that not one cent of the cost has been borne by the School Committee. From the beginning they have been self-supporting projects. The music, slides, tickets, draperies, janitor service, and all other incidental charges have been paid for from the proceeds of a small admission charge. Surplus funds have paid for an annual picnic for the ninth grade, a Keystone lantern, a picture of Abraham Lincoln, umpires at baseball games, a set of slides for instruction purposes, and the necessary music for the coming operetta. A balance of \$3.03 is on deposit in the Concord National Bank.

At the request of the Lincoln Post, American Legion, the pupils again took part in the Memorial Day exercises. The Commander of the Post complimented the pupils and teachers for their part in an unusually dignified program.

Since the tables of costs which were printed as part of my report a year ago have caused some comment I am tempted to believe that the citizens of the town, and patrons of the

schools may be interested in a further discussion of the costs of education in Lincoln. All figures are taken from the Annual Report of the Department of Education of Massachusetts for the year ending November 30, 1933.

Net average membership, year ending June 30, 1933	234
Number of days schools were in session	177
Expended for text books	\$314.56
Other expenses of instruction (supplies, etc.)	424.62
Expended for textbooks for one pupil for one year	1.34
For supplies and textbooks for one pupil for one year	3.16
For supplies and textbooks for one pupil for one day	0.018
Salaries of teachers, principal, supervisors	\$16,445.50
Cost of teaching, per pupil, per year	70.28
Cost of teaching per pupil, per day	0.40
Cost of teaching, per pupil, per hour	0.067
Length of school day	6 hours
Books, supplies, salaries of instruction	\$17,184.68
Cost of instruction, per pupil, per year	76.43
Cost of instruction, per pupil per day	0.43

The above figures are *gross* costs. For *net* costs it is necessary to deduct from the salary item \$2,060 received from the state income tax under Part I, Chapter 70 of the General Laws.

High School pupils and pupils for whom tuition is paid for more than half the school year are not included in the table.

These figures tell an interesting story. Such an array is one of the strongest arguments for the maintenance of public schools. Where can one hire an experienced tutor of all subjects taught in the elementary or primary school for 40 cents a day? Or a tutor of Latin, algebra, history, or English composition for 40 cents a day? Less than 7 *cents an hour*. Personal experience has shown me that a girl who "minds the baby" (and he may be sound asleep), is paid 25 cents an *hour*.

What parent can purchase for his child number books, reading books, music books, histories and geographies, reference

books, language and composition books, and all other books which help to make the well-equipped modern school, for the sum of \$1.34 a year? That is what Lincoln spent during the school year ending June 30 for text books for each pupil.

For ink, pencils, pens, erasers, paper of all kinds, maps and globes, protractors, compasses, chalk, crayons, water colors, brushes, paste, blotters, note-book covers, and the numerous other supplies necessary for efficient teaching we spent \$1.82 per pupil during the past school year.

In other words all necessary books and supplies are made available at a cost of one and eight-tenths cents per day per pupil. Less than the cost of a package of gum, a chocolate bar, or a cake of yeast.

Adding the cost of materials of instruction to the salaries of instruction we find a per pupil cost per year of \$76.42, or an average of 43 cents per day per pupil.

To say the above in another way; your child is supplied with the materials best suited to help him to learn effectively and efficiently and is assigned for six hours a day, five days a week, thirty-eight weeks a year to a teacher of successful experience who is trained in the use of the materials supplied. All that for 43 cents per day per pupil. Where can such an opportunity be duplicated outside of a public school supported at public expense?

Another significant view of the picture is that taken from the angle of the taxpayer. Using the latest complete data, that for the fiscal year ending December 31, 1932, let me outline briefly what all the above means to the individual taxpayer.

The rate of total tax per \$1,000 valuation in 1932 was \$24.50. Expenditures for school support from local taxation amounted to \$9.54 per \$1,000 valuation. School support then accounted for 38 per cent of the tax per \$1,000; or 38 cents out of every dollar paid in taxes in 1932. The taxpayer may say then that out of every ten dollars he paid in taxes, \$3.80

was spent on schools. Thus if the assessed valuation of his property was \$3,000 he contributed \$28.62 to education; if valued at \$5,000 his contribution was \$47.70; if valued at \$10,000 his contribution was \$95.40.

We are now transporting 210 pupils on four busses which travel 79 miles daily. These busses conform to all regulations of the Massachusetts Registry of Motor Vehicles and the laws of the state governing such vehicles.

The year just past was saddened for all those connected with the schools by the sudden death of Mr. Harry M. Condit, Jr., a member of the School Committee. The pupils and teachers enjoyed his frequent visits, his cheerful presence. He was sincerely interested in the welfare of the children of Lincoln.

For the fourth consecutive year I am happy to report that there has been no change in the teaching personnel.

Let me record permanently my sincere appreciation of the counsel and co-operation of your Committee.

Respectfully submitted,

CARL F. HOLLORAN,
Superintendent of Schools.

REPORT OF SCHOOL NURSE

To the School Committee of Lincoln:

A report of the School Nursing for the year ended December 31, 1933, is hereby submitted.

Schools have been visited daily, 442 office calls of pupils treated or advised, 226 home visits made, 14 pupils taken to clinics, hospitals, or doctor's office, 81 pupils taken home from school. This number was largely due to the precaution taken in September and October to prevent the spread of whooping-cough.

In April, Dr. Wood gave the toxin-antitoxin to eight pupils, and the Schick Text to 17 (11 pupils and 6 teachers). On May 26, was held the first Summer Round-Up. Parents co-operated splendidly and 13 pre-school children attended, were weighed and measured, then given a physical examination by Dr. Wood.

In September I assisted Dr. Wood with the yearly physical examination of all pupils.

All pupils were weighed and measured four times, and received frequent examination of skin and scalp during the year.

During October and November, 297 calls were made taking School Census.

The Chadwick Clinic was held in December, tests being given to 191 pupils out of 237.

Mr. Holloran, Superintendent of Schools, and seven of the nine teachers had the test.

The Lincoln Dental Committee, of which Mrs. Robert Loring is Chairman, conducted a very successful dental clinic.

I assisted the dentist, Dr. William Cosgrove of Lexington, two mornings each week from 9 to 12 A.M.

Two hundred and eight pupils received dental certificates.

Attended two meetings for State School nurses, one held at Worcester, other at Boston, Mass.

The Lincoln Tuberculosis Committee purchased from funds received from sale of Christmas Seals, eyeglasses for two children, and dental work for six children.

Respectfully submitted,

MARION N. OBER, R.N.,

School Nurse.

NOTICE:

Business Meeting, Monday, March 5, at 7.30 P.M.

WARRANT

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, ss.

To either of the Constables of the Town of Lincoln in said County:

GREETINGS:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify the legal voters of said Town of Lincoln, qualified to vote in Town Meeting for the transaction of Town affairs, to meet in the Town Hall in said Lincoln on Monday, the fifth day of March next at 7.30 o'clock P.M., then and there to act on all of the following Articles, except Article 2, and also to meet in said Town Hall on Saturday, the 10th day of March next, at 12 o'clock Noon, then and there to act on the following Article 2, by posting a copy of this Warrant, by you attested, in each of the Post Offices and in some other public place in said Town seven days at least before the fifth day of March next:

The polls for voting the Australian ballot on Saturday, March 10th, will be open at 12.00 o'clock Noon, and may be closed at 6.30 o'clock P.M.

Article 1. To choose a Moderator.

Article 2. To bring in their votes for the following Town Officers and any other Officers required by law, to be elected by Australian Ballot, viz.:

One Moderator for one year.

One Town Clerk for one year.

One member of the Board of Selectmen for three years.

One member of the Board of Assessors for three years.

One member of the Board of Health for three years.

One Treasurer for one year.

One Collector for one year.

One Auditor for one year.

Two Constables for one year.

One Tree Warden for one year.

One member of the Trust Fund Commissioners for three years.

One member of the Trustees for Free Public Lectures for three years.

One member of the School Committee for one year.

One member of the School Committee for three years.

One member of the Board of Water Commissioners for three years.

One member of the Board of Cemetery Commissioners for three years.

Also to vote "Yes" or "No" on the following questions:

To obtain a full expression of opinion, voters should vote on both of the following questions. (a) If a voter desires to permit the sale of any and all alcoholic beverages in this Town he will vote "YES" on both questions.

(b) If he desires to permit the sale of wines and malt beverages only herein, he will vote "NO" on question 1 and "YES" on question 2.

(c) If he desires to prohibit the sale of any and all alcoholic beverages herein, he will vote "NO" on both questions.

1. Shall licenses be granted in this Town for the sale therein of all alcoholic beverages (whisky, rum, gin, malt beverages, wines and all other alcoholic beverages)?

YES	
NO	

2. Shall licenses be granted in this Town for the sale therein of wines and malt beverages (wines and beer, ale, and all other malt beverages)?

YES	
NO	

Article 3. To bring in their votes for any committees, commissioners, trustees and other officers, required by law to be elected by ballot or otherwise.

Selectmen

Article 4. To hear and act upon the reports of Town Officers, Committees, Commissioners and Trustees.

Selectmen

Article 5. To appropriate money for the necessary and expedient purposes of the Town and enact anything in relation to the same.

Selectmen

Article 6. To determine the manner of collecting taxes for the ensuing year.

Selectmen

Article 7. To determine the compensation of the Collector of Taxes for the ensuing year.

Selectmen

Article 8. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to borrow money

in anticipation of the revenue of the financial year beginning January 1, 1934, and to issue a note or notes therefor, payable within one year, any debt or debts incurred under this vote to be paid from the revenue of the financial year beginning January 1, 1934.

Selectmen

Article 9. To see if the Town will vote to appropriate a sum sufficient to pay the County of Middlesex, as required by law, the Town's share of the net cost of the care, maintenance, and repair of the Middlesex County Tuberculosis Hospital, and for the Town's share of the expense under the provisions of Chapter 331 of the Acts of 1933, which provides for the settlement of certain claims of the Commonwealth against the Middlesex County Tuberculosis Hospital District, including interest or discount on temporary notes issued therefor, as assessed in accordance with the provisions of Chapter 111 of the General Laws, and Acts in amendment thereof, and in addition thereto, or take any action in relation thereto.

Selectmen

Article 10. To see if the Town will vote to transfer the balance in the Water Works Sinking Fund to the general account of the Water Works or take any action relative thereto.

Selectmen

Article 11. To see if the Town will provide for a Committee to study the question of the Town operating and housing all motor driven trucks, school busses, or other units, or take any action relative thereto.

Selectmen

Article 12. To see if the Town will vote to pay to the Merchants National Bank of Boston, the sum of One Hundred dollars annually to cover the cost of the annual compensation of the Merchants National Bank as despository under the agreement between Julian de Cordova and the Merchants National Bank of Boston dated November 29, 1930, or take any action relative thereto.

Selectmen

Article 13. To see if the Town will vote to accept as a public street the road leading from Station Road to the baseball field, or take any action relative thereto.

Selectmen

Article 14. To see if the Town will vote to relay with six-inch pipe the water pipes in Mackintosh Lane between Station Road and the estate of H. E. Warner, appropriate money therefor or take any action relative thereto.

By Request

HEREOF FAIL NOT

And make due return of this WARRANT with your doings thereon to the Town Clerk at or before the time for the meeting aforesaid.

Given under our hands this 14th day of February in the year of our Lord one thousand nine hundred and thirty-four.

GEORGE G. TARBELL,
ROBERT D. DONALDSON,
HERBERT G. FARRAR,
Selectmen of Lincoln.

TOWN CLERK'S REPORT

Proceedings of the Annual Town Meeting Held
March 5, 1934

WARRANT

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, ss.

To either of the Constables of the Town of Lincoln in said County:

GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify the legal voters of said Town of Lincoln, qualified to vote in Town Meeting for the transaction of Town affairs, to meet in the Town Hall on Monday, the fifth day of March next, at 7.30 o'clock P.M., then and there to act on all of the following Articles, except Article 2, and also to meet in said Town Hall on Saturday, the tenth day of March next, at 12 o'clock Noon, then and there to act on the following Article 2, by posting a copy of this Warrant by you attested in each of the Post Offices and in some other public place in said Town seven days at least before the fifth day of March next. The Polls for voting The Australian ballot on Saturday, March 10th, will be open at 12 o'clock Noon, and may be closed at 6.30 o'clock P.M.

Article 1. To choose a Moderator.

Article 2. To bring in their votes for the following Town Officers, and any other Officers required by law, to be elected by Australian ballot, viz:

One Moderator for one year.

One Town Clerk for one year.

One member of the Board of Selectmen for three years.

One member of the Board of Assessors for three years.

One member of the Board of Health for three years.

One Treasurer for one year.

One Collector for one year.

One Auditor for one year.

Two Constables for one year.

One Tree Warden for one year.

One member of the Trust Fund Commissioners for three years.

One member of the Trustees for Free Public Lectures for three years.

One member of the School Committee for one year.

One member of the School Committee for three years.

One member of the Board of Water Commissioners for three years.

One member of the Board of Cemetery Commissioners for three years.

Also to vote "Yes" or "No" on the following questions; To obtain a full expression of opinion, voters should vote on both of the following questions:

- (a) If a voter desires to permit the sale of any and all alcoholic beverages in this Town he will vote "Yes" on both questions.
- (b) If he desires to permit the sale of wines and malt beverages only herein, he will vote "No" on question one and "Yes" on question two.
- (c) If he desires to prohibit the sale of any and all alcoholic beverages herein, he will vote "No" on both questions.

1. Shall licenses be granted in this Town for the sale therein of all alcoholic beverages (whiskey, rum, gin, malt beverages, wines and all other alcoholic beverages).

YES.

NO.

2. Shall licenses be granted in this Town for the sale therein of wines and malt beverages (wines and beer, ale, and all other malt beverages)?

YES.

NO.

Article 3. To bring in their votes for any Committees, Commissioners, Trustees, and other officers, required by law to be elected by ballot or otherwise.

Article 4. To hear and act upon the reports of Town officers, Committees, Commissioners and Trustees.

Article 5. To appropriate money for the necessary and expedient purposes of the Town and enact anything in relation to the same.

Article 6. To determine the manner of collecting taxes for the ensuing year.

Article 7. To determine the compensation of the Collector of Taxes for the ensuing year.

Article 8. To see if the Town will authorize the Treasurer with the approval of the Selectman, to borrow money in anticipation of the revenue of the financial year beginning January 1st., 1934, and to issue a note or notes therefor payable within one year, any debt or debts incurred under this vote, to be paid from the revenue of the financial year beginning January 1, 1934.

Article 9. To see if the Town will vote to appropriate a sum sufficient to pay the County of Middlesex, as required by law, the Town's share of the net cost of the care, maintenance, and repair of the Middlesex County Tuberculosis Hospital, and for the Town's share of the expense under the provisions of Chapter 331 of the Acts of 1933, which provides for the settlement of certain claims of the Commonwealth against the Middlesex County Tuberculosis Hospital district, including interest or discount on temporary notes issued therefor, as assessed in accordance with the provisions of Chapter III of the General Laws and Acts in amendment thereof, and in addition thereto, or take any action in relation thereto.

Article 10. To see if the Town will vote to transfer the balance in the Water Works Sinking Fund to the general account of the Water Works or take any action relative thereto.

Article 11. To see if the Town will provide for a Committee to study the question of the Town operating and housing all motor driven trucks, school busses, or other units, or take any action relative thereto.

Article 12. To see if the Town will vote to pay to the Merchants National Bank of Boston, the sum of one hundred

dollars annually to cover the cost of the annual compensation of the Merchants National Bank, as depository under the agreement between Julian DeCordova and the Merchants National Bank of Boston dated November 29th, 1930, or take any action relative thereto.

Article 13. To see if the Town will vote to accept as a public street the road leading from Lincoln Road to the Baseball field, or take any action relative thereto.

Article 14. To see if the Town will vote to relay with six-inch pipe the water pipes in MacIntosh Lane between Lincoln Road and the estate of H. E. Warner, appropriate money therefor, or take any action relative thereto.

HEREOF FAIL NOT

And make due return of this WARRANT with your doings thereon to the Town Clerk at or before the time for the meeting aforesaid.

Given under our hands this 14th day of February in the year of our Lord one thousand nine hundred and thirty four.

(Signed) GEORGE G. TARBELL,
R. D. DONALDSON,
HERBERT G. FARRAR,
Selectmen of Lincoln.

On the reverse of the Warrant is the following:

February 24, 1934.

I have served this Warrant by posting an attested copy in each of the Post Offices and one at the Railroad Station, seven days before date of said meeting.

(Signed) JOHN J. KELLIHER,
Constable.

In accordance with the above Warrant the Annual Town Meeting was called to order at 7.30 P.M. by the Town Clerk, who read the Warrant, and presided at the election of a Moderator.

Article 1. Robert D. Donaldson, Jr., was elected Moderator, and duly sworn.

Article 3. Charles E. Woodhull and Hermon T. Wheeler, were elected Measurers of Wood and Bark.

Article 4. All of the Reports of the various Officers as printed in the Town Report, were accepted. Also under this Article the following report was read and accepted:

Lincoln, Massachusetts, February 28, 1934.

Meeting of the Committee on name for Station Road, under Article 14 of Warrant for Annual Town Meeting of March 6th, 1933, under Article 14 it was voted: That a Committee of five be appointed by the Moderator. Said Committee to be comprised of residents of Station Road, to bring in their recommendations for a name for same, and report at the next Town Meeting. The following were appointed by the Moderator:

ANTHONY J. DOHERTY, *Chairman*,
MRS. C. LEE TODD,
MR. HARLAND B. NEWTON,
MR. H. S. COUSINS,
MRS. DANA M. GREELY.

At a meeting held this date, said Committee voted to recommend to the Town, that Station Road (so-called), be named "Lincoln Centre Road," and herewith respectfully submits its report and recommendations to the Town.

(Signed) ANTHONY J. DOHERTY,
HARLAND B. NEWTON,
HAROLD S. COUSINS,
PAULINE E. TODD.

It was then — Moved: that Station Road (so-called), be named "Lincoln Road," from the Wayland line to Lincoln Centre. An amendment inserting the word "Centre" after the word "Lincoln," was lost. The original motion was then put, and adopted.

Article 5. Under this Article, it was Voted: that the appropriation for

Schools, be	\$39,300.00
Vocational Education	1,200.00
Public Welfare	4,000.00

Library and Dog Tax	981.28
Board of Health	2,000.00
Tree Warden	800.00
Moth Work	500.00
Miscellaneous Expenses	1,800.00
Street Lights	3,300.00
Fire Department	1,900.00
Interest on Town Loans	1,200.00
Veterans' Aid	200.00
Police Department	2,150.00
Town Hall and Public Grounds	2,150.00
Town Officers Salary a c	3,175.00
Town Officers Salary 1933	500.00
Insurance	521.49
Election Expenses	200.00
Reserve Fund	1,000.00
	<hr/>
	\$85,677.77
Water Works	22,475.00

Voted that of the sum appropriated \$22,475.00 be taken from the Water Works Treasury.

Article 6. Voted that the Town Taxes for 1934 be collected in the same manner as the previous year.

Article 7. Voted that the compensation of the Collector of Taxes be one, and 35/100's of the amount collected.

Article 8. Voted that the Town authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the financial year beginning January 1st, 1934, and to issue a note, or notes therefor, payable within one year, any debt or debts incurred under this vote to be paid from the revenue of the financial year beginning January 1st, 1934.

Article 9. Voted that the sum of \$342.65, this being the Town's share of the net cost of Care, Maintenance, and repair of the Middlesex County Tuberculosis Hospital, including interest on temporary notes issued therefor, be and the said sum is hereby appropriated. That a further sum of \$87.55, this being the Town's share of the expense incurred under the provisions of Chapter 331 of the Acts of 1933, which provided for the settlement of certain claims of the Commonwealth against the Middlesex County Tuberculosis Hospital District, be and the same is hereby appropriated.

Article 10. Voted that the sum of \$528.12 be transferred from the Water Works Sinking Fund to the General Account of the Water Works.

Article 11. Voted that the Moderator appoint a Committee of five, one from the Board of Selectmen, one from the School Committee, one from the Fire Engineers, and two others, to investigate the advisability of the Town operating and housing all or any motor driven trucks, school busses, and / or other units, also to investigate the advisability of replacing the teams

of the Highway Department with trucks, and that this Committee be directed to report thereon at the next Annual Meeting.

Article 12. Voted to pass over the Article.

Article 13. Voted that the Town accept as a public street the road leading from Lincoln Road to the Baseball Field.

Article 14. Voted that the Town relay with six-inch pipe the water pipes in MacIntosh Lane between the Lincoln Road and the estate of H. E. Warner, the expense thereof to be paid out of the appropriation for Water Works.

Voted to adjourn at 10 o'clock P.M.

(Signed) WILLIAM H. DAVIS,
Town Clerk.

PROCEEDINGS AT THE PARTY PRIMARY**April 24, 1934**

WARRANT

THE COMMONWEALTH OF MASSACHUSETTS
MIDDLESEX, ss.

To either of the Constables of the Town of Lincoln:

GREETING:

In the name of the Commonwealth, you are hereby required to notify and warn the inhabitants of the Town, who are qualified to vote in Primaries to meet in the Town Hall Tuesday the 24th day of April, 1934, at 1 o'clock P.M. for the following purposes:

To bring in their votes to the Primary Officers for the Election of Candidates of Political Parties for the following offices:

District Member of State Committee for each Political Party for the Fifth Senatorial District, 10 Members for the Democratic Town Committee, 10 Members for the Republican Town Committee, 1 Delegate to State Convention of the Democratic Party, 1 Delegate to State Convention of the Republican Party.

All the above candidates are to be voted for upon one ballot. The Polls will be open from 1 P.M., to 6.30 P.M. And you are directed to serve this warrant by posting attested thereof seven (7) days at least before the time of said meeting as directed by vote of the Town. Hereof fail not and make return of this warrant with your doings thereon at the time and place of said meeting.

Given under our hands this ninth day of April A.D. nineteen hundred thirty four.

SUMNER SMITH,
R. D. DONALDSON,
HERBERT G. FARRAR,
Selectmen of Lincoln.

On the reverse of this Warrant is the following:

Lincoln, April 14th, 1934.

I have served this Warrant by posting an attested copy in each of the Post Offices and one at the Railroad Station, seven days before date of said meeting.

(Signed) JOHN J. KELLIHER, *Constable.*

In accordance with the provisions of the foregoing Warrant the Party Primary was held in the Town Hall on April 24th, 1934. The Warrant was read by the Town Clerk. Thomas J. Dee, Lorrin W. Ferdinand, D. Everett Sherman, Jr., Raymond E. Hagerty, Charles B. Lennon, Leslie G. Rollins, were appointed Ballot Clerks, and Tellers, and duly sworn. The Ballot Box was inspected, and Polls declared open at one o'clock P.M., by R. D. Donaldson, presiding officer, and declared closed at 6.30 P.M. The result of the Balloting was as follows:

PROCEEDINGS AT STATE ELECTION

November 6, 1934

WARRANT

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, ss.

To either of the Constables of the Town of Lincoln:

GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Lincoln, duly qualified to vote in the election of State and County Officers, to assemble at the Town Hall on Tuesday November 6th, at 7 o'clock in the forenoon, to give in their votes for the following officers: — viz; Governor, Lieutenant Governor, Secretary, Treasurer, Auditor, Attorney General, Senator in Congress, Congressman, Councillor, Senator, Representative (1), District Attorney, Clerk of Courts, Register

of Deeds, County Commissioner (1), Associate County Commissioners (2), Sheriff, and any other officers required by law to be chosen in the month of November, of the current year. All officers enumerated above are to be designated and voted for on one ballot, and also the questions: Question No. 1, Shall a law described as follows; This law amends General Laws, Chapter 131, as previously amended, by repealing Section 105A thereof and adding thereto three new sections, 105B, 105C, and 114A. Section 105B provides that, whoever uses any trap or other device for capture of fur bearing animals, which is not designed to kill such animals at once or to take it unhurt and which is likely to cause continued suffering to an animal caught therein, shall be fined \$50.00, but traps or other devices for protection of property, set no more than fifty yards from any building, cultivated plot, or enclosures used for rearing poultry or game birds, to the use of which the presence of vermin may be detrimental, are excluded from the application of this Section.

Section 105C provides for the submission to the voters at a Municipal election in any City or Town, upon petition, of the question of whether the operation of section 105B shall be suspended, or if it has been already suspended, of the question whether it shall again be operative in such City or Town.

Section 114A, provides that the Commissioner of Conservation may suspend the operation of Section 105B for a period not exceeding thirty days within any specified territory, under the control of his department. The law also provides, for the submission, by the Selectmen to the voters at a Special Town Meeting in the current year, upon petition, of the question as to whether the provisions of section 105B shall be suspended in any Town; and which was approved by both branches of General Court by vote not recorded, be approved.

YES.

NO.

To obtain a full expression of opinion, voters should vote on both of the following questions; (a) If a voter desires to permit the sale of any and all alcoholic beverages in this Town, he will vote "Yes" on both questions, (b) If he desires to permit the sale of wines and malt beverages only herein he will vote "No" on question 1, and "Yes" on question 2. (c) If he desires to prohibit the sale of any and all alcoholic beverages herein, he will vote "No" on both questions.

Question No. 1. Shall licenses be granted in this Town for the sale therein of all alcoholic beverages (whiskey, rum, gin, malt beverages, wines, and all other alcoholic beverages)?

YES.

NO.

Question No. 2. Shall licenses be granted in this Town for the sale therein of wines and malt beverages (wines and beer, ale, and all other malt beverages)?

YES.

NO.

No. 1. Shall the pari-mutuel system of betting on licensed horse races be permitted in this County?

YES.

NO.

No. 2. Shall the pari-mutuel system of betting on licensed dog races be permitted in this County?

YES.

NO.

The Polls to be opened at 7 o'clock A.M., and may be closed at 7 o'clock P.M., and you are directed to serve this Warrant by posting an attested copy thereof in each of the

Post Offices, and in one other public place, seven days at least before the day appointed for said meeting, and to make seasonable return thereof with your doings thereon to the Town Clerk.

HEREOF FAIL NOT

Given under our hands this twenty-sixth day of October, in the year of our Lord one thousand nine hundred and thirty four.

(Signed) SUMNER SMITH,
ROBERT D. DONALDSON,
HERBERT G. FARRAR.
Selectmen of Lincoln.

On the reverse of the above Warrant is the following:

Lincoln, October 29, 1934.

I have served this Warrant by posting an attested copy in each of the Post Offices and one at the Railroad Station seven days before date of said meeting.

COMPULSORY VACCINATION OR QUARANTINE AGAINST RABIES

WARRANT

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, ss.

To either of the Constables of the Town of Lincoln in said County:

GREETINGS:

Be it ordered that each and every dog within the limits of the Town of Lincoln shall be restricted from running at large for a period of ninety (90) days from and after December 24, 1934; Provided, however, that this order shall not apply to any dog over three months old which has been vaccinated against rabies within the past six months or if hereafter so vaccinated if for each such case a vaccination certificate

issued by a licensed veterinary, is filed with or exhibited to the agent of the Board of Health of the Town of Lincoln, or if, further, the dog bears a tag evidencing the fact of such vaccination, and be it hereby further ordered that a warrant be issued to the Constables of the Town of Lincoln that they shall after the 29th day of December, 1934, kill or cause to be killed all dogs found running at large contrary to said order.

Hereof fail not, and make due return of this Warrant with your doings thereon to the Town Clerk on or before December 29, 1934.

Given under our hands this 24th day of December, 1934.

SUMNER SMITH,
R. D. DONALDSON,
H. G. FARRAR,
Selectmen of Lincoln.

Lincoln, December 26, 1934.

I have served this Warrant by posting an attested copy in each of the two Post Offices.

JOHN J. KELLIHER,
Constable.

Vital Statistics

There have been recorded for the year ending December 31, 1934, 17 Marriages, 29 Births, and 16 Deaths.

Marriages

Date of Marriage	Names	Residence
Jan. 7, 1934	John Joseph Rooney Margaret C. Hennessey	Lincoln Lincoln

EXTRACT FROM THE REVISED LAWS CHAPTER 29,
AS AMENDED BY CHAPTER 280 ACTS OF 1912

Section 6. Parents within forty days after the birth of a child and every householder within forty days, after the birth of a child in his home shall cause notice thereof to be given.

Section 8. A parent, keeper, superintendent or other person who is required by Section 6, to give or cause to be given notice of a birth or death who neglects so to do for ten days after the time limited therefor, shall forfeit not more than five dollars for such offence.

Licenses

Total number of Dog Licenses issued for 1934 — 201, namely, 126 Males, 40 Females, and 35 Spayed Females, for which the sum of \$481.80 has been paid into the Treasury.

There have been issued during the year 1934, 27 Fishing, 37 Hunting, 12 Sporting, 5 Minor Fishing, 1 Minor Trapping, and 1 Duplicate Licenses, for which the sum of \$162.75 has been paid to the Division of Fisheries and Game.

(Signed) WILLIAM H. DAVIS.

Town Clerk.

JURY LIST FOR 1934

Name	Address	Occupation
Balou, Clyde D.	South Lincoln	Painter
Bean, Elmer A.	Concord, R. F. D.	Farmer
Boyce, Manley B.	South Lincoln	Farmer
Briggs, Charles V.	Lincoln	Chemist

Sherman, Daniel E., Jr.	South Lincoln	Farmer
Stone, Edward M.	South Lincoln	Civil Engineer

REPORT OF THE SELECTMEN

The Board was organized with Sumner Smith, chairman, and Robert D. Donaldson, secretary.

The appointments made by the Selectmen are printed with the list of Town Officers.

Highways

Cost of snow removal and use of trucks and drivers by the ERA lessened the regular highway appropriation by over \$4,000.00. ERA money also cut off considerable of a bank curve at the Richard Briggs' place on Weston Road and partially filled in the meadow curve at the Dr. Edgerly Place. \$200.00 is still available for the fill and it is planned to extend the culvert, finish the fill, and surface in the spring. It is also planned to finish the fill at Wheeler's meadow on Bedford Road.

ERA money also paid for the labor of painting practically all the highway fences.

Chapter 90 money was used to straighten curves on Route 117, and also widen it toward Concord. The amount of money allotted by State and County for construction and maintenance along this route is not yet determined, but the following recommendation is on file at the office of the Department of Public Works:

	State	County	Town
Construction	\$4,000	\$2,000	\$2,000
Maintenance	1,000	1,000	1,000

The State also allows the Town \$5,550 if matched by an equal appropriation by the Town for Chapter 81 roads.

It is the opinion of the Board that the worst part of Town Hill should be scarified, that some resurfacing should be done on Higginson Road, Trapelo Road and Lincoln Road where the new pipe was laid between Codman's and Farnsworth's Corners.

Finances

The Finance Committee, necessitated by State Law and appointed for the first time last year, will recommend to the Town specific appropriations for various items of the budget, which heretofore has been done by the Selectmen.

During the last fifty years the tax rate has fluctuated between a low of \$4.00 per \$1,000.00 to a high last year for all time of \$26.00 per \$1,000.00. The amount of the appropriations is entirely the business of the voters, but from the fact that amounts of uncollected Real Estate and Water taxes are on the increase yearly it would appear that the voters are not much interested in what should be vital to them. As the net amount returned by the State will probably approximate last year's return, the tax rate cannot be reduced from its high unless the budget is substantially cut. A few hundred dollars can be whittled here and there from the smaller items without much effect on taxes, but to make any appreciable saving the large amounts spent last year for Highways and Schools should be examined with the most thorough scrutiny before such appropriations are again passed. If the voters can visualize as much service from lesser expense, and if those recommending the appropriations cannot satisfactorily justify them, it is your privilege to appropriate what seems reasonable. If you think money is wasted in any department, Town Meeting is the place to talk about it.

Public Buildings, Grounds and Equipment

One office has been refinished in the Town Hall. Much of the inside of the whole hall sadly needs cleaning and painting,

and the floor in the main hall needs cleaning and dressing. An ERA project will be sought for this, with the Town paying for the material.

The ERA dug loam from the ball field parking space and spread a good layer on the common, and parts of both school grounds which will be raked, seeded and rolled in the spring with ERA money if that body is functioning. The ERA and the Highway money scraped loam from some of the lower parts of the ball field, hauled back sand and gravel for the field fill and driveway parking space respectively, which job it is intended to finish in the Spring with ERA money for labor. The old west boundary wall is also being relaid with ERA money and stones belonging to the abutter.

Most of the dead evergreens in Pierce Park were replaced and many of the other trees were trimmed. The land adjoining the school grounds was drained.

Public Welfare

The Town appropriation for welfare of \$4,000.00 was practically all spent on out-of-town cases who had a residence in Lincoln, or on cases who could not physically qualify for work relief. State Road work, Water Works pipe laying, and the ERA kept those able to work on at least part time long enough to keep them out of distress. While these or comparable functions operate, the Welfare load should not increase, but if any of these are curtailed to any extent, and those out of work do not find private jobs, there will be an increased burden on the Town, such as has never been before experienced.

The mere fact that a man is out of work does not necessarily qualify him for work or welfare. The general custom is that his family must be near distress, that he must have no one legally responsible for his support who is able to help him, and that, generally, he must have one or more dependents, and no automobile on the road.

The Silent Poor Fund was drawn on for \$564.95 and the Pierce Park Trust for \$2,028.19 making the cost of Welfare to the Town \$6,610.96 exclusive of work relief.

ERA

Since the ERA has been the cause of some misunderstandings among the inhabitants and among the workers themselves, the Board believes a brief outline of the system should be recorded.

The object of the ERA is to provide work relief and the results for Lincoln have been satisfactory if allowance is made for all the regulations required by Federal rules.

It is a gratifying fact that every citizen in distress and able to work has been relieved by the functions of the ERA whose allotments to Lincoln, since its inception in June, have varied from \$200.00 to \$1,100.00 per month, totalling \$3,800.00. \$104.71 was not spent. CWA allotted \$764.00 in March.

Materials and equipment incidental to this labor were furnished by the Town at a cost of \$2,022.34. This sum does not include rental value of Town trucks, neither do the wages of truck drivers, supervisors and rental value of Town team appear. From June, 1934, to January, 1935, the period covered in this report, this item amounted to \$1,207.60, thus the Town of Lincoln contributed \$3,229.94 to the ERA work program.

Food and clothing, as available, is allotted to workers whose earnings are not equal to their budget.

Under the CWA the expense of the clerk was borne by the Town. The ERA clerk is now paid by the ERA.

At the beginning of the year it was almost impossible for a town this size to obtain an approved project for a comparatively useful job, and Federal rules and officers changed so

frequently that there was no feeling of security, after a project was approved, how long it could be worked. After a few months of teasing for the approval of various desired projects without much success, the Board was finally allowed the services of a project hunter. He went over a considerable part of Lincoln, commented that it was generally in very good physical condition, and rendered the following report to the Selectmen and the ERA. Since then dealing with the ERA Office has been much expedited.

Report

October 1, 1934.

Mr. Sumner Smith,
Sandy Pond Road,
Lincoln, Massachusetts.

My dear Mr. Smith:

I have gone over the recommendations in here, and believe that it is possible for you to introduce three (3) projects which would probably meet with support here.

The first would be one for cleaning the brooks of Lincoln. Primarily, you would clean out and rebuild culverts under all public high-roads. In the second place, you would enter upon private property where they are unable themselves to attend to cleaning the brooks and wherever you have previously received permission to do so. In this respect, I believe that if you should secure several definite permits to go into private property which you can submit with the project, they will allow you to start work and will allow you to continue as you submit further evidences of permission from the property-owners.

It is quite likely that in connection with the culvert work you can make this broad enough to include repair of stone-walls on town property. This would include the work about the cemetery, and also along Stony Brook Road at the Reservoir.

The second project would be one of tree-surgery or trimming. You will recall that I suggested starting a small crew at first, and that you could carry on this work with possibly two or three crews through the winter.

The third project would be the removal of loam and the construction of road and proper parking space down to the Town baseball field, taking into account the probability of dumping this loam at the rear of the school house so that next Spring a project can be introduced to care for the grading of this field.

Yours very truly,

Emergency Relief Administration of Massachusetts.

SIDNEY T. STRICKLAND, *Project Promotion*,

By direction of Howard G. Philbrook.

STS/K

Director of Work Division.

The work list is approved from time to time by an ERA examiner, and there has been absolutely no partiality shown in choosing men or assigning them to jobs. They have been chosen according to their estimated needs evidenced by their applications. The men were shifted at times for various reasons, but often for the sake of efficiency.

Most of the workers appear glad to have a job and their attitude is good, but there are a few malcontents whose interest appears to be to attempt to create friction between the local administration and ERA headquarters, or between each other. They should realize their activities are more on exhibition than when they worked privately, and that those who show up the best are the most likely to be the first to return to private work.

Now the head office has ruled that if a worker owns a car, and does not live three or four miles from work, the car is taking money meant for family necessities, which is an indication that the family is not in dire distress and applicants for work without cars should be given preference. The Government

principle at present appears to force workers to get jobs themselves at some wage, rather than hold a 50c per hour wage scale over them, and allow them luxuries.

This report may appear overbalanced by ERA comment, but it has been a real problem to co-ordinate the different departments where ERA workers intrude in such a way as to be fairly efficient, and the object sought was to spend the ERA money for permanent improvements, thus saving the Town part of the cost. This could not be accomplished 100% because it was not the Washington method of encouraging recovery. Neither should it be supposed that Lincoln generally saved money by using ERA funds, because most of the work would not at present have been started except to provide work relief.

Highway and Public Grounds appropriations suffered specifically in this respect, particularly the Highway in providing trucks and drivers and finding profitable work for the other employees when they had no trucks. The Tree department, Water Works and Public Grounds were most benefited.

SUMNER SMITH,
ROBERT D. DONALDSON,
HERBERT G. FARRAR,

Selectmen.

REPORT OF THE FINANCE COMMITTEE

The Finance Committee recommends that the following appropriations be made for the ensuing year: —

Department	Appropriation 1934	Request for 1935	Recommended by Finance Committee 1935
Schools	\$39,300 00	\$38,000 00	\$37,190 00
Vocational Education	1,200 00	1,600 00	1,600 00
Public Welfare	4,000 00	4,000 00	4,000 00
Highways and Bridges	15,700 00	17,000 00	17,000 00
Highways Chapter 90	2,500 00	2,500 00	2,500 00
Cemeteries	600 00	600 00	600 00
Library and Dog Tax	981 28	967 80	967 80
Board of Health	2,000 00	2,500 00	2,500 00
Tree Warden	800 00	840 00	840 00
Moth Work	500 00	525 00	525 00
Miscellaneous Expenses	1,800 00	1,750 00	1,750 00
Street Lights	3,300 00	3,100 00	3,100 00
Fire Department	1,900 00	1,600 00	1,600 00
Interest on Town Loans	1,200 00	800 00	800 00
Veterans' Aid	200 00	200 00	200 00
Police Department	2,150 00	1,850 00	1,850 00
Town Hall and Public Grounds	2,150 00	2,000 00	2,000 00
Town Officers' Salaries	3,675 00	3,839 73	3,839 73
Insurance	521 49	782 24	782 24
Election Expenses	200 00	75 00	75 00
Reserve Fund	1,000 00	800 00	800 00
Total	\$85,677 77	\$85,329 77	\$84,519 77
Water Works	\$22,475 00	\$13,893 75	\$13,893 75

The Finance Committee recommends that one-half of the salary cuts which were made in 1933 be restored. The request of the School Committee provides for a full return of these cuts.

We believe that all employees of the Town should be treated on an equal basis, and, in consequence, recommend \$810.00 less than is requested by the School Committee.

GEORGE G. TARBELL, *Chairman.*

GUILBERT WINCHELL,

WILLIAM M. RAND,

Finance Committee.

ASSESSOR'S REPORT

WARWICK V. HARRIS,
Treasurer.

AUDITOR'S REPORT

I hereby submit a report of all money paid out by the Town Treasurer on order of the Selectmen of Lincoln.

I have examined the books and accounts of the officers with the receipt, custody, or expenditure of money and find that the reports of these officers to the Town are correct. I have verified the cash balance of each of such officers by reconciliation of bank balances and count of cash.

JAMES W. LENNON,
Auditor.

Sworn to before me this 30th day of January, 1935.

HENRY A. GRIMWOOD,
Justice of the Peace.

REPORT OF THE SUPERINTENDENT OF STREETS

To the Board of Selectmen:

I hereby submit the following report for the year ending December 31, 1934:

Last winter was an exceptionally hard winter as we had very bad snow storms coming one after the other. The plows were unable to keep the roads open so we had to hire men to shovel them out, which made the expense very high. The snow work amounted to nearly \$4,000, leaving the amount for road work much less than other years. The old truck kept breaking down all summer and at last we had to give it up. We purchased a new White for \$3,500 to carry on the work for which we paid \$500 down, the balance to be paid this year without interest. This truck is very satisfactory.

In January, February, and March most of the time after doing the snow work and sanding the roads to cover ice, was spent on Silver Hill and Brooks Road helping with CWA work.

In April and May we took down the snow fences, patched the roads, worked on Silver Hill Road and resurfaced the Bedford Road. We also teamed sand, and prepared the roads for tarvia and oil.

In June and July most of the time was spent in putting out tarvia and oil and covering it with sand, also working on Silver Hill and Herman Roads.

In August and September we worked on Chapter 90 roads most of the time, eliminating curves and resurfacing the cuts and fills with crushed stone and asphalt.

In October, November, and December part of the time was spent in putting up snow fences and working with the ERA help, part of the time on the Water Works and on Chapter 90 roads. The trucks and drivers hauled loam from the ball field lot to the school grounds and Town Common, and hauled sand and gravel to the ball field.

Respectfully submitted,
WILLIAM H. SHERMAN.

REPORT OF WATER COMMISSIONERS

The re-building of Concord Avenue as a State road upset the grades at the intersecting streets to such an extent that all the water pipes were lowered at the crossings. The course of the new road was also changed, necessitating the relocating of gates and hydrants. Three dead headers were laid under the Avenue for possible future use. These changes are being mapped, and their cost amounted to \$6,172.00, all of which the Water Works had to stand, and which would not have been spent here, except that the new road commanded it.

Laying of new 8-inch pipe on Old Lexington Road was completed and connected with Flint Road pipe. 6-inch pipe was brought up Trapelo Road to the Billings Place, for which a cash guarantee is on deposit. 6-inch pipe was also extended on Concord Avenue toward Concord while construction was in progress. The line from Codman's Corner to Farnsworths was relaid with 10-inch pipe just before winter closed in, and the job was stopped before the pipe was cut in or services changed—this will be done in the spring.

The Pumping Station was thoroughly painted inside and out by ERA labor.

These changes are here listed more specifically:

Line	Length	Size	Cost Pipe	Cost Labor	Blasting
Old Lexington Rd.	448'	8"	\$521 84	\$235 50
Billings	600'	6"	508 00	{ 350 00 Town 215 00 ERA }	\$130 00
Concord Ave. changes	1,737'	1"-12"	3,092 39	3,080 32
Codman to Farns- worth	1,380'	10"	2,042 00	834 80 Town	74 00
Mackintosh Ave..	1,200'	6"	928 00	{ 402 00 Town 378 00 ERA }	42 00

A new one million gallons per day De Laval Centrifugal Pump is being installed at a cost of \$2,785.00.

Locating and mapping fixtures which have been lost by the removal of identification points is being pushed as fast as weather permits.

Water Tax collections have fallen off very seriously.

The Board recommends the continuance of renewing old small pipe with new larger pipe where necessity makes the most demand.

The Board itemizes the following budget, which is recommended to be appropriated for 1935:

Power	\$2,200 00
Salaries	875 00
Repairs and renewals	10,100 00
Miscellaneous	250 00
Maps	500 00
	<hr/>
	\$13,925 00

Respectfully submitted,

SUMNER SMITH,
JOHN J. KELLIHER,
ROBERT R. HUNTER.

Statistics Relating to Distribution System

Mains

1. Replaced 300 ft. of 6 inch pipe with 12 inch — Concord Avenue.
2. Replaced 1,720 ft. of 4 inch pipe with 6 inch — Concord Avenue — Mackintosh Ave.
3. Replaced 1,380 ft. of 6 inch pipe with 10 inch — Lincoln Road.
4. Replaced 200 ft. of 6 inch pipe with 8 inch — Concord Ave.
5. Discontinued none.
6. Added during year 835 ft. of 6 inch — Trapelo Rd. — Concord Ave.

Total now in use, 28.567 miles.

7. Number hydrants added during year, one.
8. Number hydrants replaced, 5.
9. Number hydrants (public and private) 142.
10. Number stop gates renewed, one.
New gates added during year, 3.
11. Number stop gates now in use, 167.
12. Number blowoffs, 31.
13. Range of pressure on mains, 40-100 lbs.

Services

14. Renewed 10, Discontinued none.
15. Number service taps added during year, 6.
16. Number now in use, 427.
17. Meters now in use, 14.

REPORT OF THE BOARD OF HEALTH FOR 1934

The board met on March 31 and organized with Dr. DeNormandie as Chairman and Mr. Conant as Secretary. Mrs. Ober was elected Agent. Dr. McGlinchey was appointed Milk Inspector and Mr. J. J. Kelleher was nominated Inspector of Slaughtering to the Department of Public Health and later the nomination was confirmed. Dr. DeNormandie was appointed to the Nursing Committee.

During the year the following diseases dangerous to the public health were reported to the Board: Measles 8, whooping cough 3, lobar pneumonia 3, scarlet fever 6, mumps 1 and dog bite 7.

In December the number of rabid animals reported in the surrounding towns made it advisable for the Board to recommend to the Selectmen that all dogs be restrained for 90 days or be inoculated against rabies. As a result of this order 108 dogs were inoculated.

At the present time 427 cattle have been tested for tuberculosis with only 3 reactors.

One undertaker has been licensed.

Permits to sell denatured alcohol were granted to 4 garages.

Licenses were granted to the following farms to retail milk: Woodridge Farm, Glendale Farm, Grassland Farm, DeNormandie Farm, Cedar Hill Farm, H. L. Stone Company, Whit-ing Milk Company, and to Foster Bunker. Licenses were also granted to the following stores: Mildred Horn, J. H. Corliss, A. Danosky, G. P. Kimball, A. E. Fernald, R. L. Hodgedon, Earl Haynes and John Primak.

One pasteurizing plant was relicensed and one new plant licensed. Monthly samples were taken from the dealers and in all the samples taken the milk was found to be satisfactory.

Following a new regulation which was passed January 19, 1934, relative to the transporting of garbage through the town, 11 licenses were granted.

The conditions in some of the piggeries is most unsatisfactory.

Licenses were granted to the following piggeries: John Connors, 600; Manuel Silva, 500; Cornelius Shea, 400; Prescott Davis, 200; Boyce Brothers, 100; E. S. Coburn, 75; and John Wilson, 50.

Respectfully submitted,

ROBERT L. DENORMANDIE,
ROBERT D. DONALDSON,
RICHARD K. CONANT.

REPORT OF CEMETERY COMMISSIONERS (1934)

During the past year the principal roadways in the New Cemetery have been graded and oiled as part of a CWA project and for the first time are in such condition that they can be used at any season of the year.

A number of evergreen trees have been set out on the borders of the addition to the New Cemetery and many more will be planted this spring.

In addition to the usual general care of all three cemeteries, the fence on the Lexington Road side of the Arbor Vitae Cemetery has been repaired and painted.

During the coming year the Commissioners hope to have about 1,100 ft. of 2-inch pipe laid to provide two or more faucets at five corners of the New Cemetery and also to relay the stone wall on the southwestern side of the New Cemetery, which adjoins land owned by Edward F. Flint. The two projects, if undertaken, will be done under ERA grants.

For general care in the three cemeteries an appropriation of \$600.00 is asked.

EDWARD F. FLINT,
GEORGE E. CUNNINGHAM,
H. P. WHITNEY.

REPORT OF THE LINCOLN FIRE DEPARTMENT

To the Board of Selectmen:

The Board of Fire Engineers herewith submit their twenty-seventh Annual Report ending December 31, 1934.

Force

The Fire Department consists of the following: one chief, six engineers, and twenty-two call men.

Apparatus

The apparatus belonging to the department is as follows: One 600-gallon pump, one combination 350-gallon pump and forest fire truck, and one combination hose truck, eight extinguishers, eight ladders, 2,150 feet of 2½ inch hose, 600 feet of 1½-inch hose, 700 feet of 1-inch hose, and will carry 185 gallons of water in booster tank of combination forest fire truck.

Location of Apparatus

Number 1 Pump and Number 2 Pump and Combination Forest Fire Truck at Doherty's Garage, South Lincoln, and Number 3 Combination Truck at T. J. Dee's North Lincoln.

Fires

Fifty-four alarms have been answered. Number 1 Pump and Number 2 Pump and Combination Forest Fire Truck responded to seven chimney fires, 38 grass and wood, 2 auto, seven buildings.

Loss \$2,200.00.

TREE WARDEN'S REPORT

I herewith submit my report for the year 1934. This department has followed its usual routine this year of cleaning the roadsides and removing dead limbs from the trees. We were able this year to obtain Relief Administration Projects on trimming trees and cleaning brush, which enabled us to do this work on about five miles of roads, this department furnishing the tools to work with, and the Federal Government paying for the labor. It is our hope that further work along this line can be done this year. A new disease of the Elm Tree, which is called the Dutch Elm Disease, has appeared in the eastern states. An alarming outbreak, involving hundreds of trees has been discovered in New Jersey. This disease is not yet known to occur in Massachusetts. It is very difficult to identify and can only be done by taking cultures such as is common practice with contagious diseases. It has been found that this disease is spread by an elm bark beetle that lives under dead or drying bark of elm trees. The spores of this fungus attach themselves to the beetle and as he moves from tree to tree the disease is carried. There is no known method to eliminate it, but we can protect ourselves somewhat by removing all dead or dying limbs and trees.

A large number of elm trees were sprayed for the elm leaf beetle this year with very good results.

During the early part of 1934 Gypsy Moth control work was carried on in the usual manner. This work consisting of creosoting the nests on trees along the roadsides and in the woodland where they were found. This year we found about thirty acres of woodland between the Cambridge Turnpike and the State Road that was badly infested. This woodland was carefully gone over and every nest creosoted. We may have to follow up this work by spraying along the roadsides near this

woodland. I find that the Gypsy Moth infestation has increased from that of last year.

The total expenditure of this department for 1934 was \$859.88. I recommend that \$800.00 be appropriated for Tree Work and \$500.00 for Moth Work this year.

Respectfully submitted,

JOHN J. KELLIHER,

REPORT OF LINCOLN NURSING COMMITTEE

During the year January 1st-December 31st, 1934, the Public Health nurse has made 1,249 calls. Sub-divided these are as follows: Medical 642, Surgical 77, Maternity 50, Social Welfare 75, Board of Health 50, Child Welfare 253, Town Welfare 18, Doctor's office or hospital 62, School census 22. These figures do not include any of her school work; this appears in her report as school nurse.

The nurse has collected for her visits \$334.85 which amount has been turned over to the town treasurer.

Respectfully submitted,

GLADYS DE YONGH HERMAN,
ROBERT L. DENORMANDIE,
R. D. DONALDSON.

REPORT OF INSPECTOR OF ANIMALS FOR 1934

To the Board of Selectmen:

The State applied the Tuberculin test to the Lincoln cattle again this year. Nine reacted and were destroyed. One case of mange was found. This is considered a dangerous disease and the barn was quarantined until the case was cleaned up. There have been no more cases of that disease, and no other contagious disease has been reported.

The Government made arrangements with swine raisers to reduce their stock one third. This, I understand from the owners, has been done.

Dogs have caused more trouble this year than ever before. Six people were bitten. These dogs were quarantined until all danger was passed. Fortunately no serious results happened from any of these cases. In November, a stray dog came into Lincoln from Lexington way and after biting three dogs was shot by Lexington police. An examination of the head showed that the dog had rabies. As a result, the Selectmen made an arrangement with Dr. Russell, of Concord, to meet the dog owners at the Town Hall and vaccinate all dogs that the owners so desired and ordered all other dogs restrained. As a result, 108 dogs were vaccinated. I have heard of no more trouble in that line.

I find cattle 398, swine 2,525, sheep 64.

Respectfully submitted,

JOHN F. FARRAR,
Inspector of Animals.

REPORT OF THE WORK OF THE MIDDLESEX COUNTY EXTENSION SERVICE IN LINCOLN DURING 1934

The following is a report of the work done in this town by the Middlesex County Extension Service during the year 1934.

Lincoln dairy farmers have asked the Extension office for help in Milk market problems. Those towns immediately adjacent to the Federal Area or the Greater Boston market are a fertile field for exploitation of producers by so-called non-complying dealers or dealers who are not complying with the terms of the license. This latter group buys under the market. He many times buys at a flat price with no deductions. The farmer feels that his net return will be more in dealing with him than with a dealer who purchases under the terms of the license. Questions of price, slow payment, and of being dropped by the dealer without any or very short notice are being brought to the Extension office by milk producers who ask for help through us to contact the proper authorities to straighten out the situation. The farmers of Lincoln are in common with others of Concord and Sudbury in this matter.

Assistance has been given on location of dairy replacements, feeding and herd management. Help and advice has been given in growing better roughage to cut the cost of production.

Poultrymen have asked help in diagnosing poultry diseases and methods of control. Feeding and range management problems have been advised on at the Extension office.

Twelve farm visits were made on fruit and market garden subjects.

A pruning demonstration especially considering the secondary fruits, such as cherries, plums and grapes was held.

A CWA project on cutting neglected fruit trees was aided. The Extension Service has been emphasizing the danger of neglected trees in breeding pests such as the apple maggot.

Moving pictures of apple picking and packing, cost figures and details of production were presented at a winter meeting.

Lincoln continues to keep up its live interest in Extension work with groups organized in the center and Baker Bridge sections. The North Lincoln group carried the spring program.

These groups have learned clothing renovation, nutrition, and gardening. The spring program includes a course on making house dresses as well as a community group on Art in the Home, which will be open to any Lincoln Homemaker who is interested. This is a series of four meetings and further information can be secured from members of the units in Lincoln.

The Extension office has co-operated with the fair committee by providing judges for the annual fair.

At the suggestion of the Lincoln town 4-H committee, a garden and a canning club and a young women's clothing group were the projects carried on. The poultry club members who lived some distance apart, did not organize their group but went to the local leader for advice when they wished it.

For the second year, Lincoln 4-H club members had the winning exhibit at the town fair, thereby gaining possession of the silver cup offered to the town winning it two years out of three.

A two-day trip to the State College was awarded to George Browning, Jr., on his poultry project work.

County or sectional events at which Lincoln 4-H club members were represented included 4-H Camp Middlesex, Amherst; clothing and canning leaders' meetings; poultry-judging school; Service and Alumni club meetings.

The young women's group was somewhat of a pioneer. Members were all young ladies out of school and employed either part time or not at all. They held all-day meetings during several months in early spring for the purpose of making their summer clothes.

The leaders are: Mrs. Guilbert Winchell; Mrs. Matthew Doherty, Mrs. D. L. Hamilton, Miss Elizabeth Farrar, Mrs. H. S. Cousins, Mrs. Walter Copeland, Mrs. W. O. Causer.

It should be remembered that the work of the Middlesex County Extension Service is free to all citizens of the county who desire to participate in its work. It is organized primarily to serve farmers, homemakers and boys and girls residing in rural sections, but homemakers, backyard gardeners and boys and girls in villages may also avail themselves of this service.

THE MIDDLESEX COUNTY EXTENSION SERVICE.

REPORT OF THE TRUSTEES OF THE LINCOLN LIBRARY

Your trustees submit on the following pages the reports of the Treasurer and of the Librarian for the year ending December 31, 1934.

The past year has seen no material change in the operation of the Library. Repairs have been those of a minor nature and operating expense has not varied from normal. The cataloging of the books has been completed so that we now have a modern system capable of indefinite expansion.

The celebration of the 50th Anniversary of the dedication of the Library was held on December 20th. Through the courtesy of the Unitarian Parish exercises were held in that church followed by a social gathering and refreshments in the Library where photographs, books, and other memorabilia of old Lincoln were displayed. At the exercises George G. Tarbell, Jr., read the original address of presentation of the Library. He was introduced by Mr. John F. Farrar, who has served the Library as trustee for fifty years, being one of those originally appointed by the donor. Mrs. Irving S. Hill then read a most interesting historical sketch of the Library. To Mrs. Hill who must have spent a great amount of time in preparation of this history we extend our grateful appreciation. We plan to print a complete account of the exercises including the address of Mrs. Hill as a separate record for those interested and for the records of the Library. To the many who contributed of their time in making this anniversary a success the trustees wish to express their gratitude.

We anticipate no unusual expense during the ensuing year and ask for an appropriation of \$997.80.

Respectfully submitted,
JOHN F. FARRAR,
ROLAND C. MACKENZIE,
SUMNER SMITH,
GEORGE G. TARBELL,
C. LEE TODD.

Report of Treasurer of Lincoln Library for Year Ending December 31, 1934

<i>Receipts</i>		<i>Expenditures</i>

CALENDAR FOR THE YEAR 1935

Mid-Winter Term, begins January 7, 1935, ends February 15, 1935: six weeks.

Spring Term, begins February 25, 1935, ends April 12, 1935, seven weeks.

Summer Term, begins April 22, 1935, ends June 14, 1935, eight weeks.

Holiday — Memorial Day, May 30

Fall Term, begins September 9, 1935, ends December 20, 1935, fifteen weeks.

36 weeks: 174 days.

ANNUAL REPORT 1934

In the performance of its duties a school committee must recognize three masters: (1) the State by whose authority the Town is allowed to direct its schools, (2) the citizens of the Town, whose money in a large degree supports the schools, (3) the children for whose future citizenship the country is vitally concerned. It is a school committee's duty to correlate the interests of all three; and your Committee has courageously and loyally tried to do this.

Your Committee has made its reports to the State in proper and accepted form and it is to the citizens of the Town that this report is addressed with the hope that it will be sufficiently comprehensive to inform them of the Committee's activities in their behalf.

The essence of a successful school system is its teaching force. If it is made up of the proper persons, there need be no fear for the type of education given. Lincoln Schools have a capable superintendent and its teachers are sincere, capable, well prepared, and of excellent character. Their morale and co-operation are of the best. After over four years without a change in the personnel, the inevitable break has come. During the year two teachers have resigned because of marriage. We earnestly thank them for their faithful service and wish them much happiness in their new careers. Their successors were chosen and we hope will ably fit into their places.

During the year several important changes in methods and organization have been instituted under the direction of the Superintendent. The committee has given to him their co-operation wholeheartedly as it is convinced that these changes are in the line of progress. Further readjustments are in contemplation; but changes will be made gradually and in a way that will not disturb the continuity of the system. All are aimed at one object: that of making our Lincoln system of edu-

cation the best obtainable in a town of this size, at the same time taking into consideration Lincoln's particular needs. The Superintendent's report will inform you in detail of these changes.

A belief that schools in the future will be conducted on the same basis as in the past is erroneous. With a return to prosperity the old order of things will be entirely resumed. This evolution with its new economic and social trends will be reflected in the kind and quality of our schools. New conditions must be met by new approaches, new methods, and new solutions. Probably, in the education of youth the spiritual and cultural will receive more emphasis; perhaps there will be still more emphasis on the vocational phases than there has been in the past.

Teachers will have need for a broader cultural background and the emphasis on training in classroom mechanics will be relegated to a secondary place. The period to come will be a challenging one for any person intimately connected with school administration and our problem in Lincoln will vary only in degree from the problems of other communities.

That there might be a better understanding among parents, teachers, and committee members of the developments that are taking place in our own Lincoln Schools, the Committee has sponsored a series of round table conferences. Through five of these meetings the Committee has directly contacted parents of sixty of the children during the year. The Committee has found out some of the thoughts of parents, some of their ideals, also some of its own faults. It is hoped that a better understanding of the schools has been formed and that the stimulation to greater interest in schools has been mutual. This method of approach to parent-school problems is unique and is being watched with interest by outside school men. It seems to the Committee that the results so far obtained justify the continuance of these conferences.

The school system has certain physical needs which the Committee would be very remiss in its duties if it did not call to

your attention. Particularly is one that has been mentioned in many previous school committee reports: the need of a large space at the Center School where the whole school can be convened at once, where indoor games and physical exercises can be practiced under proper conditions, where the newly formed orchestra can practice and perform. Changing methods in teaching are not requiring expensive tools but an assembly hall is one of the primary necessities.

From funds saved from the 1934 appropriation the Committee is able to provide for the preliminary studies and plans for this project and hopes to present them for the Town's decision in the near future. Your committee hopes to be able to present to you a plan which will be within our means, which will be of permanent value in our school system, and which also will provide for the adults of the Town a place in which various health activities, social games, etc., may be carried on.

Finances

To the average person a list of the expenditures of a School-board is of little value unless some standard of comparison also is presented. For this year's comparison it seems logical to take the average expenditures for the five Depression years, 1930, 1931, 1932, 1933, and 1934 as a basis and then follow with the necessary explanations as to why 1934 expenditures have varied from this average:

	5-Year Average Yearly Expenditure	1934 Expenditure
Salaries	\$18,540.10	\$18,944.70
Superintendent and Committees'		
Expenses	136.89	151.53
Books and Supplies	944.99	830.41
Fuel	730.37	647.36
Health	612.93	610.56
Operating Expenses	503.85	492.88
Repairs	1,328.32	1,023.23
Local Transportation	6,690.57	5,875.93

High School Transportation	\$2,296.46	\$2,840.03
High School Tuition	4,873.60	6,747.93
New Equipment	463.31	487.10
Building Plans	51.00	255.00
	<hr/>	<hr/>
	\$37,172.39	\$38,906.66

Salaries

During 1933 and until September, 1934, 7½% was deducted from all salaries which fact correspondingly affects the 5-year average. The Committee saw fit to change the deduction to 2½% in September, finding they were able to do so under their budget allowance.

Superintendent and Committee Expenses

The slight excess over the average is due to expenses incidental to the investigation of teacher candidates.

Books and Supplies

Increasing prices limited the committee somewhat in their purchases but a carefully kept inventory has aided in intelligent purchasing.

Fuel

It requires approximately 75 tons of soft coal to heat the Center School and 20 tons of anthracite for the South School. Contracts were awarded after competitive bidding and the prices paid were \$6.95 per ton for bituminous and \$10.80 per ton for anthracite.

Operating Expenses

This includes the various costs of maintenance such as light, water, telephone, etc. There was a slightly higher expense for electricity, because of the excess of cloudy days during some months of school operation.

Repairs

While the sum spent was under the 5-year average, it was somewhat larger than ordinarily can be expected as there is included items of \$223.06 for pipe used in 1933 by the CWA workers in the playground and of \$81.00 for labor in rough grading after the pipe was laid. Other major items coming under this heading and their costs are: repairing cupola and replacing columns, Center School, \$89.50; painting flag pole, renewing halyards and ball, South School, \$15.00; repairing rain gutters and replacing slate Center School, \$160.00; painting Room 9 and outside of gutters, \$45.00. Contracts for all of these major repairs were awarded after competitive bidding and in each instance to the lowest bidder.

Under the FERA several much needed renovations and repairs have been done and for material used in these projects the Committee appropriated \$40.82. The variety of things done under this arrangement is interesting and the aggregate accomplished is considerable: radiators were painted, table tops refinished, a door made to coal bunkers, cement floors repainted, boiler-room in Center School cleaned and repainted, lawns at both schools regraded, etc. The proper spirit of co-operation on the part of the administrator, his assistants, and the workmen while doing these things has been to the mutual advantage of everyone concerned, including the taxpayers of the Town.

The Committee feels that by utilizing the largest possible amount of the funds available for repairs they have contributed materially to unemployment relief.

Transportation

For the convenience of budgeting and bookkeeping this item of School expenditure must be divided into two sub-headings:

- 1. High School Transportation** having to do with carrying to and from school those pupils who attend High Schools in Concord, Waltham, and Weston.

2. Local Transportation having to do with the carrying of pupils of Grades 1 to 9 and from the Center and South Schools. This service is in part required under Chapter 71, Section 68, of the Laws and is enlarged upon by the School Committee when in their opinion, "the physical condition of the child, the distance from home to the school, or the condition of the roads make such transportation necessary or advisable."

A review of the expenditure for several years past under these two items impressed upon your Committee that, inasmuch as the total represented approximately one-quarter of the costs of operating the schools, it should be scrutinized closely. It must be determined whether the service was necessary and if so whether the cost seemed excessive and if savings could be made.

The Committee has studied the problem in detail and in spirit of fairness to everyone concerned. Because of your manifest interest in the subject the Committee attempts herewith to give its conclusions:

The cost for transporting High School pupils is reimbursed to the Town by the State providing that cost does not exceed forty cents per day for each day of pupil's attendance. In 1934 the Town paid a little less than thirty cents per day for each pupil and so we can rightly expect reimbursement for the total amount expended for High School transportation. To be sure in 1920 we find the expenditure was only \$545.85 but there were then only 25 pupils while in 1934 there were 51. In 1920 the railroad was used and pupils had to find their way to the station unassisted, while now the majority are picked up near their homes and left at the school door.

The costs of local transportation for the same period are shown in the following table. In this table the divisor used to determine the per pupil cost of transportation for the year is the total enrollment of Grades 1 to 9 and not the number actually transported. This latter number is not on record for other than the last three years but as the relative proportion of transported children to the total enrollment is

substantially constant throughout the period, the value of the table for comparative purposes is unchanged:

Year	Cost	Pupils	Year Cost Per Pupil
1920	\$4,260.38	188	\$22.66
1921	4,415.15	210	21.04
1922	3,080.05	223	13.81
1923	6,179.00	225	27.46
1924	4,880.40	227	21.50
1925	5,122.50	221	23.18
1926	5,725.00	220	26.02
1927	5,657.00	234	24.17
1928	5,527.00	226	24.45
1929	5,162.00	228	22.64
1930	5,867.08	233	25.18
1931	7,410.84	240	30.89
1932	7,412.00	245	30.26
1933	6,887.50	232	29.66
1934	5,875.93	234	25.11

It may thus be seen that your Committee has succeeded in substantially reducing the cost of local transportation in 1934 and hopes to reduce it in 1935 so that the per pupil yearly cost will approximate that existing 10 years ago.

Local pupil transportation had been furnished by four auto busses, one of them a bus also used for high school pupils. These busses covered four routes respectively 16, 18, 26, and 18 miles per day. Under contracts expiring in June, 1934, the owners of these busses received \$38.00, \$43.75, \$55.00, and \$43.75 respectively for each week of the school year.

The expiring contracts appeared to the Committee to have no uniform basis; and as the quality of the transportation seemed to be satisfactory, it was considered proper to give the present bus owners the opportunity of making new contracts on a uniform basis that would be fair to all. Accordingly the Committee voted:

1. That a careful check be made of the costs of operating school busses in Lincoln; that certain fixed charges be agreed upon, including depreciation, taxes, garage rent, insurance, labor charges, and actual operating costs per mile.

2. To the costs thus determined there was to be added 10% for profit.

3. Allowance was to be made on an "operation cost per mile plus labor" basis for extra work.

4. If, after such tabulation of costs, all parties could accept it as a working basis, contracts would be awarded to the present bus owners.

5. If such agreement was not reached, the transportation of pupils was to be thrown open to bids.

Eventually agreement was possible and the Committee contracted with the present bus owners on such a basis.

For the information of the citizens a skeleton copy of the contracts is presented herewith:

"Dear Sirs:

The School Committee is willing to contract with you for pupil transportation for the year beginning September 1, 1934, and ending July 1, 1935, according to the attached schedules on a cost plus 10% basis.

It is agreed that you are to furnish the busses as at present used, or their equivalent, to comply with the requirements of the State laws, and the present regulations of the School Committee.

The School Committee reserves the right to determine who shall drive the busses, also to increase or decrease the length of the routes, in which case the recompense for "operating costs" shall be increased or decreased accordingly.

The School Committee further agrees to pay for use and operation of the busses for extra work at the "operating cost per mile" rate plus a labor charge of \$1.00 per hour for time spent by each bus on such extra work.

It is agreed that your signature and those of a majority of the School Committee to this proposal and the attached schedule causes this to become a binding contract."

Attached schedule:

Total cost per mile

Days X miles per day X cost per mile. — Total operating cost.

G. Total (D)

Total (E)

Total (F)

10% D, E, F + D, E, F =

The Committee considers these contracts eminently fair in that they insure the bus owner will receive the compensation that is his due for properly furnishing the service. Moreover, the taxpayers can see exactly for what they are paying.

High School Tuition

The total of \$6,734.78 includes a payment of \$937.34 to the Town of Concord which was a lay over from 1933.

Lincoln is now paying tuition for 51 pupils.

The increased expenditures under this one item which is entirely beyond the Committee's control accounts for the whole excess of this year's school costs over the average costs for the past five years.

New Equipment

It has been possible to purchase new desks and seats for Grade 2 supplanting the unhygienic ones in use there for many

years. New electric clocks have also been purchased and installed in the South School. Seven teachers' dilapidated desk chairs have been replaced by new ones.

Vocational Education

This item must be appropriated and accounted for separately from the ordinary school expenses. One-half of charges for tuition and all spent for transportation is repaid to the Town. Tuition for 8 pupils amounted to \$1,007.03 and \$50.90 was spent for transportation.

Receipts

Receipts on Account of Schools from all sources were \$6,729.21 thus making the net cost of all schools \$33,235.38.

1935 Budget

The Committee estimates that the following amounts will be needed to carry on the school system in 1935:

1. Salaries.....	\$19,875.00
2. Superintendent and Committee	133.00
3. Fuel	776.75
4. Books and Supplies	827.00
5. Health	702.00
6. Operating Expenses	417.62
7. Repairs.....	731.40
8. Local Transportation.....	5,083.56
9. High School Transportation	2,757.10
10. High School Tuition	6,405.92
11. Playground	219.00
12. Reserve	71.65
Appropriation asked	\$38,000.00

Vocational Education

Tuition	\$1,309.80	
Transportation	286.80	\$1,596.60

 1934 Expenditures..... 1,057.93

Unexpended balance \$ 142.07

SUPERINTENDENT'S REPORT

To the School Committee of Lincoln:

My sixth annual report as Superintendent of Schools is submitted herewith.

Plans for the school year 1934-1935 have been centered in three major objectives:

I. The introduction of longer periods in the junior high school.

The junior high school inherited from the senior high school the forty-five minute period and has clung to it tenaciously though there exists no justification for such an arbitrary time limit and there are good arguments for its discontinuance. A short period makes proper supervision of study practically impossible. It entails unnecessary home study and gives the teacher scant time to help the individual pupil.

In an attempt to correct these tendencies the longer period was introduced into our junior high school in September, 1934, and its reception has been gratifying. Teachers and pupils report favorably on it but it is too early to judge the results definitely.

II. The introduction of the Co-operative Group Plan in grades four, five, and six.

About five years ago there was set forth under the title "Co-operative Group Plan" a body of principles which hopefully would assist in bringing about a better elementary school. Except in isolated instances the elementary school has clung to archaic methods and stood pat in the face of criticism and suggestions for reform. The Co-operative Group Plan is an attempt to bring into the public elementary school some of the newer practices in education.

When the elementary school curriculum contained only the barest rudiments of education it was quite possible for a teacher

to be adept in all the subjects taught. With the rapid expansion of the curriculum it becomes manifestly absurd to expect one person to be able to do justice to all subjects. The average layman would stand aghast at the materials which the teacher of any one grade in the elementary school is expected to master.

Under the Co-operative Group Plan the teacher prepares two or three subjects in two or three grades. Ideally she will be teaching those subjects she most enjoys or in which she is most proficient. This gives her an opportunity to develop scholarship in special fields, become more expert in them, and thus increase her value to the pupils she is teaching.

Under this plan a group of teachers is responsible for the educational guidance of a group of pupils. These teachers plan the work of the pupils co-operatively, making provision for correlation of materials and subject matter. They meet in conference to consider problems relating to the group of pupils. This is the heart of the plan. To these conferences each teacher brings her knowledge of the strengths, weaknesses, abilities, and skills of the various pupils and thus each teacher gains in her understanding of each pupil.

Obviously the pupil should receive more sympathetic treatment under such a regime than he would if only one teacher was considering his achievements.

Before introducing the plan we studied the writings of its sponsor and had conferences on them. Since early last spring we have considered the plan in detail. Outlines of materials to be studied were prepared and a new time schedule adopted which was better suited to the needs of the new arrangement.

During the fall three teachers and the Superintendent attended a course on the Co-operative Group Plan given at Boston University by James F. Hosis of Teachers College, Columbia University, sponsor of the Plan.

III. *The introduction of instrumental music.*

It has long been a source of disappointment to us that more children in the community have not learned to play some musical instrument. We have felt that an opportunity to receive instruction in the school during regular school hours would receive support and such a plan was inaugurated in September. Sixteen pupils are now taking lessons on various instruments, including the clarinet, saxophone, drums, guitar, and violin. This instruction is provided for the nominal charge of twenty-five cents per lesson.

Piano instruction has not yet been started but we hope to have that soon.

The success of this experiment seems assured and we hope that more pupils will avail themselves of this opportunity.

One of the outstanding events of the past school year was the presentation of the operetta "Princess Chrysanthemum" in the Town Hall, February twelfth.

One hundred and twelve pupils took part in this performance. Of this number fifty-two were from grades four and five. It was an outstanding piece of work and was a credit to the pupils who participated and to the teachers who coached it.

During the spring of 1934 CWA labor was used in laying new drains under the surface of the Center School playground. After seeding and rolling this area should be safer and of greater utility for play purposes.

Minor repairs on both schools were made possible through the use of ERA labor.

New furniture will be installed in grade two in the South School during the coming Christmas vacation. All classrooms in the Lincoln schools will then have modern furniture.

The first change in personnel in four years occurred in September when Miss Bettina King was elected to fill the vacancy caused by the resignation of Miss Barbara Price. In December Miss Mary C. O'Connell was elected to fill the vacancy caused by Miss Boyce's resignation.

Such recommendations as I have made you have received from time to time and there is no necessity to include them in this report. Your favorable action on them has been a source of gratification to me.

The advice, encouragement, and support of your Committee is gratefully acknowledged.

Respectfully submitted,

CARL F. HOLLORAN,
Superintendent of Schools.

REPORT OF SCHOOL NURSE

To the School Committee of Lincoln:

A report of School Nursing for the year ended December 31, 1934, is hereby submitted.

Schools have been visited daily. Four hundred ninety-eight office calls of pupils treated or advised, eighty-eight pupils taken home from school. One hundred ten home visits have been made to check on absent pupils and forty-two visits with pupils to a doctor's office or hospital clinic.

In March the toxin-anti-toxin was given by Dr. Wood, to 6 teachers, 18 pupils, 9 pre-school children, and the Schick test to 32 pupils.

During March close check-up was made daily on condition of throats, and cultures were taken in a few cases upon recommendation of the Board of Health to prevent the spread of scarlet fever.

On May 16 was held the Summer Round Up attended by twenty-eight pre-school children who were weighed and measured then given a physical examination by Dr. Wood.

In September I assisted Dr. Wood with the yearly physical examination of all pupils. During the school year all pupils were weighed and measured four times and received frequent examinations of the skin and scalp.

The Lincoln Dental Committee, of which Mrs. Robert Loring is chairman, conducted a very successful dental clinic. I assisted Dr. William Cosgrove of Lexington two mornings each week from 9 to 12.

Two hundred fourteen children received dental certificates.

The Lincoln Tuberculosis Committee purchased from funds received from sale of Christmas seals, eye glasses for one child and paid for dental work for nine children.

The pupils have been fortunate in escaping communicable diseases. There was one case of measles, one of lobar pneumonia and two of scarlet fever.

Respectfully submitted,

MARION N. OBER, R. N.,
School Nurse.

NOTICE:

Business Meeting, Monday, March 4, at 7.30 P.M.

WARRANT

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, ss.

To either of the Constables of the Town of Lincoln in said County:

GREETINGS:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify the legal voters of said Town of Lincoln, qualified to vote in Town Meeting for the transaction of Town affairs, to meet in the Town Hall in said Lincoln on Monday, the fourth day of March next at 7.30 o'clock P.M., then and there to act on all of the following Articles, except Article 2, and also to meet in said Town Hall on Saturday, the ninth day of March next, at 12 o'clock Noon, then and there to act on the following Article 2, by posting a copy of this Warrant, by you attested, in each of the Post Offices and in some other public place in said Town seven days at least before the fourth day of March next:

The polls for voting the Australian ballot on Saturday, March 9th, will be open at 12.00 o'clock Noon, and may be closed at 7.00 o'clock P.M.

Article 1. To choose a Moderator.

Article 2. To bring in their votes for the following Town Officers and any other Officers required by law, to be elected by Australian Ballot, viz.:

One Moderator for one year.

One Town Clerk for one year.

One member of the Board of Selectmen for three years.

One member of the Board of Assessors for three years.

One member of the Board of Health for three years.

One Treasurer for one year.

One Collector for one year.

One Auditor for one year.

Two Constables for one year.

One Tree Warden for one year.

One member of the Trust Fund Commissioners for three years.

One member of the Trustees for Free Public Lectures for three years.

One member of the School Committee for three years.

One member of the Board of Water Commissioners for three years.

One member of the Board of Cemetery Commissioners for three years.

Also to vote "Yes" or "No" on the following questions:

Shall the operation of Section 105B of Chapter 131 of the General Laws, requiring for the taking of fur-bearing animals the use of traps that kill at once or take such animals alive unharmed, be suspended within this Town?

YES	
NO	

Article 3. To bring in their votes for any committees, commissioners, trustees and other officers, required by law to be elected by ballot or otherwise.

Selectmen

Article 4. To hear and act upon the reports of Town Officers, Committees, Commissioners and Trustees.

Selectmen

Article 5. To appropriate money for the necessary and expedient purposes of the Town and enact anything in relation to the same.

Selectmen

Article 6. To determine the manner of collecting taxes for the ensuing year.

Selectmen

Article 7. To determine the compensation of the Collector of Taxes for the ensuing year.

Selectmen

Article 8. To see if the Town will vote to authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1935, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws.

Selectmen

Article 9. To see if the Town will vote to appropriate a sum sufficient to pay the County of Middlesex, as required by law, the Town's share of the net cost of the care, maintenance, and repair of the Middlesex County Tuberculosis Hospital, as assessed in accordance with the provisions of Chapter III of the General Laws and Acts in amendment thereof and in addition thereto or take any action in relation thereto.

Selectmen

Article 10. To determine the wishes and attitude of the Town of Lincoln with respect to certain tax adjustments and abatements demanded of the Town by Julian De Cordova, Esq. in connection with the Trust Agreement created by said De Cordova on November 29, 1930, for the benefit of said Town, and to pass any vote or votes necessary and proper in the premises.

Selectmen

Article 11. To see if the Town will appropriate the sum of One hundred and seventy-five Dollars (\$175.00) to extend the street lights on Tower Road from the South Great Road to the Weston town line.

By Request

Article 12. To see if the Town will extend the street lights along the Old County Road, so-called, from the junction of that road with Winter Street to a point where it intercepts Trapelo Road, a distance of approximately three-fourths of a mile, and appropriate money for the same.

By Request

HEREOF FAIL NOT

And make due return of this WARRANT with your doings thereon to the Town Clerk at or before the time for the meeting aforesaid.

Given under our hands this 14th day of February in the year of our Lord one thousand nine hundred and thirty-four.

SUMNER SMITH,
ROBERT D. DONALDSON,
HERBERT G. FARRAR,
Selectmen of Lincoln.
